LETTER OF TRANSMITTAL

TREASURY DEPARTMENT,
OFFICE OF COMMISSIONER OF INTERNAL REVENUE,
Washington, D. C., November 28, 1956.

SIR: In accordance with the provisions of section 6108 of the Internal Revenue Code of 1954 requiring the publication annually of statistics with respect to the operation of the Federal income and profits tax laws, I have the honor to transmit herewith a report entitled *Statistics of Income for 1953, Part 2*, presenting data relative to income, deductions, assets, liabilities, credits, tax liability, and dividends paid as reported on corporation income tax returns for 1953 filed during 1954. There are also included a historical presentation of the income and of the tax liability reported by corporations for the years 1944 through 1953 and a synopsis of corporation income and profits tax rates and other provisions of the Federal tax laws affecting comparability of the historical data.

Respectfully,

RUSSELL C. HARRINGTON,
Commissioner of Internal Revenue.

HON. G. M. HUMPHREY,
Secretary of the Treasury.

INTRODUCTION

Annual returns filed in compliance with Federal income tax laws offer a unique source of financial information. The *Statistics of Income, Part 2*, contains tabulations prepared from returns of corporations. All domestic and resident foreign corporations, except certain nonprofit organizations, are required to file income tax returns which show income by source, deductions, credits, and Federal income and profits taxes. Other items of importance, particularly assets and liabilities, and dividends paid, are also reported.

The first section of this report presents current year data on income, deductions, assets, liabilities, tax, and dividends paid classified by type of industry, size of total assets, and other pertinent classifications. The balance sheet data are shown in separate tables with related items of income, deductions, and tax. An explanation of terms is provided to show specific meaning or methods of tabulating certain items. These corporate data are reported on Forms 1120, 1120L (filed by life insurance companies), and 1120M (filed by mutual insurance companies). Although computation of insurance company tax requires special forms, items of income and deductions reported are comparable to similar items for other corporations and data from the three forms are combined in preparing the tabulations. Amounts of special adjustments to life insurance company net income are stated in the text.

The second section contains historical data selected from the tabulations compiled for the years 1944-53. Comparability of historical data is discussed in the accompanying text.

The third section of the report contains a synopsis of Federal tax laws affecting corporations. The synopsis tables show tax bases, rates, and other provisions useful in studying the statistics.

Facsimiles of the 1953 return forms on which corporate data are reported are inserted at the end of the report.

Selected 1953 corporation data, classified by 65 major industry groups, were published in a *Preliminary Report, Statistics of Income, Part 2*, in June 1956. In preparing this more detailed complete report for 1953, revisions in the preliminary data have been found necessary for the major groups "Metal mining" and "Holding and other investment companies." These changes also affect industrial division and "All industrial groups" totals. The revised figures are contained in tables 2 and 3 of this report.

*Corporation
Income Tax
Returns*

CORPORATION INCOME TAX RETURNS FOR 1953

MAJOR CHARACTERISTICS OF 1953

The 731,000 corporation income tax returns filed for the tax year 1953 exceed the record set in 1952. Net income less deficit reported by these corporations is \$39 billion or \$1 billion greater than the 1952 figure. Both receipts and deductible expenditures are up 5 percent over 1952, but the larger dollar increase in receipts over deductions accounts for the rise in net income. Total tax liability of corporations is \$20 billion, up 4 percent from 1952.

Although the volume of business activity, as measured by compiled receipts, is higher in 1953 than it was in 1952 for all industrial divisions except agriculture, and mining and quarrying, the overall rise in net income less deficit is brought about by the increased profits of manufacturing, public utility, and financial corporations, which together account for over three-fourths of the total income tax base for 1953. Other segments of the corporate economy, namely construction, trade, and services, suffer declines in net income despite increases in total compiled receipts. In the case of the construction industry, net income is 14 percent below the 1952 level even though total receipts of this industry are reported to be 6 percent above the preceding year.

The 442,000 corporations with net income report a total amount of \$41.8 billion, an increase of \$1.4 billion over 1952. Nevertheless, greater and more frequent deficits are reported in all corporate sectors for 1953. Net deficits reported by 256,000 corporations amount to \$2.3 billion, or \$359 million more than the losses reported in 1952.

¹Less than -0.5 percent.

²Excess profits tax does not apply to income earned after Dec. 31, 1953, as this tax law terminates on that date. See "Changes in Law Affecting 1953 Data," p. 6.

NOTE: See p. 19 for "Explanation of Terms" and p. 22 for "Description of the Sample and Limitations of Data."

Chart 1.—CHANGE IN NET INCOMES AND NET DEFICITS, BY INDUSTRIAL DIVISIONS: 1953 FROM 1952

Approximately 10 percent of the returns with net income are nontaxable. These net incomes are completely offset by net operating loss deductions and by special credits.

About one-half of all operating corporations report net incomes of less than \$5,000 in 1953. Corporations

with net incomes of \$1,000,000 or more number 3,965; these include 512 with net income over \$10,000,000.

Corporation returns filed for 1953 include 33,000 returns of inactive (nonoperating) corporations which are in existence in 1953 and which are required to file. Approximately 33 to 37 thousand inactive corporations have filed annually during the past decade.

Of the \$19.9 billion corporate tax liability reported in 1953, income taxes account for \$18.3 billion as compared with \$17.6 billion in 1952. The remainder is excess profits tax which expires December 31, 1953.

Compiled receipts of all corporations in 1953 total \$558 billion of which a small portion, \$317 million, is tax-exempt interest income on corporate holdings of State and local government bonds. Also, included are both net short-term and long-term capital gains reduced respectively by net long-term and short-term capital losses, and corporate net gains from sale of property other than capital assets.

Compiled deductions totaling \$518 billion is a measure of deductible corporate expenditures during 1953. Corporations paid \$12 billion in taxes other than Federal income and profits taxes. Interest paid on corporate debt outstanding is \$5.7 billion. Depreciation and depletion charges total \$10.5 billion and \$2.3 billion, respectively. Advertising expenditures total \$5.5 billion during 1953.

Consolidated returns are filed by 2,408 parent corporations who combine net incomes with their 9,670 affiliates. Such returns, based on the principle of levying a tax on combined net incomes, are filed optionally, but an additional levy of 2 percent of surtax net income is imposed for the filing privilege.

Although affiliated corporations filing on a consolidated basis represent a small fraction of the corporate population—about 1.4 percent of all active corporations—parent and affiliates account for almost 10 percent of the total corporate taxes paid, and hold about 10 percent of the assets owned by all corporations.

CHANGES IN LAW AFFECTING 1953 DATA

Few changes occur in the tax law affecting 1953 statistics. The principal change is the termination of the excess profits tax on December 31, 1953. The tax rate on adjusted excess profits net income is 30 percent. This tax is fully effective for 1953 calendar year returns and for returns with fiscal years ending in the period July 1953 through November 1953; for fiscal years ending in the period January through June 1954, the excess profits tax is a prorated amount determined according to the number of days in the fiscal year before January 1, 1954. The amount of excess profits tax liability classified by month in which fiscal years end is presented on p. 12.

A special amortization deduction is provided by the Technical Changes Act of 1953 to alleviate a critical shortage of facilities for storing grain. The deduction

applies to costs incurred after December 31, 1952, for erection or reconstruction of either public- or producer-use grain storage facilities completed after that date. The deduction is similar to that provided for war-emergency facilities and permits complete amortization over a period of 60 months in lieu of depreciation over the life of the facility. Grain storage facility amortization claimed in 1953 will not represent a full 12-month deduction for most taxpayers since construction must be performed after December 31, 1952, and amortization may start either with the month following completion of the facility or with the following tax year, at the election of the taxpayer. In tabulating data for these statistics, amortization of grain storage facilities is combined with amortization of war-emergency facilities.

PRESENTATION OF DATA TABULATED

Sources of Data

Data shown in this report as relating to the year 1953 are taken from corporation income tax returns filed for the calendar year ending December 31, 1953, fiscal years ending within the period July 1953 through June 1954, and part years with the greater portion of the accounting period in 1953.

The data are from corporation income tax returns, Form 1120; life insurance company income tax returns, Form 1120L; and mutual insurance company income tax returns, Form 1120M. Returns filed by foreign corporations engaged in trade or business within the United States are included among the source documents. Facsimiles of the return forms may be found on pages 155-212.

The statistics are compiled from income tax returns as filed, prior to revisions that may be made as a result of audit by the Internal Revenue Service and prior to changes which may result from carrybacks after the returns are filed.

Tentative returns are excluded in preparing the tabulations and amended returns are used only if the original returns are excluded. Returns of inactive corporations are excluded in preparing data for all tables, except the first text table, page 5, and table H for fiscal year returns on page 12.

Returns of income taxable under section 101 (12) (B) and Supplement U, filed on Forms 990-C and 990-T, by organizations exempt from corporate taxation under section 101 of the 1939 Code, are not used in compiling data for this report.

Description of Tables

The general-purpose tables presented in *Statistics of Income, Part 2*, cover financial data reported annually on corporation income tax returns. The detailed tabulations of items and classifications are presented in 13 basic tables. Also, summary tables and graphs are pre-

sented throughout the text. Major trends, for the years 1944-53, can be obtained from the historical tables on pages 109 to 132.

Special-subject tables, based on selected returns, together with descriptive text, begin on page 12. For 1953, 8 tables present data for fiscal year returns, corporations claiming credit for taxes paid to a foreign country or United States possession, and Western Hemisphere trade corporations. Summary data for part-year returns are also given.

Data from these returns are included in the basic tables.

Basic tables 1-9 include many items of assets, liabilities, income and deductions, as well as profits, statutory net income, tax liability, and dividends paid. The data are classified by 9 industrial divisions, 65 major industry groups, 205 minor industry groups, 10 size classes of total assets, 13 size classes of net income or deficit, and type of tax liability. Selected data classified by States and Territories are shown in table 10 and described on page 11.

Additional data from returns with excess profits net income in excess of \$25,000 are tabulated in basic table 1a. Number of returns, net income, selected excess profits data, and tax are shown by major and minor industrial groups.

Data from consolidated returns, filed for affiliated groups of corporations, are tabulated separately in table 3a, by industrial divisions, and in table 4a, by size of total assets.

In all tables, values in thousand dollars are rounded and, therefore, may not add to the totals.

The amounts tabulated for income tax and excess profits tax are before any deduction for credit claimed for income and profits taxes paid to foreign countries or United States possessions.

SUMMARY DATA FOR EACH CLASSIFICATION

Returns With Net Income and With No Net Income

An important classification of the data in this volume is the distinction between those from returns with net income and those from returns with no net income. The basis for this classification is the current year net income or deficit, i. e., the difference between the total income and total deductions as reported on the return, exclusive of the net operating loss deduction. Returns with total deductions (exclusive of the net operating loss deduction) equal to or exceeding total income are classified as returns with no net income.

Table B.—NUMBER OF RETURNS, TOTAL COMPILED RECEIPTS, NET INCOME OR DEFICIT, AND TAXES, BY INDUSTRIAL DIVISIONS, 1953

¹Excess profits tax does not apply to income earned after Dec. 31, 1953, as this tax law terminates on that date. See "Changes in Law Affecting 1953 Data," p. 6.

NOTE: See p. 19 for "Explanation of Terms" and p. 22 for "Description of the Sample and Limitations of Data."

The number and percent of returns with net income and with no net income in each of the nine industrial divisions are given in table B. For 1953, about 63 percent of all returns report net income. The finance division has the largest percentage of returns with net income, and the mining and quarrying division the lowest. The "Nature of business not allocable" group, which contains corporations which cannot be classified in any of the other eight specified groups, does not contain a representative distribution of the returns.

Returns With Balance Sheets

Returns with apparently complete balance sheet data number 640,073, or 92 percent of all returns filed by active corporations. Even though the number of returns filed in 1953 is 4 percent above 1952, the ratio of returns with balance sheets to total returns filed remains

stable. The high ratio of the number of returns with balance sheets, for each industrial division, is portrayed in chart 2. Manufacturing corporations lead with 95 percent of manufacturing returns showing balance sheets. In three other industrial divisions, construction, trade, and finance, 90 percent or more of the returns have balance sheets.

A high portion of compiled receipts also occurs on returns with balance sheets. As chart 2 shows, over 97.5 percent of compiled receipts for each of the industrial divisions is reported on returns with balance sheets. In aggregate, returns with balance sheets account for 98.9 percent of all compiled receipts.

Summaries of data from returns with balance sheets appear in tables C and D. Table C shows selected items distributed by size of total assets. Table D gives amounts for each item of receipts and deductions, as well as tax

liability and dividends paid. As indicated in table D, over 99 percent of net income, total tax liability, and dividends paid are reported on balance sheet returns.

Total assets, reported as of December 31, 1953, or close of fiscal year nearest thereto, amount to almost \$762 billion. Assets of less than \$50,000 are reported by each of 261,920 corporations, while assets of \$100 million or more are reported by each of 915 corporations, 61 more than in 1952 for this assets class. These 915 large corporations account for over half of both total assets and of net income less deficit and for one-third of all 1953 corporate receipts.

The 57,902 returns for which the balance sheet data are entirely lacking or are fragmentary are classified as returns with no balance sheets.

Table C.—RETURNS WITH BALANCE SHEETS: NUMBER, TOTAL ASSETS, TOTAL COMPILED RECEIPTS, AND NET INCOME OR DEFICIT, BY TOTAL ASSETS CLASSES, 1953

Total assets classes	Number of returns	Total assets (Thousand dollars)	Total compiled receipts (Thousand dollars)	Net income or deficit (Thousand dollars)

NOTE: See p. 19 for "Explanation of Terms" and p. 22 for "Description of the Sample and Limitations of Data."

Industrial Classification

The industrial classification used in this volume consists of 9 divisions, 65 major groups, and 205 minor groups, based, in general, on the Standard Industrial Classification issued by the Office of Statistical Standards, Bureau of the Budget, Executive Office of the

President. Since the Standard Industrial Classification is designed on an establishment basis, it has been necessary to reduce greatly the number of groups and to make changes in the contents of the groups in order to adapt the Standard Classification to the corporation income tax returns which are filed on an ownership basis. The industrial classification is based on the business activity reported on the return. When multiple businesses are reported by a single corporation or by an affiliated group filing a consolidated return, the classification is determined by the business activity which accounts for the largest percentage of total receipts. Therefore, the industrial groups do not reflect pure industry classifications.

Chart 3 shows the 1949-53 net incomes less deficits of the 8 industrial divisions tabulated for *Statistics of Income* in relation to 1947-49 averages. Manufacturing, with 54 percent of the total net income, affects the all industrial group total sufficiently to reverse its 1952 slide. In 1953, finance and public utilities continue

¹Excess profits tax does not apply to income earned after Dec. 31, 1953, as this tax law terminates on that date. See "Changes in Law Affecting 1953 Data," p. 6.

NOTE: See p. 19 for "Explanation of Terms" and p. 22 for "Description of the Sample and Limitations of Data."

their upward trend, although public utilities levels off somewhat.

Corporate agriculture and trade continue downward trends, which began in 1951, but the rate of decline has slackened appreciably, especially in agriculture. Construction drops most sharply after being one of the three industries to show a gain in 1952.

In the financial division data compiled from returns classified under the major group "Insurance carriers and agents" are affected by provisions of law with reference to life and mutual insurance companies. Life insurance companies report only their investment income, i. e., interest, dividends, and rent, and may deduct only expenses incident thereto and wholly tax-exempt interest in arriving at net income. The deductions reported are taxes and depreciation, tabulated under their respective titles, and investment and real estate expenses, tabulated as "Other deductions." Mutual insurance companies report these items and, in addition thereto, net gain from sale or exchange of capital assets, interest paid, and capital losses sustained in meeting dividend and insurance claim payments. Capital losses are tabulated with

"Other deductions." Mutual insurance companies are taxable under the special provisions of section 207 of the 1939 Code but are exempt from taxation if the gross income from interest, rents, dividends, and premiums is less than \$75,000.

Life insurance companies are taxed under the provisions of section 201 as amended by the Revenue Act of 1951. Companies deriving a portion of their income from contracts other than life insurance, annuities, or noncancelable health and accident insurance make an adjustment to the normal-tax net income for certain non-life insurance reserves. Companies earning less than 105 percent of their required interest are allowed a reserve interest credit (computed under the provisions of section 203A (b) of the 1939 Code) against the normal-tax net income for income tax purposes. The two adjustments are *not* reflected in the net income as tabulated for this report but are shown in the following table. For excess profits tax, a deduction based on a reserve and other policy liability credit, adjusted for nonlife insurance reserves, is allowed.

SPECIAL ADJUSTMENTS OF LIFE INSURANCE COMPANIES
FOR INCOME TAX COMPUTATION, 1953

Item	All returns	Returns with balance sheets
Total number of returns.....	1,001	737
Adjustment for certain nonlife insurance reserves:		
Number of returns.....	409	353
Amount thousand dollars..	24,933	24,853
Reserve interest credit:		
Number of returns.....	259	184
Amount thousand dollars..	24,030	23,413

The 1953 data for mutual savings banks and savings and loan, building and loan associations represent full coverage of this area for the first time; 1952 data represent partial coverage for that year. Since taxation of these companies is effective only for accounting periods beginning on or after January 1, 1952, fiscal year returns for accounting periods ending July through November 1952, which would have completed the 1952 coverage, were not required to be filed. See "Changes in the Internal Revenue Code of 1939," *Statistics of Income for 1952, Part 2*.

Total Assets Classes

Data for returns for which balance sheets are available are segregated into 10 classes by size of total assets as of December 31, 1953, or close of fiscal year nearest thereto. The total assets classes are based on the net amount of total assets, after reserves for depreciation, depletion, amortization, and bad debts.

Of the returns with balance sheets for 1953, 506,000, or 79 percent, are in assets classes under \$250,000. The total assets for these corporations represent only 4 percent of the \$762 billion of total assets reported for all corporations. In contrast to this group of the smallest corporations, the companies with total assets of \$100 million or more number only 915, but they account for 53 percent of total assets (see basic table 4, pp. 67-68).

Net Income and Deficit Classes

The returns are segregated into 13 classes by size of net income or deficit. This classification is based on the net income or deficit for the current year before any net operating loss deduction.

About one-half of the profit corporations have a small current-year net income. As given in table E, 214,000, or 48 percent of all 1953 active corporations with net income have a net income of less than \$5,000. However, there are 26,000 returns with net income of \$100,000 or more, of which 512 returns show net income of \$10 million or more.

Returns with a current year deficit number 256,000 for 1953. Most of these, 73 percent, have a deficit under \$5,000. Deficits of over \$100,000 occur on 2,900 returns, of which five returns have a deficit of \$10 million or more.

Table E also shows the relationship of returns with balance sheets to all returns by size of net income or deficit. On the whole, almost 95 percent of corporations with net income report balance sheet data; and the percentage rises to over 98 percent for returns showing net income of \$15,000 or more.

About 87 percent of returns with deficit have balance sheets. Coverage of deficit corporation is irregular by deficit size, with only 2 size classes showing over 95 percent coverage. The smallest deficit class, under \$5,000, containing almost three-fourths of the deficit returns, has only 84 percent balance sheet coverage.

Table E.—RELATION OF THE NUMBER OF RETURNS WITH BALANCE SHEETS TO ALL RETURNS,
BY NET INCOME AND DEFICIT CLASSES, 1953

Net income and deficit classes	Returns with net income			Returns with no net income		
	Number of returns	Number of balance sheets	Percent of returns with balance sheets	Number of returns	Number of balance sheets	Percent of returns with balance sheets
	(1)	(2)	(3)	(4)	(5)	(6)
Under \$5,000.....	213,914	195,841	91.6	186,394	157,139	84.3
\$5,000 under \$10,000.....	61,496	59,222	96.3	28,882	26,463	91.6

Total.....	441,767	418,150	94.7	256,208	221,923	86.6

NOTE: See p. 19 for "Explanation of Terms" and p. 22 for "Description of the Sample and Limitations of Data."

Consolidated Returns

Consolidation on a single return of financial data for a group of affiliated corporations is based on the principle of levying the tax on the combined net income of two or more integrated concerns.

Corporations included in an affiliated group for income and profits tax purposes must be connected through stock ownership with a common parent corporation which owns stock of at least one member of the group equal to (a) at least 95 percent of the voting power of all classes of stock, and (b) at least 95 percent of each class of nonvoting stock (except stock which is limited and preferred as to dividends). In addition, these same proportions of the stock of each other member of the group must be owned by one or more of the corporations within the group. An additional tax, equal to 2 percent of the surtax net income, is imposed on corporations electing to file consolidated returns.

A synopsis of the Federal tax laws regulating the filing of consolidated returns for the years 1944 through 1953 appears on page 148.

Consolidated returns were filed for 2,408 affiliated groups covering 9,670 subsidiary corporations in addition to the common parent corporations. As shown in basic table 3a these returns have compiled receipts of \$57 billion, net income less deficit of \$4 billion, and total assets of \$75 billion. Income and profits taxes on the 1953

consolidated returns, including the additional 2 percent surtax, amount to \$1.9 billion, a gain of more than 11 percent over 1952. About 74 percent of the 1953 consolidated returns have a predominant business activity classified as manufacturing, trade, or finance.

The number of affiliated groups filing consolidated returns for 1953 increased by 11 percent over 1952 (see table F). Likewise, the number of subsidiaries included therein increased by 7 percent between the 2 years. Similar data for manufacturing, the industrial group with the largest number of consolidated returns, show increases of 11 percent in number of consolidated returns and 9 percent in the number of subsidiaries included therein.

Table F.—NUMBER OF CONSOLIDATED RETURNS AND SUBSIDIARIES, BY INDUSTRIAL DIVISIONS, 1953 AND 1952

Industrial divisions	Number of consolidated returns		Number of subsidiaries	
	1953	1952	1953	1952
	(1)	(2)	(3)	(4)
All industrial divisions.....	2,408	2,169	9,670	9,019

Services.....	225	204	1,457	1,435
Nature of business not allocable.....	7	3	9	7

NOTE: See p. 19 for "Explanation of Term." Data not subject to sampling variability since all these returns were tabulated.

Type of Tax Liability

Taxable returns are classified in basic table 7, page 99, according to those with income tax liability and those with both income tax and excess profits tax liability. A corporation with net income is not subject to the excess profits tax if (1) the adjustments under section 433 result in excess profits net income of \$25,000 or less, (2) the credits allowed under section 431 are greater than the excess profits net income, or (3) it is exempt under section 454 of the 1939 Code. (For termination of the excess profits tax, see p. 6.)

A secondary classification is also used in basic table 7 to permit segregation of returns showing the alternative income tax. This tax is available to corporations with a net capital gain which results from the *excess* of "net long-term capital gain" over "net short-term capital loss." The alternative tax results in a somewhat lower income tax than would otherwise be imposed, since it consists of a tax at the regular income tax rates on the amount of income in excess of the net capital gain *plus* a tax of 26 percent on net capital gain.

Of the 399,000 taxable 1953 returns, 373,000 returns have income tax *only*, while a much smaller number, 27,000 have *both* income and excess profits tax. Since more of the latter group have higher incomes, \$8.4 billion, or 46 percent, of the total income tax liability of \$18.3 billion is reported on these 27,000 returns.

The total income tax of \$18.3 billion contains an alternative income tax of \$12.1 billion. If the alternative tax had not been in effect, the income tax liability

would have been increased by \$0.2 billion, or 1 percent, to \$18.5 billion.

States and Territories

A geographic distribution of summary data for the 48 States, the District of Columbia, and the Territory of Hawaii is given in table 10. The number of returns, net income or deficit, and taxes are shown. The Territory of Alaska, shown separately in previous tabulations of corporate data by States and Territories, is now combined with the State of Washington.

The data are tabulated by States and Territories in which the returns are filed and do not represent what may be called the geographic distribution of income. Returns filed in a State may not be a complete coverage of all corporations whose principal place of business is located therein. Conversely, a tabulation for a given State may include data from returns of corporations having their principal place of business in another State. A corporation, or a parent corporation filing a consolidated return for an affiliated group of corporations, may file its return either in the district in which it has its principal place of business or in the district in which it has its principal office or agency. There is no way of ascertaining from income tax returns the amount of income originating in a specific State or the amount of tax paid thereon.

Excess Profits Net Income and Tax

The excess profits net income is derived from the net income by making certain adjustments consisting principally of the exclusion of capital gains and losses, both long- and short-term, and dividends received from foreign and domestic corporations. (For specific adjustments in arriving at the excess profits net income, see facsimile of Schedule EP, Form 1120, p. 169.) An excess profits credit, based on net income of the base period or on invested capital, and an adjustment for unused excess profits credit from prior years are allowed in arriving at the adjusted excess profits net income on which the excess profits tax is imposed. A minimum credit of \$25,000 makes the excess profits tax ineffective for returns on which the excess profits net income is \$25,000 or less.

The excess profits tax terminated December 31, 1953, and is, therefore, not fully effective for fiscal years ending in the period January–June 1954. Such returns show a prorated tax based on the number of days in the fiscal year before January 1, 1954. Despite this factor, the 1953 excess profits tax of \$1.6 billion is an increase of \$63 million over 1952.

For those returns which have more than the minimum excess profits net income of \$25,000, 64 percent have credits exceeding excess profits net income and, therefore, have no excess profits tax liability. The remainder show \$5.8 billion subject to excess profits tax after credits.

Excess profits data are shown by minor industry groups in basic table 1a.

FISCAL YEAR RETURNS

The Internal Revenue Code defines a fiscal year as an accounting period of 12 months ending on the last day of any month other than December. In compiling this *Statistics of Income*, fiscal year returns ending in July through November of 1953 and January through June of 1954 are used. These fiscal year returns number 272,000 and account for about 40 percent of all active returns filed, 20 percent of corporate net income, and 40 percent of corporate deficit for 1953. Data for fiscal year returns are presented in two tables. The number of returns, net income or deficit, and tax are shown by

month in which fiscal year ended in table G and by size of net income or deficit in table H.

The number of fiscal year returns has grown by 15,000, or 6 percent, since 1952. New fiscal year returns tend to show an accounting period ending in the first half of the calendar year. Fiscals ending January through June increased almost 8 percent, while those ending July through November increased not quite 3 percent.

For taxable years ending after June 30, 1953, new regulations specify conditions under which taxpayers who have not changed their accounting period for the past 5 years may do so without prior approval of the Commissioner of Internal Revenue. These revised regulations may accelerate changeovers from calendar to fiscal year reporting as well as some realignment in fiscal year endings.

Table G.—NUMBER OF RETURNS, NET INCOME OR DEFICIT, AND TAXES—FISCAL YEAR RETURNS, BY MONTH IN WHICH FISCAL YEAR ENDED

Fiscal year ending	Total number of returns	Returns with net income			Returns with no net income	
		Number of returns	Net income (Thousand dollars)	Income tax (Thousand dollars)	Excess profits tax ¹ (Thousand dollars)	Deficit (Thousand dollars)

Total.....	173,035	8,176,466	3,624,855	265,380	956,456
No income data (inactive corporations).....	-	-	-	-	6,855

¹Excess profits tax does not apply to income earned after Dec. 31, 1953, as this tax law terminates on that date. See "Changes in Law Affecting 1953 Data," p. 6.
²Sample variability of this item is too large to warrant showing it separately. However, this value is included in each total.
NOTE: See p. 19 for "Explanation of Terms" and p. 22 for "Description of the Sample and Limitations of Data."

PART-YEAR RETURNS

Part-year return data are summarized below. The data on 37,000 returns are reported for a period of less than 12 months as a result of reorganizations, newly organized businesses, liquidations, and changes from calendar year to fiscal year basis, or vice versa. The revision in regulations governing changes of accounting

period, discussed above, may account in part for the almost 4,400 more part-year returns in 1953 than in 1952. Part-year returns with the greater part of the income period in 1953 are included in all tabulations in this volume except those for fiscal year returns, tables G and H, above.

Deficit.....thousand dollars..	145,439

¹ Excess profits tax does not apply to income earned after December 31, 1953, as this tax law terminates on that date. See "Changes In Law Affecting 1953 Data," p. 6.

NOTE: See p. 19 for "Explanation of Terms" and p. 22 for "Description of the Sample and Limitations of Data."

CREDIT FOR INCOME AND PROFITS TAXES PAID TO FOREIGN COUNTRIES OR POSSESSIONS OF THE UNITED STATES

The Internal Revenue Code (1939) provides alternative methods for taking a deduction of income and profits taxes paid to foreign countries or United States possessions. Basically such taxes are allowable deductions against the gross income under section 23 (c). An elective treatment, available to most domestic corporations under section 131, permits a direct credit against the United States income and profits taxes. The credit is applicable first to the income tax and the remainder, if any, to the excess profits tax.

The amount of credit for taxes paid or accrued to any country is limited to the same proportion of the United States income tax which the corporation's normal-tax net income from sources within the foreign country bears to its entire normal-tax net income. The total credit cannot exceed the same proportion of the United States income tax which the corporation's normal-tax net income from sources outside the United

States bears to its entire normal-tax net income for the year. Credit against the excess profits tax for any remaining foreign tax paid is limited by a similar comparison with respect to excess profits net income.

This elective credit is claimed against the 1953 tax by 3,602 companies with \$8.3 billion taxes due before credit. Aggregate credit claimed is \$642 million.

Statements filed in support of the credit by 1,791 companies show that their income from foreign sources is \$1.8 billion or about 11 percent of their \$15.3 billion total net income. The companies paid \$666 million for foreign taxes, 90 percent of which are claimed as credits.

Foreign income of the 1,791 corporations includes \$507 million from dividends. Credit is not permitted for taxes paid on any portion of such dividends derived from income considered to have been earned in the United States by corporations doing business here, since an 85 percent "dividends received" credit against net income is allowed.

In addition to taxes paid foreign countries on dividends, domestic corporations owning 10 percent or more of the foreign payor corporation's stock may claim credit for taxes paid on income from which the dividends were derived.

Tables I, J, and K present detailed data with respect to credit claimed for taxes paid or accrued to foreign countries or possessions of the United States. The tabulations show, for all returns claiming a foreign tax credit, the number of returns, net income, income and excess profits taxes before foreign tax credit, and the credits claimed for foreign taxes paid. For returns with statements filed (Form 1118) in support of credit claimed for foreign taxes paid there are shown the number of returns, net income, income from foreign sources other than dividends, dividends from foreign sources, income and excess profits taxes before foreign tax credit, foreign taxes paid and credits claimed for foreign taxes paid.

Table I. — RETURNS WITH FOREIGN TAX CREDIT, BY TOTAL ASSETS CLASSES

¹ Includes returns with no statements filed (Form 1118) in support of credit claimed for foreign taxes paid.

² Excess profits tax does not apply to income earned after Dec. 31, 1953, as this tax law terminates on that date. See "Changes in Law Affecting 1953 Data," p. 6.

³ Amount shown for income from foreign sources other than dividends has been reduced by negative amounts.

NOTE: See p. 19 for "Explanation of Terms" and p. 22 for "Description of the Sample and Limitations of Data."

12 Services.....	6	324	88	91	16	47
13 Nature of business not allocable.....	10	38	10	8	-	-

¹A more detailed industrial classification is not presented for this small number of returns for two reasons: (a) the identification of Western Hemisphere trade corporations is somewhat difficult on the source document, Form 1120, and (b) the sample variability of the data would be too large.

²Includes returns with no statements filed (Form 1118) in support of credit claimed for foreign taxes paid.

³Amount shown for income from foreign sources other than dividends has been reduced by negative amounts.

⁴Includes returns of consolidated corporations where one or more of the corporations within the affiliated group is a Western Hemisphere trade corporation.

NOTE: See p. 19 for "Explanation of Terms" and p. 22 for "Description of the Sample and Limitations of Data."

The data are distributed in table I by total assets classes; in table J by major industrial groups; and in table K by net income classes. Foreign tax credit is claimed only when United States tax liability exists; these tabulations cover only corporations claiming such credit.

Election of the foreign tax credit against United States taxes is denied foreign corporations, corporations organized under the China Trade Act, 1922, and domestic corporations entitled to the benefits of section 251 by reason of receiving a large percent of gross income from sources within possessions of the United States.

Similar data were published in the 1950 and 1951 *Statistics of Income, Part 2*.

WESTERN HEMISPHERE TRADE CORPORATIONS

In tables L, M, and N selected data for Western Hemisphere trade corporations are distributed by size

of total assets, by type of industry, and by size of net income.

A domestic corporation, all of whose business is done in North, Central, or South America, the West Indies, or Newfoundland is classified as a Western Hemisphere trade corporation if (1) 95 percent or more of its gross income for the 3-year period ending with the close of the taxable year (or for such part of that period as the corporation was in existence) was derived from sources outside the United States; and (2) 90 percent or more of its gross income for such period was derived from active conduct of a trade or business. Such companies are allowed a credit of 27 percent of the normal-tax net income (before this credit) against the net income for income tax purposes and are exempt from excess profits tax. When reported in a consolidated return, surtax net income attributable to a Western Hemisphere trade corporation is also exempt from the 2 percent addition to surtax imposed on an affiliated group of corporations.

Corporation returns identified as having Western Hemisphere trade corporation income or loss in 1953

CORPORATION INCOME TAX RETURNS FOR 1953

Table N.—WESTERN HEMISPHERE TRADE CORPORATION RETURNS, BY NET INCOME AND DEFICIT CLASSES

PART I.—RETURNS WITH CREDIT CLAIMED FOR FOREIGN TAXES PAID

Net income classes	All returns ¹					Returns with statements filed (Form 1118) in support of credit claimed for foreign taxes paid

¹Includes returns with no statements filed (Form 1118) in support of credit claimed for foreign taxes paid.²Amount shown for income from foreign sources other than dividends has been reduced by negative amounts.³Sample variability of this item is too large to warrant showing it separately. However, this value is included in each total.⁴Includes returns of consolidated corporations where one or more of the corporations within the affiliated group is a Western Hemisphere trade corporation.

NOTE: See p. 19 for "Explanation of Terms" and p. 22 for "Description of the Sample and Limitations of Data."

total 663. Of this number, 560 show net income of \$730 million and Western Hemisphere trade corporation credit of \$135 million. In addition, foreign tax credit of \$167 million is claimed on 294 of these returns. Many trading and finance concerns, and a few in other industries, claim no credit for foreign taxes.

The remaining 103 (16 percent) of the identified returns show net deficits amounting to \$14 million. However, data for returns with deficits are probably understated, since identification of Western Hemisphere trade corporations is not always possible on returns with no net income.

Statements in support of claims for foreign tax credit provide additional data on sources of income and taxes paid. The 256 statements available for tabulation show that of a total net income of \$474 million on these returns, foreign sources other than dividends account for \$368 million and foreign dividends \$18 million. Foreign income taxes paid are \$178 million, 81 percent of which is claimed as credit against the domestic tax.

Western Hemisphere trade credit is claimed on a little more than \$402 million net income.

Twenty-two of the 663 Western Hemisphere trade corporation returns are consolidated returns with one or more members of the affiliated group meeting the Western Hemisphere trade corporation qualifications. Aggregate data for affiliated groups are compiled in preparing tables L, M, and N since it is impossible to segregate data for the individual companies engaged in Western Hemisphere trade.

Data for Western Hemisphere trade corporations were published in the 1950 and 1951 reports, *Statistics of Income, Part 2*.

1952 ERRATA

Misclassification of one corporate income tax return affected the data in the complete report *Statistics of Income for 1952, Part 2*. The data for the return are de-

leted from the deficit class "\$10,000,000 or more" and are added to the deficit class "\$10,000 under \$15,000." The return is classified industrially in the "Trade" division.

The principal tables affected by this change in classification are tables 7 and 8. In table 7, in "All industrial divisions" and in the "Trade" division, returns with no net income in deficit class "\$10,000 under \$15,000" are increased by one return and the amount of deficit is increased by \$11,000. In the same divisions, the deficit class "\$10,000,000 or more" is decreased by the above amounts. In table 8, the same adjustments are made for the classification "Returns with no net income." Also, the adjustment in number of returns should be made in the text tables, pp. 9 and 22, and in basic tables 9 and 10.

A transposition of digits occurred on table 5, p. 72, in the contributions reported by corporations with assets of \$50,000 under \$100,000. The amount on line 46, column 3, which reads "5,407" is now changed to "5,704."

EXPLANATION OF TERMS

The following definitions apply particularly to current year data but in most instances are also applicable to items shown in the historical tables 11-16. When used with historical data, the "Comparability of Historical Data," pages 105-108 and "Synopsis of Federal Tax Laws," pages 145-151, should also be consulted.

Accounts and notes payable, shown in table 5, consists of bonds, notes, and mortgages payable with original maturity of less than 1 year and accounts payable.

Adjusted excess profits net income.—See "Excess profits income and credits," below.

Alternative tax consists of a tax of 26 percent of net long-term capital gain reduced by any net short-term capital loss, plus normal tax and surtax at the usual rates on the balance of normal-tax and surtax net incomes, and is reported only if it is less than the regular normal tax and surtax. Alternative tax is tabulated in "Income tax." (See *Synopsis of Federal Tax Laws, 1944-53*, Table A, for maximum tax rate on long-term gain prior to 1953.)

Amortization is the annual amount claimed under sections 124A and B of the Internal Revenue Code (1939) which provides for writeoff over a 60-month period (in lieu of depreciation) of costs of certain emergency and grain storage facilities. Emergency facilities are those constructed or acquired after December 31, 1949, and certified as necessary in the national defense. Grain storage facilities are included for the first time in 1953 and are discussed under *Changes in Law Affecting 1953 Data*, page 6.

Assets and liabilities are tabulated as of December 31, of the tax year or close of fiscal year nearest thereto. Adjustments are made in tabulating the data as follows: (1) reserves for depreciation, depletion, bad debts, etc., reported under liabilities, are transferred to

the appropriate asset reserve accounts, and (2) deficits in surplus, reported under assets, are transferred to liabilities as negative amounts. Beginning 1952, the liability items "Accounts payable" and "Capital stock, common," are overstated in the Finance Division, major industry group "Credit agencies other than banks," due to taxpayer reporting of some savings and loan association savings accounts as such liability items rather than as "Other liabilities" where they are normally reported.

Bonds and mortgages payable shown in table 5 are those with original maturity of 1 year or more.

Capital assets, reported on the balance sheet and tabulated as "Gross capital assets," consists of (1) depreciable tangible assets such as buildings, manufacturing and transportation facilities, furniture and fixtures, (2) depletable tangible assets—natural resources, and (3) intangible assets such as patents, franchises, formulas, leaseholds, goodwill, and trademarks. In table 5 the amounts tabulated as "Capital assets less reserves" also include land.

Treatment of gain or loss from the sale or exchange of these properties is shown under "Capital gain or loss" and "Net gain or loss from sales other than capital assets."

Capital gain or loss is the gain or loss from sale or exchange of "Capital assets" as defined by section 117 of the 1939 Code, and the *aggregate net gain* from sale or exchange of certain "property used in the trade or business" and from involuntary conversion of such property and of "Capital assets" held for more than 6 months.

An alternative tax may be computed for returns with a net long-term capital gain in excess of net short-term capital loss.

Losses from sale or exchange of capital assets are allowed only to the extent of capital gains, but a net capital loss, reduced by capital gains in intervening years, may be carried over to the five succeeding taxable years. An aggregate net loss from sale or exchange of "property used in the trade or business" and from involuntary conversion of such property and of "capital assets" is treated as an ordinary loss.

In computing capital gains and losses—

"Capital assets" (as defined by section 117) consists of all property held by taxpayer *except*: (1) property properly includible in inventory, or property held primarily for sale in the ordinary course of trade or business; (2) depreciable property and real property used in trade or business; (3) Government obligations issued on or after March 1, 1941, on a discount basis and payable without interest at a fixed maturity date not exceeding 1 year from date of issue; and (4) certain copyrights, literary, musical, or artistic compositions or similar properties.

"Property used in the trade or business" means real property and depreciable property, used in the business and held for more than 6 months (but not certain copyrights, etc.), and certain timber, coal, unharvested crops, and livestock.

"Short-term" pertains to gains or losses from property held 6 months or less; "long-term" to property held over 6 months.

Capital gains and losses are treated historically in table B, of the *Synopsis of Federal Tax Laws*.

Capital stock shown in table 5 consists of both preferred and common stock.

Compiled receipts.—See "Total compiled receipts."

Consolidated returns are defined in text, page 10. See also *Synopsis of Federal Laws 1944-53*, table C, page 148.

Contributions or gifts.—This deduction is limited by law to 5 percent of net income as computed without the benefit of this deduction.

Cost of goods sold and cost of operations.—Identifiable amounts of taxes, depreciation, depletion, amortization, advertising, pension and other benefit plan contributions reported in these costs are transferred to their specific headings. For years prior to 1951 only amortization and pension plan contributions were so treated.

"Cost of goods sold" is reported for transactions in which inventories are an income-determining factor; "Cost of operations" is reported for all other transactions.

Credit claimed for foreign taxes paid and statement filed in support thereof.—See text, p. 13.

Deficit.—See "Net income or deficit," below.

Dividends paid in cash and assets other than own stock exclude liquidating dividends.

Dividends received.—"Dividends, domestic corporations" consists of dividends received from domestic corporations subject to income taxation under chapter 1 of the Internal Revenue Code (1939) reported in columns 2 and 3, schedule C, page 2, Form 1120 for 1953. "Dividends, foreign corporations" is the amount reported in column 4 of schedule C.

Credits against the net income are allowed with respect to dividends from these domestic corporations and certain dividends from foreign corporations doing a substantial volume of business within the United States. (No credit was allowed for dividends from foreign corporations prior to 1951.)

Dividends from other corporations, reported in column 5 of schedule C, are included in "Other receipts." Such dividends include those from China Trade Act corporations, and corporations deriving a large percentage of their gross income from sources within a possession of the United States, and dividends on share accounts in Federal savings and loan associations issued after March 28, 1942.

Employee benefit plans other than those within the purview of section 23 (p) of the 1939 Code include insurance plans, noninsured death benefits, health, acci-

dent and other welfare benefits deductible under section 23 (a). Prior to 1952 such amounts were tabulated in "Other deductions."

Excess profits income and credits.—The excess profits tax terminated December 31, 1953. For fiscal years ending after that date the excess profits income and credits are reported for the full year, and only the excess profits tax is prorated.

The **adjusted excess profits net income** is the excess profits net income less the sum of the excess profits credit and the unused excess profits credit adjustment. Where the provisions of section 430 (e) (maximum tax for new corporations) are applicable, the excess profits tax is computed directly from the excess profits net income and the amounts of excess profits credit and adjusted excess profits net income are not always reported. For part-year returns, the amount of adjusted excess profits net income has been placed on an annual basis.

The **excess profits credit** is the current year credit against the excess profits net income. Methods of computing the credit are shown in *Statistics of Income for 1952, Part 2*, pages 12-13.

The **excess profits net income** is obtained from the net income by eliminating or adjusting certain items of income and deductions, consisting principally of the exclusion of capital gains and losses, both long- and short-term, and dividends received from foreign and domestic corporations. For part-year returns, the amount of excess profits net income has been placed on an annual basis.

The **unused excess profits credit adjustment** is the carryover of unused excess profits credit from preceding taxable years as reported on the return and does not take into account revisions that may subsequently be made as a result of a carryback from the succeeding year. Unused excess profits credit accrues when the allowable credit for a tax year exceeds the excess profits net income for such year computed without regard to the net operating loss deduction. Unused credit is first carried back as an offset to the excess profits net income of the first preceding year and the remainder is carried forward to succeeding taxable years. The carry-forward period is 5 years.

Excess profits tax for 1953 is the tax imposed by section 430 of the Internal Revenue Code (1939) upon the adjusted excess profits net income. The excess profits tax tabulated for 1953 is *after* the limitations provided by sections 430 (a) (1) (C) and 430 (e), and *after* adjustments provided by sections 430 (d), 450, 456, and 457, but *before* adjustments under section 452 and *before* credit for taxes paid to a foreign country. The provisions of section 430 terminate December 31, 1953, and the excess profits tax reported for fiscal years ending after that date is the prorated portion of the tax applicable to the period before January 1, 1954. For excess profits tax imposed in prior years, see Historical Section.

Gross receipts from operations consists of amounts received from transactions in which inventories are not an income-determining factor. Cost of operations is shown as a deduction.

Gross sales consists of amounts received for goods, less returns and allowances, in transactions where inventories are an income-determining factor. Cost of goods sold is shown as a deduction.

Inactive corporations are those reporting no item of income or deduction. Such returns are filed in accordance with the regulation that a corporation having an existence during any portion of a taxable year is required to file a return. Returns of inactive corporations are not included in the various tabulations, but the number filed is shown in the summary data, page 5, and in historical table 11.

Income tax consists of normal tax, surtax, and alternative tax. Tabulated with the income tax for returns with net income is a small amount of tax reported on returns with no net income under the special provisions applicable to certain mutual insurance companies, other than life or marine.

The income tax tabulated is *before* credit for foreign taxes paid.

Industrial divisions and groups.—See description of this classification, pages 8–10.

Interest on Government obligations.—Interest on obligations of the United States issued after September 1, 1917 (other than postal savings certificates for deposits made before March 1, 1941), and on obligations of corporations organized under act of Congress is exempt from taxation only to the extent provided by the act authorizing issuance of the obligation.

Interest reported on obligations described on lines (a) and (b), schedule C-1, page 2, Form 1120 for 1953, is subject to surtax only. That reported on obligations described on line (c) is wholly taxable.

Wholly tax-exempt interest, received on obligations of States, Territories, or political subdivisions thereof, the District of Columbia, or United States possessions, and from certain obligations of the United States or its instrumentalities is reported as item 19, schedule M, page 4, Form 1120 for 1953. The amounts tabulated are less amortizable bond premium.

Investments.—“Investments, Government obligations” consists of obligations of all governmental units within the United States, its possessions and Territories. Where investments are not segregated as between “Government” and “Other” the entire amount is included in “Other investments.” In table 5, “Investments” is the total amount of investments, both Government and non-Government.

Liabilities.—See “Assets and liabilities.”

Net gain or loss, sales other than capital assets is the net gain or loss from the sale or exchange of (1) depreciable and real property used in trade or business, (2) short-term noninterest-bearing Government obligations issued on or after March 1, 1941, on a discount

basis, (3) certain copyrights, literary, musical, or artistic compositions, or similar properties, and (4) securities by dealers. (See “Capital gain or loss” for treatment of certain depreciable and real property used in trade or business and held over 6 months.)

Net income or deficit is the difference between the total income and the total deductions reported, exclusive of the net operating loss deduction.

Net operating loss deduction consists of the net operating loss carryover reported on the return and does not take into account a carryback of net operating loss from a succeeding tax year which may subsequently be made.

The net operating loss is the excess of the deductions allowed by chapter 1 of the 1939 Code over the gross income after certain adjustments. This loss, through carryback and carryover provisions, may be used as an offset against taxable income for a specified period.

Beginning 1950, a net operating loss may be carried back 1 year and forward 5 years. The amount reported for 1953 may include a small prorated loss carryover from taxable years beginning in 1949 and ending in 1950. Prior to 1950 the maximum carryover period was 3 years. (See *Comparability of Historical Data.*)

Normal-tax net income is the amount of the corporation's net income subject to normal income tax. The United States normal-tax net income is derived from the current-year net income (tabulated for the *Statistics of Income*) by subtracting (1) the net operating loss deduction, (2) partially tax-exempt interest, (3) the credit allowed for domestic and foreign dividends received, (4) in the case of a public utility, the credit allowed for dividends paid, and (5) in the case of a Western Hemisphere trade corporation, the special credit allowed.

Number of returns excludes returns of inactive corporations, except in the text table, page 5, and historical table 11 where “Total number of returns” includes returns of inactive corporations.

Number of subsidiaries consists of the number of affiliated corporations *other than* the common parent corporations which are included in consolidated income tax returns.

Other assets are those not reported separately on the return and include sinking funds; other funds; deferred charges; organization expenses; prepaid and suspense items; interest, discount, coupons, and dividends receivable; and guaranty deposits. “Other assets” of life insurance companies include market value of real estate and bonds and stocks in excess of book value; interest, rents, and premiums due; and agents' balances.

Other deductions include (1) negative amounts reported under income, (2) losses by abandonment, fire, storm, shipwreck, or other casualty (including war losses), and theft, (3) salaries and wages not deducted elsewhere on the return, and (4) amounts not otherwise reported, such as: Administrative, general, and office expenses; bonuses and commissions; delivery charges; freight and shipping expenses; payments in connection with lawsuits; research expenses; sales discount; selling

costs; travel expenses; unrealized profits on installment sales; and Federal Deposit Insurance Corporation assessments reported by banks.

Other liabilities include deferred and suspense items; accrued expenses; dividends payable; funds held in trust; borrowed securities; outstanding coupons and certificates; and overdrafts. "Other liabilities" of life insurance companies include the net value of outstanding policies and annuities, and borrowed money. "Other liabilities" of banks include deposits (time, savings, demand, etc.) and bank notes in circulation.

Other receipts include amounts not elsewhere reported on the return such as: Profits from sales of commodities other than the principal commodity in which the corporation deals; income from minor operations; bad debts recovered; cash discounts; income from claims, license rights, judgments, and joint ventures; net amount under operating agreements; net profit from commissaries; profit on dealing in futures; profit on prior years' collections (installment basis); profit on purchase of corporation's own bonds; recoveries of bonds, stocks, and other securities; refunds for cancellation of contracts, for insurance, management expenses, and processing taxes; and income from sales of scrap, salvage, or waste.

Pension plans include pension, annuity, stock bonus, profit-sharing, or other deferred compensation plans, contributions to which are deductible by the employer under section 23 (p) of the 1939 Code.

Rents received consist of gross amounts. Depreciation, repairs, interest, taxes, and other expenses, which are deductible from gross rents, are included in the respective deduction items.

Repairs are the costs of incidental repairs, including labor and supplies, which do not add materially to the value of the property or appreciably prolong its life.

Returns with balance sheets.—About 92 percent of the returns filed provide balance sheet data. Only these returns are included in statistics shown for "returns with balance sheets." (See also text discussion, p. 7-8.)

Returns with no net income are those returns with total deductions (exclusive of the net operating loss deduction) equal to or exceeding total income.

Royalties consists of gross amounts received. Depletion based on royalties is reported in deductions.

States and Territories.—For limitation of such data, see discussion, p. 11.

Surplus and undivided profits consists of paid-in or capital surplus and earned surplus and undivided profits. In table 5 the amounts tabulated for this item also include surplus reserves. **Deficit** consists of negative amounts of earned surplus and undivided profits.

Taxes paid excludes (1) Federal income and excess profits taxes, (2) estate, inheritance, legacy, succession, and gift taxes, (3) income and profits taxes paid to a foreign country or possession of the United States if any portion is claimed as a tax credit, (4) taxes assessed against local benefits, (5) Federal taxes paid on tax-free covenant bonds, and (6) unidentifiable amounts of taxes

reported in "Cost of goods sold" and "Cost of operations."

Total compiled receipts excludes nontaxable income other than tax-exempt interest on certain Government obligations. For items included, see table 2 or historical table 13.

Unused excess profits credit adjustment.—See "Excess profits income and credits," above.

DESCRIPTION OF THE SAMPLE AND LIMITATIONS OF DATA

A probability sample was used as the basis of the data tabulated from 1953 corporation income tax returns. About 186,000 returns were selected in 64 district directors' offices. These represented slightly more than one-fourth of the 731,000 corporation returns in the population, and about a 10 percent increase in the sample size used for the previous year.

Returns were selected at three sampling rates: 100 percent, 20 percent, and 10 percent. The 100 percent area, which accounts for about 107,000 returns, contains the following groups of returns:

1. Taxable nonconsolidated returns with gross sales, gross receipts, or total income of \$500,000 and over.
2. Nontaxable nonconsolidated returns with gross sales, gross receipts, or total income of \$500,000 and over.
3. Taxable and nontaxable consolidated returns.
4. Returns of life insurance companies (Form 1120L).
5. Returns of mutual insurance companies (Form 1120M).

The 20 percent sample was selected from a population of about 160,000 returns, and consisted of returns with gross sales, gross receipts, or total income between \$100,000 and \$500,000. These returns were stratified by taxable and nontaxable status.

The 10 percent sample was selected from a population of about 463,000 returns. These returns were those which had gross sales, gross receipts, or total income each less than \$100,000 and were stratified by taxable and nontaxable status.

Additional stratification was obtained by means of the 64 district directors' offices since the foregoing design was applied to the returns in each office.

In the 1952 sample design the population was stratified by asset size and total income size. In the 1953 sample design the use of asset size was abandoned and the concept of volume of business was introduced as a basis of size stratification. This was done in order to have a sample plan which was technically sound as well as one which could be put into effect more easily in the 64 district directors' offices. As a result of this new type of stratification the number of returns in the 20 percent area was substantially increased. Furthermore, the sample was allocated on an optimum basis so as to minimize the sampling errors in the grand totals of most

major characteristics. Since volume of business, the principal basis of stratification, correlates highly with many of the deduction items, a gain over 1952 has been made relative to the precision of the data for these items.

Since there was no stratification by industry group or by asset size the number of returns in each industry group and in each asset size is subject to sampling error. However, the area of 100 percent coverage is large and therefore the sampling error on an overall basis for amount of total assets is only a fraction of 1 percent.

The maximum sample variability in the basic totals for all industry groups and asset sizes combined are as follows:

	<i>Percent</i>
Total number of returns.....	± 0.25
Total net income.....	± 0.10
Total deficit income.....	± 0.70
Total assets.....	± 0.25

These limits will be exceeded in the long run in about 5 out of 100 similar samples of the 1953 corporation returns.

The sampling error for the various characteristics for the industry groups with the smallest frequencies—forestry, anthracite mining, tobacco manufacturing, and ordnance and accessories—are extremely small because the large corporations included 100 percent account for most of the very small money values as well as for 75 percent or more of gross sales.

In addition to sampling variability the data are subject to certain biases such as coverage and taxpayer errors since the data are derived from unaudited returns. Control over coverage was exerted through an extensive system of sample management. On an overall basis, the amount of bias in income or deficit as estimated from audited returns is probably in excess of the sampling variabilities given above.

TABLES FOR CORPORATION INCOME TAX RETURNS, 1953

	Page
1. Number of returns, total compiled receipts, net income or deficit, taxes, and dividends paid—all returns, by major and minor industrial groups	27
1a. Number of returns, net income, selected excess profits data, and taxes—returns with excess profits net income over \$25,000, by major and minor industrial groups	32
2. Receipts and deductions—all returns, by major industrial groups .	37
3. Assets and liabilities, receipts and deductions—returns with balance sheets, by major industrial groups	49
3a. Assets and liabilities, receipts and deductions—consolidated returns with balance sheets, by industrial divisions	65
4. Assets and liabilities, receipts and deductions—returns with balance sheets, by total assets classes	67
4a. Assets and liabilities, receipts and deductions—consolidated returns with balance sheets, by total assets classes	69
5. Selected assets, liabilities, and receipts—returns with balance sheets, by total assets classes and major industrial groups . . .	71
6. Number of returns, net income or deficit, taxes, and dividends paid—all returns, by net income and deficit classes and industrial divisions	97
7. Type of tax liability—all returns, by net income and deficit classes .	99
8. Dividends received and interest received on Government obligations—all returns, by net income and deficit classes	100
9. Dividends paid—all returns, by net income and deficit classes . .	101
10. Number of returns, net income or deficit, and taxes—all returns, by States and Territories	102

¹Excess profits tax does not apply to income earned after December 31, 1953, as this tax law terminates on that date. See "Changes in Law Affecting 1953 Data," p. 6.²Sample variability of this item is too large to warrant showing it separately. However, this value is included in each total.³Income tax of mutual savings banks includes tax of separate life insurance departments computed at the special rates provided for life insurance companies by the Internal Revenue Code (1939).⁴For treatment of life insurance companies, see text, pp. 9-10.

NOTE: See p. 19 for "Explanation of Terms" and p. 22 for "Description of the Sample and Limitations of Data."

Table 1a.—NUMBER OF RETURNS, NET INCOME, SELECTED EXCESS PROFITS DATA, AND TAXES—RETURNS WITH EXCESS PROFITS NET INCOME OVER \$25,000, BY MAJOR AND MINOR INDUSTRIAL GROUPS

Major industrial groups and minor industrial groups		Returns with excess profits tax liability									Returns with no excess profits tax liability					
		Number of returns	Net income (Thousand dollars)	Excess profits net income (Thousand dollars)	Excess profits credit (Thousand dollars)	Unused excess profits credit adjustment (Thousand dollars)	Adjusted excess profits net income (Thousand dollars)	Taxes			Number of returns	Net income (Thousand dollars)	Excess profits net income (Thousand dollars)	Excess profits credit (Thousand dollars)	Unused excess profits credit adjustment (Thousand dollars)

¹For treatment of life insurance companies, see text, pp. 9-10.²Sample variability of this item is too large to warrant showing it separately. However, this value is included in each total.³Loss or deficit.⁴Excess profits tax does not apply to income earned after December 31, 1953, as this tax law terminates on that date. See "Changes in Law Affecting 1953 Data," p. 6.⁵Loss after total tax payment.

NOTE: See p. 19 for "Explanation of Terms" and p. 22 for "Description of the Sample and Limitations of Data."

CORPORATION INCOME TAX RETURNS FOR 1953

¹For treatment of life insurance companies, see text pp. 9-10.²Capital stock which is not definitely designated as either common or preferred is tabulated under common stock.³Sample variability of this item is too large to warrant showing it separately. However, this value is included in each total.⁴Loss or deficit.⁵Excess profits tax does not apply to income earned after December 31, 1953, as this tax law terminates on that date. See "Changes in Law Affecting 1953 Data," p. 6.⁶Loss after total tax payment.

NOTE: See p. 19 for "Explanation of Terms" and p. 22 for "Description of the Sample and Limitations of Data."

¹Capital stock which is not definitely designated as either common or preferred is tabulated under common stock.²Loss or deficit.³Excess profits tax does not apply to income earned after December 31, 1953 as this tax law terminates on that date. See "Changes in Law Affecting 1953 Data," p. 6.⁴Loss after total tax payment.

NOTE: See p. 19 for "Explanation of Terms." Data not subject to sampling variability since all these returns were tabulated.

CORPORATION INCOME TAX RETURNS FOR 1953

¹Capital stock which is not definitely designated as either common or preferred is tabulated under common stock.²Sample variability of this item is too large to warrant showing it separately. However, this value is included in each total.³Loss or deficit.⁴Excess profits tax does not apply to income earned after December 31, 1953, as this tax law terminates on that date. See "Changes in Law Affecting 1953 Data," p. 6.⁵Loss after total tax payment.

NOTE: See p. 19 for "Explanation of Terms" and p. 22 for "Description of the Sample and Limitations of Data."

CORPORATION INCOME TAX RETURNS FOR 1953

¹Capital stock which is not definitely designated as either common or preferred is tabulated under common stock.²Loss or deficit.³Excess profits tax does not apply to income earned after December 31, 1953, as this tax law terminates on that date. See "Changes in Law Affecting 1953 Data," p. 6.⁴Loss after total tax payment.

NOTE: See p. 19 for "Explanation of Terms." Data not subject to sampling variability since all these returns were tabulated.

¹Excess profits tax does not apply to income earned after December 31, 1953, as this tax law terminates on that date. See "Changes in Law Affecting 1953 Data," p. 6.²Included in the total, but not in the detail, is \$129,000 of tax reported on returns with no net income. See Explanation of Terms—"Income tax," p. 21.³Sample variability of this item is too large to warrant showing it separately. However, this value is included in each total.

NOTE: See p. 19 for "Explanation of Terms" and p. 22 for "Description of the Sample and Limitations of Data."

¹Excess profits tax does not apply to income earned after December 31, 1953, as this tax law terminates on that date. See "Changes in Law Affecting 1953 Data," p. 6.²Included in the total, but not in the detail, is \$129,000 of tax reported on returns with no net income. See Explanation of Terms—"Income tax," p. 21.³Sample variability of this item is too large to warrant showing it separately. However, this value is included in each total.

NOTE: See p. 19 for "Explanation of Terms" and p. 22 for "Description of the Sample and Limitations of Data."

CORPORATION INCOME TAX RETURNS, 1944-53

INTRODUCTION

The historical data presented in this volume are selected from the tabulations prepared from corporation income tax returns for the years 1944 through 1953 and published in *Statistics of Income, Part 2*, for those years. The tables are preceded by a discussion of the comparability of the statistics during that period. This discussion is supplemented by the material presented in the "Synopsis of Federal Tax Laws, 1944-53," pages 145-151 of this volume.

Data with respect to income and tax of corporations first became available in 1909 when an excise tax measured by the income of corporations was imposed by the Tariff Act of 1909. Selected data were published in the annual reports of the Commissioner of Internal Revenue for the years 1909 through 1915.

Following adoption of the 16th amendment to the Constitution a direct income tax was imposed, and 3 years later the Revenue Act of 1916 directed that statistics concerning the operation of the income tax laws were to be published annually. The first volume of *Statistics of Income* was published for the income year 1916 and presented only 5 basic income and tax items for corporations, distributed geographically and by type of industry.

Beginning in 1924, some balance sheet data were tabulated. These earliest tabulations show current assets and fixed property investment of \$137 billion, current and long-term liabilities of \$55 billion and capital stock and surplus of \$104 billion reported on 346,388 nonconsolidated capital stock tax returns filed as of June 30, 1924. Total assets were first tabulated from income tax returns in 1926. In that year balance sheets were filed with 359,449 returns, consolidated and nonconsolidated, or 78.9 percent of all returns filed. Total assets were valued at \$262 billion and capital stock and surplus was reported as \$119 billion. By 1953 the value of reported total assets had nearly trebled while the number of reporting corporations had grown by 78 percent. Thus, in 1953, 640 thousand returns (91.7 percent of all returns filed) show assets valued at \$762 billion and capital stock and surplus of \$265 billion.

Selected historical data for the years prior to 1944 were published in *Statistics of Income for 1949, Part 2*.

DESCRIPTION OF TABLES

The historical tabulations are presented in tables 11 through 16, pages 109-132. Table 11 shows the number of returns, by income or deficit status, and by net income,

deficit, and total assets classes. Table 12 gives the number of returns, total compiled receipts, net income or deficit, taxes, dividends paid, and total assets, by income and deficit status.

The number of returns, items of receipts and deductions, compiled net profit or net loss, net income or deficit, taxes, and dividends paid are shown in table 13 for all returns and for returns with net income. For returns with balance sheets these items, together with items of assets and liabilities, are given in table 14 for all returns and for returns with net income.

Data by major industrial groups are presented in table 15. Items shown are the number of returns, total compiled receipts, net income or deficit, and taxes. Data for returns with net income and returns with no net income are given separately.

Table 16 presents data for returns filed on a consolidated basis and shows the number of returns and subsidiaries, total compiled receipts, net income or deficit, and taxes, by net income and deficit status.

COMPARABILITY OF HISTORICAL DATA

The comparability of corporate statistics derived from income tax returns over a period of years is affected by a number of factors. Changes in income tax law affecting the data can be traced through a historical period and the effect estimated, but the effects resulting from a change in methods of filing or in the classification of a return because of changed status of a company are more difficult to identify and appraise. Some of the factors affecting comparability are discussed in the following paragraphs. This discussion covers both broad areas of data and specific items.

Advertising

This deduction, shown in historical tables 13 and 14, was included in "Other deductions" for 1944.

Amendments to the Internal Revenue Code (1939)

During the period 1944-53 the 1939 Code was amended by the Tax Adjustment Act of 1945, the Revenue Acts of 1945, 1950, and 1951, and the Excess Profits Tax Act of 1950. The synopsis of laws, pages 145-151, shows a comparison of tax rates and bases, provisions pertaining to capital gains and losses, and provisions pertaining to consolidated returns for the years 1944-53.

Other specific items affected by these amendments to the 1939 Code are listed as separate paragraphs in this discussion.

Amortization

In historical tables 13 and 14 the amortization deduction for 1953 is that provided by sections 124A and 124B of the 1939 Code. Section 124A provides for the amortization of the cost of emergency facilities necessary for national defense and acquired or completed during the emergency period beginning January 1, 1950. Section 124B was enacted in the Technical Changes Act of 1953 to alleviate a critical shortage in grain storage facilities and is applicable to cost of erection or reconstruction of such facilities incurred after December 31, 1952. A 60-month amortization period is provided for both types of facilities. For 1950-52 the amortization deduction is that claimed under section 124A only. For 1944-49 amortization of emergency facilities was authorized by section 124 of the Code (1939) and was applicable to cost of emergency facilities acquired or completed during the emergency period beginning January 1, 1940. On September 29, 1945, the President proclaimed the ending of the emergency period defined in section 124. As a result, taxpayers holding certified emergency facilities on which the 60-month amortization period had not expired could elect to terminate the amortization period as of September 30, 1945, and recompute the amortization deduction for each tax year involved, on the basis of the actual number of months in the shortened period. Thus, the amortization deductions reported on the 1945 returns are, in many instances, the increased amounts based on the shortened period.

Consolidated returns

Election to file, or to discontinue filing, a consolidated return results in relocation, classification-wise, of data for the companies included in the affiliated group. For example, industrial classification is based on the principal source of the collective receipts reported on the return. Thus, for a consolidated return, data for companies which, if nonconsolidated returns were filed, would fall in several industrial groups are contained in one industry classification. Use of the consolidated return also eliminates from the data reported profit or loss on intercompany transactions. Table C of the "Synopsis of Federal Tax Laws" shows the provisions of law governing election and discontinuance of filing consolidated returns.

Cost of goods sold and Cost of operations

Beginning in 1951 these items are reduced by any identifiable amounts, of taxes, depreciation, depletion, amortization, and pension plan contributions included therein. Such items are transferred to their respective headings. For years prior to 1951, only amortization and pension plan contributions were so treated.

Depreciation and depletion

See "Cost of goods sold and Cost of operations" above.

Employee benefit plans (other than pension plans, etc.)

The deduction in historical tables 13 and 14 for "Amounts contributed under other employee benefit plans" was tabulated with "Other deductions" prior to 1952.

Excess profits taxes

The excess profits tax in effect for 1950-53 is that imposed by section 430 which was added to the 1939 Code by the Excess Profits Tax Act of 1950, effective July 1, 1950. The amounts tabulated are *after* limitation and certain adjustments and *before* credit for foreign taxes paid. This tax terminated December 31, 1953, and for returns with fiscal years beginning before and ending after that date the tax is a prorated amount determined according to the number of days in the fiscal year before January 1, 1954.

The excess profits tax in effect during 1944-46 is that imposed by section 710 of the 1939 Code (added by the Second Revenue Act of 1940) and is the tax shown in historical tables 12 through 16 for the year 1946. For 1944-45 the excess profits tax compiled for the historical tables consists of the excess profits tax imposed by section 710 and the declared value excess-profits tax imposed by section 600 of the 1939 Code under the tax provisions of the National Industrial Recovery Act of 1933. The amounts of declared value excess-profits tax included in the data are shown in footnotes to the historical tables.

The excess profits tax tabulated for 1945-46 is the amount reported on the corporation excess profits tax return less the 10 percent credit. For 1944 it is the amount reported on the excess profits tax return less the credit for debt retirement and the net postwar refund (see synopsis of laws, note 5 (a), page 150). The amounts tabulated for each of the 3 years 1944-46 are also *before* the amount deferred under section 710(a)(5) (relating to abnormalities under section 722) and *before* credit for foreign taxes paid, but are *after* any adjustments reported on the returns under other relief provisions.

Effective January 1, 1946, the corporate excess profits tax under section 710 was repealed. The amount of tax shown for 1946 is limited to 11,053 taxable excess profits tax returns, filed for fiscal years ending within the period July through November 1946, on which an excess profits tax liability is reported for the portion of the accounting period in 1945. The declared value excess-profits tax imposed by section 600 was repealed, effective with respect to income-tax taxable years ending after June 30, 1946.

Industrial classification

Beginning in 1952, data for the two Finance groups "Banks and trust companies" and "Credit agencies other than banks" were increased by the inclusion of returns for mutual savings banks and savings and loan, building and loan associations, respectively. For taxable years beginning before January 1, 1952, these organizations

were exempt from taxation under section 101 of the 1939 Code.

In 1948 the Industrial Classification used in classifying income tax returns was revised to conform, in general, to recent revisions in the Standard Industrial Classification. A comparison of the industrial classifications used for *Statistics of Income* for 1947 and 1948 is shown on pages 425-450, *Statistics of Income for 1948, Part 2*. Adjustments were made in compiling the historical data by major industrial groups in table 15 where transfer of entire minor industrial groups or combination of two or more major groups made possible the improvement of comparability between the 1948-53 data and the 1944-47 data. These adjustments are as follows:

MINING AND QUARRYING

Nonmetallic mining and quarrying.—For 1944-47 data, two major groups "Nonmetallic mining and quarrying" and "Mining and quarrying not allocable" are combined.

MANUFACTURING

Textile-mill products.—For 1944-47 the two major groups "Cotton manufactures" and "Textile-mill products, except cotton" are combined.

Lumber and wood products, except furniture; Furniture and fixtures.—Adjustments have been made in the 1948-53 data by transferring data for "Other wood products" from "Lumber and wood products, except furniture" to the major group "Furniture and fixtures." Adjustments have been made for 1944-47 by transferring "Wooden containers" from "Furniture and finished lumber products" to "Lumber and timber basic products" and by transferring "Matches" from "Furniture and finished lumber products" to "Other manufacturing."

Primary metal industries and Fabricated metal products (except ordnance, machinery, and transportation equipment).—For 1948-53 data the two major groups "Primary metal industries" and "Fabricated metal products, except ordnance, machinery, and transportation equipment" are combined. The 1944-47 data are obtained by combining the two major groups "Iron, steel, and products" and "Nonferrous metals and their products," the former group having been adjusted to exclude the five minor groups comprising "Ordnance and accessories" for 1948-53, and the latter group having been adjusted to exclude "Clocks and watches" and "Jewelry (except costume), silverware, plated ware."

Ordnance and accessories.—Ordnance and accessories became a major group in 1948. The data shown for 1944-47 have been extracted from the major group "Iron, steel, and products," where data for "Ordnance and accessories" were tabulated as five minor groups.

Scientific instruments; photographic equipment; watches, clocks; and other.—For 1948-53 data the two major groups "Scientific instruments; photo-

graphic equipment; watches, clocks" and "Other manufacturing" are combined. The 1944-47 data are obtained by (1) combining the two major groups "Other manufacturing" and "Manufacturing not allocable" and (2) by adding thereto "Clocks and watches" and "Jewelry (except costume), silverware, plated ware" (transferred from "Nonferrous metals and their products") and "Matches" (transferred from "Furniture and finished lumber products").

PUBLIC UTILITIES

Electric and gas utilities and Other public utilities.—For 1944-47 "Electric and gas utilities," which appears as a major group for the first time in 1948, has been extracted from "Other public utilities."

TRADE: RETAIL

Automotive dealers and filling stations.—For 1944-47 the two major groups "Automotive dealers" and "Filling stations" are combined.

Building materials and hardware.—For 1944-47 the two major groups "Hardware" and "Building materials, fuel, and ice" are combined.

Other retail trade.—For 1944-47 data the three major industrial groups "Other retail trade," "Package liquor stores," and "Retail trade not allocable" are combined.

FINANCE

Credit agencies other than banks.—For 1944-47 data the three major industrial groups "Long-term credit agencies, mortgage companies except banks," "Short-term credit agencies, except banks" and "Finance not allocable" are combined.

Holding and other investment companies.—For 1944-47 data the three major industrial groups "Investment trusts and investment companies," "Other investment companies, including holding companies," "Other finance companies" are combined.

SERVICES

Other services, including schools.—For 1944-47 data the two major industrial groups "Other service, including schools," and "Service not allocable" are combined.

Comparability of industrial data may also be affected by shifts in the industrial classification of an individual corporation whose major source of income has changed, and by a change from filing a consolidated return to filing separate returns, or vice versa, by a group of affiliated corporations. For provisions controlling the filing of consolidated returns see "Synopsis of Federal Tax Laws," table C, page 148.

Insurance carriers

The Revenue Act of 1951 amended the 1939 Code with respect to credits and tax rates applicable to income of life insurance companies. Provisions of law affecting

life insurance companies are shown in the "Synopsis of Federal Tax Laws," footnotes 4 (g) and 5 (b), page 150.

Interest received on Government obligations, subject to surtax only

This interest consists of interest on United States savings bonds and Treasury bonds owned in principal amount of over \$5,000 issued prior to March 1, 1941, and interest on obligations of instrumentalities of the United States (other than obligations of Federal land banks, joint stock land banks, and Federal intermediate credit banks) issued prior to March 1, 1941. For 1945 and 1944, amounts shown include interest subject to surtax only and interest subject to declared value excess-profits tax and surtax. "Interest on United States savings bonds and Treasury bonds owned in principal amount of over \$5,000 issued prior to March 1, 1941" was subject to declared value excess-profits tax and surtax. The amounts of such interest reported for 1945 and 1944 are shown in footnotes to the historical tables. The interest tabulated is less amortizable bond premium.

Net income or deficit

Net income or deficit for 1946-53 is the difference between the total income and the total deductions reported, exclusive of the net operating loss deduction; for 1944-45 is the amount reported for declared value excess-profits tax computation, adjusted by excluding net operating loss deduction and adding Government interest subject to surtax only and excess of net long-term capital gain over net short-term capital loss. These adjustments make the amounts tabulated during the two periods comparable.

Net operating loss deduction

This deduction in historical tables 13 and 14 is the net operating loss carryover as defined in section 122 of the

1939 Code and does not take into account whatever revisions may subsequently be made as the result of any carryback of net operating loss from the succeeding tax year. The net operating loss deduction in any taxable year is first used as a carryback and, to the extent not so used, may be used as a carryover. The net operating loss for 1950-53 may be carried back for 1 preceding year and carried over for 5 succeeding years; for 1948-49, the carryback is for 2 years, and the carryover for 3 years; for 1944-47, the carryback is for 2 years and the carryover for 2 years. However, for corporations commencing business after December 31, 1945, the 1947 carryover is for 3 years. The net operating loss deduction has not been taken into consideration in computing the net income as tabulated in *Statistics of Income*.

Other deductions

For 1944-51 this item, in historical tables 13 and 14, includes "Amounts contributed under other employee benefit plans" which is tabulated separately beginning in 1952. For 1944 "Other deductions" also included "Advertising" and "Amounts contributed under pension plans, etc.," which are tabulated separately for 1945-53.

Pension plans, amount contributed under

This item, shown in historical tables 13 and 14, was included in "Other deductions" for 1944.

Sampling of returns

Beginning in 1951 corporate data are based on a probability sample of the returns filed. A description of the sample and the sampling variability to be expected for any year may be found in the volume of *Statistics of Income, Part 2*, for that year. For the period 1944-50, data were tabulated from all returns filed.

Taxes paid

See "Cost of goods sold and Cost of operations" above.

CORPORATION INCOME TAX RETURNS, 1944-1953

109

Table 11.—NUMBER OF RETURNS, BY INCOME AND DEFICIT STATUS, AND BY NET INCOME, DEFICIT, AND TOTAL ASSETS CLASSES

Net income, deficit, and total assets classes	1953	1952	1951	1950	1949	1948	1947	1946	1945	1944

SOURCE BOOK OF STATISTICS OF INCOME

	Page
Description and use	135
Chart I.—Data available in the Source Book of Statistics of Income from corporation returns for the years 1926–51, 1953	136
Chart II.—Industrial groups for which data from corporation returns are shown in the Source Book of Statistics of Income, for the years 1926–51, 1953: Years for which data are available in major group tables and years for which data are available in minor group tables	138

SOURCE BOOK OF STATISTICS OF INCOME

The Source Book consists of a series of unpublished volumes containing tabulations of financial information from income and profits tax returns, by more detailed classifications than in the published reports, *Statistics of Income*. The Source Book volumes are maintained in the Statistics Division of the Internal Revenue Service, and are available for research purposes to officials of the Federal, State, and other governmental units and to qualified representatives of accredited organizations. Permission to copy data from the Source Book may be obtained upon presentation of a written request addressed to the Commissioner of Internal Revenue.

The corporation data in the Source Book are from the income and profits tax returns for 1926 through 1951 and 1953. As an aid to acceleration of the published data, the Source Book was not prepared for 1952 data. The data are tabulated in aggregate (1) for all returns and (2) for returns with balance sheets, also segregated in both instances as to returns with net income and returns with no net income.

For the years 1932-34, tabulations of data from consolidated returns are also shown. A considerable number of corporations filing consolidated returns for 1932 and 1933 were denied this privilege for taxable years beginning after December 31, 1933, by section 141 of the Revenue Act of 1934, which limited the filing of consolidated returns to common carriers by railroad and their related holding and leasing companies. These tabulations were made to show the shift effected by this provision of the Revenue Act of 1934 on data from the returns for 1934 as compared with corresponding items from the returns for prior years. (Beginning in 1942, the privilege of filing consolidated returns is again extended, in general, to all corporations.)

Beginning with 1951, a probability sample has been used as the basis of the tabulated data. Description of the sample and limitations of data for each year may be found in the published volume for the year.

A summary description of the data contained in the Source Book is presented in Charts I and II. The first chart shows the years and classifications for which the items are available and the second is a detailed presentation of the industries for which the items are available in the major group tables and in the minor group tables. By use of these two charts one can quickly determine whether or not the desired data are available in the Source Book. For example: To determine the availability of figures representing gross sales of anthracite coal mining companies for the years 1926 through 1951 and 1953, the first chart shows that gross sales will be found for the years 1926 through 1951 and 1953 for major and minor industrial groups; the second chart (items 17-19, under "Mining and quarrying") shows that anthracite mining is included with bituminous, etc., for the years 1926-27 but is tabulated separately for 1928-51 and 1953.

(Under each classification data are shown (1) for returns with net income and (2) for returns with no net income. For list of major and minor industrial groups, see chart II)

Item	All returns					Returns with balance sheets						Consolidated returns						
	Major and minor industrial groups in aggregate	Major industrial groups by net income and deficit classes	Minor industrial groups by States and Territories	States and Territories		Major industrial groups by total assets classes	Minor industrial groups			States and Territories		In aggregate	Minor industrial groups					
				By minor industrial groups	By major industrial groups		In aggregate	By total assets classes	By States and Territories	By minor industrial groups	By major industrial groups		Consolidated 1933		Not consolidated 1933			
													By 1943 industry	By 1934 industry	In aggregate	By 1934 industry

Chart II.—INDUSTRIAL GROUPS FOR WHICH DATA FROM CORPORATION RETURNS ARE SHOWN IN THE SOURCE BOOK OF STATISTICS OF INCOME, FOR THE YEARS 1926-51, 1953: YEARS FOR WHICH DATA ARE AVAILABLE IN MAJOR GROUP TABLES AND YEARS FOR WHICH DATA ARE AVAILABLE IN MINOR GROUP TABLES

[For list of items available, see Chart I]

Industrial groups	Years for which data available in—		Industrial groups	Years for which data available in—	
	Major group tables	Minor group tables		Major group tables	Minor group tables
1 Agriculture, forestry, and fishery.....	1926-51;53	...	69 Silk manufactures (includes rayon goods for 1926-37).....	...	1926-40
2 Farms and agricultural services.....	1938-51;53	...	70 Rayon and other synthetic textile-mill manufactures.....	...	1938-40
3 Farming—Fruit, cotton, grain, stock, and all other farming, including lessors.....	...	1926-37	71 Rayon and silk manufactures.....	...	1941-47
4 Forestry.....	1938-51;53	...	72 Yarn and thread (cotton, wool, silk, and synthetic fiber)	...	1948-51;53
5 Fishery.....	1938-51;53	...	73 Broadwoven fabrics (woolen and worsted).....	...	1948-51;53
6 Related industries—Forestry, fishing, ice harvesting, agricultural industries, not precisely defined; holders and lessors.....	...	1926-37	74 Broadwoven fabrics (cotton).....	...	1948-51;53
7 Agriculture, forestry, and fishery not allocable.....	1938	...	75 Narrow fabrics and other smallwares (cotton, wool, silk, and synthetic fiber).....	...	1948-51;53
8 Mining and quarrying.....	1926-51;53	...	76 Knit goods.....	...	1948-51;53
9 Metal mining.....	1938-51;53	1926-37	77 Hats, except cloth and millinery (included in No. 84 for 1926-37).....	...	1926-51;53
10 Iron.....	...	1938-51;53	78 Carpets and other floor coverings (wool carpets included in No. 68 for 1926).....	...	1938-51;53
11 Copper.....	...	1938-47	79 Dyeing and finishing textiles, except woolen and worsted.	...	1927-51;53
12 Lead and zinc.....	...	1938-47	80 Dyeing and finishing textiles, except knit goods.....	...	1938-47
13 Gold and silver.....	...	1938-47	81 Textiles not elsewhere classified—Cord, felt, fur, hospital and surgical supplies, linen, other textiles, etc.	...	1948-51;53
14 Copper, lead, zinc, gold, silver.....	...	1948-51;53	82 Other textile-mill products.....	...	1926-37
15 Other metal mining.....	...	1938-51;53	83 Textile-mill products not allocable.....	...	1938-51;53
16 Metal mining not allocable (included in No. 15 for 1948-51; 53).....	...	1938-47	84 Apparel and products made from fabrics.....	1936-51;53	1926-35
17 Coal mining—Anthracite, bituminous, peat, coke.....	...	1926-27	85 Men's clothing.....	...	1938-51;53
18 Anthracite.....	1938-51;53	1928-37	86 Women's clothing.....	...	1938-51;53
19 Bituminous coal and lignite (includes peat for 1928-47; see No. 26).....	1938-51;53	1928-37	87 Fur goods.....	...	1938-51;53
20 Crude petroleum and natural gas production.....	1938-51;53	...	88 Millinery.....	...	1938-51;53
21 Crude petroleum, natural gas and natural gasoline production (Oil and gas for 1926-37).....	...	1926-51;53	89 Other apparel and products made from fabrics.....	...	1938-47
22 Oil- and gas-field service operations.....	...	1938-51;53	90 Other apparel and accessories.....	...	1948-51;53
23 Nonmetallic mining and quarrying.....	1938-51;53	...	91 Other fabricated textile products.....	...	1948-51;53
24 Quarrying—Asbestos, stone, clay, sand, gravel, precious and semiprecious stones, salt mines, etc., (includes lessors and holders for 1926).....	...	1926-37	92 Apparel and products made from fabrics not allocable.....	...	1938-51;53
25 Stone, sand, and gravel.....	...	1938-51;53	93 Lumber and wood products (Forest products).....	1926-37	...
26 Other mining and quarrying (nonmetallic) (includes peat for 1948-51;53).....	...	1938-51;53	94 Sawmill and planing mill products.....	...	1926-37
27 Nonmetallic mining and quarrying not allocable (included in No. 26 for 1948-51;53).....	...	1938-47	95 Other wood products—Carriages, wagons, furniture, baskets, etc.....	...	1926-37
28 Mining and quarrying not elsewhere classified, lessors and holders.....	...	1926-37	96 Lumber and wood (timber basic) products, except furniture	1938-51;53	...
29 Mining and quarrying not allocable (included in No. 26 for 1948-51;53).....	1938-47	...	97 Logging (camps) and sawmills.....	...	1938-47
30 Construction.....	1926-51;53	...	98 Planing mills.....	...	1938-47
31 Building and construction above ground, including equipping and installing machinery, wrecking, razing, or moving, etc.	...	1926-37	99 Logging camps, logging contractors, sawmills, and planing mills.....	...	1948-51;53
32 Other construction underground or on surface—Bridge building, waterfront construction, related industries, etc. (includes shipbuilding for 1926, see No. 241 for 1927-51; 53).....	...	1926-37	100 Millwork, plywood, and prefabricated wood products.....	...	1948-51;53
33 General contractors.....	...	1938-47	101 Wooden containers (Furniture and finished lumber products for 1938-47).....	...	1938-51;53
34 General building contractors.....	...	1948-51;53	102 Lumber and timber basic products not allocable.....	...	1938-39
35 General contractors other than building.....	...	1948-51;53	103 Other wood products.....	...	1948-51;53
36 General contractors not allocable.....	...	1938-51;53	104 Furniture and fixtures (finished lumber products) (See No. 93 for 1926-37).....	1938-51;53	...
37 Special trade contractors.....	...	1938-51;53	105 Furniture (wood and metal)—Household, office, public building, and professional.....	...	1938-51;53
38 Other construction (not allocable).....	...	1938-51;53	106 Partitions, shelving, lockers, and office and store fixtures.....	...	1938-51;53
39 Manufacturing.....	1926-51;53	...	107 Matches (included in No. 267 for 1948-51;53).....	...	1938-47
40 Food products, beverages, and tobacco.....	1926-30	...	108 Window and door screens, shades and venetian blinds (included in No. 109 for 1938-47).....	...	1948-51;53
41 Food products, including beverages.....	1931-32	...	109 Other finished lumber products; cork products.....	...	1938-47
42 Food and kindred products.....	1933-51;53	...	110 Other furniture and fixtures.....	...	1948-51;53
43 Bakery and confectionery products.....	...	1926-37	111 Furniture and finished lumber products not allocable.....	...	1938-47
44 Bakery products.....	...	1938-51;53	112 Paper and allied products.....	1926-51;53	...
45 Confectionery.....	...	1938-51;53	113 Pulp, paper, and paperboard.....	...	1938-51;53
46 Canning fruits, vegetables, and seafoods (included in No. 52 for 1926).....	...	1927-51;53	114 Pulp goods and converted paper products.....	...	1938-47
47 Meat products.....	...	1926-51;53	115 Paper bags and paperboard containers and boxes.....	...	1948-51;53
48 Grain mill products, except cereal preparations.....	...	1926-51;53	116 Pulp goods and other converted paper products.....	...	1948-51;53
49 Cereal preparations (included in No. 52 for 1926-37).....	...	1938-51;53	117 Paper and products not allocable (included in No. 116 for 1948-51;53).....	...	1938-47
50 Dairy products (included in No. 52 for 1926-37).....	...	1938-51;53	118 Printing, publishing, and allied industries.....	1926-51;53	...
51 Sugar.....	...	1926-51;53	119 Newspapers.....	...	1938-51;53
52 Other food products (includes No. 54 for 1926).....	...	1926-51;53	120 Periodicals.....	...	1938-51;53
53 Food and kindred products not allocable (included in No. 52 for 1926-37).....	...	1938-51;53	121 Books.....	...	1938-39
54 Beverages.....	1933-51;53	...	122 Books and music.....	...	1948-51;53
55 Soft drinks, wine, cereal beverages, mineral water, brewing and distilling.....	...	1927-32	123 Commercial printing, including lithographing.....	...	1940-47
56 Soft drinks, cider or mineral water, etc.....	...	1933-37	124 Other printing and publishing.....	...	1938-51;53
57 Liquors—Wines, beer, malt extract, malt yeast, alcohol.....	...	1933-37	125 Printing, publishing, and allied industries not allocable	...	1938-51;53
58 Malt (breweries) and malt products.....	...	1938-51;53	126 Chemicals and allied products.....	1926-51;53	...
59 Distilleries, rectifiers, blenders.....	...	1938-51;53	127 Industrial chemicals.....	...	1938-47
60 Wine.....	...	1938-51;53	128 Chemicals proper, acids, compounds, etc.....	...	1927-37
61 Nonalcoholic beverages.....	...	1938-51;53	129 Industrial inorganic chemicals.....	...	1948-51;53
62 Beverages not allocable (included in No. 61 for 1948-51; 53).....	...	1938-47	130 Industrial organic chemicals, including plastic materials, synthetic rubber, and synthetic fibers.....	...	1948-51;53
63 Tobacco manufactures.....	1931-51;53	1926-30	131 Allied chemical substances—Drugs, oils, paints, soaps, and other chemical substances not elsewhere classified.....	...	1927-37
64 Cigars.....	...	1948-51;53	132 Paints, varnishes, lacquers, etc.....	...	1934-51;53
65 Other tobacco manufactures.....	...	1948-51;53	133 Soap and glycerin.....	...	1938-51;53
66 Textile-mill products (excludes No. 67 for 1941-47).....	1926-51;53	...	134 Drugs, toilet preparations, etc.....	...	1938-47
67 Cotton manufactures.....	1941-47	1926-40	135 Drugs and medicines.....	...	1948-51;53
68 Woolen and worsted manufactures, including dyeing and finishing (includes wool carpets for 1926).....	...	1926-47	136 Perfumes, cosmetics, and other toilet preparations.....	...	1948-51;53
			137 Oils and fats, animal and vegetable, except edible cooking oils.....	...	1938-51;53
			138 Rayon (raw material) and allied products (included in No. 130 for 1948-51;53).....	...	1938-47
			139 Fertilizers.....	...	1927-51;53
			140 Plastic materials (included in No. 130 for 1948-51;53).....	...	1938-47
			141 Other chemical products.....	...	1938-51;53
			142 Chemicals and allied products not allocable.....	...	1938-51;53
			143 Chemical products (except Petroleum and mineral oil refining).....	...	1926
			144 Petroleum and coal products.....	1938-51;53	...
			145 Petroleum and other mineral oil products.....	1936-37	1926-35
			146 Petroleum refining.....	...	1938-51;53
			147 Other petroleum and coal products.....	...	1938-51;53
			148 Petroleum and coal products not allocable (included in No. 147 for 1948-51;53).....	...	1938-47

Chart II.—INDUSTRIAL GROUPS FOR WHICH DATA FROM CORPORATION RETURNS ARE SHOWN IN THE SOURCE BOOK OF STATISTICS OF INCOME, FOR THE YEARS 1926-51, 1953: YEARS FOR WHICH DATA ARE AVAILABLE IN MAJOR GROUP TABLES AND YEARS FOR WHICH DATA ARE AVAILABLE IN MINOR GROUP TABLES—Continued.

[For list of items available, see Chart I]

	Industrial groups	Years for which data available in—			Industrial groups	Years for which data available in—	
		Major group tables	Minor group tables			Major group tables	Minor group tables
149	Rubber products.....	1926-51;53	...	217	Other electrical machinery.....	...	1938-39
150	Tires (auto) and (inner) tubes.....	...	1926-51;53	218	Other electrical machinery and equipment.....	...	1940-47
151	Other rubber products.....	...	1926-51;53	219	Other electrical products, including batteries.....	...	1948-51;53
152	Bone, celluloid, and ivory products (included in No. 151 for 1926; bone and ivory products in No. 266 for 1938-49; celluloid in No. 140 for 1938-47, and No. 130 for 1948-51; 53).....	...	1927-37	220	Electrical machinery and equipment not allocable.....	...	1938-51;53
153	Rubber products not allocable (included in No. 151 for 1926-37, and 1940-51;53).....	...	1938-39	221	Machinery, except transportation equipment and electrical	1938-51;53	...
154	Stone, clay, and glass products.....	1926-51;53	...	222	Special industry machinery.....	...	1938-51;53
155	Cut-stone and stone products.....	...	1938-51;53	223	General industry machinery.....	...	1938-51;53
156	Structural clay products.....	...	1938-51;53	224	Metalworking machinery, including machine tools.....	...	1938-51;53
157	Pottery and related products.....	...	1938-51;53	225	Engines and turbines, except automotive, aircraft, and railway.....	...	1938-51;53
158	Glass and glass products.....	...	1938-51;53	226	Construction and mining machinery.....	...	1938-51;53
159	Cement (hydraulic).....	...	1938-51;53	227	Agricultural machinery and tractors.....	...	1926-51;53
160	Concrete, gypsum, and plaster products.....	...	1938-51;53	228	Office equipment, etc. (included in No. 234 for 1926).....	...	1927-37
161	Abrasives, asbestos, and other nonmetallic mineral products.....	...	1938-51;53	229	Office and store machines.....	...	1938-51;53
162	Stone, clay, and glass products not allocable (included in No. 161 for 1948-51;53).....	...	1938-47	230	Household machinery and equipment.....	...	1926-37
163	Leather and products.....	1926-51;53	...	231	Household and service-industry machines.....	...	1938-51;53
164	Footwear, except rubber.....	...	1926-51;53	232	Other machinery parts and machine shops (included in No. 223 for 1938-47).....	...	1948-51;53
165	Leather, tanned, curried, and finished (included in No. 166 for 1926-37).....	...	1938-51;53	233	Factory machinery—Food production machinery, leather, metal, paper, printing, textile, and woodworking machinery.....	...	1926-37
166	Other leather products.....	...	1926-51;53	234	Miscellaneous machinery—Building, construction, gas, mining machinery and equipment.....	...	1926-37
167	Leather and products not allocable (included in No. 166 for 1926-37, 1948-51;53).....	...	1938-47	235	Machinery, except transportation equipment and electrical, not allocable.....	...	1938-51;53
168	Metal manufacture (products and processes).....	1926-37	...	236	Transportation equipment, except motor vehicles.....	1938-51;53	...
169	Iron, steel, and products.....	1938-47	...	237	Railroad equipment, including locomotives and streetcars.	...	1926-51;53
170	Primary metal industries.....	1948-51;53	...	238	Airplanes (included in No. 258 for 1926; No. 260 for 1927).....	...	1928-51;53
171	Blast furnaces, steelworks, and rolling mills (includes foundries for 1926-37, for locomotives, see No. 237).....	...	1926-51;53	239	Aircraft and parts, including aircraft engines.....	...	1927-51;53
172	Metal building material and supplies (equipment).....	...	1926-37	240	Shipbuilding (included in No. 32 for 1926).....	...	1938-51;53
173	Fabricated structural metal products.....	...	1938-51;53	241	Ship and boatbuilding and repairing.....	...	1938-51;53
174	Heating apparatus, except electrical and plumbers' supplies	...	1938-51;53	242	Motorcycles, bicycles, and parts.....	...	1938-51;53
175	Tin cans and other tinware.....	...	1938-51;53	243	Other transportation equipment, except motor vehicles....	...	1938-51;53
176	Hardware, tools, etc.....	...	1927-37	244	Transportation equipment, except automobiles, not allocable.....	...	1938-47
177	Handtools and general hardware.....	...	1938-39	245	Motor vehicles and equipment, except electrical.....	1936-51;53	1926-35
178	Outlery, handtools, and general hardware.....	...	1940-51;53	246	Motor vehicles, including bodies and truck trailers (for tanks, see No. 181 for 1942-47).....	...	1938-51;53
179	Firearms, guns, howitzers, mortars, and related equipment (see No. 252 for 1948-51;53).....	...	1942-47	247	Automobile accessories and parts, other than electrical..	...	1938-39
180	Ammunition (see No. 253 for 1948-51;53).....	...	1942-47	248	Trailers for passenger cars.....	...	1938-39
181	Tanks (included in No. 254 for 1948-51;53).....	...	1942-47	249	Motor vehicles (automobile) parts and accessories, and passenger trailers.....	...	1940-51;53
182	Sighting and fire-control equipment (except optical) (included in No. 254 for 1948-51;53).....	...	1942-47	250	Automobiles and equipment, except electrical, not allocable (included in No. 249 for 1948-51;53).....	...	1938-47
183	Ordnance and accessories not elsewhere classified (included in No. 254 for 1948-51;53).....	...	1942-47	251	Ordnance and accessories.....	1948-51;53	...
184	Iron and steel foundries (included in No. 185 for 1938-47).....	...	1948-51;53	252	Guns, howitzers, mortars, and related equipment, including small arms (see No. 179 for 1942-47).....	...	1948-51;53
185	Other iron, steel, and products.....	...	1938-47	253	Small arms ammunition (see No. 180 for 1942-47).....	...	1948-51;53
186	Other primary metal industries.....	...	1948-51;53	254	Other ordnance and accessories (see Nos. 180-183 for 1942-47).....	...	1948-51;53
187	Iron, steel, and products not allocable.....	...	1938-47	255	Scientific instruments: photographic equipment; watches, clocks.....	1948-51;53	...
188	Primary metal industries not allocable.....	...	1948-51;53	256	Professional, scientific, and controlling instruments, including photographic and optical goods.....	...	1948-51;53
189	Fabricated metal products, except ordnance, machinery, and transportation equipment.....	1948-51;53	...	257	Watches, clocks, and clockwork-operated devices (see No. 197 for 1938-47).....	...	1948-51;53
190	Metal stamping, coating, and engraving.....	...	1948-51;53	258	All other manufacturing—Airplanes, optical products, musical instruments, metal processes, etc.....	1926	...
191	Lighting fixtures.....	...	1948-51;53	259	Miscellaneous manufacturing.....	1927-37	...
192	Fabricated wire products.....	...	1948-51;53	260	Airplanes, musical instruments, optical goods, canoes, manufacturing not elsewhere specified.....	...	1927
193	Other fabricated metal products.....	...	1948-51;53	261	Musical instruments, optical goods, canoes, etc.....	...	1928-37
194	Fabricated metal products not allocable.....	...	1948-51;53	262	Other manufacturing.....	1938-51;53	...
195	Metal and metal products, other than iron and steel; refining of precious metals, manufacturing jewelry, etc..	...	1926	263	Ice, natural or manufactured (included in No. 52 for 1926-37; 1940-51;53).....	...	1938-39
196	Precious metal products and processes, jewelry, etc.....	...	1927-37	264	Jewelry (precious metal), silverware, plated ware (see No. 198 for 1940-47).....	...	1948-51;53
197	Clocks and watches (see No. 257 for 1948-51;53).....	...	1938-47	265	Costume jewelry, except precious metal (included in No. 262 for 1938-47).....	...	1948-51;53

*Synopsis of
Federal Tax Laws
1944-53*

SYNOPSIS OF FEDERAL TAX LAWS, 1944-53

Affecting the Comparability of Historical Data in Statistics of Income

	Page
Corporation income and profits tax returns:	
A. Tax rates	145
B. Capital gain and loss provisions	147
C. Consolidated returns—provisions for filing and tax rates . . .	148

Table A.—TAX RATES UNDER CORPORATION INCOME AND PROFITS TAX LAW, 1944-53 ¹

Federal tax law: ² Revenue Acts amending Code (date of enactment)	Income year ³	Tax base by type of tax ⁴	Tax rate ⁵ (percent)
(1)	(2)	(3)	(4)
Revenue Act of 1951 (Oct. 20, 1951).	1952-53	Calendar year returns and returns with fiscal year beginning in income year	
		Income tax:	
		Normal tax:	
		Normal-tax net income, entire amount.....	30
		Surtax:	
		Surtax net income:	
		\$25,000 or less.....	22
		Excess over \$25,000.....	2
		Consolidated return (additional tax):	
		Surtax net income, entire amount.....	2
Revenue Act of 1951 (Oct. 20, 1951).	1951	Alternative tax:	
		Net long-term capital gain in excess of net short-term capital loss.....	26
		All other normal-tax net income and surtax net income.....	(Same as immediately above.)
		Excess profits tax:	
		Adjusted excess profits net income, entire amount (terminated Dec. 31, 1953 ⁶).....	⁶ 30
		Calendar year returns	
		Income tax:	
		Normal tax:	
		Normal-tax net income, entire amount.....	28 ³ / ₄
		Surtax:	
		Surtax net income:	
		\$25,000 or less.....	22
		Excess over \$25,000.....	2
		Consolidated return (additional tax):	
		Surtax net income, entire amount.....	2
Revenue Act of 1950 (Sept. 23, 1950). Excess Profits Tax Act of 1950 (Jan. 3, 1951). Revenue Act of 1951, excess profits tax provisions only (Oct. 20, 1951).	1950	Alternative tax:	
		Net long-term capital gain in excess of net short-term capital loss.....	25
		All other normal-tax net income and surtax net income.....	(Same as immediately above.)
		Excess profits tax:	
		Adjusted excess profits net income, entire amount.....	⁶ 30
		Returns with fiscal year beginning in 1951 ⁷	
		Period ending March 31, 1951: Tax bases and rates same as income year 1950 fiscal year period beginning July 1, 1950, and ending March 31, 1951.	
		Period beginning April 1, 1951:	
		Income tax:	
		Normal tax:	
		Normal-tax net income, entire amount.....	30
		Surtax:	
		Surtax net income:	
		\$25,000 or less.....	22
		Excess over \$25,000.....	2
		Consolidated return (additional tax):	
		Surtax net income, entire amount.....	2
		Alternative tax:	
		Net long-term capital gain in excess of net short-term capital loss:

Table B.—PROVISIONS PERTAINING TO CAPITAL GAINS AND LOSSES UNDER CORPORATION INCOME AND PROFITS TAX LAW, 1944-53 ¹

Federal tax law: ² Revenue Acts amending Code (date of enactment)	Income year ³	Definition of capital assets	Period held ¹²	Treatment of net capital gain ¹³	Treatment of net capital loss ¹³
(1)	(2)	(3)	(4)	(5)	(6)
Revenue Act of 1951 (Oct. 20, 1951). Revenue Act of 1950 (Sept. 23, 1950).	1950-53	(1) All property, whether or not connected with trade or business, <i>except</i> (a) Stock in trade or other property which would properly be included in inventory, or property held primarily for sale to customers in the ordinary course of trade or business. (b) Property used in trade or business of a character which is subject to allowance for depreciation. (c) Real property used in trade or business. (d) Government obligations issued on or after March 1, 1941, on a discount basis and payable without interest at a fixed maturity date not exceeding one year from date of issue. (e) Certain copyrights, literary, musical, or artistic compositions, or similar properties (but not a patent or invention). ¹⁴ (2) Gains and losses are considered as from capital assets, under certain conditions, with respect to: ¹⁵ (a) Retirement of certain bonds, etc. (b) Short sales. (c) Failure to exercise options. (d) Involuntary conversion and sale or exchange of certain business property, if a net gain is realized. ¹⁶ (e) Securities held for investment by security dealers. ¹⁷ (f) Worthless stocks and other securities. (3) Gains and losses are not considered as from capital assets, under certain conditions, with respect to: ¹⁵ (a) Certain gain on property to which amortization deduction (sec. 124A) is applicable. (b) Net loss from sales or exchanges of certain bonds, etc., by banks. (c) Involuntary conversion and sale or exchange of certain business property if a net loss is realized. ¹⁶ (d) Certain sales or exchanges of stock in a collapsible corporation. (e) Certain sales or exchanges of depreciable property of a controlled corporation. ¹⁸ (f) Wash sales of stock or securities.	Short-term: 6 months or less. Long-term: More than 6 months.	Included in net income and taxed at regular rates unless the net long-term capital gain exceeds the net short-term capital loss in which case the <i>alternative tax</i> may be used if it is less than the regular tax. The alternative tax is the sum of (1) the regular tax on net income reduced by the amount of the excess of net long-term capital gain over net short-term capital loss and (2) 25 percent of such excess (taxable years beginning after March 31, 1951, 26 percent of such excess). Excluded from the excess profits net income for taxable years ending after June 30, 1950.	Carried forward and treated as a net short-term capital loss (deductible against any capital gains) for a period not to exceed 5 years. Capital gains and losses are excluded in the computation of the excess profits net income for taxable years ending after June 30, 1950.
Revenue Act of 1943 (Feb. 25, 1944).	1944-49	Same as 1950-53, except: 1(e), 2(e), and 3(e) are not applicable. 3(a) and 3(d) are applicable after December 31, 1949, with respect to taxable years ending thereafter.	Same as 1950-53. -----	Same as 1950-53, <i>except</i> that for 1944-1945 the excess of net long-term capital gain over net short-term capital loss is excluded from net income for declared value excess-profits tax. The treatment for income tax purposes is not affected by this change.	Same as 1950-53.

For footnotes, see p. 149.

Table C.—CONSOLIDATED INCOME AND PROFITS TAX RETURNS—PROVISIONS FOR FILING AND TAX RATES, 1944-53¹

Federal tax law: ² Revenue Acts amend- ing Code (date of enactment)	Income year ³	Type of tax for which a consolidated re- turn was permitted	Type of corporation permitted to file a consolidated return	Criterion of affiliation	Consolidated return required or optional	Tax rate
(1)	(2)	(3)	(4)	(5)	(6)	(7)
Revenue Act of 1951 (Oct. 20, 1951). Excess Profits Tax Act of 1950 (Jan. 3, 1951, effective as of July 1, 1950). Revenue Act of 1950 (Sept. 23, 1950).	1950-53	Income tax, and excess profits tax imposed by sec. 430 of the In- ternal Revenue Code (1939).	Any corporation <i>except</i> : (1) Corporations exempt under 1939 Code sec. 101. (2) Life and mutual insur- ance companies, but they were considered as includible corpo- rations if two or more such companies alone filed a consoli- dated return and each was subject to tax under the same section of chapter 1 of the 1939 Code. (3) Foreign corporations other than certain Canadian and Mex- ican corporations. ¹⁰ (4) Corporations subject to section 251 (rela- tive to income from sources within pos- sessions of the United States). (5) Corporations organ- ized under the China Trade Act, 1922. (6) Regulated investment companies (taxable under supplement Q of 1939 Code). (7) Personal service corpo- rations, personal holding companies, foreign trade corpo- rations as defined in 1939 Code section 454(f), and certain air mail carriers as defined in 1939 Code section 454(g); but such a corporation may be included in a consolidated re- turn if it has filed a consent to be treated as an includible cor- poration. (8) Regulated public util- ities which elect to compute their excess profits credit under the alternative method provided for such companies in sec. 448 of the In- ternal Revenue Code (1939). However, two or more such companies <i>alone</i> may file a consoli- dated return.	One or more chains of in- cludible corporations connected through stock ownership with a com- mon parent corporation which is an includible corporation if (1) stock possessing at least 95 percent of the voting power of all classes of stock and at least 95 per- cent of each class of the nonvoting stock of each of the includible corpo- rations (except the com- mon parent corporation) is owned directly by one or more of the other in- cludible corporations; and (2) the common par- ent corporation owns directly stock possessing at least 95 percent of the voting power of all classes of stock and at least 95 percent of each class of the nonvoting stock of at least one of the other includible corpo- rations. The term "stock" does not include nonvoting stock which is limited and preferred as to dividends.	Optional upon consent of all members of affiliated group. Election is binding for sub- sequent taxable years of the affiliated group unless (1) a corporation (other than one created directly or indirectly by a member of the group) becomes an affiliate during a subsequent taxable year, (2) the Commissioner, for good cause, grants permis- sion to change, or (3) amend- ment to the Code or regula- tions makes filing of consoli- dated returns less advanta- geous to affiliated groups as a class. Because of such amendments, affiliated groups filing consolidated returns for the preceding taxable year were given new option with respect to— First return due to be filed after August 16, 1954 (including those filed under an extension of time for filing) or with respect to the first taxa- ble year ending after August 16, 1954. First return due to be filed after July 16, 1953. First taxable year ending after March 31, 1951. First taxable year ending after June 30, 1950.	Same as nonconsolidated returns plus 2 percent of surtax net income. How- ever, if Western Hemi- sphere trade corporations are included, the 2 per- cent additional tax is ap- plied on the amount by which the consolidated corporation surtax net income of the affiliated group exceeds the portion of the consolidated cor- poration surtax net in- come attributable to the Western Hemisphere trade corporation. (See table A, pp. 145-146.)
Revenue Act of 1945 (Nov. 8, 1945).	1946-49	Income tax.	Same as 1950-53, (1) through (7). Substitute 1939 Code sections 727(g) and (h) for 1939 Code sections 454(f) and (g) in (7) above.	Same as 1950-53.	See 1950-53. New option granted for the— Fiscal years ending in 1949. Calendar year or fiscal years ending in 1948. Calendar year or fiscal years ending in 1947. Calendar year or fiscal years ending in 1946.	Same as nonconsolidated returns plus an addi- tional surtax equal to 2 percent of surtax net in- come. However, an ad- justment to the surtax is necessary if the affiliated group includes Western Hemisphere trade corpo- rations since such corpo- rations are exempt from surtax. (See table A, pp. 145-146.) Same as 1946-49.
Revenue Act of 1943 (Feb. 25, 1944).	1944-45	Income tax, and excess profits tax under sec. 710 of Code.	Same as 1946-49.	Same as 1950-53.	See 1950-53. New option granted for the— Fiscal years ending in 1945, unless, under an extension of time, the fiscal 1944 return was not required to be filed until after March 1, 1945. Calendar year 1944.	Same as 1946-49.

For footnotes, see p. 149.

Footnotes for synopsis of laws tables

¹ For income years 1909 through 1943, see *Statistics of Income for 1950, Part 2*, pp. 247-282.

² Returns for 1944-53 are filed under the provisions of the Internal Revenue Code approved February 10, 1939, and the various amendments thereto. There is no one effective date for all provisions of a revenue act amending the Code—some of the provisions may be retroactive, some apply to the current tax period, and some to a future taxable year.

³ The income year is the calendar year and fiscal years beginning therein.

⁴ The tax bases are, in general, the same for all corporations and are derived from the corporation's net income after allowance of certain credits. Net income is the gross income less the deductions allowed. (See secs. 22 and 23 of the 1939 Code.) Treatment of the net operating loss deduction, derivation of the tax bases from net income, and significant variations in the bases applicable to certain classes of corporations are shown in (a) through (k) below.

(a) The net operating loss deduction is allowed as a deduction against the gross income by sec. 23 (s) of the 1939 Code. The net

income as tabulated in *Statistics of Income* is the net income for the current year, i.e., before deduction due to prior year loss. Therefore, the net operating loss deduction must be taken into account in relating the tabulated net income to the tax base. The net operating loss of any taxable year is first carried back against the net income of certain preceding taxable years and the excess, if any, may then be carried over to certain succeeding taxable years. The amount reported on the return and tabulated for *Statistics of Income* is the net operating loss carryover from prior taxable years. The carryback and carryover periods for a net operating loss sustained in 1950-53 are, carryback 1 year, carryover 5 years; 1948-49, carryback 2 years, carryover 3 years; and 1944-47, carryback 2 years, carryover 2 years, except that for corporations commencing business after December 31, 1945, the carryover for 1947 is 3 years. (For definitions and computations, including certain exceptions, additions, and limitations, see sec. 122.)

(b) Normal-tax net income and surtax net income result from application of specific credits, shown in the following table, to the net income. The credits used in deriving normal-tax net income are identified by the symbol (N) in the table column and those used in deriving surtax net income are identified by the symbol (S).

Items for which credit is allowed	Percent of item deductible as a credit for—									
	1952-53	1951			1950				1946-49 ^a c	1944-45

5 Dividends paid on certain preferred stock of a public utility or the net income of the public utility minus the credits provided in 1 through 4 above, whichever is the lower. ^f	27 (N) (S)	28 (N) (S)	30 (N) (S)	27 (N) (S)	33 (N) (S)	30 (N) (S)	100 (S)	31 (N) (S)	100 (S)	100 (S)
6 Western Hemisphere trade corporation normal-tax net income computed without regard to this credit. ^g	27 (N) (S)	28 (N) (S)	30 (N) (S)	27 (N) (S)	33 (N) (S)	30 (N) (S)	None	31 (N) (S)	None	None
7 Adjusted excess profits net income as defined in section 710 (b) ^h	None	None	None	None	None	None	None	None	None	100 (N) (S)

^a See footnote 7 for proration of credits.

^b For credits after Mar. 31, 1951, see col. (4).

^c For a fiscal year 1949 ending after June 30, 1950, see col. (8) for credits applicable after that date.

^d The net income less the credit for partially tax-exempt interest is designated "Adjusted net income." (Sec. 13 (a) of 1939 Code.)

^e The total credit claimed for dividends received (lines 2 through 4) may not exceed for each base: 1950-53, 85 percent of the net income adjusted by the credit for partially tax-exempt interest (line 1) but before any allowance for net operating loss deduction; 1946-49, 85 percent of the net income adjusted by the credit for partially tax-exempt interest and after the allowance of net operating loss deduction; and 1944-45, 85 percent of the net income after net operating loss deduction adjusted by the credit for income subject to the excess profits tax (line 7), plus, for normal-tax net income only, the credit for partially tax-exempt interest.

(c) Net long-term capital gain in excess of net short-term capital loss.—Capital gain and loss provisions are shown in table B of this synopsis.

(d) Consolidated return tax, imposed on an affiliated group of corporations electing to file a consolidated return as an addition to the surtax, is not effective with respect to Western Hemisphere trade corporations included in the affiliated group. Net income of such corporations was exempt from surtax in 1944-49 and beginning with 1950 is exempt from the 2 percent addition to the surtax. (See Regulations 129, sec. 24.30 (b).)

(e) The adjusted excess profits net income for 1950-53 is the excess profits net income less the amounts of the excess profits credit and the unused excess profits credit adjustment. A minimum credit of \$25,000 is provided. Excess profits net income and methods of credit computation are discussed on pages 9-11 of *Statistics of Income for 1951, Part 2*. A change in the percentage of average base period net income used in computing the excess profits credit under the income credit method was made on July 1, 1951. For the period July 1, 1950 through June 30, 1951, this percentage is 85 percent.

^f For treatment of dividends paid with respect to dividends unpaid and accumulated for prior taxable years, and for definitions of public utility and preferred stocks as used for this credit, see sec. 26 (h) of the Code (1939).

^g A domestic corporation, all of whose business is done in any country or countries of North, Central, or South America or in the West Indies, or in Newfoundland is classified as a Western Hemisphere trade corporation if (1) 95 percent or more of its gross income for the 3-year period immediately preceding the close of the taxable year (or for such part of that period as the corporation was in existence) was derived from sources outside the United States; and (2) 90 percent or more of its gross income for such period was derived from the active conduct of a trade or business.

^h For 1944-45, if the excess profits tax is computed under certain special provisions of the 1939 Code (shown in section 26 (e)), the credit is 100/95 of such tax before the application of the 80 percent limitation (footnote 6), before the credit for foreign taxes paid (footnote 5 (a)) and before any adjustment in case of position inconsistent with prior income tax liability (sec. 734).

Beginning July 1, 1951, it is 83 percent. The credit is prorated for fiscal years beginning before and ending after July 1, 1951, and an 84 percent intermediate rate is provided for the calendar year 1951 by the 1939 Code.

Special provisions applicable to computation of excess profits credit of certain companies are shown in *Statistics of Income for 1951, Part 2*, pages 11-12.

For 1944-45 the adjusted excess profits net income is the excess profits net income minus a specific exemption of \$10,000 (\$50,000 for certain mutual insurance companies) and minus the amounts of the excess profits credit and the unused excess profits credit adjustment. The excess profits net income is obtained from the normal-tax income (computed without allowance of credit for income subject to excess profits tax and without allowance of dividends received credit) by making the following adjustments:

(1) Under the income credit method there are added the net short-term capital gain and the adjustment to net operating loss deduction and there is subtracted the sum of:

(a) Net gain from sale or exchange of capital assets.

- (b) Income from retirement or discharge of bonds.
- (c) Refunds and interest on Agricultural Adjustment Act taxes.
- (d) Recoveries of bad debts.
- (e) Dividends received credit adjustment.
- (f) Nontaxable income of certain industries with depletable resources.

(2) Under the invested capital credit method, the excess profits net income is computed as in (1) above plus (a) 50 percent of interest on borrowed capital and (b) interest on Government obligations.

The excess profits credit provisions for the years 1944 and 1945 are alike and are discussed on pp. 64-65 of *Statistics of Income for 1945, Part 2* (pp. 44-45 of the 1944 volume). Under these provisions the excess profits credit based on income consists of 95 percent of the average base period net income and 8 percent of the net capital addition, reduced by 6 percent of the net capital reduction. The excess profits credit based on invested capital is the sum of the following percentages:

	Percent
First \$5,000,000 of invested capital.....	8
Next \$5,000,000 of invested capital.....	6
Over \$10,000,000 of invested capital.....	5

The unused excess profits credit, which is the excess of the excess profits credit over the excess profits net income for the taxable year, is, for 1950-53, carried back as an unused excess profits credit adjustment to the first preceding taxable year, and the remainder, if any, may then be carried forward as an adjustment to succeeding years. The carryforward period is 5 years. No carryback of unused excess profits credit computed under the provisions of the Excess Profits Tax Act of 1950 may be made to taxable years ending before July 1, 1950, and no portion of the minimum \$25,000 credit may be considered as unused excess profits credit. For 1944-45 the carryback period was 2 years and the carryforward period 2 years. For computation of the unused excess profits credit adjustment for the years 1950-53, see sec. 432 of the 1939 Code, and for the years 1944-45, sec. 710(c) of such Code. The unused excess profits credit adjustment shown in *Statistics of Income* is the unused excess profits credit carryforward applicable to the year for which it is reported.

(f) *Declared value excess-profits tax.*—The net income used for the computation of this tax differs from that used for income tax by (i) the disallowance of the deduction for the declared value excess-profits tax, and (ii) exclusion from gross income of the excess of net long-term capital gain over net short-term capital loss. The 85 percent credit for dividends received is allowed against the net income. This tax was imposed on corporations subject to the capital stock tax under sec. 1200 of the 1939 Code. Insurance companies were exempt. The declared value excess-profits tax was repealed, effective for income-tax taxable years ending after June 30, 1946.

(g) *Life insurance companies.*—For 1944-53 the net income reported by a life insurance company is the net investment income (the gross amount of interest, dividends, and rents less investment and real estate expenses, tax-free interest, and depreciation). Normal tax, surtax, and excess profits tax net incomes are derived in the same manner as for other corporations, except that no deduction is allowed for a net operating loss. Before imposition of tax, however, recognition is made of requirements for reserve earnings, deferred dividends, and interest paid. In lieu of deductions for these items, for 1951-53 special income tax rates and a reserve interest credit for companies whose adjusted net income was less than 105 percent of their required interest are used. For 1944-50, a reserve and other policy liability credit based on representative data for the preceding year was allowed. These provisions are offset, in case of nonlife insurance business, by an adjustment for certain nonlife insurance reserves. In computing the excess profits net income for 1950-53 and 1944-45, a deduction based on a reserve and other policy liability credit is allowed. The regular excess profits tax rates are imposed. (Income tax rates applicable to 1951-53 are shown in note 5 below and computation of credits and other provisions are shown in sections 201-203A of the 1939 Code.)

(h) *Mutual insurance companies.*—See footnote 5(c).

(i) *Insurance companies other than life or mutual.*—For income and deductions, see sec. 204 of the Code (1939).

(j) *Regulated investment companies* as defined in sec. 361 of the 1939 Code may compute a tax under the provisions of Supplement Q of such Code if not less than 90 percent of certain net income is distributed to shareholders as taxable dividends. The computation of the Supplement Q net income and Supplement Q surtax net income, which are in general the same for 1944 through 1953, is shown in the facsimile of Form 1120, p. 166. This computation and the tax rates, which are similar to the regular rates, are shown in sec. 362 of the 1939 Code.

(k) *Mutual savings banks conducting separate life insurance departments* compute net income and tax for such departments under the 1939 Code provisions applicable to life insurance companies (see paragraph (g) above). In tabulating the data for *Statistics of Income*, the life insurance department income and tax are added to those reported for the bank department. These banks were exempt from taxation under section 101 prior to 1952 and are now exempt from excess profits tax under section 454 of the 1939 Code.

⁵ The tax rates shown are those applicable, in general, to all corporations, domestic and foreign. Credits against the tax and certain exceptions to the rates are shown in (a) through (i) below:

(a) *Credits against the tax.*—(1) Income and profits taxes paid to foreign countries and possessions of the United States may be used as a credit against the income and excess profits taxes in the manner and to the extent allowed by sec. 131 of the 1939 Code. The allowance of this credit, and the limitations thereon, as applicable for the year 1953, are discussed on pp. 13-17 of this volume.

(2) For 1944-45 a credit of 10 percent of the excess profits tax was allowed against the excess profits tax due for any taxable year beginning after December 31, 1943. However, the majority of the returns for 1944 was filed prior to the enactment of the law (Tax Adjustment Act of 1945) allowing this 10 percent credit and accordingly the data tabulated in *Statistics of Income for 1944* reflect the post-war refund and credit for debt retirement previously in effect.

(b) *Life insurance companies.*—Beginning 1951 special income tax rates are provided. These rates, which are the same for 1951-53 are: 3½ percent on the first \$200,000 of adjusted normal-tax net income and 6½ percent on such net income in excess of \$200,000. (As an offset to these rates, adjustments for nonlife reserves are multiplied by 8.) For 1944-45, the declared value excess-profits tax is not applicable to life insurance companies.

(c) *Mutual insurance companies, except life or marine, or fire insurance companies issuing perpetual policies.*—Sec. 101 (11) of the 1939 Code exempts these companies from taxation if their gross income from interest, dividends, rents, and premiums (including deposits and assessments) does not exceed \$75,000. When such gross income exceeds \$75,000, Supplement G of the 1939 Code provides income taxation based, in general, on the regular corporate rates, but with certain alternative provisions and limitations (see sec. 207 (a) of the 1939 Code). The excess profits tax rate is the same as that for regular corporations with the exception of a limitation for companies whose gross income from the sources shown above is less than \$125,000. See sec. 430 (d) of the 1939 Code.

Mutual insurance companies are not subject to the declared value excess-profits tax, 1944-45.

(d) *Nonresident foreign corporations, not engaged in trade or business within the United States, are taxed, under sec. 231 (a) of the 1939 Code, on income (except interest on bank deposits) from sources within the United States. The tax is 30 percent of such income except as modified by treaties with other nations. Such corporations are not subject to the excess profits and declared value excess-profits taxes. The returns of nonresident foreign corporations are not included in Statistics of Income.*

Under the provisions of Supplement P of the 1939 Code, income of certain foreign personal holding companies is includible in the income of the shareholders and is not reported by the company for taxation.

(e) *Corporations exempt from taxation under sec. 101 of the 1939 Code, such as labor, agricultural or horticultural organizations, certain types of cooperative and mutual organizations, corporations organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes, nonprofit, civic, business, and social organizations, and for 1944-51, certain mutual savings banks, building and loan associations, and cooperative banks. Beginning with 1951 a normal tax and surtax is imposed on the unrelated business net income in excess of \$1,000 of certain of these corporations by Supplement U of the 1939 Code. The rates are similar to the regular corporate income tax rates. However, the returns filed by these corporations are not included in Statistics of Income, Part 2.*

(f) *Additional corporations exempt from the excess profits tax (unless a member of an affiliated group of corporations filing a consolidated return).*—(1) Regulated investment companies (defined in sec. 361 of the 1939 Code); (2) personal holding companies (defined in sec. 501); (3) domestic corporations if 95 percent of gross income for the 3-year period immediately preceding the close of the taxable year was derived from sources outside the United States and 50 percent of such income was derived from active conduct of a trade or business; (4) certain corporations subject to provisions of Title IV of the Civil Aeronautics Act of 1938; and (5) beginning 1952, certain mutual savings banks, building and loan associations, and cooperative banks formerly exempt from taxation under section 101. In addition, personal service corporations may elect to be exempt from the tax on excess profits, tax being imposed under Supplement S on the individual shareholders.

(g) *Western Hemisphere trade corporations* (defined in footnote "g" of note 4 (b) above) are exempt from the surtax for 1944-49. For exemption from the consolidated return tax for 1950-53, see table C of this synopsis.

(h) *Corporations subject to additional tax.*—Personal holding companies are subject to an additional surtax, imposed under ch. 2, subch. A of the 1939 Code, and based on the undistributed subch. A net income. For the years 1944-53 the tax is 75 percent of the undistributed subch. A net income not in excess of \$2,000 plus 85 percent of such income in excess of \$2,000. (See pp. 116-117 of the 1952 volume for general definitions and discussion.)

Corporations (other than personal holding companies) improperly accumulating surplus are subject to an additional surtax imposed by sec. 102 of the 1939 Code. The effects of the provisions of this section are not reflected in *Statistics of Income*.

(i) *Mutual savings banks conducting separate life insurance departments.*—See note 4 (k).

⁶ Limitations on the excess profits tax.—The excess profits tax under the Excess Profits Tax Act of 1950 became effective July 1, 1950, and ended December 31, 1953. Ceiling rates and the alternative tax for new corporations under this act are shown on pp. 12-13 of *Statistics of Income for 1951, Part 2*. For 1944-45 the excess profits tax imposed by sec. 710 of the 1939 Code is limited to the difference between the income tax (other than that shown in footnote 5 (h)) and 80 percent of the surtax net income (computed before the credit for income subject to the excess profits tax and without regard to 80 percent of credit for dividends paid on certain preferred stock). For 1944-45 certain corporations claiming relief under the provisions of sec. 722 of the 1939 Code are permitted to defer payment of 33 percent of the reduction claimed in tax. The privilege is confined to corporations whose adjusted excess profits net income for the taxable year, computed without the benefits of sec. 722, is in excess of 50 percent of the normal-tax net income (computed without the credit for income subject to the excess profits tax). The amount tabulated for *Statistics of Income* is the excess profits tax after this deferment. The excess profits tax effective in 1944-45 was repealed January 1, 1946.

For proration of the excess profits tax for 1953-54, 1949-50, and 1945, see footnote 7.

For special provisions affecting certain companies, see p. 12 of *Statistics of Income for 1951, Part 2*, and the 1939 Code.

⁷ When a return is filed for a taxable year during which a change in tax rates occurs, tentative taxes are computed applying each rate in effect during the taxable year to the entire taxable income. The amounts so determined are then prorated on the basis of the number of days in the year during which each rate is in effect. The prorated portions of the tentative taxes are then combined to determine the actual liability which is the amount tabulated in *Statistics of Income*. Since the computation of credits against net income, used in determining the normal-tax and surtax net incomes, is included in the tax computation, changes in such adjustments during the taxable year are reflected in the tentative taxes.

⁸ A tentative surtax is computed at 19 percent of the surtax net income in excess of \$25,000. The actual liability is then determined by reducing this amount by 1 percent of the lower of (a) partially tax-exempt interest, or (b) surtax net income in excess of \$25,000.

⁹ The excess profits tax imposed by the Excess Profits Tax Act of 1950 was in effect from July 1, 1950 through December 31, 1953. For taxable years beginning before or ending after these dates, the tax is the prorated portion applicable to that part of the year the tax was in effect. See footnote 7.

¹⁰ For fiscal years beginning in 1949 and ending after June 30, 1950, the rates shown for the income year 1950 fiscal year period beginning

July 1, 1950, and ending March 31, 1951, are effective after June 30, 1950. For proration of tax, see footnote 7.

¹¹ For income year 1945 returns ending after December 31, 1945, see footnote 7 for proration of surtax.

The excess profits tax effective in 1945 was repealed January 1, 1946, and the tax for fiscal year returns was prorated according to the number of days before that date.

The declared value excess-profits tax was repealed for income-tax taxable years ending after June 30, 1946, and was not subject to proration.

¹² For specific instructions for determination of period held with respect to certain items in parts (2) and (3) of col. 3, see appropriate subsection of sec. 117 of the 1939 Code.

¹³ Net capital gain is the excess of gains from sales or exchanges of capital assets over losses from such sales or exchanges. Both short- and long-term gains and losses are included. Conversely net capital loss is the excess of losses over gains.

¹⁴ Effective for taxable years beginning after September 23, 1950.

¹⁵ See sec. 117 (f) through (o) and sec. 23 (g), (j), and (k).

¹⁶ Applicable to involuntary conversion of capital assets, involuntary conversion, sale, or exchange of real property and property subject to depreciation which was used in the trade or business, amounts received for timber and amounts received or accrued for coal after December 31, 1950, where disposal was by contract under which owner retained an economic interest, all of above property having been held for more than 6 months; timber held for more than 6 months before beginning of taxable year in which cut, if taxpayer so elects; certain unharvested crops on business real property held for more than 6 months and sold in a taxable year beginning after December 31, 1950; and livestock, except poultry, held for draft, breeding, or dairy purposes for 12 months (prior to December 31, 1950, holding period was 6 months and poultry was not excluded). Depreciable property in items 3 (a) and (e) of table are excluded.

¹⁷ Applicable to sales or exchanges made after November 19, 1951.

¹⁸ Applicable to sales or exchanges made after May 3, 1951.

¹⁹ In the case of a domestic corporation owning or controlling, directly or indirectly, 100 percent of the capital stock (exclusive of directors' qualifying shares) of a corporation organized under the laws of Canada or of Mexico and maintained solely for the purpose of complying with the laws of such country as to title and operation of property, such foreign corporation may, at the option of the domestic corporation, be treated as a domestic corporation.

QUESTIONS

- If this is the corporation's first return, indicate whether (a) completely new business ☐, or (b) successor to previously existing business, which was organized as (1) corporation ☐, (2) partnership ☐, or (3) sole proprietorship ☐, or (4) other (indicate) _____. If successor to previously existing business, give name and address of the previous business organization _____.
- District Director's office where the corporation's return for the preceding year was filed _____.
- Enter amount of income (or deficit) from item 32, page 1, Form 1120 for 1952 \$_____.
- The corporation's books are in care of _____.
- Located at _____.
- Check if the corporation is a farmers' marketing or a farmers' purchasing cooperative association ☐, a consumers' cooperative association ☐, or other cooperative association ☐.
- Is the corporation a personal holding company within the meaning of section 501 of the Internal Revenue Code? (If so, an additional return on Form 1120 H must be filed.) _____.
- Is this a consolidated return? _____ (If so, procure from the District Director of Internal Revenue for your district Form 851, Affiliations Schedule, which shall be filled in and filed as a part of this return; each subsidiary should procure Form 1122 and file in accordance with Instruction I.)
- If this is not a consolidated return: (a) Did the corporation at any time during the taxable year own 50 percent or more of the voting stock of another corporation either domestic or foreign? _____; (b) did any corporation, individual, partnership, trust, or association at any time during the taxable year own 50 percent or more of the corporation's voting stock? _____.
- (If either answer is "yes," attach separate schedule showing: (1) Name and address; (2) percentage of stock owned; (3) date stock was acquired; and (4) the District Director's office in which the income tax return of such corporation, individual, partnership, trust, or association for the last taxable year was filed.)
- Check whether this return was prepared on the cash basis ☐ or accrual basis ☐.
- Check basis of valuing or method of inventorying material or merchandise at the beginning and end of the taxable year—(a) cost ☐; (b) cost or market, whichever is lower ☐; (c) elective method provided in section 22 (d) ☐; (d) other basis or method ☐. If other basis or method is used, explain fully in separate statement, giving date inventory was last reconciled with stock (see Specific Instructions 2).
- Did the corporation make a return of information on Forms 1096 and 1099 or Form W-2a for the calendar year 1953? (See General Instruction G-(1)) _____.
- Has any transaction described in General Instruction G-(3) occurred on or after October 8, 1940? (Answer "yes" or "no") _____.
- Has any transaction described in General Instruction G-(4) occurred on or after January 1, 1951? (Answer "yes" or "no") _____.
- Did the corporation, during the taxable year, have any contracts or subcontracts subject to the Renegotiation Act of 1951? (Answer "yes" or "no") _____. If answer is "yes," state the approximate aggregate gross dollar amount billed during the taxable year under all such contracts and/or subcontracts. \$_____. (See General Instruction G-5.)
- Did the corporation at any time during the taxable year own directly or indirectly any stock of a foreign corporation? _____ (If so, attach statement as required by General Instruction K.)

16. Total of lines 1 to 15	\$		

How To Prepare Your 1953 Corporation Income Tax Return ON FORM 1120

References are to the Internal Revenue Code, unless otherwise indicated

GENERAL INSTRUCTIONS

A. Corporations required to make a return on Form 1120.—Every domestic and every resident foreign corporation not expressly exempt from taxation under chapter 1 (see section 101), whether or not having any net income, must file a return. The term "corporation" is defined by the Code to include associations, joint-stock companies, and insurance companies.

Receivers, trustees in dissolution, trustees in bankruptcy, and assignees, operating the property or business of corporations, must make returns of income for such corporations. If a receiver has full custody of and control over the business or property of a corporation, he shall be deemed to be operating such business or property, whether he is engaged in carrying on the business for which the corporation was organized or only in marshaling, selling, disposing of its assets for purposes of liquidation.

A mutual savings bank not having capital stock represented by shares; a domestic building and loan association, a domestic savings and loan association, a Federal savings and loan association, substantially all the business of which is confined to making loans to members; and a cooperative bank without capital stock and operated for mutual purposes and without profit are subject to income tax (except excess profits tax) and must file returns.

B. Period to be covered by return.—Returns shall be filed for the calendar year 1953 or fiscal year beginning in 1953 and ending in 1954. A fiscal year is an accounting period of 12 months ending on the last day of a calendar month other than December.

A change in the established accounting period may be made without prior permission if (1) no change in accounting period has been made within the 5 calendar years ending with the calendar year which includes the beginning of the short taxable year required to effect the change and (2) if such short taxable year embraces a period of 3 months or less or a period of 9 months or more and (3) if net income for the short period, computed on an annual basis, is at least 80 percent of net income for the full taxable year immediately preceding the short period. A return filed under these provisions must be filed on or before the 15th day of the third full calendar month following the close of the short taxable year, together with a statement that it is made under the authority of section 39.46-1 of Regulations 118. Further information with respect to these provisions may be obtained from the office of the District Director of Internal Revenue.

If the above conditions are not met, prior approval must be secured in order to change the accounting period. Such approval may be secured by filing an application on Form 1128 with the Commissioner of Internal Revenue, Washington 25, D. C., on or before the 15th day following the close of the short taxable year required to effect the change.

C. Basis of return.—If your books of account are kept on the accrual basis, report all income accrued, even though it has not been actually received, and expenses incurred instead of expenses paid. If your books are not kept on the accrual basis or if you kept no books, make your return on a cash basis and report all income received or constructively received, such as bank interest credited to your account and coupon bond interest matured, and report expenses actually paid.

See section 24 (c) for limitation on deductions for unpaid expenses and interest applicable to taxpayers on the accrual basis.

D. Filing of return and payment of tax.—Returns of domestic and resident foreign corporations must be filed on or before the 15th day of the third month following the close of the taxable year with the District Director of Internal Revenue for the district in which the corporation's principal place of business or principal office or agency is located.

The tax must be paid in full when the return is filed, or in four installments, as follows: 45 percent on or before the 15th day of the third month; 45 percent on or before the 15th day of the sixth month; 5 percent on or before the 15th day of the ninth month; and 5 percent on or before the 15th day of the twelfth month following the close of the taxable year. If any installment is not paid on or before the date fixed for its payment, the whole amount of the tax unpaid shall be paid upon notice and demand by the District Director. The tax may be paid by sending or bringing with the return a check or money order drawn to the order of

"District Director of Internal Revenue." Do not send cash by mail, nor pay it in person except at the District Director's office.

E. Declaration.—The return must be signed by the president, vice president, or other principal officer, and by the treasurer, assistant treasurer, or chief accounting officer. When the return is actually prepared by some person or persons other than officers or employees of the corporation, such person or persons must also sign the declaration at the foot of page 1.

F. Penalties.—Severe penalties are imposed for failing to file a return, for late filing, and for filing a false or fraudulent return.

G-(1). Information at the source.—Every corporation making payments of (1) interest, rents, commissions, or other fixed or determinable income of \$600 or more during the calendar year 1953 to an individual, a partnership, or a fiduciary, or (2) salaries or wages of \$600 or more shall make a return on Forms 1096 and 1099, except that the making of such return will not be required with respect to salary or wage payments included on Form W-2, provided copies of withholding statements on Form W-2a are furnished. If a portion of such salary or wage payments was reported on a Withholding Statement (Form W-2a), only the remainder must be reported on Form 1099.

Except as stated below, the returns on Forms 1096 and 1099 shall also include dividend payments totaling \$10 or more during the calendar year 1953 to each shareholder who is an individual (citizen or resident of the United States), a resident fiduciary, or a resident partnership any member of which is a citizen or resident. In the case of a building and loan association, a cooperative bank, a homestead association, a credit union, or a savings and loan association, such total shall be \$600 or more, and in the case of a corporation described in section 101 (10), (11), (12), or (13), such total shall be \$100 or more.

The returns on Forms 1096 and 1099 shall also include (except in the case of insurance companies taxable under Supplement G and corporations exempt under section 101 (10) or (11)) patronage dividends, rebates, and refunds totaling \$100 or more during the calendar year 1953. Include all amounts allocated as patronage dividends, rebates, and refunds, whether in cash, merchandise, capital stock, revolving fund certificates, retain certificates, certificates of indebtedness, letters of advice, or in some other manner.

G-(2). Information regarding dissolution or liquidation.—Every corporation shall, within 30 days after the adoption by the corporation of a resolution or plan for the dissolution of the corporation or for the liquidation of the whole or any part of its capital stock, render a correct return on Form 966 setting forth the terms of such resolution or plan.

Every corporation making distributions in liquidation of the whole or any part of its capital stock shall also make returns on Forms 1096 and 1099L, as required by instructions on Form 1096, for the calendar year 1953.

G-(3). Acquisition of interest in or control of a corporation or property after October 8, 1940.—The transactions to which reference is made in question 12 on page 3 are the following:

(a) Any acquisition, directly or indirectly, on or after October 8, 1940, by a corporation filing a return, or by any person or interest controlling it, or by any corporation or interest which it controls, of control of a corporation; or

(b) Any acquisition, directly or indirectly, on or after October 8, 1940, by a corporation filing a return, or by any corporation or interest which it controls, of property of another corporation not controlled, directly or indirectly, immediately prior to such acquisition, by such acquiring corporation or its stockholders, the basis of which property, in the hands of the acquiring corporation, is determined by reference to the basis in the hands of the transferor corporation.

For the purpose of the above, control means the ownership of stock possessing at least 50 percent of the total combined voting power of all classes of stock entitled to vote or at least 50 percent of the total value of shares of all classes of stock of the corporation.

G-(4). Certain transfers of property on or after January 1, 1951.—Under certain circumstances the \$25,000 exemption from surtax and the minimum excess profits credit of \$25,000 are not allowed or they may be reduced to a lesser figure.

PAGE 2

Section 15 (c) provides that if a corporation on or after January 1, 1951, transfers all or part of its property (other than money) to another corporation which was created for the purpose of acquiring such property or which was not actively engaged in business at the time of such acquisition and if after such transfer the transferor corporation or its stockholders, or both, are in control of such transferee corporation during any part of the taxable year of such transferee corporation, the transferee corporation shall not for such taxable year be allowed either the \$25,000 exemption from surtax or the \$25,000 minimum excess profits credit provided in the last sentence of section 431, unless such transferee corporation shall establish by clear preponderance of the evidence that the securing of such exemption or credit was not a major purpose of such transfer. Rules are provided for the determination of the ownership of stock for the purposes of the subsection. For allocation of the surtax exemption and minimum excess profits credit in certain cases, see section 129 (b). For the purposes of the above, control means the ownership of stock possessing at least 80 percent of the total combined voting power of all classes of stock entitled to vote or at least 80 percent of the total value of shares of all classes of stock of the corporation.

G-(5). Information regarding renegotiable contracts.—Every corporation which held, during the taxable year, contracts or subcontracts which were designated as subject to the Renegotiation Act of 1951, shall, in answer to question 14, page 3, state the actual, or if not accurately determinable, its best estimate of the aggregate gross dollar amount billed during the current taxable year under all contracts and/or subcontracts. The gross contract amount billed on cost-plus-fixed-fee contracts, and not merely the fixed fee, shall be included. The term "subcontract" may be defined as any purchase order or agreement to perform all or any part of the work, or to make or furnish any article, required for the performance of another contract or subcontract.

H. Returns of certain corporations. *Domestic corporations entitled to benefits of section 251.*—Domestic corporations within the possessions of the United States (except the Virgin Islands) may report as gross income only gross income from sources within the United States, provided (a) 80 percent or more of the gross income for the 3-year period immediately preceding the close of the taxable year (or such part thereof as may be applicable) was derived from sources within a possession of the United States, and (b) 50 percent or more of the gross income for such period or such part thereof was derived from the active conduct of a trade or business within a possession of the United States. (See section 251.)

Resident foreign corporations.—Foreign corporations which at any time within the taxable year are engaged in trade or business within the United States shall make returns on Form 1120 of income received from sources within the United States.

Nonresident foreign corporations.—Foreign corporations not engaged in trade or business within the United States at any time within the taxable year are subject to tax upon gross income from sources within the United States (determined under the provisions of section 119) which is fixed or determinable, annual or periodical gains, profits, and income, and are required to make returns on Form 1120NB with respect to such income only in the event their tax liability has not been fully satisfied at the source.

Insurance companies.—Life insurance companies subject to tax imposed by section 201 shall make returns on Form 1120L. Mutual insurance companies subject to tax imposed by section 207 shall make returns on Form 1120M. Insurance companies described in section 204 (a) (1) and certain mutual savings banks conducting life insurance business shall make returns on Form 1120, and there should be filed with the return a copy of the 1953 annual statement approved by the National Convention of Insurance Commissioners which contains the underwriting and investment exhibit. A copy of such annual statement for 1952 should also be furnished if not filed for such year.

Regulated investment companies.—An investment company will not satisfy the requirements of section 361 so as to come within the term "regulated investment company" for any taxable year unless it files with its return for the taxable year an irrevocable election to be a regulated investment company. If for any given year the investment company satisfies the other requirements of section 361 it will be considered a regulated investment company.

Personal holding companies.—Section 500 imposes a surtax upon the undistributed subchapter A net income of corporations, classified as personal holding companies. Every personal holding company must file an additional return on Form 1120H.

Section 501 (a) (1) and (2) defines a "personal holding company" as a corporation if at least 80 percent (see modifications in section 501 (a) (1)) of its gross income for the taxable year is personal holding company income as defined in section 502, and at any time during the last half of the taxable year more than 50 percent in value of its outstanding stock is owned, directly or indirectly, by or for not more than five individuals. (See sections 500-511.)

Foreign personal holding companies.—Section 337 (a) requires that the undistributed supplement P net income of a foreign personal holding company, as defined in section 331, shall be included as a dividend in the gross income of the United States shareholders in the amount provided by subsection (b). Form 1120H is not required, but monthly and annual information returns on Forms 957 and 958 must be filed by the officers, directors, and certain United States shareholders as provided by sections 338 and 339.

A foreign corporation which is a personal holding company, as defined in section 501 but not within the definition of section 331, is subject to the surtax imposed by section 500 and must file an additional return on Form 1120H.

I. Consolidated returns.—Subject to the provisions of section 141 and the regulations, an affiliated group of corporations may make a consolidated income tax (including excess profits tax) return in lieu of separate returns. The making of a consolidated return shall be upon the condition that all corporations which at any time during the taxable year have been members of the affiliated group making a consolidated return consent to all the consolidated returns regulations prescribed under section 141 (b) prior to the last day prescribed by law for filing such return. The common parent corporation, when filing a consolidated return, shall attach thereto a schedule showing the names and addresses of all the corporations included in the return. Each subsidiary must prepare two duplicate originals of Form 1122 consenting to regulations and authorizing the making of the return on its behalf. One such form shall be attached to the consolidated return as a part thereof, and the other shall be filed, at or before the time the consolidated return is filed, in the office of the District Director for the subsidiary's district.

Supporting schedules shall be filed with the consolidated return. These schedules shall be prepared in columnar form, one column being provided for each corporation included in the consolidation, showing in detail the items of gross income and deductions and the computation of net income; one column for a total of like items before adjustments are made; one column for intercompany eliminations and adjustments; and one column for a total of like items after giving effect to the eliminations and adjustments. The items included in the column for eliminations and adjustments should be symbolized to identify contra items affected, and suitable explanations appended, if necessary. Similar schedules shall also contain in columnar form a reconciliation of surplus for each corporation, together with a reconciliation of the consolidated surplus.

Consolidated balance sheets as of the beginning and close of the taxable year of the group shall accompany the consolidated return in a form similar to that required for reconciliation of surplus.

J. Surtax on improperly accumulated surplus.—In order to prevent accumulation of earnings or profits for the purpose of enabling shareholders to avoid the surtax on individuals, section 102 provides an additional tax upon the net income of corporations formed or utilized for the purpose of such tax avoidance. This additional tax is equal to the sum of the following:

Twenty-seven and one-half percent of the amount of the undistributed section 102 net income not in excess of \$100,000, plus 38½ percent of such net income in excess of \$100,000.

K. Stock ownership in foreign corporations.—In addition to the information to be shown in Schedule C of the return, a corporation owning any stock of a foreign corporation must attach a statement showing the name and address of each company and the total number of shares of each class of outstanding stock owned during the taxable year. If the corporation owned 5 percent or more in value of the outstanding stock of a foreign personal holding company, attach a statement setting forth in complete detail the information required by section 337 (d).

L. Balance sheets.—The balance sheets, Schedule L, should agree with the books of account or any differences should be reconciled. The balance sheets for a consolidated return of affiliated corporations should be furnished in accordance with Instruction I. All corporations reporting to the Interstate Commerce Commission or to any National, State, municipal, or other public officer, may submit, in lieu of Schedule L, copies of their balance sheets prescribed by said Commission or State and municipal authorities as at the beginning and end of the taxable year.

In case the balance sheet as at the beginning of the current taxable year does not agree in every respect with the balance sheet which was submitted as at the end of the previous taxable year, the differences should be fully explained.

M. Forms other than prescribed by return.—Banks, insurance companies, and other corporations required to submit statements of income and expenses to any National, State, municipal, or other public officer may submit with the return a statement of income and expenses in the form furnished to such officer, in lieu of the information requested in items 1 to 34, page 1, except that a railroad company may submit with the return a statement on Form 1090. In such cases the net income will be reconciled by means of Schedule M with the net profit shown by the income and expense statement submitted, and should be entered as item 34, page 1.

N. PRINCIPAL BUSINESS ACTIVITY

In reporting the "Principal business activity," on page 1, give the one business activity that accounts for the largest percentage of "total receipts." "Total receipts" means gross sales (line 1), plus gross receipts (line 4), plus all other income (lines 7 through 14). State the broad field of business activity as well as the specific product or service, such as "Mining copper," "Manufacturing cotton broad woven fabric," "Wholesale food," or "Retail apparel." *Where receipts are derived from two or more of the detailed industry groups listed below, show only one which is the major source of receipts.* Use the appropriate group under the heading "FINANCE" if over 50 percent of "total receipts" consists of investment income.

Enter the "business group code number" on page 1 from the following list. Give the code for the specific industry group from which the largest percentage of "total receipts" is derived.

AGRICULTURE, FORESTRY, AND FISHERIES		Code		Code		Code	
Code		254 Partitions, shelving, lockers; and office and store fixtures.		357 Office and store machines and devices.		516 Lumber, millwork, and construction materials.

						783 Motion picture theaters.	
						791 Amusement and recreation services except motion pictures.	
						801 Other services, including schools.	

PAGE 4

SPECIFIC INSTRUCTIONS (Numbered to correspond with item numbers on page 1 of return)

2. **Cost of goods sold.**—If the production, manufacture, purchase, or sale of merchandise is an income-producing factor in the trade or business, inventories of merchandise on hand should be taken at the beginning and end of the taxable year, which may be valued at (a) cost, or (b) cost or market, whichever is lower. The basis properly adopted is controlling until permission to change is obtained from the Commissioner. Application for permission to change the basis of valuing inventories shall be made in writing and filed with the Commissioner within 90 days after the beginning of the taxable year in which it is desired to effect a change. Enter the letters "C" or "C or M" immediately before the amount column in Schedule A, if the inventories are valued at either cost, or cost or market, whichever is lower. Indicate in answer to question 10, on page 3, the basis of valuing or method of inventorying merchandise and furnish the information required by such question. In case the inventories reported do not agree with the balance sheet, attach a statement explaining the difference.

A corporation electing to have applied the method of taking inventory provided for in section 22 (d) should file Form 970 with the return for the first year of the election. Thereafter, attach separate schedule showing: (1) a summary of all inventories; (2) with respect to inventories computed under section 22 (d), if any, the computation of the quantities and cost by acquisition levels.

9. **Interest on corporation bonds, etc.**—Enter net amount of interest from column 3 of Schedule C-1, page 2, on bonds, debentures, notes, or certificates or other evidence of indebtedness, issued by any corporation and bearing interest, with interest coupons or in registered form. Do not include interest on any such obligations which constitute stock in trade of the taxpayer or any such obligations of a kind which would properly be included in the inventory of the taxpayer if on hand at the close of the taxable year, or any such obligations held by the taxpayer primarily for sale to customers in the ordinary course of his trade or business. Such interest should be entered in item 8. For provisions relating to amortizable bond premium by the owner of a bond, see sections 23 (v) and 125.

10. **Interest on obligations of the United States, etc.**—Enter from column 3, Schedule C-1, the total of lines (a), (b), and (c). Also enter on line 4, Schedule L, the amounts of the various obligations owned. Enter on line 19, Schedule M, all interest received or accrued during the year on the various obligations listed therein. The total amount of interest reported on lines (a) and (b) in column 3 of Schedule C-1, page 2, is allowable as a credit against net income. The amount of interest received or accrued on obligations issued on or after March 1, 1941, by the United States or any agency or instrumentality thereof should be entered on line (c), Schedule C-1. For provisions relating to amortizable bond premium by the owner of a bond, see sections 23 (v) and 125.

For special rules applicable, in the case of dealers in securities, with respect to premium attributable to certain tax-exempt securities, see section 22 (o).

Non-interest-bearing obligations issued at a discount.—Taxpayers on the cash basis may elect, as to all non-interest-bearing obligations issued at a discount and redeemable for fixed amounts increasing at stated intervals (for example, United States Saving Bonds), to include the increase in redemption price applicable to the current year. For the year of election the total increase in redemption price of such obligations occurring between the date of acquisition and the end of the year must be included. Taxpayers so electing shall report such income as interest in item 8, 9, or 10, page 1, whichever is applicable, and attach statement listing obligations owned and computation of accrued income.

11. **Rents.**—Enter the gross amount received for the rent of property. Any expenses, including repairs, interest, taxes, and depreciation, should be included in the proper items of deductions on page 1.

12. **Royalties.**—Enter the gross amount received as royalties. If a deduction is claimed for depletion, it should be reported as item 26, page 1.

13. **Gains and losses from sales or exchanges of capital assets and other property.**—The computation of gains and losses from sales or exchanges of capital assets and property other than capital assets should be made on separate Schedule D. Every sale or exchange of property, even though no gain or loss is indicated, must be reported in detail. If for any taxable year the net long-term capital gain exceeds the net short-term capital loss, or in case of only a net-long term capital gain, a computation of the alternative tax should be made on separate Schedule D.

The results computed on separate Schedule D must be shown in appropriate item and line, pages 1 and 3 of Form 1120.

For further information relating to gains and losses from sales or exchanges of property, see instructions on back of separate Schedule D.

14. **Other income.**—List all other income not reported elsewhere in the return. War loss recoveries received during the year should be determined in accordance with section 127 (c) and the applicable regulations.

18. **Rent.**—Enter rent paid or accrued for business property in which the corporation has no equity.

19. **Repairs.**—Enter the cost of incidental repairs, including labor, supplies, and other items, which do not add to the value or appreciably prolong the life of the property. Expenditures for new buildings, machinery, equipment, or for permanent improvements or betterments which increase the value of the property are chargeable to capital account. Expenditures for restoring or replacing property are not deductible, as such expenditures are chargeable to capital accounts or to depreciation reserve, depending on how depreciation is charged on the books of the corporation.

20. **Bad debts.**—Bad debts may be treated in either of two ways—(1) by a deduction from income in respect of debts which become worthless in whole or in part, or (2) by a deduction from income of a reasonable addition to a reserve for bad debts.

A taxpayer filing a first return of income may select either of the two methods, which method must be followed in returns for subsequent years, unless permission is granted by the Commissioner to change to the other method. Application for permission to change the method shall be made in writing at least 30 days prior to the close of the taxable year for which it is desired to effect the change.

Worthless debts arising from unpaid wages, salaries, rents, and similar items of taxable income, will not be allowed as a deduction unless the income such items represent has been included in the return of income for the year for which the deduction as a bad debt is sought to be made or for a previous year.

For treatment of bad debts of a mutual savings bank not having capital stock represented by shares, a domestic building and loan association, and a cooperative bank without capital stock organized and operated for mutual purposes and without profit, see section 23 (k) (1) and the regulations thereunder.

21. **Interest.**—Enter interest paid or accrued on business indebtedness. Do not include in item 21 interest on indebtedness incurred or continued to purchase or carry obligations (other than obligations of the United States issued after September 24, 1917, and originally subscribed for by the taxpayer) the interest upon which is wholly exempt from taxation.

22. **Taxes.**—Enter taxes paid or accrued during the taxable year and fill in Schedule G. Do not include Federal income, war-profits, and excess-profits taxes; estate, inheritance, legacy, succession, and gift taxes; foreign or possession income taxes if any credit is claimed in item 36, page 1; taxes assessed against local benefits tending to increase the value of the property assessed; Federal taxes paid on bonds containing a tax-free covenant, nor taxes not imposed upon the taxpayer.

23. **Contributions or gifts paid.**—Enter contributions or gifts actually paid within the taxable year to or for the use of (1) the United States, any State, Territory, or any political subdivision thereof or the District of Columbia, or any possession of the United States, for exclusively public purposes; (2) a corporation, trust, or community chest, fund, or foundation, created or organized in the United States or in any possession thereof or under the law of the United States, or of any State or Territory, or of the District of Columbia, or of any possession of the United States, organized and operated exclusively for religious, charitable, scientific, veteran rehabilitation service, literary, or educational purposes or the prevention of cruelty to children (but in the case of contributions or gifts to a trust, chest, fund, or foundation only if such contributions or gifts are to be used within the United States or any of its possessions exclusively for such purposes), no part of the net earnings of which inures to the benefit of any private shareholder or individual, and no substantial part of the activities of which is carrying on propaganda, or otherwise attempting to influence legislation; or (3) posts or organizations of war veterans, or auxiliary units of, or trusts or foundations for, any such posts or organizations, if such posts, organizations, units, trusts, or foundations are organized in the United States or any of its possessions, and if no part of their net earnings inure to the

benefit of any private shareholder or individual. The amount claimed shall not exceed 5 percent of the corporation's net income as computed without the benefit of this deduction. In the case of a corporation on the accrual basis, any contribution or gift will, at the election of the taxpayer, made at the time the return is filed, be considered as paid during the taxable year if payment is actually made on or before the fifteenth day of the third month following the close of the taxable year, and if the contribution or gift has during the taxable year been authorized by the board of directors of the corporation. A copy of such authorization must be attached to the return. Do not deduct as a business expense charitable contributions which come within the above description, but which might be unallowable in whole or in part, because of the limitation contained in section 23 (q). List organizations and amounts contributed to each in Schedule H.

24. Losses by fire, storm, shipwreck, or other casualty, or theft.—Enter losses of property sustained during the year, arising from fire, storm, shipwreck, or other casualty, or from theft. Losses should be explained in an attached schedule setting forth a description of the property, date acquired, cost, subsequent improvements, depreciation allowable since acquisition, insurance, salvage value, and deductible loss.

25. Depreciation.—The amount deductible on account of depreciation is an amount reasonably measuring the portion of the investment in depreciable property (1) used in the trade or business, or (2) held for production of income, by reason of exhaustion, wear and tear, including a reasonable allowance for obsolescence, which is properly chargeable for the year. If the property was acquired by purchase on or after March 1, 1913, the amount of depreciation should be determined upon the basis of the original cost (not replacement cost) of the property, and the probable number of years remaining of its expected useful life. In case the property was purchased prior to March 1, 1913, the amount of depreciation will be determined in the same manner, except that it will be computed on its original cost, less depreciation sustained prior to March 1, 1913, or its fair market value as of that date, whichever is greater. If the property was acquired in any other manner than by purchase, see section 114. The capital sum to be recovered should be charged off ratably over the useful life of the property. Whatever plan or method of apportionment is adopted must be reasonable and must have due regard to operating conditions during the taxable year and should be described in the return. Stocks, bonds, and like securities are not subject to depreciation within the meaning of the law.

If a deduction is claimed on account of depreciation, fill in Schedule I. In case obsolescence is included, state separately amount claimed and basis upon which it is computed. Cost or value of land must not be included in this schedule, and where land and buildings were purchased for a lump sum the cost of the building subject to depreciation must be established. The adjusted property accounts and the accumulated depreciation shown in the schedule should be reconciled with those accounts as reflected on the books of the taxpayer. (See sections 23 (1) and 114.)

For treatment of depreciation allowed (in excess of amount allowable) which did not result in reduction of income or excess profits taxes, see instructions on back of separate Schedule D.

26. Depletion of mines, oil and gas wells, timber, etc.—If a deduction is claimed on account of depletion, procure from the District Director: Form M (mines and other natural deposits), Form O (oil and gas), or Form T (timber), fill in and file with return. If complete valuation data have been filed with questionnaire in previous years, then file with your return information necessary to bring your depletion schedule up to date, setting forth in full statement of all transactions bearing on deductions from or additions to value of physical assets during the taxable year with explanation of how depletion deduction for the taxable year has been determined. (See section 23 (m) and section 114 (b).) For any taxable year ending after December 31, 1950, expenditures to be deferred and deducted ratably under the election provided in sections 23 (cc) (2), relating to certain expenditures in the development of mines, and 23 (ff) (2), relating to deductions for mine exploration, are not to be taken into account in determining the adjusted basis for property for the purpose of computing a deduction for depletion under section 114. See note under Schedule J for information to be submitted in the case of expense deductions for development and exploration of mines, and oil and gas wells.

27. Amortization.—If the corporation elects the deduction with respect to the amortization of the adjusted basis of (a) any emergency facility with respect to which the Government has issued a certificate of necessity, or (b) a grain storage facility, a statement of the pertinent facts should be filed with its election. (See sections 124A and 124B and the regulations thereunder.)

28. Advertising.—Enter in item 28 the total amount paid or incurred during the year for advertising. Expenditures for advertising, to be deductible, must be ordinary and necessary and bear a reasonable relation to the business activities in which the corporation is engaged.

29 (a). Amounts contributed under a pension, annuity, stock bonus, or profit-sharing plan.—Enter in item 29 (a) the total amount deductible under section 23 (p). A corporation claiming a deduction under section 23 (p) must submit with its return, in addition to the information specified in the regulations concerning such deduction, a statement with respect to each plan showing the type of plan, i. e., pension, annuity, profit-sharing, stock bonus, or other plan deferring the receipt of compensation, whether or not the plan is qualified under section 165 (a), and the method of funding, i. e., individual annuity or insurance contracts, group annuity contract, group permanent contract, or self-insured trust. If not funded, so indicate.

29 (b). Amounts contributed under other employee benefit plans.—Enter in item 29 (b) deductions for contributions to employee benefit plans other than those claimed in item 29 (a), such as insurance, health, or welfare plan. Submit with the return a schedule for each plan showing (1) the nature of benefits, i. e., group term life insurance, group permanent life insurance, non-insured death benefit, hospitalization, surgical, medical, sickness, accident, major medical expense, or other welfare benefits; (2) method of financing, i. e., insured, industry or area wide fund, self-insured fund, or direct benefit payments; (3) the amount of deduction; (4) the amount of employee contributions; (5) the number of employees covered; and (6) if a self-insured plan, the amount of benefits paid during the taxable year. Also show the number of employees employed by the corporation.

30. Other deductions authorized by law.—Enter in item 30 any other authorized deductions for which no space is provided on the return. Any deduction claimed should be explained in Schedule J. See note under Schedule J for information to be submitted in case of expense deductions for development and exploration of mines, and oil and gas wells.

Do not deduct losses incurred in transactions which were neither connected with the corporation's trade or business nor entered into for profit.

No deduction is allowable for the amount of any item or part thereof allocable to a class of exempt income, other than interest. Items directly attributable to such exempt income shall be allocated thereto, and items directly attributable to any class of taxable income shall be allocated to such taxable income. If an item is indirectly attributable both to taxable income and exempt income, a reasonable proportion thereof, determined in the light of all the facts and circumstances in each case, shall be allocated to each. Apportionments must in all cases be reasonable. A taxpayer receiving any exempt income, other than interest, or holding any property or engaging in any activity the income from which is exempt, shall submit with its return as a part thereof an itemized statement, in detail, showing (1) the amount of each class of exempt income, and (2) the amount of expense items allocated to each such class (the amount allocated by apportionment being shown separately).

In the case of mutual savings banks, cooperative banks, and domestic building and loan associations, any amounts paid or credited to the accounts of depositors or holders of accounts as dividends on their deposits or withdrawable accounts, if such amounts may be withdrawn on demand subject only to customary notice of intention to withdraw, are allowable deductions in computing net income.

A special deduction in computing net income is allowed a mutual savings bank not having capital stock represented by shares, a domestic building and loan association, or a cooperative bank without capital stock organized and operated for mutual purposes and without profit, for repayment during the taxable year of loans made before September 1, 1951, by the United States or its wholly owned agencies, or by a mutual fund established under the authority of State law. (See section 3797 (a) for definition of the term "domestic building and loan association.")

33. Net operating loss deduction.—In determining the net operating loss deduction for any taxable year, the aggregate of the net operating loss carry-overs and carry-backs to such year is reduced by the excess of the net income for the year computed with the adjustments described in (a), (b), and (c), below, over the normal-tax net income computed without regard to the net operating loss deduction, without the credit for dividends paid on certain preferred stock of a public utility and without the credit allowable to Western Hemisphere trade corporations. The net operating loss deduction claimed on a return is computed without regard to carry-backs from succeeding years (a claim must be filed with respect to such carry-backs). Section 122 provides detailed rules for the computation of the net operating loss deduction.

PAGE 6

A net operating loss is the excess of the deductions allowed by chapter 1 over the gross income, taking into consideration the following adjustments:

(a) The deduction for depletion shall not exceed the amount which would be allowed if computed without reference to discovery value or to percentage depletion under section 114 (b) (2), (3), or (4);

(b) There shall be included in computing gross income the amount of interest received which is wholly exempt from the taxes imposed by chapter 1, decreased by the amount of interest paid or accrued which is not allowed as a deduction by section 23 (b), relating to interest on indebtedness incurred or continued to purchase or carry certain tax-exempt obligations; and

(c) No net operating loss deductions shall be allowed.

If the taxable year in which the net operating loss is sustained begins on or after January 1, 1948, and before January 1, 1950, the net operating loss is carried back to the two preceding taxable years and carried over to the three succeeding taxable years. The net operating loss is carried back first to the earliest year to which it may be carried and to the extent that it exceeds the net income of such year is, in general, carried to the next earliest year, etc. If the taxable year in which the net operating loss is sustained begins on or after January 1, 1950, the net operating loss is carried back first to the preceding taxable year and to the extent that it exceeds the net income of such year is carried over to the five succeeding taxable years. If a corporation's first taxable year began in 1949 and ended in 1950, the net operating loss for that year may also be carried over to the five succeeding taxable years, but the amount of the carry-over to the fourth and fifth succeeding taxable years cannot exceed an amount which bears the same ratio to the net operating loss as the number of days in the loss year falling after December 31, 1949, is of the total number of days in the loss year. In other words, the amount of the carry-over to the fourth and fifth succeeding taxable years is limited to such part of the net operating loss as is properly allocable to 1950.

In determining the amount of net operating loss not used in an earlier year but available to be carried to another year, the net income of the earlier year is computed (1) with the adjustments described in (a) and (b), above, and (2) by determining the net operating loss deduction for such earlier year without regard to such net operating loss and without regard to the reduction described in the first paragraph of instruction 33. Only the portion of a net operating loss which is not used as a carry-back may be carried over. For example, a net operating loss sustained in the calendar year 1950 must first be carried back to 1949. The portion unused as a carry-back to 1949 may be carried over to 1951, 1952, 1953, 1954, and 1955.

Section 362 (b) provides that no net operating loss deduction shall be allowed in the case of a regulated investment company.

Every corporation claiming a net operating loss deduction for any taxable year shall file with its return for such year a detailed schedule showing the computation of the net operating loss deduction.

If the corporation desires prompt payment for refund attributable to a net operating loss carry-back an application for a tentative adjustment should be filed on Form 1139 within 12 months after the close of the taxable year in which the net operating loss is sustained.

34. Net income.—Under the provisions of section 47 (c) (1), if a corporation changes its accounting period, the net income for the short period between the close of the old accounting period and the date designated as the close of the new period shall be placed on an annual basis by multiplying the amount thereof by 12 and dividing by the number of months in the short period. The tax shall be such part of the tax computed on such annual basis as the number of months in the short period is of 12 months. Section 47 (c) (2) provides, however, that a taxpayer may file an application to reduce the tax by establishing the amount of its actual net income for the period of 12 months beginning with the first day of the short period, computing the tax on such net income, and taking as the tax such part of the tax so computed as the income determined for the short period is of the income for the 12 months, or if a corporation prior to the end of the 12-month period distributed substantially all its assets, then, in order to determine an actual 12-month income experience, there shall be used the 12-month period ending with the last day of the short period. A taxpayer using the 12-month period ending with the last day of the short period may claim in its return the benefits of section 47 (c) (2), provided an application has been filed. The tax cannot be reduced below the amount of tax which would be due if the income for the short period was not placed on an annual basis.

36. Credit for taxes.—If, in accordance with section 131 (a), a credit is claimed by a domestic corporation in item 36, page 1, on account of income, war-profits and excess-profits taxes paid or accrued to a foreign country or a possession of the United States, Form 1118 should be submitted with the return, together with the receipt for each such tax payment. In case credit is sought for taxes accrued but not paid, the form must have attached to it a certified copy of the return on which each such accrued tax was based, and the Commissioner may require a bond on Form 1119 as a condition precedent to the allowance of a credit for such accrued taxes. Foreign corporations, domestic corporations entitled to the benefits of section 251, and corporations organized under the China Trade Act, 1922, are not allowed this credit.

TAX COMPUTATION INSTRUCTIONS

1. Normal-tax income.—The term "normal-tax net income" means the adjusted net income minus the sum of the following credits:

(a) The credit for dividends received provided in section 26 (b). The dividends-received credit is an amount equal to the sum of—

(1) 85 percent of all dividends received from a domestic corporation subject to the income tax, other than dividends received on the preferred stock of a public utility;

(2) 62 percent, for taxable years beginning after December 31, 1952, and prior to April 1, 1954 (59 percent for taxable years beginning on or after April 1, 1954), of the amount received as dividends on the preferred stock of a public utility which is subject to the income tax; and

(3) 85 percent of dividends received from certain foreign corporations. Section 26 (b) provides for a dividends received credit in the case of dividends received from a foreign corporation (other than a foreign personal holding company) which is subject to the income tax if, (1) for an uninterrupted period of not less than 36 months (or the entire period the foreign corporation was in existence if such period is less than 36 months) ending with the close of the foreign corporation's taxable year in which such dividends are paid, the foreign corporation has been engaged in trade or business within the United States, and (2) during such period, 50 percent or more of the gross income of the foreign corporation has been derived from sources within the United States. See section 26 (b) for certain limitations in the amount of this credit.

In no event is the total credit allowed by section 26 (b) to exceed 85 percent of the adjusted net income computed without regard to the net operating loss deduction provided in section 23 (s). For the purpose of computing the dividends-received credit, the whole or any part of a dividend received in property other than money will be considered as a dividend to the extent

of the adjusted basis of such property in the hands of the distributing company at the time of distribution increased in the amount of gain or decreased in the amount of loss recognized to the distributing company by reason of such distribution, subject, however, to the applicable limitations provided in section 26 (b). The credit allowed by 26 (b) may not be allowed in respect of dividends received from a corporation organized under the China Trade Act, 1922, or from a corporation which under section 251 is taxable only on its gross income from sources within the United States by reason of its receiving a large percentage of its gross income from sources within a possession of the United States.

(b) In the case of a public utility, the credit for dividends paid on its preferred stock provided in section 26 (h). The credit under section 26 (h) is an amount equal to 27 percent, for taxable years beginning after December 31, 1952, and prior to April 1, 1954 (30 percent for taxable years beginning on or after April 1, 1954), of the lesser of (1) the amount of dividends paid on the preferred stock of a public utility company, or (2) the excess of the adjusted net income of the public utility company over its dividends-received credit provided in section 26 (b).

(c) In the case of a Western Hemisphere trade corporation (as defined in section 109), the credit provided in section 26 (i). A credit is allowed equal to 27 percent, for taxable years beginning after December 31, 1952, and prior to April 1, 1954 (30 percent for taxable years beginning on or after April 1, 1954), of the normal-tax net income of the Western Hemisphere trade corporation computed without regard to the credit provided in section 26 (i).

2. Rates on normal-tax net income.—Section 13 (b) provides a normal tax of 30 percent, for taxable years beginning after December 31, 1952, and prior to April 1, 1954 (25 percent for taxable years beginning on or after April 1, 1954), upon the

normal-tax net income of every corporation (except (1) those expressly exempt from taxation; (2) insurance companies; (3) nonresident foreign corporations; and (4) regulated investment companies).

3. **Surtax net income.**—The term "corporation surtax net income" means the net income minus the sum of the credits allowable against adjusted net income in computing the normal-tax net income (see paragraph 1 (a), (b), and (c) of this part of instructions).

4. **Rates on surtax net income.**—Section 15 (b) imposes a surtax of 22 percent upon the corporation surtax net income of every corporation (except (1) those expressly exempt from taxation; (2) insurance companies; (3) nonresident foreign corporations; and (4) regulated investment companies).

Section 141 provides that in any case in which a consolidated return is made or required to be made, the surtax imposed under section 15 shall be increased by 2 percent of the consolidated corporation surtax net income of the affiliated group of includible corporations. However, in the case of an affiliated group of corporations including one or more Western Hemisphere trade corporations filing a consolidated return, the 2 percent additional tax is applied on the amount by which the consolidated corporation surtax net income of the affiliated group exceeds the portion of the consolidated corporation surtax net income attributable to the Western Hemisphere trade corporations. If the consolidated corporation surtax net income of the Western Hemisphere trade corporation is less than zero, the 2 percent additional tax is applied against the consolidated corporation surtax net income of the entire affiliated group, including the Western Hemisphere trade corporations.

For disallowance of the \$25,000 exemption from surtax in cases in which the major purpose of the transfer of property was to obtain such exemption and the \$25,000 minimum excess profits credit, see General Instructions G-(3) and G-(4).

5. **Insurance companies other than life or mutual.**—All insurance companies (other than life or mutual insurance companies or foreign insurance companies not carrying on an insurance business within the United States), including mutual marine insurance companies, and mutual fire insurance companies issuing perpetual policies, are subject to the taxes imposed by section 204 (a) (1) at the rates specified in section 13 (b) and in section 15 (b). The net income of such insurance companies is defined in section 204 (b) (2), and differs from the net income of other corporations. For what constitutes normal-tax net income, see section 13 (a) (2). For the definition of corporation surtax net income, see section 15 (a). In computing the normal-tax net income and corporation surtax net income, the credits provided in section 26 shall be allowed in the manner and to the extent provided in section 13 (a) and section 15 (a).

6. **Life insurance departments of mutual savings banks.**—A mutual savings bank authorized under State law to conduct a life insurance business and which conducts such business in a separate department the accounts of which are maintained separately from the other departments of the bank is taxable under section 110 provided the life insurance department would, if it were treated as a separate corporation, qualify as a life insurance company under section 201 (b).

The tax consists of the sum of—(1) a partial tax computed under sections 13 and 15 upon the net income of the bank determined without regard to any items of income or deductions properly allocable to the life insurance department; and (2) a partial tax upon the net income (computed as provided in section 201 (c)) of the life insurance department determined without regard to any items of income or deductions not properly allocable to such department at the rates and in the manner provided in Supplement G with respect to life insurance companies.

Tax computation.—A mutual savings bank for the purpose of computing the first partial tax should use Form 1120 filling in all applicable items (except items 38 and 39, page 1) and schedules. The first partial tax should be computed by using the Tax Computation schedule on page 3 of Form 1120. For the purpose of computing the second partial tax Form 1120L should be used and the tax so computed should be entered in item 38, page 1,

Form 1120, as the second partial tax by striking out the present wording of that item and inserting appropriate identification. The sum of items 37 and 38, page 1, Form 1120, will constitute the tax due. Form 1120L properly filled in should be attached to and made a part of Form 1120 and properly identified as an accompanying schedule. However, any Form 1120L so used need not be separately executed under the penalty of perjury.

7. **Resident foreign corporations.**—Section 231 (b) provides for a tax on foreign corporations engaged in trade or business within the United States computed at the rates provided in sections 13 (b) and 15 (b). See paragraphs 2 and 4 of this part of instructions.

TAX ON REGULATED INVESTMENT COMPANIES

Method of taxation.—An investment company satisfying the requirements of section 361, and filing with its return an election to be a regulated investment company, will be taxable under Supplement Q if it distributes during the taxable year to its shareholders as taxable dividends, other than capital gain dividends, an amount not less than 90 percent of its net income for the taxable year computed without regard to net long-term and net short-term capital gains, and complies for such year with prescribed rules and regulations for the purpose of ascertaining the actual ownership of its outstanding stock.

Supplement Q net income.—The term "Supplement Q net income" means the adjusted net income (computed by excluding the excess, if any, of the net long-term capital gain over the net short-term capital loss, and without the net operating loss deduction provided in section 23 (s)), minus the basic surtax credit (excluding capital gain dividends) computed under section 27 (b) without the application of paragraphs (2) and (3). For the purposes of this paragraph, the net income shall be computed without regard to section 47 (c) (relating to income placed on an annual basis).

Supplement Q surtax net income.—The term "Supplement Q surtax net income" means the net income (computed by excluding the excess, if any, of the net long-term capital gain over the net short-term capital loss, and without the net operating loss deduction provided in section 23 (s)), minus the dividends (other than capital gain dividends) paid during the taxable year increased by the consent dividends credit provided by section 28. For the purposes of this paragraph the amount of dividends paid shall be computed in the same manner as provided in subsections (d), (e), (f), (g), (h), and (i) of section 27 for the purpose of the basic surtax credit provided in section 27; and the net income shall be computed without regard to section 47 (c) (relating to income placed on an annual basis).

Capital gain dividend.—Section 362 (b) (7) defines the term "Capital gain dividend" as any dividend or part thereof which is designated by the company as a capital gain dividend in a written notice mailed to its shareholders at any time prior to the expiration of 30 days after close of its taxable year. If the aggregate amount so designated with respect to a taxable year of the company is greater than the excess of the net long-term capital gain over the net short-term capital loss of the taxable year, the portion of each distribution which shall be a capital gain dividend shall be only that proportion of the amount so designated which such excess of the net long-term capital gain over the net short-term capital loss bears to the aggregate amount so designated. Submit a copy of written notice to stockholders.

When dividends are considered paid.—For the purposes of subsection (b) of section 362, any dividend or portion thereof which is declared after the close of the taxable year and prior to the time for the filing of the return for such taxable year (including the period of any extension of time granted for filing such return) shall, to the extent the company so elects in its return, be treated as having been paid during such taxable year provided that the distribution of such dividend (the entire dividend declared, and not merely the portion covered by the election) is actually made to its shareholders within the 12-month period following such taxable year and not later than the date of the first regular dividend payment made after such declaration.

PAGE 8

Tax computation.—A regulated investment company should compute its tax by using a computation schedule similar to the one shown below in lieu of the computation schedule on page 3 of Form 1120:

1. Adjusted net income computed under section 362 (b) (1) (item 32, page 1, less the sum of lines (a) and (b), column 3, Schedule C-1, and item 13 (b), page 1, Form 1120).....	\$.....
2. Less: Basic surtax credit (excluding capital gain dividends) computed without regard to paragraphs (2) and (3) of section 27 (b).....	
3. Supplement Q net income.....	\$.....
4. Normal tax (..... percent of line 3) (see Note below).....	\$.....
5. Net income computed under section 362 (b) (2) (item 32, page 1, less item 13 (b), page 1, Form 1120).....	\$.....
6. Less: Dividends (other than capital gain dividends) paid, including consent dividends credit.....	
7. Supplement Q surtax net income.....	\$.....
8. Surtax (22 percent of the excess of line 7 over \$25,000).....	\$.....

2. Total net gain (or loss). Enter here and as item 13 (c), page 1, Form 1120.....							\$.....

State with respect to each item of property reported in Schedule D (1) and (2): (1) How property was acquired
 (2) whether at time of sale or exchange (a) purchaser owned directly or indirectly more than 50 percent in value of your outstanding stock, (b) where purchaser was a corporation, more than 50 percent in value of its capital stock and 50 percent in value of your capital stock was owned directly or indirectly by or for the same individual or his family, and (c) where purchaser was a corporation, whether more than 50 percent in value of its capital stock was owned directly or indirectly by you
 If so, state name and address of purchaser

*Where credits allowable under section 26 (b), (h), and (i) are limited to percentages of net income, such credits must be based upon a net income which has been reduced by the amount of the total net long-term capital gain or excess of total net long-term capital gain over net short-term capital loss. See "Alternative tax" instructions on reverse.

FACSIMILES OF TAX RETURNS FOR 1953

INSTRUCTIONS

(References are to the Internal Revenue Code)

Instructions For Insurance Companies Using This Schedule

Companies taxable under section 204 and having losses from capital assets sold or exchanged in order to obtain funds to meet abnormal insurance losses, etc., shall attach a schedule corresponding to Schedule E, Form 1120M.

For companies taxable under section 204 or section 207 (a) (1) or (3), "net capital loss" means the amount by which the losses for the taxable year from sales or exchanges of capital assets exceed the sum of the gains from such sales or exchanges and the lesser of (1) the corporation's net income (computed without regard to gains or losses from sales or exchanges of capital assets) or

(2) losses from the sale or exchange of capital assets sold or exchanged to obtain funds to meet abnormal insurance losses and to provide for the payment of dividends and similar distributions to policyholders.

For companies taxable under section 207 (a) (1) or (3), all references to "item" or "line" numbers, Form 1120, shall be considered as references to the appropriate "item" or "line" in Form 1120M. It will be necessary for such companies to substitute for lines 14, 15, and 16 on other side a computation conforming to that on pages 2 and 3 of Form 1120M.

General Instructions

Gains and losses from sales or exchanges of capital assets and other property.—Report sales or exchanges of capital assets and sales or exchanges of property other than capital assets in Schedule D on other side. Every sale or exchange of property, even though no gain or loss may be indicated, must be reported in detail.

Losses from sales or exchanges of capital assets shall be allowed only to the extent of gains from such sales or exchanges. However, the amount of a net capital loss sustained in any taxable year may be carried over to each of the five succeeding taxable years and treated in each such succeeding taxable year as a short-term capital loss to the extent not allowed as a deduction against any net capital gains of any taxable year intervening between the taxable year in which the net capital loss was sustained and the taxable year to which carried.

Definition of capital assets.—The term "capital assets" means property held by the taxpayer (whether or not connected with his trade or business), but does not include (a) stock in trade of the taxpayer or other property of a kind which would properly be included in the inventory of the taxpayer if on hand at the close of the taxable year, or property held by the taxpayer primarily for sale to customers in the ordinary course of his trade or business, or (b) property used in the trade or business, of a character which is subject to the allowance for depreciation provided in section 23 (1), or real property used in the trade or business of the taxpayer; or (c) a copyright, a literary, musical, or artistic composition, or similar property; or (d) an obligation of the United States or any of its possessions, or of a State or Territory, or any political subdivision thereof, or of the District of Columbia, issued on or after March 1, 1941, on a discount basis and payable without interest at a fixed maturity date not exceeding 1 year from the date of issue.

Classification of capital gains and losses.—The phrase "short-term" applies to the category of gains and losses arising from the sale or exchange of capital assets held for 6 months or less, and the phrase "long-term" to the category of gains and losses arising from the sale or exchange of capital assets held for more than 6 months.

Enter full description of each item of property sold or exchanged, even though no gain or loss may be indicated. Such description should include the following facts: (a) For real estate, location and description of land, description of improvements, details explaining depreciation; (b) for bonds or other evidences of indebtedness, name of issuing corporation, description of the particular issue, denomination, and amount; (c) for stocks, name of issuing corporation, class of stock, number of shares, and capital changes affecting basis (nontaxable stock dividends, other nontaxable distributions, stock rights, etc.).

The "basis" for the property is not subject to the same rule for reporting gains as for losses, if the property was acquired before March 1, 1913. If the property sold or exchanged was acquired prior to March 1, 1913, the basis for determining GAIN is the cost or the fair market value as of March 1, 1913, adjusted as provided in section 113 (b), whichever is greater, but in determining LOSS the basis is cost so adjusted. If property was acquired after February 28, 1913, basis for both gain and loss is the cost of such property, except as otherwise provided by section 113. The exceptions arise chiefly where property was acquired by gift, bequest, tax-free exchange, involuntary conversion, or wash sale of stock; and in such cases section 113 provides the basis that shall be used. If the amount shown as the basis is other than actual cash cost of the property sold or exchanged, full details must be furnished regarding the acquisition of the property.

Enter in column 5 of separate Schedule D the amount of depreciation, exhaustion, wear and tear, obsolescence, and depletion in respect of the property. This amount shall be the sum of the following:

(a) The amount of depreciation, exhaustion, wear and tear, obsolescence, and depletion which has been allowed (but not less than the amount allowable) in respect of such property since date of acquisition, or since February 28, 1913, if the property was acquired before that date. For any period after December 31, 1911, the amount of depreciation, etc., allowed (and which is in excess of the amount allowable) shall be disregarded to the extent that such excess does not result in a reduction for any taxable year of the taxpayer's income or excess profits taxes. In respect of any period after February 28, 1913, and before January 1, 1952, the taxpayer may disregard depreciation, etc., which was in excess of the amount allowable and which did not result in reduction of income or excess profits taxes only if an election is made in accordance with regulations. See section 113 (b) (1) (B); and

(b) The amount of depreciation, exhaustion, wear and tear, obsolescence, and depletion actually sustained prior to March 1, 1913, if the property was acquired before that date.

Subsequent improvements include expenditures for additions, improvements, renewals, and replacements made to restore the property or prolong its useful life. Do not deduct ordinary repairs, interest, or taxes in computing gain or loss.

Losses on securities becoming worthless.—If any securities (as defined below) become worthless within the taxable year and are capital assets, the loss resulting therefrom shall, in the case of a taxpayer other than a bank, as defined in section 104, be considered as a loss from the sale or exchange, on the last day of such taxable year, of capital assets. (See section 23 (k) (2).)

Definition of securities.—As used for the purpose of determining capital losses under section 23 (k), the term "securities" means bonds, debentures, notes, or certificates, or other evidences of indebtedness, issued by any corporation (including those issued by a government or political subdivision thereof), with interest coupons or in registered form. However, securities issued by any corporation affiliated with the taxpayer shall not be deemed capital assets. (See section 23 (k) (3) and (5).)

Losses on stocks or stock rights becoming worthless.—If any shares of stock in a corporation (except stock in a corporation affiliated with the taxpayer), or rights to subscribe for or to receive such shares, become worthless during the taxable year and are capital assets, the loss resulting therefrom shall be considered as a loss from the sale or exchange, on the last day of such taxable year, of capital assets. (See section 23 (g) (2) and (4).)

Losses not allowable.—No loss shall be recognized in any sale or other disposition of shares of stock or securities where there has been acquired substantially identical stock or securities or there has been entered into a contract or option to acquire substantially identical stock or securities within 30 days before or after the date of such sale or disposition, except in cases of dealers in stocks and securities and with respect to transactions made in the ordinary course of such business.

No deduction shall be allowed in respect of losses from sales or exchanges of property, directly or indirectly (except in the case of distributions in liquidation), between an individual and a corporation in which such individual owns, directly

or indirectly, more than 50 percent in value of the outstanding stock; or (except in the case of distributions in liquidation) between two corporations more than 50 percent in value of the outstanding stock of each of which is owned, directly or indirectly, by or for the same individual, if either one of such corporations, with respect to the taxable year of the corporation preceding the date of the sale or exchange was, under the laws applicable to such taxable year, (1) a personal holding company, as defined in section 501, or (2) a foreign personal holding company, as defined in section 351. (See paragraph (1) (B) and (C) of section 24 (b).) (For the purpose of determining the ownership of stock, in applying this paragraph, see section 24 (b) (2).)

Gain on sales by a "controlled" corporation.—If (1) property is sold or exchanged after May 3, 1951, by a corporation to one or more of its shareholders, and (2) the property in the hands of such shareholders is depreciable property, and (3) such shareholders, their spouses, and their minor children and minor grandchildren own more than 80 percent in value of the outstanding stock of the corporation, then any gain on such sale or exchange shall not be treated as gain from the sale or exchange of property which is a capital asset or of property which is described in section 117 (j).

Gains and losses from involuntary conversion and from the sale or exchange of certain property used in the trade or business.—The term "property used in the trade or business" as used in section 117 (j) means property used in the trade or business, of a character which is subject to the allowance for depreciation provided in section 23 (1), held for more than 6 months, and real property used in the trade or business, held for more than 6 months, which is not (a) property of a kind which would properly be includable in the inventory of the taxpayer if on hand at the close of the taxable year or (b) property held by the taxpayer primarily for sale to customers in the ordinary course of his trade or business. Such term also includes timber or coal with respect to which section 117 (k) (1) or (2) is applicable as well as unharvested crops sold with the land to which section 117 (j) (3) applies. Such term also includes livestock (but not poultry) held for draft, breeding, or dairy purposes and held for 12 months or more from the date of acquisition.

Section 117 (j) provides special treatment for the gains and losses upon the sale or exchange of depreciable property and of land, held for more than 6 months, and for the gains and losses upon the compulsory or involuntary conversion of such depreciable property and land and of capital assets held for more than 6 months.

The method prescribed in section 117 (j) (2) is to treat such gains and losses during the taxable year as gains and losses from the sale or exchange of capital assets held for more than 6 months, if the aggregate of such gains exceeds the aggregate of such losses. If, however, the aggregate of such gains does not exceed the aggregate of such losses, such gains and losses shall not be treated as gains and losses from the sale or exchange of capital assets held for more than 6 months.

In determining whether gains do or do not exceed losses, it is necessary to include the gains and losses to the extent that they would be included if they were all ordinary gains and losses. The limitations of section 117 (d) on the deductibility of capital losses do not operate to exclude any such losses from the computation as to the excess of gains over losses, but all such losses are included in full.

For special treatment of gain or loss upon the cutting of timber, or upon the disposal of timber or coal under a contract by which the owner retains an economic interest in such timber or coal, see section 117 (k).

Alternative tax.—If for any taxable year the net long-term capital gain exceeds the net short-term capital loss or in case of only a net long-term capital gain, section 117 (c) (1) imposes an alternative tax in lieu of the normal tax and surtax imposed upon net income, if any, only if such tax is less than the tax imposed by sections 13 and 15 (relating to normal tax and surtax on corporations), sections 204 and 207 (a) (1) or (3) (relating to normal tax and surtax on insurance companies, other than life insurance companies), section 421 (relating to taxation of business income of certain section 101 organizations), and section 500 (relating to surtax on personal holding companies). The alternative tax is the sum of (1) a partial tax, computed at the normal tax and surtax rates on the net income decreased by the amount of the excess of the net long-term capital gain over the net short-term capital loss, and (2) 26 percent of such excess.

In computing the alternative tax under section 117 (c) (1) in cases where the credits allowable under the provisions of subsections (b), (h), and (i) of section 26 are limited to or are percentages of net income, lines 11 and 12 on other side should be disregarded. In lieu of these lines, a computation should be made first reducing net income by the amount of the total net long-term capital gain or excess of net long-term capital gain over net short-term capital loss and then redetermining such section 26 credits on the basis of the resulting reduced net income to derive the amount of the surtax net income for purposes of alternative tax to be inserted on line 13 on other side.

Bonds, etc., losses of banks.—In the case of a bank, as defined in section 104, if the losses of the taxable year from sales or exchanges of bonds, debentures, notes, or certificates, or other evidences of indebtedness, issued by any corporation (including one issued by a government or political subdivision thereof) with interest coupons or in registered form, exceed the gains from such sales or exchanges, such excess shall be considered as an ordinary loss and deductible in full against other income.

Dealers in securities. Capital gains and ordinary losses.—Under the provisions of section 117 (a), gain by a dealer in securities from the sale or exchange of a security, as defined in section 117 (a) (3), shall in no event be considered as gain from the sale or exchange of a capital asset unless (a) the security is, prior to the expiration of the thirtieth day after its acquisition or of the thirtieth day after October 20, 1951, whichever is later, clearly identified in the dealer's records as a security held for investment; and (b) the security is not, at any time after the expiration of such thirtieth day, held by the dealer primarily for sale to customers in the ordinary course of trade or business. A loss from the sale or exchange of a security shall, if section 117 (i) is not applicable, be considered a capital loss if at any time after November 19, 1951, the security was clearly identified in the dealer's record as a security held for investment.

Short sales of capital assets.—For specific rules relating to the tax consequences of certain short sales of stock or other securities, transactions in stock or securities on a "when issued" basis and transactions in commodity futures, see section 117 (g) and (l) and the regulations issued thereunder.

Schedule EP-1—EXCESS PROFITS NET INCOME AND TAX COMPUTATION			
EXCESS PROFITS NET INCOME			
Line No.			
1.	Net income before net operating loss deduction (item 32, page 1, Form 1120) (Taxpayers on installment or long-term contract basis, see instructions for election under section 455)		
2.	Adjustment for interest on borrowed capital		
3.	Deductions on account of retirement or discharge of bonds, etc.		
4.	Deductions attributable to a grant or loan by a governmental agency to encourage mining of certain minerals		
5.	Deductions under reserve method for bad debts, in case of banks		
6.	Federal income and excess profits taxes paid by lessee under long-term lease		
7.	Deductions attributable to technical services rendered to related foreign corporations		
8.	Adjustment for interest on certain Government obligations (see instructions for election under section 440 (c))		
9.	Total of lines 1 to 8, inclusive		
10.	Partially tax exempt interest (sum of lines (a) and (b), column 3, Schedule C-1, Form 1120)		
11.	Dividends received (item 7, page 1, Form 1120) less (a) adjustment for dividends received in kind, (b) dividends received from foreign personal holding companies, and (c) dividends received on stock which is not a capital asset		
12.	Net operating loss deduction for excess profits tax purposes (attach statement)		
13.	Net gain from sale or exchange of capital assets (sum of items 13 (a) and 13 (b), page 1, Form 1120)		
14.	Income from retirement or discharge of bonds, etc.		
15.	Refunds and interest on Agricultural Adjustment Act taxes		
16.	Income from recovery of certain bad debts		
17.	Nontaxable income of certain industries with depletable resources (attach statement)		
18.	Federal income and excess profits taxes received by lessor under long-term lease		
19.	Debts which actually became worthless during the year, in case of banks		
20.	Adjustment for blocked foreign income (attach statement)		
21.	Income attributable to a grant or forgiveness of a loan by a governmental agency to encourage mining of certain minerals		
22.	Income attributable to technical services rendered to related foreign corporations		
23.	Total of lines 10 to 22, inclusive		
24.	Excess profits net income computed without regard to deductions applicable to life insurance companies (line 9 minus line 23)		
25.	Deductions applicable to life insurance companies		
26.	Excess profits net income (line 24, or line 24 minus line 25 in case of life insurance companies) (If return is for less than 12 months, see instructions.)		
TAX COMPUTATION			
27.	Excess profits credit (line 56, Schedule EP-2; line 67, Schedule EP-4; or line 20, Schedule EP-3, whichever is applicable) (If credit is determined by reference to section 434 (d), section 459, sections 461 through 465 Part II, sections 470 through 472, Part III, or section 474, Part IV, substitute the amount so computed. Indicate section or sections _____, and attach statement.)		
28.	Unused excess profits credit adjustment (attach statement)		
29.	Enter total of lines 27 and 28, or \$25,000, whichever is larger (see instructions)		
30.	Adjusted excess profits net income (line 26 minus line 29)		
31.	30 percent of line 30		
32.	18 percent of line 26 (if a consolidated return, see instructions)		
33.	If return is for one of the first five taxable years, indicate which year _____, and see instructions.		
(a)	Enter applicable percentage _____%		
(b)	Line 26, not in excess of \$300,000, multiplied by percentage on line (a)		
(c)	Line 26, in excess of \$300,000, multiplied by 18 percent		
(d)	Total of lines (b) and (c)		
34.	Line 31, 32, or 33 (d), whichever is less (If taxable year ends after December 31, 1953, see instructions for proration of tax)		
35.	If excess profits tax is computed under section 430 (d) <input type="checkbox"/> ; 450 <input type="checkbox"/> ; 456 <input type="checkbox"/> ; or 457(a) <input type="checkbox"/> substitute amount of tax so computed, check applicable section, and attach statement		
36.	Credit for income taxes paid to a foreign country or United States possession (attach statement)		
37.	Line 34 or 35, whichever is applicable, minus line 36		
38.	Amount, if any, due to application of section 452 (adjustment in case of position inconsistent with prior income tax liability)		
39.	Excess profits tax due (line 37 plus line 38, or line 37 minus line 38, whichever is applicable). Enter as item 38, page 1, Form 1120

(b) First half of base period					\$
(c) Percentage which line (a) is of line (b)					%
Fill in lines 41 through 48 only if line 40 (c), column 1, is 130 percent or more, or column 2 is 150 percent or more, or if the test regarding products not generally available prior to 1946 is met (see instructions).					
41. Excess profits net income for last 24 months in base period					\$
42. Line 41 divided by 2					\$
43. Excess profits net income for last 12 months in base period					\$
44. Weighted excess profits net income for first 6 months of 1950 (see instructions)					\$
45. Excess profits net income for last 6 months of 1949 (see instructions)					\$
46. Sum of lines 44 and 45					\$
47. Average base period net income—Alternative based on growth (line 42, 43, or 46 whichever is largest)					\$
48. 83 percent of line 47					\$
49. 83 percent of line 32 or 38, whichever is applicable					\$
50. 12 percent of base period capital addition (line 15, Schedule EP-2 (A))					\$
51. Total of lines 49 and 50					\$
52. Line 48 or line 51, whichever is applicable					\$
53. 12 percent of net capital addition for the taxable year (line 20, Schedule EP-2 (B))					\$
54. Total of lines 52 and 53					\$
55. 12 percent of net capital reduction for the taxable year (line 24, Schedule EP-2 (B))					\$
56. Excess profits credit based on income (line 54 minus line 55). Enter on line 27, Schedule EP-1					\$

Page 3

Schedule EP-2 (A).—BASE PERIOD CAPITAL ADDITION

For use only in computing excess profits credit based on income. This schedule not to be used if average base period net income is based on growth (section 435 (e)) or is computed under section 443, 444, 445, or 446. For use of this schedule in connection with sections 442 and 449, see instructions.

Schedule EP-4—EXCESS PROFITS CREDIT BASED ON INVESTED CAPITAL		
Line 1. Equity capital at beginning of the taxable year: (a) Total assets \$		
(b) Less: Total liabilities \$		
2. Average daily amount of money and property paid in during the taxable year for stock, or as paid-in surplus, or as a contribution to capital (attach statement) \$		
3. (a) Average daily amount of borrowed capital for the taxable year (attach statement) \$		
(b) 75 percent of line 3 (a) \$		
4. Recent loss adjustment (see instructions) \$		
5. Total of lines 1, 2, 3 (b), and 4 \$		
6. Average daily amount of distributions during the taxable year not out of earnings and profits of such year (attach statement) \$		
7. Line 5 minus line 6 \$		
Line 8 through 10 for use only if amount on line 7 is over \$5,000,000.		
8. Equity capital at beginning of first taxable year ending after June 30, 1950: (a) Total assets \$		
(b) Less: Total liabilities \$		
9. Excluded capital paid in after beginning of first taxable year ending after June 30, 1950, and prior to the taxable year \$		
10. Borrowed capital at beginning of first taxable year ending after June 30, 1950 \$		
11. Excluded borrowed capital at beginning of first taxable year ending after June 30, 1950 (see instructions) \$		
12. Average daily amount of excluded borrowed capital for the taxable year (attach statement) \$		
13. Average daily amount of excluded capital paid in during the taxable year (attach statement) \$		
14. Excess, if any, of line 2 over line 13 \$		
15. (a) Excess, if any, of line 1 over line 8 \$		
(b) Excess, if any, of line 15 (a) over line 8 \$		
16. (a) Excess, if any, of line 3 (a) over line 10 \$		
(b) Excess, if any, of line 12 over line 11 \$		
(c) 75 percent of excess, if any, of line 16 (a) over line 16 (b) \$		
17. Average daily new capital addition (sum of lines 14, 15 (b), and 16 (c)) \$		
18. Average daily amount of distribution shown on line 6 above \$		
19. (a) Line 8 plus line 9 \$		
(b) Excess, if any, of line 19 (a) over line 1 \$		
20. 75 percent of excess, if any, of line 19 over line 8 (a) \$		
21. Average daily new capital reduction (sum of lines 18, 19 (b), and 20) \$		
22. Total inadmissible assets at beginning of first taxable year ending after June 30, 1950 \$		
23. Average daily amount of inadmissible assets for the taxable year (attach statement) \$		
24. Excess, if any, of line 17 over line 21 (see instructions) \$		
25. (a) Excess, if any, of line 23 over line 22 \$		
(b) Excess, if any, of line 24 over line 16 (c) \$		
(c) Sum of line 20 and line 24 \$		
(d) 25 percent of excess, if any, of line (a) over line (b) or line (c), whichever is applicable \$		
(e) Line (a) minus line (d) \$		
26. Net new capital addition (excess, if any, of line 24 over line 25 (e)) \$		
27. Line 7 minus line 26 \$		
Line 28 through 35 for taxpayers electing the "historical" method.		
Equity Invested Capital at the Beginning of the Taxable Year		
28. Money paid in for stock, or as paid-in surplus, or as a contribution to capital \$		
29. Property paid in for stock, or as paid-in surplus, or as a contribution to capital \$		
30. Distributions of earnings and profits in stock of the corporation \$		
31. (a) Accumulated earnings and profits \$		
(b) Adjustment for transferor's deficit under section 456 (f) (4) \$		
(c) Increase or decrease under section 472 (d) (1) on account of intercorporate liquidation \$		
(d) Accumulated earnings and profits (line 31 (a) as adjusted by line 31 (b) and (c)) \$		
32. Increase on account of intercorporate liquidation under section 472 (d) (2) \$		
33. Deficit in earnings and profits of another corporation under section 456 (d) (5) \$		
34. Total of lines 28 to 33 \$		
35. Less: Distributions made prior to the taxable year not out of accumulated earnings and profits \$		
Earnings and profits of another corporation required to be deducted by section 456 (e) (3) \$		
37. Decrease on account of intercorporate liquidation under section 472 (d) (2) \$		
38. Deficit included in invested capital of another corporation (section 456 (a) (4)) \$		
39. Total of lines 35 to 38 \$		
40. Equity invested capital at beginning of the taxable year (line 34 minus line 39) \$		
Average Addition to Equity Invested Capital During the Taxable Year		
41. Money paid in for stock, or as paid-in surplus, or as a contribution to capital \$		
42. Property paid in for stock, or as paid-in surplus, or as a contribution to capital \$		
43. Distributions of earnings and profits (other than earnings and profits of the taxable year) in stock of the corporation (see line 40, above) \$		
44. Increase on account of intercorporate liquidation under section 472 (d) (2) \$		
45. Deficit in earnings and profits of another corporation under section 456 (d) (5) \$		
46. Total additions in lines 41 to 45 \$		
47. Total of lines 40 and 46 \$		
Average Reduction in Equity Invested Capital During the Taxable Year		
48. Distributions not out of earnings and profits of the taxable year \$		
49. Stock distributions from accumulated earnings and profits at beginning of year (see line 43, above) \$		
50. Decrease on account of intercorporate liquidation under section 472 (d) (2) \$		
51. Deficit in earnings and profits included in invested capital of another corporation (section 456 (e) (4)) \$		
52. Total reductions in lines 48 to 51 \$		
53. Equity invested capital (line 47 minus line 52) \$		
54. 75 percent of average borrowed capital \$		
55. Average invested capital (line 53 plus line 54) \$		
56. Line 7 or line 27, whichever is applicable (or line 55 if the taxpayer elects the "historical" method) \$		
57. Portion of line 56 not over \$5,000,000 \$ Enter 12 percent \$		
58. Portion of line 56 over \$5,000,000 but not over \$10,000,000 \$ Enter 10 percent \$		
59. Portion of line 56 over \$10,000,000 \$ Enter 8 percent \$		
60. Total of lines 57, 58, and 59 \$		
61. Average daily amount of inadmissible assets for the taxable year \$		
62. Average daily amount of total assets for the taxable year (attach statement) \$		
63. Percentage which line 61 is of line 62 %		
64. Reduction on account of inadmissible assets (line 60 multiplied by percentage on line 63) \$		
65. Line 60 minus line 64 \$		
66. If line 7 is more than \$5,000,000, enter 12 percent of line 26 (applicable only to "asset" method) \$		
67. Excess profits credit based on invested capital (line 65 plus line 66). Enter on line 27, Schedule EP-1 \$		

Page 5 and 6 to be detached unless application is being made for the benefits of sections 442, 443, 444, 445, or 446. Page 5

AVERAGE BASE PERIOD NET INCOME COMPUTED ON BASIS OF INDUSTRY RATE OF RETURN
Schedule EP-5 (A).—NEW CORPORATIONS (Section 445)

Schedule EP-5 (A) may be used by any taxpayer (other than an "ineligible corporation") which commenced business after April 1, 1946. For application of section 445 to a taxpayer which commenced business after January 1, 1946, and before April 2, 1946, see instructions.

- (a) Attach statement setting forth in detail all grounds upon the basis of which this application for the benefits of section 445 is made.
- (b) On what date did taxpayer commence business? _____
- (c) List each prior taxable year for which required to file income tax return:
Year ended _____, 19____; _____, 19____; _____, 19____.
- (d) Did the taxpayer on or after December 1, 1950, and prior to the end of its third taxable year acquire any properties in any of the transactions described in section 445 (g)? (Answer "yes" or "no") _____ If answer is "no," and if taxpayer commenced business in the current taxable year or in one of the two immediately preceding taxable years, fill in lines 1 through 10. If answer is "no," and if taxpayer commenced business before the beginning of the second preceding taxable year, fill in lines 11 through 16.

Line No.	1. Total assets at end of last taxable year ending prior to July 1, 1950.	\$ _____
2. Net capital addition for current taxable year (see instructions).	\$ _____	
3. Total of lines 1 and 2	\$ _____	
4. Net capital reduction for current taxable year (see instructions).	\$ _____	
5. Line 3 minus line 4	\$ _____	
6. Taxpayer's industry classification (see instructions) _____; Base period rate of return _____%		
7. Line 5 multiplied by the percentage on line 6	\$ _____	
8. Reduction for interest (see instructions)	\$ _____	
9. Average base period net income (line 7 minus line 8)	\$ _____	
10. 83 percent of line 9. Enter on line 56, Schedule EP-2	\$ _____	
11. Total assets at end of last taxable year ending prior to July 1, 1950, or at end of third taxable year, whichever is later	\$ _____	
12. Taxpayer's industry classification (see instructions) _____; Base period rate of return _____%		
13. Line 11 multiplied by the percentage on line 12	\$ _____	
14. Reduction for interest (see instructions)	\$ _____	
15. Average base period net income (line 13 minus line 14)	\$ _____	
16. 83 percent of line 15. Enter on line 51, Schedule EP-2	\$ _____	

SCHEDULE EP-5 (B).—ABNORMALITIES DURING BASE PERIOD (Section 442)

This schedule should be used only by a taxpayer which commenced business on or before the first day of its base period.

- (a) Attach statement setting forth in detail all grounds upon the basis of which this application for the benefits of section 442 is made.
- (b) If normal production, output, or operation was interrupted or diminished because of the occurrence, either immediately prior to, or during a base period taxable year, of events unusual and peculiar in the experience of the taxpayer, include in such statement a description of the events and the time of their occurrence; indicate the taxable years in the base period during which production, output, or operation was adversely affected; and indicate the taxable years in the base period the excess profits net income of which was reduced (or deficit in excess profits net income increased) by reason of such events.
- (c) If the business of the taxpayer was depressed in a base period taxable year because of temporary economic circumstances unusual in the case of the taxpayer, include in such statement a description of such events and the time of their occurrence; indicate the taxable years in the base period the excess profits net income of which was reduced (or deficit in excess profits net income increased) by reason of such events.
- (d) If eligibility is claimed under section 442 (b), include in such statement a description of the events which interrupted or diminished normal production, or output, or operation, and indicate the time of their occurrence.

Line No.	TAXABLE YEARS ENDING AFTER MARCH 31, 1946, AND BEFORE DECEMBER 1, 1950

FACSIMILES OF TAX RETURNS FOR 1953

AVERAGE BASE PERIOD NET INCOME COMPUTED ON BASIS OF INDUSTRY RATE OF RETURN

Page 6

Schedules EP-5 (C) through (E) should be used only by a taxpayer which commenced business on or before the first day of its base period

Schedule EP-5 (C).—CHANGE IN PRODUCTS OR SERVICES (Section 443)

- (a) Attach statement setting forth in detail all grounds upon the basis of which this application for the benefits of section 443 is made.
- (b) Include in such statement full details concerning the nature and effect of the change or changes in the taxpayer's products or services upon which this application is based.
- (c) Indicate the date upon which the taxpayer's gross receipts first reflected such change or changes.
- (d) List the three taxable years immediately preceding the year with respect to which taxpayer claims qualification under section 443, and check year in which substantial change in products or services furnished by the taxpayer first occurred:

Beginning Ending ☐..... ☐..... ☐

Line No.	1. (a) Designate the taxable year with respect to which taxpayer claims qualification under section 443 (a):	1. TOTAL FOR YEAR	2. AMOUNT DUE TO NEW PRODUCTS OR SERVICES	3. COLUMN 2 AS A PERCENTAGE OF COLUMN 1
	Beginning and ending			
(b)	Gross income	\$.....	\$.....	%
(c)	Net income	\$.....	\$.....	%

Fill in lines 2, 3, and 4 only if column 3, line 1 (b) is more than 40 percent, or if column 3, line 1 (c) is more than 33 percent.

Line No.	1. AMOUNT	2. NUMBER OF MONTHS	3. MONTHLY AVERAGE
2.	Excess profits net income for taxable year designated on line 1 (a). (See instructions).....		\$.....
3.	Aggregate excess profits net income (or deficit) for those taxable years ending within the base period and prior to taxable year in which first change occurred. (From line 28, Schedule EP-2.).....		\$.....
4.	125 percent of column 3, line 3.....		\$.....

Fill in lines 5 through 10 only if column 3, line 2, exceeds line 4.

5.	Total assets at end of taxable year designated on line 1 (a), or at end of last taxable year ending prior to July 1, 1950, whichever is later.....	\$.....
6.	Taxpayer's industry classification (see instructions); Base period rate of return.....	%
7.	Line 5 multiplied by percentage on line 6.....	\$.....
8.	Reduction for interest (see instructions).....	\$.....
9.	Average base period net income (line 7 minus line 8).....	\$.....
10.	83 percent of line 9. Enter on line 51, Schedule EP-2.....	\$.....

Schedule EP-5 (D).—INCREASE IN CAPACITY FOR PRODUCTION OR OPERATION (Section 444)

- (a) Attach statement setting forth in detail all grounds upon the basis of which this application for the benefits of section 444 is made.
- (b) If application is based upon increase in capacity for production or operation resulting from replacement of or addition to facilities (section 444 (b)(1)), or upon such an increase in capacity in conjunction with an increase in the aggregate adjusted basis of total facilities of the taxpayer (section 444 (b)(2)), include in such statement a detailed description of the method used in determining capacity at the beginning and end of the 36-month period involved and a schedule showing the adjusted basis of facilities held at the beginning and the adjusted basis of facilities held at the end of such period.
- (c) If application is based upon increase in capacity for production or operation evidenced by an increase in the aggregate unadjusted basis of total facilities of the taxpayer (section 444 (b)(3)), include in such statement a schedule showing the unadjusted basis of facilities held at the beginning and the unadjusted basis of facilities held at the end of the 36-month period involved.

COMPUTATION OF YOUR **1953**
U.S. Corporation Excess
Profits Tax on Schedule EP (Form 1120)

References are to the Internal Revenue Code, unless otherwise indicated.

PAGE 1

GENERAL INSTRUCTIONS

A. GENERAL STATEMENT.—The excess profits tax is imposed on corporations and is applicable to taxable years ending after June 30, 1950. The normal tax, surtax, and excess profits tax on corporations are to be reported on the corporation income tax return (Form 1120) and are treated as one tax for all purposes, including assessment, collection, payment, period of limitations, and the consolidated return privilege.

A corporation with excess profits net income of \$25,000 or less, is, in general, not liable for an excess profits tax although it may be required to file Schedule EP (Form 1120), which is provided for the computation of excess profits net income and excess profits tax. Schedule K on Form 1120 provides a test by which a corporation may determine whether it is required to file Schedule EP (Form 1120) for the taxable year. In the event that such test discloses that a corporation is required to file, Schedule EP (Form 1120) shall be filed with, and as a part of, its return on Form 1120.

B. CORPORATIONS WHICH MUST FILE SCHEDULE EP (FORM 1120).—(1) **General rule.**—Every corporation (except an exempt corporation described in (2), below) required by section 52 to make an income tax return must file with, and as a part of, such return a Schedule EP (Form 1120) unless the amount shown on line 8, Schedule K on Form 1120, is \$25,000 or less. However, see specific instruction 29 and 30, Schedule EP-1, for cases in which the filing of Schedule EP (Form 1120) may be required even though the amount on line 8, Schedule K, on Form 1120 is \$25,000 or less.

(2) **Exempt corporations.**—The following corporations, except as otherwise provided with respect to members of an affiliated group of corporations filing a consolidated return under section 141, are exempt from the excess-profits tax:

(a) Corporations exempt from tax under section 101 (whether or not subject to tax under Supplement U);

(b) Foreign personal holding companies as defined in section 331;

(c) Regulated investment companies as defined in section 361 without the application of section 361 (b) (4);

(d) Personal holding companies as defined in section 501;

(e) Foreign corporations not engaged in trade or business within the United States;

(f) Domestic corporations satisfying the following conditions:

(1) 95 percent or more of the gross income of such domestic corporation for the 3-year period immediately preceding the close of the taxable year (or for such part of such period during which the corporation was in existence) was derived from sources other than sources within the United States, and

(2) 50 percent or more of its gross income for such period or such part thereof was derived from the active conduct of a trade or business;

(g) Any corporation subject to the provisions of Title IV of the Civil Aeronautics Act of 1938 in the gross income of which, for the taxable year for which the return is being filed, there is includible compensation received from the United States for the transportation of mail by aircraft if, after excluding from its gross income such compensation, its adjusted excess profits net income for such year is zero or less.

A corporation which claims exemption from excess profits tax under paragraphs (b), (c), or (e), above, shall file with its return a statement setting forth the facts upon which it relies.

A corporation which claims exemption from excess profits tax under paragraph (f), above, shall attach to its return a statement showing for the 3-year period immediately preceding the close of the taxable year (or for such part thereof during which the corporation was in existence) (1) its total gross income from all sources, (2) the amount thereof derived from the active conduct of a trade or business, (3) a description of such trade or business and the facts upon which the corporation relies to establish that such trade or business was actively conducted by it, and (4) the amount of its gross income from sources within the United States.

The gross income from sources within the United States shall be determined as provided in section 119 and the provisions of the regulations relating thereto.

A corporation which claims exemption from excess profits tax under paragraph (g), above, shall attach to its return a statement showing (1) that it is subject to the provisions of Title IV of the Civil Aeronautics Act of 1938, (2) the amount of the compensation included in the gross income of the corporation that consists of compensation received from the United States for the transportation of mail by aircraft, and (3) the amount of its gross income, net income, excess profits net income, and adjusted excess profits net income, after excluding from its gross income the amount of such compensation. Such exclusion from gross income for such year shall also be made in computing the unused excess profits credit adjustment for any other taxable year, but only for the purpose of determining whether the corporation is exempted by section 454 from excess profits tax for such other taxable year.

(h) Any mutual savings bank not having capital stock represented by shares; any domestic building and loan association, domestic saving and loan association, or Federal savings and loan association, substantially all the business of which is confined to making loans to members; and any cooperative bank without capital stock organized and operated for mutual purposes and without profit.

C. CONSOLIDATED RETURNS.—(1) **Privilege to file consolidated income tax (including excess profits tax) return.**—Section 141 gives to an affiliated group of corporations the privilege of making a consolidated return in lieu of separate returns. See 1953 instructions for Form 1120.

Paragraphs (7) and (8) of section 141 (e) relate to the definition of "includible corporation." Paragraph (7) excludes from the definition of "includible corporation" a personal service corporation, a personal holding company, certain domestic corporations deriving 95 percent or more of their gross income from sources without the United States, and certain corporations transporting mail by aircraft, unless such corporation has filed a consent to be treated as an includible corporation. Paragraph (8) excludes from the definition of "includible corporation" a regulated public utility entitled to compute its excess profits credit under section 448, unless such public utility has filed a consent to compute its excess profits credit without regard to section 448.

An affiliated group of corporations, all the members of which are regulated public utilities, may nevertheless file a consolidated return, provided that each such utility has made and filed a consent to compute its excess profits credit under section 448 only.

D. PERSONAL SERVICE CORPORATIONS.—(1) **Taxation of personal service corporations.**—A personal service corporation is subject to the excess profits tax the same as any other domestic corporation unless it elects not to be subject to such tax. A new election must be made for each taxable year and may be made only in its return for such year. Such an election may not be exercised by a corporation which is a member of an affiliated group of corporations filing a consolidated return. If a corporation is exempt by reason of the exercise of such an election, the provisions of Supplement S (sections 391 through 396) shall apply to the shareholders who were shareholders on the last day of the taxable year of the corporation. Accordingly, the undistributed Supplement S net income is required to be included in the gross income of the persons who were shareholders on such last day. The amount of the undistributed Supplement S net income shall be considered as paid in to the corporation as of the close of the taxable year as paid-in surplus or as a contribution to capital, and the amount of accumulated earnings and profits as of the close of the year shall be correspondingly reduced if such amount or any portion thereof is required to be included as a dividend in the gross income of the shareholder.

(2) **Definition of personal service corporation.**—The term "personal service corporation" means a domestic corporation in which capital is not a material income-producing factor and the

PAGE 2

income of which is to be ascribed primarily to the activities of shareholders who (a) are regularly engaged in the active conduct of the affairs of the corporation and (b) are the owners, throughout the entire taxable year, of at least 70 percent in value of each class of stock of the corporation. If stock is owned by the spouse or minor child of an individual or owned by the guardian or trustee of such spouse or child, such stock is treated as being owned by such individual.

If 50 percent or more of the gross income of a corporation consists of gains, profits, or income derived from trading as a principal, such corporation cannot be considered to be a personal service corporation. As to corporations in which less than 50 percent of the gross income is derived from trading as a principal, see instructions for Schedule PS (Form 1120).

(3) Returns.—A personal service corporation should obtain Schedule PS (Form 1120) from the director and file it with, and as a part of Form 1120.

E. SPECIAL METHODS FOR COMPUTING INCOME.—(1) **Installment basis taxpayers.**—Section 455 provides that a corporation which reports income on the installment basis, or whose principal business consists of purchasing installment sales obligations, may elect in its return for the purpose of excess profits tax to compute its income from installment sales, or installment sales obligations, on the basis of the taxable period for which such income is accrued. The election shall be made by a statement attached to the return or by the use of figures on the return which clearly reflect the election. The election is irrevocable and applies to all taxable years to which the excess profits tax is applicable. If the corporation so elects, the income from installment sales, or installment sales obligations, for each taxable year subject to the excess profits tax will, for the purpose of computing the excess profits tax for all taxable years (including prior taxable years), be adjusted to conform to such election. No amount will be included, however, in computing excess profits net income for any excess profits tax taxable year on account of installment sales made in a taxable year ending before July 1, 1950. For conforming adjustments to income for taxable years in the base period, see section 433 (b) (7); for adjustment in determining invested capital, the net new capital addition, the base period capital addition, and the net capital addition or reduction, see section 441 (h).

(2) **Corporations with income from long-term contracts.**—Any corporation computing income from contracts the performance of which requires more than 12 months may elect in its return for the taxable year, for the purpose of the excess profits tax, to compute such income upon the percentage of completion method of accounting. The election shall be made by a statement attached to the return or by the use of figures on the return which clearly reflect the election. The election is irrevocable and applies to all taxable years to which the excess profits tax is applicable. If the corporation so elects, the income from long-term contracts for each year subject to the excess profits tax will, for the purpose of computing the excess profits tax for all taxable years (including prior taxable years), be adjusted to conform to such election. For conforming adjustments to income for taxable years in the base period, see section 433 (b) (8); for adjustment in determining invested capital, the net new capital addition, the base period capital addition, and the net capital addition or reduction, see section 441 (h).

F. DEALERS IN CERTAIN GOVERNMENT SECURITIES.—Section 440 (c) provides, in general, that dealers in Government securities which are wholly or partially exempt from tax, may elect to include the interest on such securities in excess profits net income and to treat such Government obligations as admissible assets rather than inadmissible assets for the purpose of computing the

invested capital credit and for computing the amounts of capital additions or reductions. Such election may be made for any taxable year by a statement attached to the return for such year or by the use of figures on the return which clearly reflect the election.

G. EXCESS PROFITS CREDIT.—There are three different credits available for computing the excess profits tax: (a) The credit based on income (including the provisions of sections 442 through 446 and section 459; (b) the credit based on invested capital; and (c) in the case of certain regulated public utilities, the credit provided in section 448. The taxpayer is to use that credit which produces the lowest excess profits tax. For computation of (a) the credit based on income, see Schedule EP-2; (b) the credit based on invested capital, see Schedule EP-4; and (c) the credit provided in section 448, see Schedule EP-3.

H. RULES FOR DETERMINING CREDIT IN CASE OF CERTAIN REORGANIZATIONS, LIQUIDATIONS, AND TAXABLE ACQUISITIONS.—(a) **Credit based on Income.**—(1) **Reorganizations and certain tax-free liquidations.**—Sections 461 through 465 provide rules for determining the credit based on income in the case of a corporation (other than a foreign corporation) which during or subsequent to the base period was a party to any of the transactions described in section 461 (a), relating to certain tax-free exchanges. In general, it is provided that such a corporation shall, if a component corporation as defined in section 461 (b), compute its average base period net income under the rules laid down in section 461 (c) and (d). If, however, such a corporation is an acquiring corporation as defined in section 461 (a), the rules for determining average base period net income, and the conditions under which sections 435 (c), 442, 443, 444, 445, and 446 may be available to the corporation are set forth in sections 461 and 462. In the case of certain of these transactions, the application to the acquiring corporation of the provisions relating to capital changes subsequent to the base period and capital changes in the base period is determined by reference to sections 463 and 464. For the effect of the above rules where stock of the component corporation was acquired for other than stock of the acquiring corporation, see section 462 (j). The circumstances under which transactions involving partnerships and sole proprietorships are subject to these provisions are set forth in sections 461 (b) (5) and (6), 461 (f), and 462 (k).

(2) **Taxable acquisitions.**—Section 474 provides rules for determining the credit based on income in the case of a corporation which before December 1, 1950, purchased substantially all of the assets of another corporation or partnership or substantially all the assets of a business of another corporation, partnership, or sole proprietorship. In general, it is provided that such a corporation, if a purchasing corporation as defined in section 474 (a), may compute its average base period net income under the method prescribed in section 435 (d) with reference to the excess profits net income of the corporation, partnership, or business owned by a sole proprietorship which was purchased. Section 474 also provides limitations on the availability of the benefits of the section, and provides for regulations for the determination of capital changes, for the elimination of duplication, and for other computations consistent with the principles of sections 461 through 465 inclusive, wherever appropriate.

(b) **Invested capital.**—For the purposes of computing invested capital (other than historical invested capital), section 470 provides rules to be used in determining the adjusted basis of assets acquired in an intercorporate liquidation. Adjustments with respect to historical invested capital, in the case of certain exchanges and liquidations, are contained in sections 471 and 472.

SPECIFIC INSTRUCTIONS

The following instructions are numbered to correspond with line numbers on each schedule

SCHEDULE EP-1—EXCESS PROFITS NET INCOME AND TAX COMPUTATION

EXCESS PROFITS NET INCOME

1. **Net income before net operating loss deduction.**—Enter the amount which appears in item 32, page 1, Form 1120. In the case of a corporation electing to report income from installment sales, or installment sales obligations on the accrual method, or income from long-term contracts on the percentage of completion method, recompute net income accordingly and enter such amount on line 1. For explanation of the adjustment necessary, see general instruction E (1) and (2).

2. **Adjustment for interest on borrowed capital.**—The adjustment on line 2 adds back the amount computed under (a) or (b) below, whichever is appropriate upon the basis of the excess profits credit applicable to the taxable year. No adjustment is required on this line by a regulated public utility computing its excess profits credit under section 448.

(a) **Income credit.**—In general, section 433 (a) (1) (O) adds back an amount which bears the same ratio to the total interest on borrowed capital as 75 percent of the net increase in borrowed capital bears to the average borrowed capital for the taxable year. This computation may be made by multiplying the total amount of interest on borrowed capital for the taxable year by the excess of the amount on line 7 of Schedule EP-2 (B) over the amount on line 13, Schedule EP-2 (B), and dividing the result by the amount on line 4, Schedule EP-2 (B).

(b) **Invested capital credit.**—Section 433 (a) (1) (N) adds back an amount which is 75 percent of the interest on borrowed capital.

3. **Deductions on account of retirement or discharge of bonds, etc.**—If during the taxable year the taxpayer retires or discharges any bond, debenture, note, or certificate, or other evidence of in-

debtedness, if the obligation of the taxpayer has been outstanding for more than 6 months, the following deductions for such taxable year shall not be allowed:

(a) The deduction allowable under section 23 (a) for expenses paid or incurred in connection with such retirement or discharge;

(b) The deduction for losses allowable by reason of such retirement or discharge; and

(c) In case the issuance was at a discount, the amount deductible for such year solely because of such retirement or discharge.

In making this adjustment, the deduction allowable for any premium paid on bonds when called for redemption shall be disallowed, but the deduction allowable for any discount amortized up to the date of the retirement or discharge shall not be disallowed. Expenses incurred in issuing bonds which are amortized shall be treated in the same manner as discounts.

4. Deductions attributable to a grant or loan by a governmental agency to encourage mining of certain minerals.—The adjustment on line 4 is the sum of any expenditures described below deducted in arriving at the amount on line 1. The adjustment on line 21 is the amount of any income described below included in computing line 1.

Section 433 (a) (1) (P) provides that an amount paid to a taxpayer by the United States (or any agency or instrumentality thereof), whether by grant or loan and whether or not repayable, for the encouragement of exploration, development, or mining of critical and strategic minerals or metals pursuant to or in connection with any undertaking approved by the United States (or any of its agencies or instrumentalities) and for which an accounting is made or required to be made to an appropriate governmental agency, and the forgiveness or discharge of any such amount, shall be excluded in computing excess profits net income; and any expenditures (other than expenditures made after the repayment of such grant or loan) attributable to such grant or loan shall not be deductible by the taxpayer as an expense and shall not increase the basis of the taxpayer's property either for determining gain or loss on sale, exchange, or other disposition or for computing depletion or depreciation, but upon the repayment of any portion of such grant or loan which has been expended in accordance with the terms thereof such deductions and such increase in basis shall to the extent of such repayment be allowed as if made at the time of such repayment.

5. Deductions under reserve method for bad debts, in the case of banks.—The adjustment on line 5 is the addition to the bad debt reserve deducted in arriving at the amount on line 1. The adjustment on line 19 is the amount of those debts which actually became worthless during the taxable year.

Section 433 (a) (1) (L) provides that in the case of a bank (as defined in section 104) using the reserve method of accounting for bad debts, there shall be allowed, in lieu of the amount allowable under the reserve method for bad debts, a deduction for debts which became worthless within the taxable year, in whole or in part, within the meaning of section 23 (k).

6. Federal income and excess profits taxes paid by lessee under long-term lease.—The adjustment on line 6 is to disallow the deduction by a lessee of an amount of Federal income taxes paid on behalf of a lessor. The adjustment on line 18 is to exclude this amount from income in the case of a lessor.

If under a lease for a term of more than 20 years, entered into prior to December 1, 1950, the lessee is required to pay any portion of the tax imposed by chapter 1 upon the lessor with respect to the rentals derived by such lessor from such lessee, or is obligated to reimburse the lessor for any portion of the tax imposed by chapter 1 upon the lessor with respect to the rentals derived by such lessor from such lessee, such payment or reimbursement of the tax imposed by chapter 1 shall be excluded by the lessor and a deduction therefor shall not be allowed to the lessee. For treatment of certain leases of railroad properties containing renewal clauses, see section 433 (a) (1) (K).

7. Deductions attributable to technical services rendered to related foreign corporations.—The adjustment on line 7 is the sum of any expenditures described below deducted in arriving at the amount on line 1. The adjustment on line 22 is the amount of any income described below included in computing line 1.

Section 433 (a) (1) (R) provides that in the case of a domestic corporation which renders to a related foreign corporation technical assistance, engineering services, scientific assistance, or similar services (such services or assistance being related to the production or improvement of products of the type manufactured by such domestic corporation), there shall be excluded the remuneration for such services or assistance if such remuneration constitutes income derived from sources without the United States. Any deductions in connection with or properly allocable to the rendering of such services or assistance shall not be allowed. For this purpose, a foreign corporation shall be considered a "related foreign corporation" if 10 percent or more of its outstanding stock is owned by the domestic corporation.

8. Adjustment for interest on certain Government obligations.—Section 433 (a) (1) (S) provides that, in the case of a dealer in certain Government obligations which makes the election provided by section 440 (c), the excess profits net income shall be increased by the excess of the amount of interest received or accrued on such obligations during the taxable year over the sum of (a) the amount of interest paid or accrued during such year which is not allowed as a deduction under section 23 (b), and (b) the amount of the adjustments required for the taxable year under section 22 (o) (relating to the adjustment for certain bond premiums) but not in excess of the amount of interest received or accrued during the taxable year on Government obligations to which such section is applicable. For this purpose, the term "Government obligations" means obligations described in section 22 (b) (4) any part of the interest from which is excludible from gross income or allowable as a credit against net income; but such term shall include only such obligations as in the hands of the taxpayer are properly described in section 117 (a) (1) (A).

10. Partially tax-exempt interest.—Enter on this line the sum of the amounts reported on lines (a) and (b), column 3, Schedule C-1, Form 1120. The purpose of this adjustment is to exclude from excess profits net income interest on certain obligations of the Government.

11. Dividends received.—The purpose of this adjustment is to exclude dividends, except dividends (actual or constructive) on stock of foreign personal holding companies and dividends on stock which is not a capital asset. In the case of a dividend in kind, the amount to be excluded shall not exceed the adjusted basis of the property so distributed in the hands of the distributing corporation at the time of the distribution, increased in the amount of gain or decreased in the amount of loss recognized to the distributing corporation by reason of such distribution.

12. Net operating loss deduction for excess profits tax purposes.—The amount to be entered on line 12, is the amount of the net operating loss deduction otherwise prescribed in sections 23 (s) and 122, computed in accordance with the following modifications as provided in section 433 (a) (1) (J):

(a) In computing the net operating loss for any taxable year under section 122 (a) and the net income for any taxable year under section 122 (b), the deduction for interest shall be reduced by the amount of any reduction under section 433 (a) (1) (N) or (O) (relating to interest adjustment with respect to borrowed capital), whichever is applicable upon the basis of the excess profits credit for such taxable year; and

(b) In lieu of the reduction provided in section 122 (c), such reduction shall be in the amount by which the excess profits net income computed with the exceptions and limitations specified in section 122 (d) (1), (2), (3), and (4), and computed without regard to section 433 (a) (1) (C) (relating to gains and losses from sale or exchange of capital assets), without regard to any credit for dividends received, and without regard to any credit for interest received provided in section 26 (a) (relating to interest on obligations of the United States and its instrumentalities), exceeds the excess profits net income (computed without the net operating loss deduction); and

(c) If the taxpayer for its first taxable year ending after June 30, 1950, computed its excess profits credit under section 435 (relating to the excess profits credit based on income) or section 436 (a) by use of the historical invested capital determined under section 458, and elected in its return (by a statement attached thereto) for such taxable year to compute its net operating loss deduction for the purposes of section 433 (a) (1) (J) for all taxable years by treating an amount equal to the base period loss adjustment (as defined in clause (d)) as a net operating loss carry-over from the last taxable year ending before July 1, 1950, then the net income computed under section 122 (b) for any taxable year ending before July 1, 1950, shall be determined without regard to such carry-over;

(d) For the purposes of clause (c), the base period loss adjustment shall be the amount of the recent loss adjustment determined under section 437 (f), using the base period as the recent loss period, and computed by limiting the amount of the net operating loss for any taxable year beginning before January 1, 1948, to an amount equal to the net operating loss carry-over from such taxable year to the taxable year immediately succeeding such taxable year; and

(e) If the taxpayer has made the election described in clause (c), the net operating loss deduction for the purposes of section 433 (a) (1) (J) for each taxable year ending after June 30, 1950 (whether or not the credit for such taxable year is computed under section 435), shall be computed without regard to the net operating loss for any taxable year ending before July 1, 1950, and the net operating loss carry-over specified in clause (c) shall not be allowed as a net operating loss carry-over to any taxable year for which the excess profits credit is not computed under section 435 (relating to the excess profits credit based on income) and is not

PAGE 4

computed under section 436 (a) by use of the historical invested capital determined under section 458.

13. Net gain from sale or exchange of capital assets.—Section 433 (a) (1) (C) provides for the exclusion of gains and losses from sales or exchanges of capital assets. Accordingly, the amount to be entered on line 13 is the sum of items 13 (a) and 13 (b), page 1, Form 1120.

14. Income from retirement or discharge of bonds, etc.—Section 433 (a) (1) (D) provides for the exclusion of income derived from the retirement or discharge by the taxpayer of any bond, debenture, note, or certificate or other evidence of indebtedness, if the obligation of the taxpayer has been outstanding for more than 6 months, including, in case the issuance was at a premium, the amount includible in income for the taxable year solely because of such retirement or discharge. Do not exclude the accrued amortization of bond premium for that portion of the year preceding such retirement or discharge.

15. Refunds and interest on Agricultural Adjustment Act taxes.—Section 433 (a) (1) (E) provides for the exclusion of income attributable to a refund of tax paid under the Agricultural Adjustment Act of 1933, as amended, and interest upon any such refund.

16. Income from recovery of certain bad debts.—Section 433 (a) (1) (G) provides for the exclusion of income attributable to the recovery of a bad debt if the deduction of such debt was allowable from gross income for any taxable year beginning before January 1, 1940, or for any taxable year beginning after December 31, 1945, and ending before July 1, 1950, or if such debt was properly charged to a reserve for bad debts during any such taxable year.

17. Nontaxable income of certain industries with depletable resources.—Sections 433 (a) (1) (I) and 453 provide that in the case of a producer of minerals, or a producer of logs or lumber from a timber block, or a lessor of mineral property, or if a timber block, there shall be excluded nontaxable income from exempt excess output of mines and timber blocks; in the case of a natural gas company, there shall be excluded nontaxable income from exempt excess output; and, in the case of a producer of minerals or a producer of logs or lumber from a timber block, there shall be excluded nontaxable bonus income. A corporation described in section 453 (c) (2) shall be deemed a producer of minerals with respect to nontaxable bonus income.

The election under section 453 (d) made by a taxpayer receiving income attributable to bonus payments (section 453 (c)) shall be indicated in the supporting statement attached to the return.

18. Federal income and excess profits taxes received by lessor under long-term lease.—See instruction 6.

19. Debts which actually became worthless during the year, in case of banks.—See instruction 5.

20. Adjustment for blocked foreign income.—Section 433 (a) (1) (M) provides for the exclusion of income derived from sources within any foreign country to the extent that such income would, but for monetary, exchange, or other restrictions imposed by such foreign country, have been includible in the gross income of the taxpayer for any taxable year which preceded its first taxable year ended after June 30, 1950. Where such income is includible (without regard to section 433 (a) (1) (M)) in a taxable year succeeding the first taxable year ended after June 30, 1950, and, but for such restrictions, would have been includible in the gross income of the taxpayer for its first taxable year ended after June 30, 1950, the exclusion provided, in case such first taxable year began prior to July 1, 1950, shall be reduced to an amount which is the same proportion of the blocked income as the number of days in such taxable year prior to July 1, 1950, is of the total number of days in such taxable year. Deductions properly chargeable and allocable to such income shall not be allowed.

21. Income attributable to a grant or forgiveness of a loan by a governmental agency to encourage mining of certain minerals.—See instruction 4.

22. Income attributable to technical services rendered to related foreign corporations.—See instruction 7.

25. Deductions applicable to life insurance companies.—Section 433 (a) (1) (H) provides that, in the case of a life insurance company computing its excess profits credit under section 435 (based on income), there shall be deducted from the normal-tax net income the excess of (a) the product of (1) the figure 0.87 and (2) the excess profits net income computed without regard to section 433 (a) (1) (H) over (b) the adjustment for certain reserves provided in section 202 (c). If the excess profits credit is computed under section 436 (based on invested capital), there shall be deducted from the normal-tax net income only 50 percent of the amount determined under the preceding sentence.

26. Excess profits net income—short taxable years.—Section 433 (a) (2) provides that, in lieu of the provisions of section 47 (c), if the taxable year is a period of less than 12 months, the excess profits net income for such taxable year (referred to in this

paragraph as the "short taxable year") will be placed on an annual basis by multiplying the amount thereof by the number of days in the 12 months ending with the close of the short taxable year and dividing by the number of days in the short taxable year. The excess profits tax will be such part of the tax computed on such annual basis as the number of days in the short taxable year is of the number of days in the 12 months ending with the close of the short taxable year. (See also section 433 (a) (2) (B).)

TAX COMPUTATION

27. Excess profits credit.—

(a) In general.—In the case of a domestic corporation, the excess profits credit for any taxable year is the amount determined under section 435 (relating to excess profits credit based on income) or the amount determined under section 436 (relating to excess profits credit based on invested capital) whichever amount results in the lesser excess profits tax for the taxable year. For computation of excess profits credit based on income, see Schedule EP-2 and instructions. For computation of credit based on invested capital, see Schedule EP-4 and instructions. For computation of alternative credit in case of certain regulated public utilities, see Schedule EP-3 and instructions.

(b) Railroad lessor-lessee corporations.—If substantially all the railroad properties of a railroad corporation subject to Part I of the Interstate Commerce Act have been leased for a term of more than 20 years to another such railroad corporation pursuant to an agreement or agreements entered into prior to December 1, 1950, which agreement or agreements require the lessee or lessees to pay the taxes of the lessor, the aggregate of the excess profits credit and the unused excess profits credit adjustment of each such corporation may be equitably apportioned by agreement, if approved in accordance with regulations prescribed by the Secretary, among the lessor and each of the lessee corporations so required to pay the taxes of the lessor. The term of a lease of railroad properties entered into prior to December 1, 1950, shall include the years for which such release may be renewed or continued. See section 434 (d).

(c) Section 459. Miscellaneous provisions.—In general.—Section 459 provides special computations of average base period net income in the case of taxpayers meeting certain eligibility requirements with respect to (1) transition from war production and increase in peacetime capacity, (2) base period catastrophe, (3) consolidation of newspaper operations, (4) television broadcasting companies, and (5) preserving defense capacity and increasing capacity for manufacturing peacetime products from certain strategic and critical metals. There is no separate schedule provided for computation of average base period net income under section 459. A taxpayer computing average base period net income under any provision of this section shall attach to its return a schedule showing the computation of such average base period net income and in the case of a taxpayer computing a credit by reference to section 459 (d) any adjustments to the capital additions or reductions required under that section. The taxpayer shall also submit with its return a full and complete statement showing the basis upon which each requirement of the particular subsection of section 459 is satisfied and all the facts upon which the taxpayer relies. For definition of adjusted basis and unadjusted basis as used in section 459, see section 459 (e).

(1) Transition from war production and increase in peacetime capacity.—Section 459 (a) provides for computation of an alternative average base period net income in the case of a taxpayer engaged primarily in manufacturing and which commenced business before January 1, 1940. In general, the taxpayer must establish that—

(i) the adjusted basis of its facilities at the beginning of its base period (including the facilities of all members of the taxpayer's affiliated group) did not exceed \$10,000,000;

(ii) the unadjusted basis of its facilities at the end of its base period was 250 percent or more of the unadjusted basis of its facilities at the beginning of its base period;

(iii) the taxpayer's gross income derived from certain contracts with the United States and related subcontracts constituted (A) at least 70 percent for certain years during World War II, (B) less than 20 percent for certain years ending after 1945;

(iv) the average monthly excess profits net income for taxable years ending in the last half of its base period and for the taxable year immediately preceding the base period are each 300 percent or more of the average monthly excess profits net income for the taxable years ending in the first half of the base period.

If section 459 (a) is applicable, the taxpayer may compute its average base period net income under section 435 (e) (2) (G) (i) and (ii) using lines 44 through 48 and lines 52 through 56 of Schedule EP-2 as a guide but substituting the excess profits net income of the last 6 months of 1948 in lieu of the excess profits net income for the last 6 months of 1949 on line 45. If the aver-

age base period net income is computed under section 459 (a), no base period capital addition is allowed.

(2) *Base period catastrophe.*—Section 459 (b) provides two alternative methods of computing the average base period net income which are, in general, available to a taxpayer, engaged primarily in manufacturing, which suffered a catastrophe by fire, storm, explosion, or other casualty during the last 36 months of its base period which destroyed or rendered inoperative a production facility constituting a complete plant or plants having an adjusted basis equal to 15 percent or more of the adjusted basis of all the taxpayer's production facilities. The taxpayer's normal production or operation must have been interrupted for a period of more than 12 consecutive months as a result of such catastrophe, and such production facility replaced prior to the end of its base period.

If section 459 (b) is applicable, the taxpayer may compute its average base period net income using whichever of the following methods results in the lesser excess profits tax:

(i) the average base period net income may be computed under section 435 (d) (relating to the general average method) by substituting for the excess profits net income for each month in the taxable year in which the catastrophe occurred an amount equal to the aggregate, divided by the number of months in the base period preceding such taxable year, of the excess profits net income for each month (computed under section 435 (d) (1)) in the base period preceding such taxable year. A taxpayer computing its average base period net income in this manner should use lines 33 through 38 and lines 49 through 56 of Schedule EP-2, and should enter on line 33 (a) of Schedule EP-2 for the year in which the catastrophe occurred an amount computed by aggregating the excess profits net income as shown on line 33 (a) for each month in the base period preceding such taxable year and dividing such aggregate by the number of months in the base period preceding such taxable year.

(ii) the taxpayer may compute its average base period net income under section 435 (e) (2) (G) (i) and (ii) using lines 44 through 48 and lines 52 through 56 of Schedule EP-2 as a guide but substituting on line 45 of Schedule EP-2 the excess profits net income for the last 6 months of 1948 in lieu of the excess profits net income for the last 6 months of 1949.

If the average base period net income is computed under (ii), no base period capital addition is allowed.

(3) *Consolidation of newspaper operations.*—Section 459 (c) provides, in general, for a special computation of the average base period net income of a taxpayer engaged primarily in the newspaper publishing business which, after the first half of its base period and prior to July 1, 1950, consolidated its mechanical, circulation, advertising, and accounting operations with such operations of another newspaper in the same area, and such consolidation was continued throughout the taxable year.

The taxpayer must establish that for the period ending with the close of the first taxable year beginning after the consolidation, the consolidation resulted in substantial reductions in expenses paid or incurred in connection with its mechanical, circulation, advertising, and accounting operations, and that either—

(i) the deductions of the taxpayer under section 23 for its first taxable year beginning after the consolidation, computed without regard to the net operating loss deduction and without regard to certain circulation expenditures, were not in excess of 80 percent of the average of such deductions for the two taxable years preceding the taxable year of consolidation, or

(ii) the excess profits net income of the taxpayer, computed under section 433 (b), for the first taxable year beginning after the consolidation was 125 percent or more of the average base period net income computed under section 435 (d).

If section 459 (c) is applicable, the taxpayer may compute an average base period net income by ascertaining the amount under section 435 (d) (line 32 or line 38, EP-2, whichever is applicable) and by adding thereto an amount equal to the excess of the average expenses paid or incurred in the conduct of the newspaper operations during the two taxable years immediately preceding the year of consolidation over the total of such expenses during the first taxable year after the consolidation. In making this determination proper adjustment shall be made for increases in the cost of labor and newsprint (due to wage and price increases) following such consolidation. Proper adjustment shall also be made for any case in which any taxable year used in the computation of the average base period net income is a period of less than 12 months.

The amount computed under this section should be used in lieu of the amount on line 32 or 38 in determining the amount to be entered on line 49 of Schedule EP-2. Lines 53 through 56 should then be completed.

(4) *Television broadcasting companies.*—Section 459 (d) provides an alternative method of computing the income credit in the case of a taxpayer engaged in television broadcasting throughout

a period beginning before January 1, 1951, and ending with the close of the taxable year. Under this provision, the average base period net income consists, in general, of the sum of—

(i) an average base period net income, determined under the general average method, for any business of the taxpayer other than the television broadcasting business, and

(ii) an average base period net income for the television broadcasting business determined by applying to the adjusted basis of television assets at the end of the base period either the base period rate of return for the industry classification which includes radio broadcasting or, if the taxpayer was engaged in radio broadcasting during the base period, an "individual rate of return" based on the taxpayer's actual radio broadcasting experience during the base period, whichever rate of return produces the lesser tax.

Special rules are provided for a taxpayer which acquired its television broadcasting business after the close of its base period and before January 1, 1951, for the computation of the base period capital addition and the net capital addition or reduction, and for the avoidance of duplication.

A taxpayer computing its income credit by reference to section 459 (d) should, if it was engaged in any business other than television broadcasting during its base period, determine an average base period net income for such non-television business, using Schedule EP-2 (lines 1 through 38) as a guide. In making this determination, there should be excluded from each item on lines 1 through 30 any income, deductions, losses, or other items attributable to the television broadcasting business. In the case of items such as administrative expenses, depreciation, or other items which may be attributable in part both to the television and non-television business, proper allocation of the item should be made in accordance with regulations.

If the taxpayer was not engaged in the radio broadcasting business during the base period but was engaged in the television broadcasting business during such period, the average base period net income for the television business shall be determined by multiplying the adjusted basis of such portion of its assets, determined as of the last day of the base period, as was attributable to television broadcasting, by the base period rate of return prescribed under section 447 (c) for the industry classification which includes radio broadcasting. The amount thus determined is reduced by such portion of the interest paid or incurred by the taxpayer, for the period of 12 months following the close of the base period, as was attributable to the television broadcasting business.

If the taxpayer was engaged in both the radio and television broadcasting business during the base period, the average base period net income for the television business may be determined either by use of the base period rate of return as described in the preceding paragraph, or by multiplying the adjusted basis of such portion of its assets, determined as of the last day of the base period, as was attributable to television broadcasting, by the taxpayer's individual rate of return. The individual rate of return is computed under section 459 (d) (4), in general, by determining the average of the taxpayer's assets attributable to the radio broadcasting business for the last day of each month in the base period, by ascertaining the average yearly excess profits net income attributable to the radio broadcasting business, and by dividing the average amount of such assets by such excess profits net income.

If the taxpayer acquired its television broadcasting business after the close of its base period and prior to January 1, 1951, the average base period net income for the television business is computed by reference to the adjusted basis of its television properties as of the last day of the calendar month in which it first engaged in such business. If such a taxpayer uses the industry rate of return in lieu of the individual rate of return, the adjustment for interest paid or incurred is made with respect to interest for the 12 months following the month in which it first engaged in the television broadcasting business.

If the average base period net income is determined under section 459 (d), the base period capital addition is available only with respect to the non-television business. Such base period capital addition may be computed using Schedule EP-2 (A) as a guide, but excluding from the entries on that schedule such items as are determined under regulations to be attributable to the television broadcasting business.

A taxpayer using section 459 (d) should compute its net capital addition or reduction on Schedule EP-2 (B), making such adjustments in the computation as may be required by regulations.

If any assets of the taxpayer used in computing the television portion of the credit under section 459 (d) were acquired, directly or indirectly through the use of assets attributable at any time during the base period to the non-television business of the taxpayer, the average base period net income determined for the non-television business shall be properly adjusted by eliminating from the excess profits net income for each month prior to such acquisition, such portion thereof as is attributable to the assets

PAGE 6

used for such acquisition. For this purpose, the excess profits net income for any month shall be attributed to such assets on the basis of the ratio, as of the beginning of the day of such acquisition, of such assets to the total non-television assets of the taxpayer.

For application of Part II in the computation of a credit under section 459 (d), see regulations.

For definition of "assets" see instruction 7, Schedule EP-5.

(5) *Companies preserving defense capacity and increasing capacity for manufacturing peacetime products from certain strategic and critical metals.*—Section 459 (f) provides for the computation of an alternative average base period net income in the case of certain taxpayers which commenced business on or before January 1, 1936, and since such date have been primarily engaged in manufacturing. In general, a taxpayer must establish that—

(i) the percentage of its purchases of raw strategic and critical metals was 80 percent or more for each of the taxable years beginning with or within its base period;

(ii) its average monthly excess profits net income, computed as provided in section 443 (c), for the period comprising all taxable years ending with or within the first 24 months of its base period was 250 percent or more of its average monthly excess profits net income, computed as provided in section 443 (c), for the period comprising all taxable years ending with or within the last 24 months of its base period;

(iii) the adjusted basis of its total facilities at the beginning of its base period (including the facilities of all members of the taxpayer's affiliated group) did not exceed \$10,000,000; and

(iv) the adjusted basis of its total facilities on the last day of its base period was 180 percent or more of the adjusted basis of its total facilities on the first day of its base period.

For the purpose of section 459 (f), the term "strategic and critical metals" means copper and zinc (including scrap containing such metals).

If section 459 (f) is applicable, the taxpayer may compute its average base period net income under section 435 (e) (2) (E) and (F) using lines 44 through 48 and lines 52 through 56 of Schedule EP-2 as a guide but substituting for the excess profits net income for the last six months of 1949 (line 45) an amount computed by multiplying the excess profits net income for the last six months of 1946 by the percent determined by dividing the adjusted basis of its total facilities on December 31, 1948, by the adjusted basis of its total facilities on the first day of its base period. The average base period net income as so computed is limited, however, to an amount which is not in excess of 80 percent of the excess profits tax net income for its first taxable year ending after June 30, 1950.

If the average base period net income is computed under section 459 (f), no base period capital addition is allowed.

(d) *Corporations which were parties to certain reorganizations, exchanges, and liquidations and acquisitions.*—Rules are provided for the computation of the excess profits credit based on income in the case of certain reorganizations, exchanges, and liquidations. See sections 461 through 465. Sections 470 through 472 contain rules with respect to the computation of the excess profits credit based on invested capital in case of certain reorganizations, exchanges, and liquidations. Section 474 provides rules with respect to the computation of a credit for purposes of section 435 (d) in the case of certain taxable acquisitions occurring before December 1, 1950.

(e) *Foreign corporations.*—A foreign corporation engaged in trade or business within the United States which was in existence on January 1, 1946, may compute its excess profits tax using either the income method or the invested capital method if such corporation's first excess profits tax taxable year began on or before July 1, 1950, and if it was engaged in trade or business within the United States at some time during each taxable year which began or ended in the base period. If a foreign corporation does not meet the foregoing requirements, the excess profits credit for any taxable year must be computed under the invested capital method. See sections 435 and 436 for special rules with respect to the excess profits credit of a foreign corporation.

(f) *Corporations entitled to the benefits of section 251.*—A corporation entitled to the benefits of section 251 may compute its excess profits credit by using either the income method under section 435 or the invested capital method under section 436 (b).

28. *Unused excess profits credit adjustment.*—Section 432 provides that the unused excess profits credit for any taxable year ending after June 30, 1950, is the excess of the corporation's excess profits credit for such taxable year over its excess profits net income for such year computed without regard to the net operating loss deduction. If the taxable year is less than 12 months, the unused excess profits credit will be that portion of the unused excess profits credit determined under the general rules as the number of days in the taxable year is of the number of days in the 12-month period ending with the close of the taxable year. If the taxable year began

before July 1, 1950, and ended after June 30, 1950, the unused excess profits credit will be an amount which is such portion of the unused excess profits credit determined under the general rule as the number of days in the taxable year after June 30, 1950, is of the total number of days in such taxable year. If the taxable year begins before January 1, 1954, and ends after December 31, 1953, the unused excess profits credit will be an amount which is such portion of the unused excess profits credit determined under the general rule as the number of days in the taxable year before January 1, 1954, is of the total number of days in such taxable year. There shall be no unused excess profits credit for any taxable year for which the taxpayer is exempt under section 454.

The unused excess profits credit determined under section 432 (b) will first be carried back to the first preceding taxable year as an unused excess profits credit carry-back. The balance of the unused credit may then be carried over to the five succeeding taxable years as an unused excess profits credit carry-over. The unused excess profits credit carry-over to the first succeeding taxable year will be the excess of the unused credit over the adjusted excess profits net income of the preceding taxable year. The adjusted excess profits net income for such preceding taxable year will be determined by computing the unused excess profits credit adjustment for such preceding taxable year without regard to the unused credit carry-back and without regard to the last sentence of section 431 providing for a minimum excess profits credit plus unused excess profits credit adjustment of \$25,000.

If the preceding taxable year began prior to July 1, 1950, and ended after June 30, 1950, the amount by which the unused credit is reduced for the purpose of computing the carry-over is an amount which is such part of the reduction, or such part of the unused excess profits credit carry-back for such preceding taxable year, whichever is the lesser, as the number of days in such taxable year after June 30, 1950, is of the total number of days in such taxable year.

In determining the unused excess profits credit carry-over to the second, third, fourth, and fifth taxable years, the unused excess profits credit is reduced by the adjusted excess profits net income for each of the intervening taxable years. For such purpose, the adjusted excess profits net income for any intervening taxable year is determined (1) by computing the unused excess profits credit adjustment for such intervening year without regard to such unused credit and without regard to any unused excess profits credit for any year subsequent to the year of such unused credit, and (2) by disregarding the last sentence of section 431 providing for a minimum excess profits credit plus unused excess profits credit adjustment of \$25,000.

For the purpose of computing the unused excess profits credit carry-over, an unused excess profits credit will not be decreased by reference to any taxable year ending prior to July 1, 1950. Furthermore, there will be no unused excess profits credit carry-back to any taxable year ended prior to July 1, 1950. For computation of unused excess profits credit for year of liquidation, see section 432 (c).

29 and 30. *Adjusted excess profits net income.*—The term "adjusted excess profits net income" is defined by section 431 as the excess profits net income computed under section 433 (a) minus the sum of (a) the amount of the excess profits credit allowed under section 434 and (b) the unused excess profits credit adjustment computed under section 432. If the sum of the excess profits credit and the unused excess profits credit adjustment is less than \$25,000, such sum is increased to \$25,000.

Under certain circumstances described in section 15 (c) the minimum excess profits credit of \$25,000 is not allowed or may be reduced to a lesser figure.

Section 15 (c) provides that if a corporation on or after January 1, 1951, transfer all or part of its property (other than money) to another corporation which was created for the purpose of acquiring such property or which was not actively engaged in business at the time of such acquisition and if after such transfer the transferor corporation or its stockholders, or both, are in control of such transferee corporation during any part of the taxable year of such transferee corporation, the transferee corporation shall not for such taxable year be allowed either the \$25,000 exemption from surtax or the \$25,000 minimum excess profits credit provided in the last sentence of section 431, unless such transferee corporation shall establish by a clear preponderance of the evidence that the securing of such exemption or credit was not a major purpose of such transfer. For this purpose, control means the ownership of stock possessing at least 80 percent of the total combined voting power of all classes of stock entitled to vote or at least 80 percent of the total value of shares of all classes of stock of the corporation. Rules are provided for the determination of the ownership of stock for the purposes of the section. For allocation of the surtax exemption and minimum excess profits credit in certain cases, see section 129 (b).

31 and 32. Computation—General rule.—Section 430 provides that the excess profits tax shall be the lesser of the following:

- (a) 30 percent of the adjusted excess profits net income, or
- (b) 18 percent of the excess profits net income.

In the case of an affiliated group of includible corporations making or required to make a consolidated return for the taxable year under section 141, the amount to be entered on line 32 shall be reduced by an amount which bears the same ratio (but not in excess of 100 percent) to the increase of 2 percent in the surtax imposed by reason of section 141 (c) as the amount of the consolidated excess profits net income bears to the amount of the consolidated corporation surtax net income.

33. Maximum tax for new corporations.—Section 430 (e) provides an additional alternative computation of the excess profits tax in the case of certain taxpayers which commenced business after July 1, 1945, and whose fifth taxable year ends after June 30, 1950. Under section 430 (e) the maximum tax is computed as follows: (a) by applying a special rate, depending on the taxable year of the corporation, to the first \$300,000 of excess profits net income, and (b) by adding to the amount thus determined 18 percent of the excess over \$300,000. For the first five taxable years of the corporation, counting as the first year the year of commencement of business, the special rates on the first \$300,000 of excess profits net income are as follows:

First taxable year.....	5%
Second taxable year.....	5%
Third taxable year.....	8%
Fourth taxable year.....	11%
Fifth taxable year.....	14%

The taxpayer shall indicate on line 33 for which taxable year of its first five taxable years the return is being filed and shall insert on line 33 (a) the percentage rate applicable to such year. The amount of excess profits tax computed on the excess profits net income not in excess of \$300,000 shall be entered on line 33 (b). Enter on line 33 (c) the amount of excess profits net income in excess of \$300,000 multiplied by 18 percent.

The alternative computation of the maximum excess profits tax for new corporations is not available to a taxpayer which derives more than 50 percent of its gross income (determined without regard to dividends and without regard to gains from sale or exchange of capital assets) for the taxable year from contracts and subcontracts to which the provisions of Title I of the Renegotiation Act of 1951 (or the provisions of any prior renegotiation act) are applicable.

In determining the taxable year of the taxpayer for the purpose of the maximum tax on new corporations, the taxpayer shall be considered to have commenced business as of the date of commencement of business of certain related corporations described in section 430 (e) (2) (B).

34. Proration of tax.—In the case of a taxable year beginning before January 1, 1954, and ending after December 31, 1953, the excess profits tax will be an amount equal to that portion of a tentative tax determined under section 430 (a) as the number of days in such year prior to January 1, 1954, bears to the total number of days in such year.

35. (a) Mutual insurance companies.—Section 430 (d).—In the case of a mutual insurance company other than life or marine, if the gross amount received from interest, dividends, rents, and premiums (including deposits and assessments) is over \$75,000 but less than \$125,000, the excess profits tax will be an amount which bears the same proportion to the amount otherwise ascertained under section 430 as the excess over \$75,000 of such gross amount bears to \$50,000.

(b) Corporations engaged in mining of strategic minerals.—Section 450.—In the case of any domestic corporation engaged in the mining of a strategic mineral, named in section 450 (b) (1) or certified by proper authority, the portion of the adjusted excess profits net income attributable to such mining in the United States will be exempt from the excess profits tax. The tax on the remaining portion of the adjusted excess profits net income is an amount which bears the same ratio to the tax computed without regard to section 450 as such remaining portion bears to the entire adjusted excess profits net income.

In determining the portion of the adjusted excess profits net income which is attributable to the mining of a mineral which is a strategic mineral by reason of a certification made during the taxable year by proper authority, such portion is an amount which bears the same ratio to the portion of the adjusted excess profits net income, determined without regard to section 450, attributable to such mining during the entire taxable year as the number of days for which the corporation held the mineral property during the taxable year and after the date of the making of the certification bears to the number of days for which the corporation held the property during such taxable year.

(c) Abnormalities in income in taxable period.—Section 456.—The Act provides an adjustment for certain abnormalities in

income for the taxable year but only to the extent that the "net abnormal income" is attributable to other taxable years. Income includible in the gross income for the taxable year is treated as "abnormal income" if it is abnormal for the corporation to derive income of a particular class, or if the taxpayer normally derives income of a particular class but the amount includible in gross income for the taxable year is in excess of 115 percent of the average amount of gross income of the same class for the four previous taxable years, or so much of the four previous taxable years during which the corporation was in existence.

Abnormal income is to be determined by considering classes of income and not merely particular items.

Separate classes of income are defined in section 456 (a) (2) as follows:

(1) Income arising out of a claim, award, judgment, or decree, or interest on any of the foregoing;

(2) Income resulting from exploration, discovery, or prospecting, or any combination thereof, extending over a period of more than 12 months;

(3) Income from sale of patents, formula, or processes, or any combination thereof, developed over a period of more than 12 months; and

(4) Income includible in gross income for the taxable year, rather than for a different taxable year by reason of a change in the corporation's method of accounting.

Classification of income not included in the separately defined classes is subject to regulations.

Section 456 is to be applied only for the purpose of computing the excess profits tax for the current taxable year (including such amount of excess profits tax resulting from attributing the net abnormal income to a prior excess profits tax taxable year) or for a future taxable year. The computation of base period net income and the excess profits credit is not affected.

(d) Contracts under Merchant Marine Act.—Section 457 (a).—The law provides for an alternative tax in the case of a corporation which has been certified by the Federal Maritime Board to the Secretary as having completed within the taxable year any contracts or subcontracts subject to the provisions of section 505 (b) of the Merchant Marine Act of 1936, as amended.

The alternative tax is in lieu of the excess profits tax computed under section 430 but only if such alternative tax is less than the tax under such section. Such alternative tax (computed as provided in section 457 (b)) is the excess of (1) a tentative tax computed under section 430 with the normal-tax net income increased by the amount of any payments made, or to be made, to the Board with respect to contracts or subcontracts the completion of which during the taxable year has been certified to the Secretary by the Board over (2) the amount of such payments.

A corporation claiming the benefit of the alternative tax provided under section 457 (a) shall attach to its return (1) a certificate of the Board showing each contract or subcontract subject to the provisions of section 505 (b) of the Merchant Marine Act which the corporation has completed within the taxable year, and (2) a statement showing the amount of payments made, or to be made, to the Board with respect to such contracts or subcontracts.

36. Foreign tax credit.—If a credit for income taxes paid to a foreign country or United States possession is allowed against the corporation normal tax and surtax, the portion of such foreign tax not used as a credit against the normal tax and surtax by reason of the limitations of section 131 (b) will be available for credit against the excess profits tax. The amount thus made available as a credit against the excess profits tax is subject to further limitations provided in section 131 (j).

38. Position inconsistent with prior income tax liability.—(a) In general.—Section 452 authorizes an adjustment to the excess profits tax in certain cases in which the treatment of an item or transaction for excess profits tax purposes is inconsistent with prior erroneous treatment of such item or transaction for income tax purposes and correction of the error is prevented by some provision or rule of law such as the statute of limitations or res judicata.

(b) Circumstances of adjustment.—Generally, an adjustment with respect to a position inconsistent with prior income tax liability is made if (1) in determining at any time the excess profits tax of the corporation an item affecting the excess profits credit is treated in a manner inconsistent with the treatment accorded such item in the determination of the income tax liability of such corporation or a predecessor for a taxable year or years ending before July 1, 1950; and (2) the treatment of such item in the prior taxable year or years consistently with the determination for the purposes of the excess profits tax would effect an increase or decrease in the amount of the income taxes determined for the prior taxable year or years; and (3) on the date of such determination of the excess profits tax, correction of the effect of the inconsistent treatment in any one or more of the prior taxable years is prevented (except for the provisions of section 3801) by

PAGE 8

the operation of any law or rule of law (other than section 3761, relating to compromises).

In case the net effect of the adjustment would be a decrease in the income taxes previously determined for such year or years, the adjustment will be made only if there is adopted in the determination a position maintained by the Secretary. In case the net effect of the adjustment would be an increase in the income taxes previously determined for such year or years, the adjustment will be made only if there is adopted in the determination a position maintained by the taxpayer with respect to whom the determination is made. However, either position must be inconsistent with

the treatment accorded such item in the prior taxable year or years which was not correct under the law applicable to such year.

(c) **Method and effect of adjustment.**—The amount of adjustment authorized under the provisions of section 452 is to be ascertained as provided in section 452 (d). In general, the difference between the aggregate of the increases, plus the interest attributable to each, and the aggregate of the decreases, plus the interest attributable to each, will be the increase or decrease, as the case may be, which is added to, or subtracted from, the excess profits tax otherwise computed for the taxable year with respect to which the inconsistent position is adopted.

SCHEDULE EP-2.—EXCESS PROFITS CREDIT—BASED ON INCOME

In general, the excess profits credit based on income for a domestic corporation is the sum of the following:

- (a) 83 percent of the average base period net income;
- (b) 12 percent of the amount of the base period capital addition, computed under section 435 (f), if the average base period net income is the amount determined under section 435 (d) (relating to the general average) or, in certain cases under section 442 (relating to abnormalities in base period); and

- (c) 12 percent of the net capital addition for the taxable year, as defined in section 435 (g) (1).
- From the sum so determined there is subtracted 12 percent of the net capital reduction for the taxable year, as defined in section 435 (g) (2).

The average base period net income may be determined under section 435 (d), and in such case is the average of the taxpayer's excess profits net income for the three best years in the base period. For certain fiscal year corporations the average base period net income under section 435 (d) may be computed by reference to the 48 months ending March 31, 1950.

Section 435 (e) provides alternative methods of computing the average base period net income of a corporation whose growth during the base period is demonstrated primarily by increased gross receipts or payroll during the last half of the base period. These alternative methods are also available to corporations meeting certain tests with respect to sales of a product, or class of products, of a kind not generally available to the public at any time prior to January 1, 1946.

In certain cases the average base period net income may be computed under section 442 (relating to abnormalities in the base period), section 443 (relating to changes in products or services), section 444 (relating to increase in capacity), section 445 (relating to new corporations), or section 446 (relating to depressed industry subgroups). For computation under these sections, see Schedule EP-5. Section 459 contains miscellaneous provisions providing for computation of average base period net income applicable to certain classes of taxpayers. (See instruction 27 (c), Schedule EP-1.)

The base period is the period January 1, 1946, through December 31, 1949, except in the case of a taxpayer whose first taxable year ending after June 30, 1950, was preceded by a taxable year which began before January 1, 1950, and ended January 31, February 28, or March 31, 1950. In the latter cases the base period is the 48 consecutive months ending with the close of January, February, or March, 1950.

Schedule EP-2 has, for convenience, been drawn up in columnar form and provides five columns. If necessary, appropriate changes should be made in the column headings. If additional columns are required, attach a separate schedule.

Section 433 (b) provides that for the purposes of computing the average base period net income, the excess profits net income for any taxable year shall be the normal-tax net income, as defined in section 13 (a) (2) as in effect for such taxable year, increased or decreased by certain adjustments.

In the case of a corporation which has been a party to a transaction described in section 461 (a), the credit should be computed with reference to sections 461 through 465. For rules applicable in the determination of the credit under section 435 (d) in the case of certain taxable acquisitions, see section 474.

In the case of a foreign corporation, the excess profits credit based on income is 83 percent of the average base period net income without any adjustment for capital changes.

1. Normal-tax net income.—The normal-tax net income for each taxable year to be entered on line 1 for the purpose of computing the average base period net income should be the amount shown in item 35, page 1, Form 1120, for 1946 and 1947, and on line 5, page 3, Form 1120, for 1948 and 1949, taking into consideration any subsequent adjustments. If for a taxable year beginning in 1945 a credit for income subject to excess profits tax has been deducted in computing the normal-tax net income, the amount to be entered on line 1 should be computed without the deduction of such credit.

In the case of a corporation electing to report income from installment sales or installment sales obligations on the accrual method, or income from long-term contracts on the percentage of completion method, recompute base period net income accordingly and enter such amount on line 1. For detailed explanation of the adjustments necessary, see general instruction E (1) and (2).

2. Net operating loss deduction.—Section 433 (b) (1) provides that the net operating loss deduction provided by section 23 (s) shall not be allowed in determining the excess profits net income for any taxable year in the base period. Enter on line 2 any net operating loss deduction used in computing the amount on line 1.

3. Net loss to which section 117 (j) is applicable.—Section 433 (b) (2) provides that there shall be excluded gains and losses from sales or exchanges of capital assets and gains and losses to which section 117 (j) is applicable. A net loss to which section 117 (j) is applicable (the excess of all section 117 (j) losses over all section 117 (j) gains) should be entered on line 3. No adjustment for a net capital loss sustained is necessary since such a loss was not allowable in computing normal-tax net income. Provision for the subtraction of a net gain from the sale or exchange of capital assets, including a net gain to which section 117 (j) is applicable (the excess of all section 117 (j) gains over all section 117 (j) losses), is made on line 21.

4. Deductions on account of retirement or discharge of bonds, etc.—If during the taxable year the taxpayer retires or discharges any bond, debenture, note, or certificate, or other evidence of

indebtedness, if the obligation of the taxpayer has been outstanding for more than 6 months, the following deductions for the taxable year shall not be allowed:

- (a) The deduction allowable under section 23 (a) for expenses paid or incurred in connection with such retirement or discharge;
- (b) The deduction for losses allowable by reason of such retirement or discharge; and
- (c) In case the issuance was at a discount, the amount deductible for such year solely because of such retirement or discharge.

In making the adjustments provided in section 433 (b) (4), the deduction allowable for any premium paid on bonds when called for redemption shall be disallowed, but the deduction allowable for any discount amortized up to the date of retirement or discharge shall not be disallowed. Expenses incurred in issuing bonds which are amortized shall be treated in the same manner as discounts.

5. Deductions under reserve method for bad debts, in case of banks.—In the case of banks using the reserve method of accounting for bad debts, there shall be allowed, in lieu of the amount allowable under the reserve method for bad debts, a deduction for debts which became worthless within the taxable year, in whole or in part, within the meaning of section 23 (k). A bank using the reserve method of accounting for bad debts will enter on line 5 the amount of the deduction used in computing line 1. The amount of the debts which actually became worthless during the taxable year should be entered on line 24.

6. Federal income taxes paid by lessee under long-term lease.—The adjustment on line 6 is to disallow the deduction by a lessee of an amount of Federal income taxes paid on behalf of a lessor. The adjustment on line 23 is to exclude this amount from income in the case of a lessor.

If under a lease for a term of more than 20 years, entered into prior to December 1, 1950, the lessee is required to pay any portion of the tax imposed by chapter 1 upon the lessor with respect to the rentals derived by such lessor from such lessee, or is obligated to reimburse the lessor for any portion of the tax imposed

by chapter 1 upon the lessor with respect to the rentals derived by such lessor from such lessee, such payment or reimbursement shall be excluded by the lessor and a deduction therefor shall not be allowed to the lessee. For treatment of certain leases of railroad properties containing renewal clauses, see section 433 (b) (11).

7. Repayment of processing tax to vendees.—The deduction under section 23 (a), for any taxable year, for expenses shall be decreased by an amount which bears the same ratio to the amount deductible on account of any repayment or credit by the corporation to its vendee of any amount attributable to any tax under the Agricultural Adjustment Act of 1933, as amended, as the excess of the aggregate of the amounts so deductible in the base period over the aggregate of the amounts attributable to taxes under such Act collected from its vendees, which were includible in the corporation's gross income in the base period and which were not paid, bears to the aggregate of the amounts so deductible in the base period.

8. Dividends received credit.—Section 26 (b) provides for the allowance of a dividends received credit to the extent indicated in the various sections imposing tax, while section 433 (b) (6) provides that the credit for dividends received shall apply without limitation (except the limitation relating to dividends in kind) to all dividends on stock of all corporations, except that no credit for dividends received shall be allowed with respect to dividends (actual or constructive) on stock of foreign personal holding companies or dividends on stock which is not a capital asset. The dividends received credit used in computing the amount entered on line 1 should be entered on line 8. Provision for the subtraction of the amount of the dividends received is made on line 20. As indicated above in this paragraph, the dividends received do not, for the purpose of the adjustment on line 20, include dividends received on stock of a personal holding company or dividends on stock which is not a capital asset and the amount is subject to the limitation to dividends in kind.

9 through 12. Abnormal deductions.—In general, sections 433 (b) (9) and (10) provide that if for any taxable year within or beginning or ending within, the base period, any class of deductions for the taxable year exceeded 115 percent of the average amount of deductions of such class for the four previous taxable years, the deductions of such class shall be disallowed in an amount equal to such excess. If a single extraordinary event gives rise to deductions of the same class for more than one taxable year, then, in determining whether the deductions of such class arising from such extraordinary event exceed 115 percent of the average deductions of that class for the four previous taxable years, such average shall be computed without reference to any deductions attributable to the particular extraordinary event.

Each of the following groups of deductions shall constitute a class of deductions:

(a) Deductions attributable to claims, awards, judgments, and decrees against the taxpayer, and interest on the foregoing.

(b) Deductions attributable to intangible drilling and development costs paid or incurred in or for drilling of wells or the preparation of wells for the production of oil or gas, and for development costs in the case of mines.

(c) Deductions under section 23 (f) for losses arising from fires, storms, shipwreck, or other casualty, or from theft, or arising from demolition, abandonment, or loss of useful value of property, not compensated for by insurance or otherwise. This class of deductions does not include losses from the sale or exchange of capital assets or losses to which section 117 (j) is applicable.

Classification of deductions not included in the separately defined classes is subject to regulations.

Deductions of any class for any taxable year shall not be disallowed unless—

(a) The amount of deductions of such class to be disallowed for such year exceeds 5 percent of the average excess profits net income for the taxable years within, or beginning or ending within, the base period (computed without the disallowance of any such class of deductions), and

(b) The taxpayer establishes that the increase in such deductions is not a cause or a consequence of an increase in the gross income of the taxpayer in its base period or a decrease in the amount of some other deduction in its base period, which increase or decrease is substantial in relation to the amount of the increase in the deductions of such class, and

(c) The taxpayer establishes that the increase in such deductions is not a consequence of a change at any time in the type, manner of operation, size, or condition of the business engaged in by the taxpayer.

The amount of deductions of any class to be disallowed with respect to any taxable year in the base period shall not exceed the amount by which the deductions of such class for such taxable year exceed the deductions of such class for the taxable year for which excess profits tax is being computed.

If in computing excess profits net income for any taxable year in the base period, the taxpayer claims the disallowance under section 433 (b) (9) and (10) of any amount previously allowed as a deduction, there shall be submitted a full and complete statement showing the computation of the amount to be disallowed, the basis upon which each requirement of section 433 (b) (9) and (10) is satisfied, and all the facts upon which the taxpayer relies.

13. Adjustment of assessments paid by banks to Federal Deposit Insurance Corporation.—In the case of a bank, the deduction for the assessment by the Federal Deposit Insurance Corporation for any taxable year in the base period shall be reduced to an amount which is such part thereof as the net assessment (after credits applicable thereto) for the taxable year for which excess profits tax is being computed is of the gross assessment for the taxable year for which excess profits tax is being computed.

14. Capitalization of expenditures for advertising or promotion of good will.—Under the provisions of section 451 any taxpayer may elect, in a statement attached to its return or filed within 6 months after the date prescribed by law for filing its return for its first taxable year ending after June 30, 1950, to charge to capital account deductions based upon expenditures for taxable years in its base period on account of advertising or the promotion of good will, to the extent that such expenditures may be regarded as capital investments. The election is applicable only with respect to expenditures to establish, maintain, or increase the circulation of a newspaper, magazine, or other periodical.

15. Deductions attributable to technical services.—The adjustment on line 15 is the sum of any deductions described below deducted in arriving at the amount on line 1. The adjustment on line 25 is the amount of any income described below included in computing line 1.

Section 433 (b) (16) provides that in the case of a domestic corporation which renders to a related corporation technical assistance, engineering services, scientific assistance, or similar services (such services or assistance being related to the production or improvement of products of the type manufactured by such domestic corporation), there shall be excluded the remuneration for such services or assistance if such remuneration constitutes income derived from sources without the United States. Any deductions in connection with or properly allocable to rendering of such services or assistance shall not be allowed. For this purpose, a foreign corporation shall be considered a "related foreign corporation" if 10 percent or more of its outstanding stock is owned by the domestic corporation.

16. Adjustment for interest.—Section 433 (b) (17) provides that, in the case of a dealer in certain Government obligations which makes the election provided by section 440 (c), the excess profits net income shall be increased by the excess of the amount of interest received or accrued on such obligations during each taxable year in the base period reduced (but not below zero) by the amount of interest paid or accrued during such year which is not allowed as a deduction under section 23 (b). In the case of a taxable year ending after June 30, 1950, such interest shall further be reduced by the amount of the adjustment required under section 22 (o) (relating to the adjustment for certain bond premiums) but not by an amount greater than the amount of interest received or accrued during the taxable year on Government obligations to which such section is applicable. For this purpose the term "Government obligation" means obligations described in section 22 (b) (4) any part of the interest from which is excludible from gross income or allowable as a credit against net income; but such term shall include only such obligations as in the hands of the taxpayer are property described in section 117 (a) (1) (A).

17. Adjustment for base period losses from branch operations.—Section 433 (b) (18) provides that, in certain cases, the excess profits net income, otherwise determined, for each year in the base period may be increased with respect to losses sustained in the base period arising from branch operations by the taxpayer. Such an adjustment is authorized only if—

(a) the branch is located at a separate place from the taxpayer's other business activities;

(b) the branch was operated at a loss during two or more taxable years in the base period;

(c) the character of the products or services produced by the branch differs substantially from the other business of the taxpayer, i. e., the branch is of a type classifiable by the Standard Industrial Classification Manual in a different major industry group or in a different subgroup of the taxpayer's major group; and

(d) the aggregate net losses of the branch during the base period exceed 15 percent of the aggregate excess profits net income of the taxpayer during the base period. The term "aggregate excess profits net income" means the sum of the excess profits net income for all years in the base period, increased by the sum of the net losses of such branch during the base period.

PAGE 10

If section 433 (b) (18) is applicable, the excess profits net income for any taxable year beginning or ending in the base period shall be increased by the amount of the excess of (i) the loss sustained in the operation of the branch in such year over (ii) the loss, if any, incurred by such branch during the taxable year for which excess profits tax is being computed. If section 433 (b) (18) is applicable, submit statement of pertinent facts and schedule of computation.

18. Adjustment for deposits under Merchant Marine Act.—Section 457 (c) provides that the excess profits net income for any base period year shall be increased by an amount equal to the excess of (1) the tax deferred deposits of earnings, made in or accrued to reserve funds under section 607 of the Merchant Marine Act, 1936, with respect to such base period year, over (2) the amount of such deposits of earnings for the taxable year for which excess profits tax is being computed. Proper adjustment shall be made of deposits made in or accrued to the reserve funds for any taxable year so as to exclude therefrom any amounts payable for such year as reimbursement of operating-differential subsidy. If section 457 (c) is applicable, submit statement of pertinent facts and schedule of computation.

20. Dividends received.—See instruction 8.

21. Net gain from sale or exchange of capital assets.—See instruction 3.

22. Income from retirement or discharge of bonds, etc.—There shall be excluded in the case of any taxpayer, income derived from the retirement or discharge by the taxpayer of any bond, debenture, note, or certificate or other evidence of indebtedness, if the obligation of the taxpayer has been outstanding for more than 6 months, including, in case the issuance was at a premium, the amount includible in income for such year solely because of such retirement or discharge.

23. Federal income taxes received by lessor under long-term lease.—See instruction 6.

24. Debts which actually became worthless during the year, in the case of banks.—See instruction 5.

25. Income attributable to technical services.—See instruction 15.

26. Adjustment for certain coal royalties.—Section 433 (d) provides that the excess profits net income for taxable years in the base period shall be computed as if the provisions relating to the disposal of coal contained in section 117 (j) and section 117 (k) (2) were a part of the law applicable to the taxable year in the base period for which an excess profits net income is being computed. Enter on this line the excess of—

(a) the difference between amounts received upon the disposal of coal in the taxable year and the adjusted depletion basis thereof, over

(b) the excess of the allowance for percentage depletion provided for in section 114 (b) (4) with respect to such coal for such year over the amount allowable for cost depletion.

29. Deductions applicable to life insurance companies.—In the case of a life insurance company there shall be deducted from the normal-tax net income the excess of (a) the product of (1) the figure determined and proclaimed under section 202 (b) and (2) the excess profits net income computed without regard to this deduction, over (b) the adjustment for certain reserves provided in section 202 (c).

31 through 38. Average base period net income.—General average.—(a) Lines 31 and 32 provide a computation which is applicable only to a taxpayer whose base period, as defined in general instructions for this schedule, consists of four 12-month taxable years which are either the calendar years 1946 through 1949 or fiscal years ending on the last day of January, February, or March, 1947, through 1950. The aggregate excess profits net income for the three highest years, as shown on line 30, is divided by 3 to obtain the average base period net income.

(b) Lines 33 through 38 are for the use of all other taxpayers. A taxpayer which had a taxable year beginning in 1949 and ending after March 31, 1950, may compute an average base period net income under the general average method either for (1) its base period as defined in general instructions for this schedule, or (2) an alternative period consisting of 48 consecutive months ending March 31, 1950, whichever produces the lesser excess profits tax. Lines 33 through 38 are adapted for computation of average base period net income for either period. A taxpayer with a taxable year beginning in 1949 and ending after March 31, 1950, should indicate immediately preceding line 33 which period is used in the computation of the average base period net income.

33. (a). For purposes of line 33 (a) the amounts of excess profits net income as shown on line 30 are divided by the number of full calendar months in the respective taxable years. If a taxpayer was not in existence throughout the entire 48 months of its base period, its excess profits net income for any month during no part of which it was in existence shall be zero.

33. (b). This line is to be used in computing an average base

period net income by a taxpayer electing the alternative period described above in lieu of its base period. Such a taxpayer should enter in column 5 on this line the same amount appearing in column 5, line 33 (a) if the taxable year in this column ended after March 31, 1950, and before July 1, 1950; 90 percent of such amount if such taxable year ended after June 30, 1950, and before October 1, 1950; or 80 percent of such amount if such taxable year ended after September 30, 1950, and before December 31, 1950.

34. Enter in each column of line 34 the number of months during any part of which the taxpayer was in existence which fall within its base period, or within the alternative period if the taxpayer is computing an average base period net income by reference to the alternative period.

35. The number of months to be entered on line 35 should total 36 and should be the 36 months which produce the highest aggregate excess profits net income determined in either of the following ways: (a) the 12 consecutive months with the lowest aggregate excess profits net income may be eliminated, or (b) the 36 consecutive months which produce the highest aggregate excess profits net income may be retained.

If the alternative period is used in lieu of the base period, then in determining the 36 months to be entered on this line the average monthly excess profits net income for the months of January, February, and March, 1950, included in the total number of months shown in column 5, line 34, will be the weighted monthly average on line 33 (b), and the average monthly excess profits net income for the preceding months in such taxable year will be the monthly average shown in column 5, line 33 (a).

36. Enter in each column of line 36 the respective products of lines 33 (a) and 35 except that if the alternative period is used, the amount on line 33 (b) should be substituted for the amount on line 33 (a) with respect to the months of January, February, and March, 1950, if such months are included in the number of months entered on line 35.

39 through 48. Average base period net income.—Alternative based on growth.—A taxpayer which commenced business prior to the end of its base period, if it meets certain requirements, is entitled to an alternative average base period net income computed, in general, upon the basis of the average income of the last 12 months of the base period, or the last 24 months of the base period, or an adjusted average for the 12 months ended June 30, 1950, whichever is highest.

A taxpayer computing average base period net income by using an alternative based on growth shall submit with its return a full and complete statement showing the basis upon which each requirement of section 435 (c) is satisfied and all the facts upon which the taxpayer relies.

(a) Eligibility requirements.—General rule.—Eligibility is established if total assets on the first day of the base period (including the assets of all members of taxpayer's affiliated group) did not exceed \$20,000,000, and either—

(1) The total payroll for the last half of the base period is 130 percent or more of the total payroll for the first half of the base period; or

(2) The gross receipts for the last half of the base period are 150 percent or more gross receipts for the first half of the base period.

(b) Eligibility requirements.—Products not generally available prior to 1946.—A taxpayer is also entitled to use as its average base period net income the alternative based on growth if it commenced business before the end of its base period and if it meets the following tests:

(1) The amount of the taxpayer's net sales for the period beginning January 1, 1950, and ending June 30, 1950, when multiplied by 2, equals or exceeds 150 percent of its average net sales for the calendar years 1946 and 1947; and

(2) 40 percent or more of the taxpayer's net sales for the calendar year 1950 is attributable to a product, or class of products (including any article in which such product or class of products is the principal component and including any article which is a component of such product or class of products), of a kind not generally available to the public at any time prior to January 1, 1946, and

(3) The amount of the taxpayer's net sales which is attributable to such product or class of similar products for the calendar year 1946 is 5 percent or less of the amount of its net sales so attributable for the calendar year 1949.

A product which is a modification of an old product, such as an improvement or change in style, is not a product of the type referred to. A product which was generally available prior to 1946, although not available at all times prior thereto is also not covered.

For the purposes of these tests, the term "net sales" with respect to any period means the total amount received or accrued during such period from the sale, exchange, or other disposition of stock in trade of the taxpayer or other property of a kind which would

properly be included in the inventory of the taxpayer if on hand at the close of the taxable year, or property held by the taxpayer primarily for sale to customers in the ordinary course of its trade or business; reduced by the amount of discounts, returns, and allowances paid or incurred for such period.

39. Total assets as of first day of base period.—Enter on this line total assets of the taxpayer as of the first day of its base period computed by aggregating the cash and property other than cash held by the taxpayer on such day for the purpose of the business. Property shall be included for the purpose of this computation in an amount equal to its adjusted basis for determining gain upon sale or exchange. If the taxpayer is a member of an affiliated group which has the privilege under section 141 of filing a consolidated return for its first taxable year ending after June 30, 1950, there shall also be included the total assets of the affiliated group whether or not a consolidated return is filed, and such total assets shall be determined in a manner consistent with the principles applicable with respect to consolidated returns.

40. Total payroll and gross receipts.—For the purpose of determining the amount to be entered on lines 40 (a) and (b), the term "total payroll" means the sum of the salaries, wages, commissions, and other compensation paid or incurred by the taxpayer during such period for personal services actually rendered by employees, excluding the amount thereof which is allowable as a deduction under section 23 (p) and excluding any compensation paid in any medium other than cash.

The term "gross receipts" means the sum of—

(a) The total amount received or accrued during such period from the sale, exchange, or other disposition of stock in trade of the taxpayer or other property of a kind which would properly be included in the inventory of the taxpayer if on hand at the close of the taxable year, or property held by the taxpayer primarily for sale to customers in the ordinary course of its trade or business, and

(b) The gross income, attributable to a trade or business regularly carried on by the taxpayer, received or accrued during such period excluding therefrom—

Gross income derived from the sale, exchange, or other disposition of property;

Gross income derived from discharge of indebtedness of the taxpayer;

Dividends on stocks of corporations; and

Income attributable to recovery of bad debts.

In the event that a taxable year falls partly within the period, there shall be allocated to the portion of the year within the period an amount of the total payroll, or total gross receipts, for such year in the same proportion as the number of months in the year within the period bears to the total number of months in the year.

41 and 43. Excess profits net income.—The excess profits net income for each of the months to be included in the aggregates to be entered on the lines 41 and 43 is the excess profits net income for the taxable year in which such month falls divided by the number of full calendar months in such year but in no case shall the excess profits net income for any month be less than zero.

44. Weighted excess profits net income.—The weighted excess profits net income for any month after December 1949 shall be the "weighted excess profits net income" for the taxable year in which the month falls divided by the number of full calendar months in such year, but in no case shall the weighted excess profits net income for any month be less than zero. The weighted excess profits net income for any taxable year beginning before July 1, 1950, shall be—

(a) 100 percent of the excess profits net income for any taxable year ending before July 1, 1950;

(b) 90 percent of the excess profits net income for any taxable year ending after June 30, 1950, and before October 1, 1950;

(c) 80 percent of the excess profits net income for any taxable year ending after September 30, 1950, and before April 1, 1951; and

(d) 70 percent of the excess profits net income for any taxable year ending after March 31, 1951.

The aggregate of the weighted excess profits net income for each of the 6 months, January through June 1950, should be entered on line 44.

45. Excess profits net income for last 6 months of 1949.—If the taxpayer is entitled to the benefits of section 435 (e), the aggregate of the excess profits net income for each of the 6 months July through December 1949, should be entered on line 45.

If the taxpayer meets the eligibility requirements with respect to products not generally available prior to 1946, and if its excess profits net income for the calendar year 1949 is not more than 25 percent of its excess profits net income for the calendar year 1948, the aggregate of the excess profits net income for each of the 6 months, July through December 1948, should, if higher, be substituted for the aggregate of the excess profits net income for each of the last 6 months of 1949 on line 45 and the substitution indicated.

50. Base period capital addition.—If the average base period net income is the general average (line 32 or line 38) or, in certain cases, is determined with reference to abnormalities in the base period (section 442) or with reference to section 459, the excess profits credit based on income includes 12 percent of the base period capital addition as computed on Schedule EP-2 (A).

53 and 55. Adjustment on account of the net capital addition or reduction for the taxable year.—In determining the excess profits credit based on income under section 435 it is necessary to make adjustments for capital changes after the beginning of the first taxable year. No capital adjustments are permitted or required in the case of a foreign corporation. If the average base period net income is determined under section 443 or section 445, the net capital addition or reduction is the amount computed after giving effect to the provisions of section 443 (d) or section 445 (e). For capital additions and reductions in case of certain exchanges, see part II of the excess profits tax law (sections 461 through 465), and in the case of certain taxable acquisitions, see part IV (section 474).

SCHEDULE EP-2 (A)—BASE PERIOD CAPITAL ADDITION

In general, section 435 (a) (1) (B) provides that, if the average base period net income of the taxpayer is determined under the general average method, there shall be included as part of the excess profits credit 12 percent of the amount of the base period capital addition, computed under section 435 (f). No adjustment to reflect a net decrease in base period capital is required.

If the average base period net income is based on growth (lines 39 through 48, Schedule EP-2); or is computed under provisions of the law relating to new corporations (Schedule EP-5 (A)); change in products or services (Schedule EP-5 (C)); increase in capacity for production or operation (Schedule EP-5 (D)); or depressed industry subgroups (Schedule EP-5 (E)); then no base period capital addition is allowed. If average base period net income is computed under provisions of law relating to abnormalities during base period (Schedule EP-5 (B)), see instructions for that schedule. If the average base period net income is computed by reference to section 459, see instruction 27 (c), Schedule EP-1.

In the case of installment basis taxpayers and taxpayers with income from long-term contracts electing under section 455, see general instructions E (1) and (2).

The base period capital addition is, in general, the sum of the net addition to capital for the taxpayer's last taxable year ending before July 1, 1950, plus one-half the net addition to capital for the immediately preceding taxable year. In determining the net addition to capital, the full increase in equity capital and 75 percent of the increase in borrowed capital are taken into account, subject to adjustments for interest on borrowed capital for increases or decreases in inadmissible assets, and for increases or decreases in loans to members of a controlled group of which the taxpayer is a member.

1 and 2. Total assets and liabilities at beginning of taxable year.—The amount of assets to be entered on line 1 is the sum of the cash and other property, held by the taxpayer in good faith for the purposes of the business, at the beginning of the first day of each taxable year. Property shall be included in an amount equal to its adjusted basis for determining gain upon sale or exchange, except that the adjusted basis of secret processes and formulas, good will, trade-marks, trade brands, franchises, and other like property shall be determined without regard to value as of March 1, 1913. In determining the sum of cash and other property, so much of the distributions to shareholders made during the first 60 days of any taxable year (other than the first taxable

year ending after June 30, 1950) as does not exceed the accumulated earnings and profits at the beginning thereof shall be considered to have been made on the last day of the preceding taxable year (see section 441 (e)). In the case of an insurance company (other than mutual and other than life or marine), 50 percent of its reserves required by law (other than reserves used in computing borrowed capital under section 439 (b) (2)), as well as its organization expenses, shall be included in assets. For special rule in the case of improvements by a lessee to properties of a lessor railroad corporation, see section 441 (j).

See section 470 for rules applicable in determining the adjusted basis of assets acquired in an intercorporate liquidation.

PAGE 12

The amount of liabilities on line 2 shall include all liabilities of the corporation which are absolute and not contingent. In the case of assets subject to a mortgage or other lien, the amount of the indebtedness secured by such mortgage or lien shall be considered as a liability of the taxpayer whether or not the taxpayer assumed or agreed to pay such indebtedness. In the case of a bank (as defined in section 104) its reserves for bad debts shall not (a) reduce assets, or (b) be treated as liabilities.

4. 75 percent of borrowed capital at beginning of year.—Borrowed capital at the beginning of any year shall be determined as of the first day of the year. Borrowed capital as of any day shall be determined as of the beginning of such day and shall be the amount of the outstanding indebtedness (not including interest) of the taxpayer, incurred in good faith for the purposes of the business, which indebtedness is evidenced by a bond, note, bill of exchange, debenture, certificate of indebtedness, mortgage, deed of trust, bank-loan agreement, or conditional sales contract. In the case of property of the taxpayer subject to a mortgage or other lien, the amount of indebtedness secured by such mortgage or lien shall be considered as an indebtedness of the taxpayer whether or not the taxpayer assumed or agreed to pay such indebtedness. Insurance companies and face-amount certificate companies, see section 439 (b) (2), (3), and (4).

6. Adjustment for interest on borrowed capital.—The amount to be entered on line 6 is determined by (a) multiplying any indebtedness of the taxpayer which constitutes borrowed capital for the first day of the taxable year by the annual rate of interest payable upon such indebtedness during such taxable year, and (b) multiplying the total of the amounts so ascertained by 100 and dividing the product by 12.

8. Adjustment for loans to members of controlled groups at beginning of year.—Controlled group means one or more chains of corporations connected through stock ownership with a common parent corporation if (a) more than 50 percent of the total combined voting power of all classes of stock entitled to vote, or more than 50 percent of the total value of shares of all classes of stock, of each of the corporations (except the common parent corporation) is owned directly by one or more of the other corporations and (b) the common parent corporation owns directly more than 50 percent of the total combined voting power of all classes of stock entitled to vote, or more than 50 percent of the

total value of shares of all classes of stock, of at least one of the other corporations.

If on the first day of any taxable year the taxpayer was a member of a controlled group, enter 75 percent of the amount of the indebtedness to the taxpayer of any other members of the controlled group. For this purpose, the term "indebtedness" means indebtedness which constitutes borrowed capital, defined in section 439 (b) (1), of such other member of the controlled group for such day.

9. Inadmissible assets adjustment.—The term "inadmissible assets" includes—

(a) Stock in corporations, except stock in a foreign personal holding company, and except stock which is not a capital asset;
(b) Obligations described in section 22 (b) (4) any part of the interest from which is excludible from gross income or allowable as a credit against net income; and

(c) In the computation of the tax for a taxable year ending after December 31, 1950, the economic interest referred to in the provisions of section 117 (k) (2) relating to coal if the taxpayer is subject to such provisions with respect to the income from such coal.

In the case of dealers in Government securities, certain tax-exempt and partially tax-exempt securities may be treated as admissible assets if an election is made under section 440 (c) to include the interest thereon in excess profits net income. See General Instruction F.

In the computation of the tax for a taxable year beginning on or after October 20, 1951, the adjustment for inadmissible assets in the case of banks must be made under section 435 (f) (6) which provides a proportionate adjustment with respect to inadmissible assets. Under this provision the amount to be entered on line 9 is an amount which bears the same ratio to the excess of the amount on line 5 over the sum of amounts on lines 7 and 8 as the amount of the inadmissible assets held at the beginning of such year bears to the total of admissible and inadmissible assets as of such date. If the taxpayer elects by a statement attached to its return, the adjustment for inadmissible assets under section 435 (f) (6) may be made applicable in the computation of the tax for all taxable years beginning before October 20, 1951. A taxpayer using the adjustment for inadmissible assets provided in section 435 (f) (6) should so indicate on the return and should submit a schedule showing computation.

SCHEDULE EP-2 (B)—TAXABLE YEAR CAPITAL ADDITION OR REDUCTION

In general, section 435 (a) provides that the excess profits credit based on income shall be increased by 12 percent of the net capital addition for the taxable year or reduced by 12 percent of the net capital reduction for the taxable year.

The net capital addition (or reduction), in general, consists of the net increase (or decrease) in equity and borrowed capital determined by comparing the equity and borrowed capital for the taxable year with the equity and borrowed capital at the close of the last taxable year ending before July 1, 1950. For this purpose borrowed capital is taken into account at 75 percent. Under certain circumstances an adjustment is made with respect to inadmissible assets and loans to members of a controlled group of corporations of which the taxpayer is a member.

A net capital addition may be allowed, or the amount otherwise determined may be increased, in certain cases described in section 435 (g) (9) where a decrease in inadmissible assets (in excess of the capital reduction, if any) is accompanied by a corresponding increase in operating assets. For this purpose an increase in operating assets is taken into account only to the extent that it exceeds the net capital addition as adjusted under section 435 (g) (9). The term "operating assets," in general, includes depreciable property and land used in the taxpayer's trade or business, as well as stock in trade or property held primarily for sale to customers, but does not include cash, securities, or intangible property. If section 435 (g) (9) is applicable to the taxpayer, the net capital addition may be determined (1) by computing a tentative net capital addition or reduction using Schedule EP-2 (B) as a guide but disregarding the adjustment for inadmissible assets on line 22, and (2) by making the following additional computations:

(a) Fill in line 22, whether or not an amount appears on line 21, limiting the amount on line 22 (d) to an amount not greater than 25 percent of the amount by which (i) the excess of line 14 over line 8 (disregarding for this purpose the 75-percent limitation appearing on lines 11 and 13), exceeds (ii) the amount on line 22 (b). The amount of the decrease in inadmissible assets (in excess of the capital reduction, if any) is the excess of the amount thus computed on line 22 (e) over the amount, if any, on line 21. In the case of a bank, the amount of the decrease in inadmissible assets to be taken into account is computed by reference to section 435 (g) (9) (B).

(b) Compute the excess of the average daily amount of operating assets for the taxable year over the amount of operating assets as of the first day of the first taxable year ending after June 30, 1950. For this purpose the adjusted basis of operating assets shall be used.

(c) Recompute the amount on line 19, disregarding for this purpose the 75-percent limitation appearing on lines 7, 11, and 13.

(d) Add to the tentative net capital addition, if any, whichever of the following amounts is the lesser: (i) the amount computed under (a), or (ii) the excess of the amount computed under (b) over the amount computed under (c). The amount to be added to the tentative net capital addition, if any, may also be subject to adjustment to the extent that an increase in operating assets is determined to be a result of an increase in indebtedness other than borrowed capital.

A taxpayer computing a net capital addition by reference to section 435 (g) (9) should attach a schedule showing computation and include a detailed statement of operating assets.

If average base period net income is computed under the provisions relating to change in products or services (Schedule EP-5 (C)), or new corporations (Schedule EP-5 (A)), see instructions for those schedules. If average base period net income is computed under section 459, see instruction 27 (c), Schedule EP-1.

In the case of installment basis taxpayers and taxpayers with income from long-term contracts electing under section 455, see general instructions E (1) and (2).

1 and 2. Equity capital.—See instructions 1 and 2, Schedule EP-2 (A).

3. Borrowed capital at beginning of first taxable year ending after June 30, 1950.—The amount to be entered on line 3 is the total amount of borrowed capital at the beginning of the first tax-

able year ending after June 30, 1950. See instruction 4, Schedule EP-2 (A).

4. Average daily amount of borrowed capital for the taxable year.—The average daily amount of borrowed capital for the taxable year is the aggregate of the borrowed capital as of the

beginning of each day of the taxable year, divided by the number of days in the taxable year. See instruction 4, Schedule EP-2 (A).

5. Average daily amount of money and property paid in during the taxable year for stock, or as paid-in surplus, or as a contribution to capital.—For each day of the taxable year, the daily amount of money and property paid in during the taxable year for stock, or as paid-in surplus, or as a contribution to capital, is the total amount of money and property so paid in during such year and prior to such day. The average daily amount of money and property paid in is the aggregate of the daily amount for each day of the taxable year, divided by the number of days in the taxable year.

For the purpose of determining the amount of property paid in for stock, or as paid-in surplus, or as a contribution to capital, such property shall be included in an amount equal to its basis (unadjusted) for determining gain upon sale or exchange. In the case of intangible property, the basis (unadjusted) and the adjusted basis for determining gain upon sale or exchange shall be determined without regard to the value as of March 1, 1913. For the purposes of this paragraph, the term "intangible property" means secret processes and formulas, good will, trade-marks, trade brands, franchises, and other like property. If the unadjusted basis of the property is a substituted basis, such basis shall be adjusted, with respect to the period before the property was paid in, by an amount equal to the adjustments proper under section 113 (b) (2).

For the purpose of determining the amount of money and property paid in for stock, or as paid-in surplus, or as a contribution to capital, there shall be included only money and property paid in good faith for the purposes of the taxpayer's business.

A distribution by a corporation of its stock or rights to acquire its stock shall not be regarded as money or property paid in for stock, or as paid-in surplus, or as a contribution to capital.

For the purpose of determining the amount of property paid in for stock, or as paid-in surplus, or as a contribution to capital—

(a) If the basis (unadjusted) of the property for determining gain upon a sale or exchange is determined by reference to the basis of the property in the hands of the transferor, proper adjustment shall be made for the amount of any liability of the transferor assumed upon the exchange and of any liability subject to which such property was so received, for the amount of any other liability of the taxpayer constituting consideration for the property so received, and for the aggregate of the amount of money and the fair market value of other property (other than such stock and other than such liabilities) transferred to the transferor.

(b) If an indebtedness of the taxpayer is canceled or released in exchange for stock, or as paid-in surplus, or as a contribution to capital, the amount paid in shall be considered equal to the amount of the indebtedness.

(c) For special rule in the case of improvements by a lessee to the properties of a lessor railroad corporation, see section 441 (j).

9. Average daily amount of distributions during the taxable year not out of earnings and profits of such year.—For each day of the taxable year, the daily amount of distributions not out of earnings and profits is the total amount of such distributions made during the year and prior to such day. The average daily amount of such distributions is the aggregate of the daily amount for each day of the taxable year, divided by the number of days in the taxable year. A distribution by a corporation of its stock or rights to acquire its stock shall not be considered as a distribution.

In determining whether a distribution is out of the earnings and profits of any taxable year, such earnings and profits shall be computed as of the close of such taxable year without diminution by reason of any distribution made during such taxable year or by reason of the tax under chapter 1 for such year and the determination shall be made without regard to the amount of earnings and profits at the time the distribution was made.

So much of the distributions to shareholders made during the first 60 days of any taxable year (other than the first taxable year ending after June 30, 1950) as does not exceed the accumulated earnings and profits at the beginning thereof shall be considered to have been made on the last day of the preceding taxable year. See section 441 (e).

12. Average daily amount of increase in certain inadmissible assets held by member of controlled group.—For definition of controlled group, see instruction 8, Schedule EP-2 (A).

The amount required to be included in the daily capital reduction, under section 435 (g) (4) (D), for any day of the taxable year, on account of an increase in certain inadmissible assets held by a member of a controlled group, shall be the amount determined under (a) or (b) below, whichever is the lesser:

(a) The excess of the aggregate of the adjusted basis (for determining gain upon sale or exchange) of stock in such other corporation (or if more than one, in such other corporations) held

by the taxpayer at the beginning of such day over the aggregate of the adjusted basis (for determining gain upon sale or exchange) of stock in such other corporation (or if more than one, in such other corporations) held by the taxpayer at the beginning of its first taxable year ending after June 30, 1950.

(b) The excess of the aggregate of the adjusted basis (for determining gain upon sale or exchange) of inadmissible assets held by the taxpayer at the beginning of such day, over the aggregate of the adjusted basis (for determining gain upon sale or exchange) of inadmissible assets held by the taxpayer at the beginning of its first taxable year ending after June 30, 1950.

The amount to be entered on line 12 is the aggregate of the amount determined for each day of the taxable year, divided by the number of days in the taxable year.

13. 75 percent of average daily amount of increase in loans to member of controlled group.—The daily amount of increase in loans to a member of a controlled group on any day of the taxable year shall be the excess of the amount of the indebtedness of such other corporation (or if more than one, such other corporations) to the taxpayer at the beginning of such day over the amount of the indebtedness of such other corporation (or if more than one, such other corporations) to the taxpayer at the beginning of its first taxable year ending after June 30, 1950. See instruction 4, Schedule EP-2 (A), for definition of indebtedness.

The average daily amount of such increase is the aggregate of such increase for each day of the taxable year, divided by the number of days in the taxable year.

15. Total inadmissible assets at beginning of first taxable year ending after June 30, 1950.—See instruction 9, Schedule EP-2 (A), for definition of inadmissible assets.

16. Average daily amount of inadmissible assets for the taxable year.—The average daily amount of inadmissible assets for the taxable year is the aggregate of the total inadmissible assets for each day of the taxable year, divided by the number of days in the taxable year.

17. Excess, if any, of average daily capital addition over average daily capital reduction.—If the average daily capital addition (line 8) exceeds the average daily capital reduction (line 14), the excess of line 8 over line 14 should be entered on line 17. This is the amount of the net capital addition before adjustment for any increase in inadmissible assets. If an amount is entered on line 17, lines 18, 19, and 20 should be completed but no entry should be made on lines 21 through 24.

18. Adjustment for increase in inadmissible assets.—This line provides for computation of the adjustment for any increase in inadmissible assets required by section 435 (g) (1) in determining the net capital addition. The increase in inadmissible assets (the excess, if any, of line 16 over line 15) is reduced on line 18 (a) for any increase in the daily capital reduction (line 12) attributable to an increase in certain inadmissible assets held by a member of a controlled group. (Section 435 (g) (4) and (6).) Lines 18 (b), (c), and (d) provide an adjustment which is required where the adjusted increase in inadmissible assets exceeds that part of the amount of the net capital addition which is attributable to an increase in equity capital.

An alternative computation of the adjustment for inadmissible assets is provided under section 435 (g) (8) (A) in the case of a bank which has an increase in total assets for the taxable year in excess of the amount on line 17. Under this provision the amount of the adjustment for inadmissible assets on line 18 (e) may not be greater than an amount which bears the same ratio to the increase in inadmissible assets for the taxable year (excess of line 16 over line 15) as the amount on line 17 bears to the increase in total assets for the taxable year. The increase in total assets is determined by computing the excess of the average total assets for the taxable year over the total assets of the taxpayer for the first day of the first taxable year ending after June 30, 1950. If the taxpayer uses the alternative adjustment for inadmissible assets, enter the amount so determined on line 18 (e), indicate that such substitution has been made, and submit schedule showing computation.

21. Excess, if any, of average daily capital reduction over average daily capital addition.—If the average daily capital reduction (line 14) exceeds the average daily capital addition (line 8), the excess of line 14 over line 8 should be entered on line 21. This is the amount of the net capital reduction before adjustment for any decrease in inadmissible assets.

22. Adjustment for decrease in inadmissible assets.—This line provides for the computation of the adjustment for any decrease in inadmissible assets required by section 435 (g) (2) in determining the net capital reduction. The decrease in inadmissible assets (the excess, if any, of line 15 over line 16) is entered on line 22 (a). Lines 22 (b), (c), and (d) provide an adjustment which is required where the decrease in inadmissible assets exceeds that part of the amount of the net capital reduction which is attributable to a decrease in equity capital.

An alternative computation of the adjustment for inadmissible

PAGE 14

assets is provided under section 435 (g) (8) (B) in the case of a bank which has a decrease in total assets for the taxable year in excess of the amount on line 21. Under this provision the amount of the adjustment for inadmissible assets on line 22 (e) may not be greater than an amount which bears the same ratio to the decrease in inadmissible assets (excess of line 15 over line 16) as the amount on line 21 bears to the decrease in total assets. The de-

crease in total assets is determined by computing the excess of the total assets of the taxpayer for the first day of the first taxable year of the taxpayer ending after June 30, 1950, over the average total assets for the taxable year. If the taxpayer uses the alternative adjustment for inadmissible assets, enter the amount so determined on line 22 (e), indicate that such substitution has been made, and submit schedule showing computation.

SCHEDULE EP-3.—ALTERNATIVE EXCESS PROFITS CREDIT OF REGULATED PUBLIC UTILITIES (Section 448)

Section 448 provides an alternative excess profits credit for certain regulated public utilities. This credit, in general, consists of the amount of the corporation's normal tax and surtax plus an amount determined as follows:

(a) By computing 6 percent or 7 percent (depending upon the type of utility) of the sum of the adjusted invested capital and the average borrowed capital for the taxable year;

(b) By reducing the amount determined under (a) by the amount of interest on indebtedness included in borrowed capital. The amount computed under (a), as reduced by (b), is subject to an adjustment for inadmissible assets.

For the purpose of this credit, adjusted invested capital for any year includes generally the sum of (1) the excess of assets over liabilities at the beginning of the year, (2) the average amount of money and property paid in for stock, or as paid-in surplus, or as a contribution to capital during the taxable year, and (3) the recent loss adjustment; reduced by the average amount of distributions made during the taxable year not out of current earnings and profits. In the case of certain public utilities specified in section 448 (c) (1) (A) and (B), (c) (2), and (c) (4), however, the adjusted invested capital is the sum of the average outstanding common and preferred capital stock accounts for the taxable year and the capital surplus and earned surplus accounts at the beginning of the taxable year as recorded on corporate books of account if such books are maintained in accordance with specified systems of accounts.

The use of the alternative credit is limited to corporations deriving 80 percent or more of their gross income (computed without regard to dividends and capital gains and losses) from certain regulated sources.

If an affiliated group filing a consolidated return includes any corporation which is not a regulated public utility, the alternative credit provided by section 448 may not be used. An affiliated group consisting only of regulated public utilities may file a consolidated return using the alternative credit.

1. Equity capital at beginning of the taxable year.—See instructions 1 and 2, Schedule EP-2 (A).

2. Average daily amount of money and property paid in during the taxable year for stock, or as paid-in surplus, or as a contribution to capital.—See instruction 5, Schedule EP-2 (B).

3. Recent loss adjustment.—Section 437 (f) provides that the recent loss adjustment for any taxable year shall be the excess of the aggregate of the net operating loss for each taxable year in the recent loss period over the aggregate of the net income for each taxable year in such period. For this purpose, the term "recent loss period" means either the base period or the period beginning January 1, 1940, and ending December 31, 1949, whichever results in a higher recent loss adjustment. The net operating loss for any taxable year means the net operating loss as defined in section 122 (a), determined under the law applicable to such taxable year, and the net income for any taxable year means the net income computed with the exceptions, additions, and limitations provided in section 122 (d) (other than paragraph (6) of section 122 (d)), under the law applicable to such taxable year.

See section 437 (f) (3) for special rules in case only part of a taxable year is included in the recent loss period and in the case of recent losses of a component corporation as defined in section 461 (b).

5. Average daily amount of distributions during the taxable year not out of earnings and profits for such year.—See instruction 9, Schedule EP-2 (B).

7. Adjusted invested capital based upon prescribed uniform system of accounts.—If, in the case of a corporation described in section 448 (c) (1) (A), (c) (1) (B), (c) (2), or (c) (4) (see instruction 10), the corporate books of account are maintained in accordance with a system of accounts prescribed by an appropriate regulatory body (or, if not so prescribed, are maintained in accordance with the uniform systems of accounts prescribed by the Federal Power Commission or the National Association of Railway and Utility Commissioners), the adjusted invested capital for such year shall be the sum of the average outstanding common and preferred capital stock accounts for such taxable year and the capital surplus and earned surplus accounts at the beginning of such taxable year as properly recorded on such corporate books of account.

A statement shall be attached setting out all facts relied on in qualifying under this method of computing adjusted invested capital.

(a) Average outstanding capital stock for the taxable year.—The average outstanding capital stock for the taxable year is the aggregate of the outstanding common and preferred stock accounts for each day of the year, divided by the number of days in the taxable year.

(b) Capital surplus and earned surplus at beginning of the taxable year.—Enter the total amount of the capital surplus and earned surplus accounts as recorded on the corporate books of account as of the beginning of the first day of the taxable year.

8. Average daily amount of borrowed capital for the taxable year.—See instruction 4, Schedule EP-2 (B).

10. Applicable rate under section 448.—Section 448 (c) provides that the applicable rate shall be:

(1) 6 percent in the case of a corporation engaged in the furnishing or sale of—

(A) Electric energy, gas, water, or sewerage disposal services, or

(B) Transportation (not included in paragraph (3)) on an intrastate, suburban, municipal, or interurban electric railroad, on an intrastate, municipal, or suburban trackless trolley system, or on a municipal or suburban bus system, or

(C) Transportation (not included in subparagraph (B)) by motor vehicle—

if the rates for such furnishing or sale, as the case may be, have been established or approved by a State or political subdivision thereof, by an agency or instrumentality of the United States, or by a public service or public utility commission or other similar body of the District of Columbia or of any State or political subdivision thereof;

(2) 6 percent in the case of a corporation engaged as a common carrier in the furnishing or sale of transportation of gas by pipeline, if subject to the jurisdiction of the Federal Power Commission;

(3) 6 percent in the case of a corporation engaged as a common carrier (A) in the furnishing or sale of transportation by railroad, if subject to the jurisdiction of the Interstate Commerce Commission, or (B) in the furnishing or sale of transportation of oil or other petroleum products (including shale oil) by pipeline, if subject to the jurisdiction of the Interstate Commerce Commission or if the rates for such furnishing or sale are subject to the jurisdiction of a public service or public utility commission or other similar body of the District of Columbia or of any State;

(4) 7 percent in the case of a corporation engaged in the furnishing or sale of telephone or telegraph service, if the rates for such furnishing or sale meet the requirements of paragraph (1);

(5) 7 percent in the case of a corporation engaged in the furnishing or sale of transportation as a common carrier by air, subject to the jurisdiction of the Civil Aeronautics Board; and

(6) 6 percent in the case of a corporation engaged in the furnishing or sale of transportation by common carrier by water, subject to the jurisdiction of the Interstate Commerce Commission under Part III of the Interstate Commerce Act, or subject to the jurisdiction of the Federal Maritime Board under the Intercoastal Shipping Act, 1933.

12. Reduction for interest on borrowed capital for the taxable year.—Enter on line 12 the amount of the deduction allowable for the taxable year with respect to interest on indebtedness included in the borrowed capital used in computing the average daily amount of borrowed capital on line 8.

14. Average daily amount of inadmissible assets for the taxable year.—Enter on line 14 the average inadmissible assets for the taxable year determined in the manner set out in instruction 16, Schedule EP-2 (B). In the case of a corporation which has computed its adjusted invested capital on line 7 of this schedule, the amount attributable to inadmissible assets shall be determined according to the corporate books of account.

15. Average daily amount of total assets for the taxable year.—The total assets to be entered on line 15 is the aggregate of all assets for each day of the taxable year, divided by the number of days in the taxable year. In the case of a corporation which has computed its adjusted invested capital on line 7 of this schedule, the amount attributable to each asset shall be determined according to the corporate books of account.

SCHEDULE EP-4.—EXCESS PROFITS CREDIT—BASED ON INVESTED CAPITAL

The excess profits credit based on invested capital is, in general, an amount equal to the sum of—

- (a) 12 percent of the first \$5,000,000 of invested capital,
- (b) 10 percent of the next \$5,000,000 of invested capital, and
- (c) 8 percent of additional amounts of invested capital.

Invested capital for any year determined under the "asset" method consists generally of the sum of (1) the excess at the beginning of the year of total assets over total liabilities, (2) 75 percent of the average amount of borrowed capital for the year, and (3) the recent loss adjustment. The sum thus determined is increased by the average amount of money and property paid in for stock, or as paid-in surplus, or as a contribution to capital during the taxable year and is reduced by distributions made during the year, which are not out of earnings and profits of the current year. An adjustment is made in the case of a corporation having an invested capital of more than \$5,000,000 in order that capital added after the beginning of its first taxable year ending after June 30, 1950, will be included in invested capital at the 12-percent rate. No such adjustment is necessary where the invested capital does not exceed \$5,000,000 since the 12-percent rate is applied to the entire invested capital.

The "historical" method for determining invested capital is similar to the method used in the invested capital credit under the World War II excess profits tax law. The historical method, in substance, includes in invested capital money and property previously paid in for stock, or as paid-in surplus, or as a contribution to capital, plus the accumulated earnings and profits of the corporation as of the beginning of the taxable year.

A taxpayer is required to use the asset method in determining its invested capital credit unless it elects the historical method in its return for the taxable year. The election once made is irrevocable with respect to the taxable year for which made. If the historical method is used on the return in determining excess profits tax liability, the taxpayer will be deemed to have elected the historical method. A taxpayer which computes its excess profits tax on its return on the basis of a credit other than the invested capital credit may nevertheless elect the historical method for such year, in the event that the invested capital credit should subsequently become significant in the determination of its excess profits tax liability for such year, by attaching a statement to its return for the taxable year electing the historical method.

1. Equity capital at beginning of the taxable year.—The equity capital at the beginning of the taxable year is the total of the assets held by a taxpayer at the beginning of the first day of the taxable year reduced by the total of its liabilities at that time. For determination of amounts to be included in total assets and total liabilities, see instructions 1 and 2, Schedule EP-2 (A).

2. Average daily amount of money and property paid in during the taxable year for stock, or as paid-in surplus, or as a contribution to capital.—See instruction 5, Schedule EP-2 (B).

3. Average daily amount of borrowed capital for the taxable year.—The average daily amount of borrowed capital for the taxable year is the aggregate of the borrowed capital as of the beginning of each day of the taxable year, divided by the number of days in the taxable year. See instruction 4, Schedule EP-2 (A), for definition of borrowed capital.

4. Recent loss adjustment.—Section 437 (f) provides that the recent loss adjustment for any taxable year shall be the excess of the aggregate of the net operating loss for each taxable year in the recent loss period over the aggregate of the net income for each taxable year in such period. For this purpose, the term "recent loss period" means either the base period or the period beginning January 1, 1940, and ending December 31, 1949, whichever results in a higher recent loss adjustment. The net operating loss for any taxable year means the net operating loss as defined in section 122 (a), determined under the law applicable to such taxable year, and the net income for any taxable year means the net income computed with the exceptions, additions, and limitations provided in section 122 (d) (other than paragraph (6) of section 122 (d)), under the law applicable to such taxable year.

See section 437 (f) (3) for special rules in case only part of the taxable year is included in the recent loss period and in the case of recent losses of a component corporation as defined in section 461 (b).

6. Average daily amount of distributions during the taxable year not out of earnings and profits of such year.—See instruction 9, Schedule EP-2 (B).

8. Equity capital at beginning of first taxable year ending after June 30, 1950.—For determination of amounts to be included in total assets and total liabilities, see instructions 1 and 2, Schedule EP-2 (A).

9. Excluded capital paid in after beginning of first taxable year ending after June 30, 1950, and prior to the taxable year.—Section 438 (e) defines "excluded equity capital" as the amount of money or property paid in for stock, or as paid-in surplus, or as a contribution to capital, to the taxpayer—

(a) By a corporation in an exchange to which section 112 (b) (3), (4), (5), or (10), or so much of section 112 (c), (d), or (e) as refers to section 112 (b) (3), (4), (5), or (10), is applicable (or would be applicable except for section 371 (g)), or would have been applicable if the term "control" had been defined in section 112 (h) to mean the ownership of stock possessing more than 50 percent of the total combined voting power of all classes of stock entitled to vote or more than 50 percent of the total value of shares of all classes of stock;

(b) By a transferor corporation if immediately after such transaction the transferor and the taxpayer are members of the same controlled group. For definition of controlled group, see instruction 8, Schedule EP-2 (A).

10. Borrowed capital at beginning of first taxable year ending after June 30, 1950.—For definition of borrowed capital, see instruction 4, Schedule EP-2 (A).

11. Excluded borrowed capital at beginning of first taxable year ending after June 30, 1950.—Section 438 (f) provides that the "excluded borrowed capital" for any day of any taxable year shall be so much of the daily borrowed capital for such day as consists of outstanding indebtedness to a member of a controlled group which includes the taxpayer. For definition of borrowed capital, see instruction 4, Schedule EP-2 (A). For definition of controlled group, see instruction 8, Schedule EP-2 (A).

12. Average daily amount of excluded borrowed capital for the taxable year.—The average daily amount of excluded borrowed capital for the taxable year is the aggregate of the excluded borrowed capital at the beginning of each day of the taxable year, divided by the number of days in the taxable year. See instruction 11 for definition of excluded borrowed capital.

13. Average daily amount of excluded capital paid in during the taxable year.—The average daily amount of excluded equity capital paid in during the taxable year is the aggregate of the excluded equity capital at the beginning of each day of the taxable year, divided by the number of days in the taxable year. See instruction 9 for definition of excluded equity capital.

22. Total inadmissible assets at beginning of first taxable year ending after June 30, 1950.—See instruction 9, Schedule EP-2 (A), for definition of inadmissible assets.

23. Average daily amount of inadmissible assets for the taxable year.—The average daily amount of inadmissible assets for the taxable year is the aggregate of the total inadmissible assets for each day of the taxable year, divided by the number of days in such year. For definition of inadmissible assets, see instruction 9, Schedule EP-2 (A).

24 and 25.—An alternative computation of the adjustment for inadmissible assets is provided under section 438 (g) in the case of a bank which has an increase in total assets for the taxable year in excess of the amount on line 24. Under this provision the amount of the adjustment for inadmissible assets on line 25 (e) may not be greater than an amount which bears the same ratio to the increase in inadmissible assets for the taxable year (excess of line 23 over line 22) as the amount on line 24 bears to the increase in total assets for the taxable year. The increase in total assets is determined by computing the excess of the average total assets for the taxable year over the total assets of the taxpayer for the first day of the first taxable year ending after June 30, 1950. If the taxpayer uses the alternative adjustment for inadmissible assets, enter the amount so determined on line 25 (e), indicate that such substitution has been made, and submit schedule showing computation.

INSTRUCTIONS 28 THROUGH 55 APPLY ONLY TO THE HISTORICAL METHOD

28. Money paid in for stock, or as paid-in surplus, or as a contribution to capital.—The amount to be entered on line 28 is the total amount of money paid in prior to the beginning of the taxable year. The fact that the money paid in has been lost, destroyed, or otherwise disposed of shall not reduce the invested capital, except as such facts are reflected in the earnings and profits as of the beginning of the taxable year. The term "money

PAGE 16

paid in" does not include amounts received as premiums by an insurance company subject to taxation under section 204.

29. Property paid in for stock, or as paid-in surplus, or as a contribution to capital.—The amount to be entered on line 29 is the total amount of property paid in prior to the taxable year. The amount of any property paid in is the unadjusted basis to the taxpayer for determining loss upon sale or exchange under the law applicable to the taxable year for which the invested capital is being computed. If the property was disposed of after February 28, 1913, and before such taxable year, such unadjusted basis shall be determined under the law applicable to the year of disposition, but without regard to the value of the property as of March 1, 1913. If the property was disposed of before March 1, 1913, its unadjusted basis shall be considered to be its fair market value at the time paid in.

If the basis to the taxpayer is cost and stock was issued for the property, the cost is the fair market value of such stock at the time of its issuance. If the stock had no established market value at the time of the exchange, the fair market value of the assets of the company at that time should be determined and the liabilities deducted. The resulting net worth will be deemed to represent the total value of the outstanding stock. In determining net worth for the purpose of fixing the fair market value of the stock at the time of the exchange, the property paid in for such stock shall be included in the assets at its fair market value at that time.

If stock having no established market value is issued for intangible property, and it is necessary to determine the fair market value of such property, the following factors, among others, may be taken into consideration in determining such value: (a) The earnings attributable to such intangible assets while in the hands of the predecessor owner; and (b) any cash offers for the purchase of the business, including the intangible property, at or about the time of its acquisition. A corporation claiming a value for intangible property paid in for stock shall file with its return a full statement of the facts relating to such valuation.

If the property was acquired after December 31, 1920, by a corporation from a shareholder as paid-in surplus or from any person as a contribution to capital, then the basis shall be the same as it would have been in the hands of the transferor if the transfer had not been made. See section 113 (a) (8). If so acquired prior to January 1, 1921, the basis is the fair market value of the property at the time it was paid in. Where the basis is the transferor's basis, those adjustments shall be made to such basis with respect to the period before the property was paid in as are proper under section 115 (1) for determining earnings and profits.

The fact that the property paid in has been lost, destroyed, or otherwise disposed of, shall not reduce the invested capital, except as such facts are reflected in the earnings and profits as of the beginning of the taxable year.

The term "property paid in" does not include amounts received as premiums by an insurance company subject to taxation under section 204.

The fair value of additions and betterments made by the lessee to the physical properties of a lessor railroad corporation which have become the property of the lessor corporation by rejection of its lease (such fair value being determined as of the date such additions and betterments became the property of the lessor) shall be considered as a contribution to capital. Where the value of such improvements cannot be accurately determined by the old records thereof, because lost, incomplete, or inaccurate, the value of such improvements determined by the Interstate Commerce Commission for rate-making purposes shall be used in lieu of such fair value.

30. Distributions of earnings and profits in stock of the corporation.—The amount of distributions in stock of the taxpayer or in rights to acquire stock of the taxpayer made prior to the beginning of the taxable year, to the extent to which such distributions are considered to be out of earnings and profits, should be entered on line 30. In determining whether such a distribution is out of the earnings and profits of any taxable year, so much of the distributions (taken in the order of time) made during the first 60 days of the year as does not exceed the accumulated earnings and profits at the beginning of the year (computed without regard to this rule) shall be considered to have been made on the last day of the preceding taxable year. This rule shall not apply with respect to distributions made during the first 60 days of the taxpayer's first taxable year ending after June 30, 1950. In determining whether a distribution is out of the earnings and profits of any taxable year, such earnings and profits shall be computed as of the close of such taxable year without diminution by reason of any distribution made during such taxable year or by reason of the tax imposed by chapter 1 for such year and the determination shall be made without regard to the amount of earnings and profits at the time the distribution was made. If a stock dividend is paid out of capital and not out of earnings and profits, or is of such a character as not to be subject to tax in the hands of a distributee

because exempt as a stock dividend either by statute or otherwise, it is not deemed to constitute a distribution and does not reduce the earnings and profits account. See section 115 (h).

31. (a) Accumulated earnings and profits.—The accumulated earnings and profits as of the beginning of the taxable year should be entered on line 31 (a). In general, the concept of accumulated earnings and profits for the purpose of the invested capital credit under the historical method is the same as for all other purposes of chapter 1. See, for example, section 115 and the regulations prescribed thereunder. In computing accumulated earnings and profits as of the beginning of the taxable year, a taxpayer keeping its books and making its income tax returns on the accrual basis shall subtract the income taxes for the preceding taxable year. If there is a deficit in the accumulated earnings and profits as of the beginning of the taxable year, such deficit shall not be taken into account and the earnings and profits as of the beginning of the taxable year shall be considered to be zero, but subsequent earnings and profits shall be applied against such deficit. Unrealized appreciation in value of property is not a factor in determining earnings and profits. For rules governing the determination of the source of distributions, see instruction 30.

31. (b) Adjustment for transferor's deficit under section 458 (f) (4).—If a corporation (hereinafter called "transferor") transfers substantially all its property to another corporation formed to acquire such property (hereinafter called "transferee"), and if—

(1) the sole consideration for the transfer of such property is the transfer to the transferor or its shareholders of all the stock of all classes (except qualifying shares) of the transferee (in determining whether the transfer is solely for stock, the assumption by the transferee of a liability of the transferor or the fact that the property acquired is subject to a liability shall be disregarded); and

(2) the basis of the property in the hands of the transferee for the purposes of this subsection is determined by reference to the basis of the property in the hands of the transferor; and

(3) the transferor is forthwith completely liquidated in pursuance of the plan under which the acquisition of the property is made; and

(4) immediately after the liquidation the shareholders of the transferor own all such stock;

then for the purposes of this paragraph, in computing the equity invested capital for any day after the date of the acquisition of the property, the earnings and profits or deficit in earnings and profits of the transferee and the transferor shall be computed as if, immediately before the beginning of the taxable year in which such transfer occurs, the transferee had been in existence and sustained a recognized loss, and the transferor had realized a recognized gain, equal to the portion of the deficit in earnings and profits of the transferor attributable to such property.

31. (c) Increase or decrease under section 472 (d) (1) on account of intercorporate liquidation.—Where property is received by the transferee in an intercorporate liquidation, section 472 (d) (1) provides that in computing the equity invested capital of the transferee for any day following the completion of such intercorporate liquidation with respect to any share of stock in the transferor having in the hands of the transferee, immediately prior to the receipt of any property in such intercorporate liquidation, a basis determined to be a cost basis, the earnings and profits or deficit in earnings and profits of the transferee shall be computed as if on the day following the completion of such intercorporate liquidation the transferee had realized a recognized gain equal to the amount of the plus adjustment in respect of such share, or had sustained a recognized loss equal to the amount of the minus adjustment in respect of such share.

For the purpose of such adjustment, an intercorporate liquidation is defined by section 472 (a) as the receipt (whether or not after June 30, 1950) by a corporation of property in complete liquidation of another corporation to which—

(1) the provisions of section 112 (b) (6) or the corresponding provisions of a prior revenue law is applicable; or

(2) a provision of law is applicable prescribing the nonrecognition of gain or loss in whole or in part upon such receipt (including a provision of the regulations applicable to a consolidated income and excess profits tax return, but not including section 112 (b) (7), (9), or (10) or a corresponding provision of a prior revenue law), but only if none of such property so received is a stock or a security in a corporation the stock or securities of which are specified in the law applicable to the receipt of such property as stock or securities permitted to be received (or which would be permitted to be received if they were the sole consideration) without the recognition of gain. The amount of any plus or minus adjustment resulting from an intercorporate liquidation occurring prior to the taxable year should be entered on line 31 (c). For definition of "plus adjustment" and "minus adjustment," see section 472 (b).

32. Increase on account of intercorporate liquidation under section 472 (d) (2).—Where property is received by the trans-

freee in an intercorporate liquidation, section 472 (d) (2) provides that in computing the equity invested capital of the transferee for any day following the completion of such intercorporate liquidation with respect to any share of stock in the transferor having in the hands of the transferee, immediately prior to the receipt of any property in such intercorporate liquidation, a basis determined to be a basis other than a cost basis, there shall be treated as an amount includible in equity invested capital the amount of the plus adjustment with respect to such share, or equity invested capital shall be reduced by the amount of the minus adjustment with respect to such share. The amount of such a plus adjustment resulting from an intercorporate liquidation occurring prior to the taxable year should be entered on line 32. See instruction 31 (c).

33. Deficit in earnings and profits of another corporation under section 458 (d) (5).—In the case of a transferee, as defined in instruction 31 (b), there shall be included in equity invested capital an amount, determined as indicated in such instruction, equal to the portion of the deficit in earnings and profits of a transferor attributable to property received.

35. Distributions made prior to the taxable year not out of accumulated earnings and profits.—Section 458 (e) (1) provides that the equity invested capital shall be reduced for distributions made prior to the taxable year not out of accumulated earnings and profits. For rules governing the determination of the source of distributions, see instruction 30.

36. Earnings and profits of another corporation required to be deducted by section 458 (e) (3).—Equity invested capital shall be reduced by the amount of the earnings and profits of another corporation which at any prior date were included in accumulated earnings and profits by reason of a transaction described in section 112 (b) through (e), or in the corresponding provisions of a prior revenue law, or by reason of the transfer by such other corporation to the taxpayer of property the basis of which in the hands of the taxpayer is or was determined with reference to its basis in the hands of such other corporation or would have been so determined if the property had been other than money.

37. Decrease on account of intercorporate liquidation under section 472 (d) (2).—The amount of any minus adjustment resulting from an intercorporate liquidation occurring prior to the beginning of the taxable year should be entered on line 37. See instructions 31 (c) and 32.

38. Deficit included in invested capital of another corporation (section 458 (e) (4)).—In the case of a transferor, as defined in instruction 31 (b), equity invested capital shall be reduced by an amount, determined as indicated in such instruction, equal to the portion of the deficit in earnings and profits of the transferor attributable to property transferred. Any such amount resulting from a transfer occurring prior to the taxable year should be entered on line 38.

41. Money paid in for stock, or as paid-in surplus, or as a contribution to capital.—The amount to be entered on line 41 is the average daily amount of money paid in during the year. The average daily amount for the taxable year is the aggregate of money paid in as of the beginning of each day of the year, divided by the number of days in such year. See instruction 28.

42. Property paid in for stock, or as paid-in surplus, or as a contribution to capital.—The amount to be entered on line 42 is the average daily amount of property paid in during the year.

The average daily amount for the taxable year is the aggregate of the property paid in as of the beginning of each day of the taxable year, divided by the number of days in such year. See instruction 29.

43. Distributions of earnings and profits (other than earnings and profits of the taxable year) in stock of the corporation.—The amount to be entered on line 43 is the average daily amount of distributions made during the taxable year of earnings and profits (other than earnings and profits of the taxable year) in stock of the taxpayer or in rights to acquire stock of the taxpayer. The average daily amount is the aggregate of the distributions as of the beginning of each day of the taxable year, divided by the number of days in such year. For rules governing the determination of the source of distributions, see instruction 30.

44. Increase on account of intercorporate liquidation under section 472 (d) (2).—The average daily amount of any plus adjustment under section 472 (d) (2) resulting from an intercorporate liquidation occurring during the taxable year should be entered on line 44. See instructions 31 (c) and 32.

45. Deficit in earnings and profits of another corporation under section 458 (d) (5).—In the case of a transferee, as defined in instruction 31 (b), there should be entered on line 45 the average daily amount of the portion of the deficit in earnings and profits of the transferor attributable to the property received in a transfer described in section 458 (f) (4) occurring during the taxable year. See instructions 31 (b) and 33.

48. Distributions not out of earnings and profits of the taxable year.—Section 458 (e) (2) provides that the equity invested capital for any day in the taxable year shall be reduced for distributions previously made during such taxable year which are not out of the earnings and profits of such taxable year. For the purposes of Schedule EP-4, the average daily reduction is derived by aggregating the reduction for each day of the taxable year and dividing the aggregate by the number of days in the taxable year. For rules governing the determination of the source of distributions, see instruction 30.

49. Stock distributions from accumulated earnings and profits at beginning of year.—See instruction 43.

50. Decrease on account of intercorporate liquidation under section 472 (d) (2).—The average daily amount of any minus adjustment under section 472 (d) (2) resulting from an intercorporate liquidation occurring during the taxable year should be entered on line 50. See instructions 31 (c) and 32.

51. Deficit in earnings and profits included in invested capital of another corporation (section 458 (e) (4)).—The average daily amount of the portion of the deficit in earnings and profits of the transferor, as defined in instruction 31 (b), attributable to property transferred during the taxable year should be entered on line 51. See instruction 38.

54. 75 percent of average borrowed capital.—See instruction 3.

61. Average daily amount of inadmissible assets for the taxable year.—See instruction 9, Schedule EP-2 (A), for definition of inadmissible assets and instruction 16, Schedule EP-2 (B), for method of computing average daily amount of inadmissible assets.

62. Average daily amount of total assets for the taxable year.—The amount to be entered on line 62 is the average daily amount of total assets for the taxable year. For rules governing the assets to be taken into account, see instruction 1, Schedule EP-2 (A).

SCHEDULE EP-5

Consisting of parts (A), (B), (C), (D), and (E).

GENERAL INSTRUCTIONS

1. In general.—Sections 442 through 446 provide for the determination of an average base period net income computed, in general, on the basis of an industry rate of return, in lieu of the taxpayer's own experience, in certain cases which may be characterized as follows:

(a) A corporation commencing business after the beginning of its base period;

(b) A corporation experiencing certain types of abnormalities during its base period;

(c) A corporation making a substantial change in products or services during the last 3 years of its base period;

(d) A corporation making a substantial increase in its capacity for production or operation during the last 3 years of its base period; and

(e) A corporation which for its base period was a member of a depressed industry subgroup.

2. Application required.—Section 447 (e) provides that the excess profits tax for any taxable year shall be determined without regard to section 442, 443, 444, 445, or 446, unless an application for the benefits of such section, setting forth the grounds for the application of such section in such detail and in such manner as the Secretary may prescribe, is filed by the taxpayer—

(a) with its return for the taxable year, or

(b) within the period of time prescribed by section 322 (as extended under sections 446 (h) and 447 (d) in cases where a tentative rate of return or a tentative adjusted rate of return has been used and the use of a final rate of return results in a redetermination) for filing claim for credit or refund, and in such case the application of section 442, 443, 444, 445, or 446 shall be subject to the limitations as to the amount of credit or refund prescribed in section 322, or

(c) after the period described in (b) above, if within the period of limitations for the assessment of a deficiency (as extended under sections 446 (h) and 447 (d) in cases where a tentative rate of return or a tentative adjusted rate of return has been used and the use of a final rate of return results in a redetermination) in the tax imposed by chapter 1 of the Internal Revenue Code for the taxable year, and in such case the application of section 442, 443, 444, 445, or 446 shall not reduce the tax by an amount greater than the deficiency determined without regard to the application of such section,

except that if a petition is filed with the Tax Court for the redetermination of the tax under chapter 1 for the taxable year, the application shall be effective only if filed not later than the date on which the original petition is filed.

PAGE 18

Section 447 (e) also provides that section 442, 443, 444, 445, or 446 shall not be applied upon the basis of any grounds other than those set forth in an application filed within the period prescribed in section 447 (e).

The application shall be made on Schedule EP-5 and, if made with the original return, shall be filed with and as a part of Form 1120 for the taxable year. If the application is not filed with the original return, it shall be filed with and as a part of an amended return, or where appropriate, with Form 843.

3. Industry classification.—For the purposes of sections 442 through 446, the industry groups and subgroups are defined in accordance with the specifications shown in the Standard Industrial Classification Manual prepared by the Division of Statistical Standards, Bureau of the Budget.

4. Industry rates of return.—For the purposes of sections 442 through 445, there are provided two types of industry rates of return. The first, for use when 12 or fewer months are to be adjusted under section 442, is designated as the base period yearly rate of return, and the second, for use in all other cases where section 442, 443, 444, or 445 is applicable, is described as the base period rate of return. For purposes of section 446, relating to depressed industry subgroups, an adjusted rate of return is provided.

5. Use of industry rates of return.—Base period yearly rates of return and base period rates of return proclaimed by the Secretary on June 3, 1952, are set forth for each industry classification in Appendix A. The adjusted rates of return proclaimed by the Secretary on June 3, 1952, for depressed industry subgroups are set forth in the instructions for Schedule EP-5 (E). The base period yearly rates of return, the base period rates of return, and the adjusted rates of return, proclaimed by the Secretary on June 3, 1952, relate back as though they had been in effect in place of the tentative rates previously proclaimed by the Secretary. Any application of section 442, 443, 444, 445, or 446 made in accordance with a tentative rate shall be redetermined in accordance with the final rate proclaimed, except that no redetermination is necessary in any case in which the final rate of return is the same as the tentative rate which was previously proclaimed and effective. The periods of limitation prescribed under section 322 and sections 275 and 276 with respect to overpayments or deficiencies in tax caused by such redetermination shall not begin to run prior to such time as the base period yearly rates of return, the base period rates of return, or the adjusted rates of return, as the case may be, are determined and proclaimed except that, if no redetermination is necessary, such periods of limitation are not extended, since no overpayment or deficiency in tax results from the determination of the final rates of return.

6. Average base period net income determined with reference to industry rates of return.—In general, where average base period net income (or a substitute excess profits net income for a period of 12 or fewer months) is computed under section 442, 443, 444, or 445, the taxpayer's total assets are multiplied by the applicable rate of return for the taxpayer's industry classification

and the resulting amount is reduced by an adjustment for interest paid or incurred by the taxpayer. Similarly, where average base period net income is determined under section 446 in the case of a member of a depressed industry subgroup, the taxpayer's total assets are multiplied by the adjusted rate of return for the taxpayer's depressed industry subgroup and the resulting amount is adjusted for interest paid or incurred.

7. Definition of total assets.—For purposes of sections 442 through 446, the term "total assets" for any day means the sum of the cash and other property (other than inadmissible assets and loans to members of a controlled group as defined in section 435 (f) (4) held by the taxpayer at the end of such day in good faith for purposes of the business. The amount thus computed shall be reduced (but not below zero) by the amount of any indebtedness (other than borrowed capital) to a member of a controlled group which includes the taxpayer. For definition of "inadmissible assets," see instruction 9, Schedule EP-2 (A). For definition of "controlled group," see instruction 8, Schedule EP-2 (A). Property shall be included in an amount equal to its adjusted basis for determining gain upon sale or exchange, except that the adjusted basis of secret processes and formulas, good will, trademarks, trade brands, franchises, and other like property shall be determined without regard to value as of March 1, 1913. In determining total assets, so much of the distributions to shareholders made during the first 60 days of any taxable year (other than the taxpayer's first taxable year ending after June 30, 1950) as does not exceed the accumulated earnings and profits at the beginning of the year shall be considered to have been made on the last day of the preceding taxable year. For special rule in the case of improvements by a lessee to properties of a lessor railroad corporation, see section 441 (j).

In the case of a taxpayer electing to compute income from installment sales or installment sales obligations on the accrual method of accounting, or income from long-term contracts on the percentage of completion method of accounting, see section 441 (h).

8. Definition of base period.—For purposes of sections 442 through 446, the "base period" is the base period defined in section 435 (b) and is the period January 1, 1946, through December 31, 1949, except in the case of a taxpayer whose first taxable year ending after June 30, 1950, was preceded by a taxable year which began before January 1, 1950, and ended January 31, February 28, or March 31, 1950. In the latter cases the base period is the 48 consecutive months ending with the close of January, February, or March 1950. In the case of a corporation which is an acquiring corporation within the meaning of section 461 (a), such corporation is considered to have been in existence and to have had taxable years for any period during which it or any of its component corporations was in existence, and it is considered to have commenced business on the earliest date on which it or any of its component corporations commenced business. See section 461 (d).

SCHEDULE EP-5 (A)—NEW CORPORATIONS (Section 445)

A taxpayer which commenced business after the first day of its base period and which is not an ineligible corporation, is considered to be a new corporation and may apply for the benefits of section 445. For rules governing an application, see general instruction 2, Schedule EP-5. For definition of "base period," see general instruction 8, Schedule EP-5.

For special rules governing the application of section 445 in the case of an acquiring corporation, see section 462 (g), and in the case of a component corporation, see section 461 (c).

If a taxpayer, on or after December 1, 1950, and prior to the end of its third taxable year, acquires any properties in any of the transactions described in paragraphs (a), (b), or (c), below, it shall be deemed an "ineligible corporation" and it shall not, for the taxable year in which such acquisition occurs or for succeeding taxable years, be entitled to the benefits of section 445 except under the circumstances and subject to the limitations provided in section 462 (g). The transactions to which this paragraph applies are—

- (a) The acquisition by the taxpayer from another corporation of properties the basis of which in its hands is determined by reference to the basis of such properties to the transferor; or
- (b) The acquisition by the taxpayer of a substantial part of its assets from another corporation, or of a substantial part of the properties of another corporation, if 50 percent or more in value of the outstanding stock or outstanding voting stock of the taxpayer is directly or indirectly owned, at the time of such acquisition, by individuals owning directly or indirectly 50 percent or more in value of the outstanding stock, or outstanding voting stock of the transferor; or
- (c) The acquisition by the taxpayer of a substantial part of the properties distributed on or after December 1, 1950, by another corporation, if such properties constituted a substantial part of the business assets of such other corporation, and if 50 percent or more in value of the outstanding stock or outstanding voting stock of the taxpayer is owned directly or indirectly by individuals who at the time of such distribution owned directly or indirectly 50 percent or more in value of the outstanding stock or outstanding voting stock of such other corporation.

For the purposes of (b) and (c) above, the provisions of section 503 are applicable in determining the ownership of stock.

The base period capital addition is not available to a taxpayer computing average base period net income under section 445; accordingly, no entry should be made on line 50, Schedule EP-2. The net capital addition or reduction as computed under section 435 (g) is, however, applicable to such a taxpayer in accordance with the following modifications:

(a) In the case of a taxpayer computing its average base period net income under section 445 for any of its first three taxable years, lines 1 through 10 of Schedule EP-5 (A) are applicable and the net capital addition or reduction, as computed on line 19 or 23 of Schedule EP-2 (B), should be entered on line 2 or 4 of Schedule EP-5 (A), whichever is applicable. In such case no entry should be made on line 53 or 55 of Schedule EP-2.

(b) In the case of a taxpayer computing its average base period net income under section 445 for its fourth taxable year, or for any taxable year subsequent thereto, lines 11 through 16 of Schedule EP-5 (A) are applicable. If the day following the close of the

taxpayer's third taxable year is later than the first day of its first taxable year ending after June 30, 1950, then the date used for determining the amount of equity capital on line 1, borrowed capital on line 3, and inadmissible assets on line 15 of Schedule EP-2 (B) is such later day. The same day should be used in lieu of the day otherwise specified in instructions 12 and 13 of Schedule EP-2 (B) in determining the amount to be entered on lines 12 and 13 of that schedule and in lieu of the day specified in the instructions for Schedule EP-2 (B), relating to an increase in the capital additions under section 435 (g) (9). Schedule EP-2 (B) should be altered accordingly and the amount so determined on line 20 or 24 of that schedule should be entered on line 53 or 55, whichever is applicable, of Schedule EP-2.

1. Total assets at end of last taxable year ending prior to July 1, 1950.—The total assets held by the taxpayer at the end of its last taxable year ending prior to July 1, 1950, should be entered on line 1. If the taxpayer's first taxable year ended after June 30, 1950, do not make an entry on this line. For definition of "total assets," see general instruction 7, Schedule EP-5.

2. Net capital addition for current taxable year.—For the purpose of line 2, the net capital addition may be computed using Schedule EP-2 (B) as a guide but with the following changes: (a) disregard the 75 percent limitation appearing on lines 7, 11, and 13, and (b) enter on line 19 the excess of line 17 over line 18 (a). The amount so computed on line 19 of Schedule EP-2 (B) should be entered on line 2 of this schedule. In certain cases the net capital addition may be further increased under the provisions of section 435 (g) (9) relating to a decrease in inadmissible assets. See general instructions for this schedule and instructions for Schedule EP-2 (B).

4. Net capital reduction for current taxable year.—For the purpose of line 4, the net capital reduction may be computed by using Schedule EP-2 (B) as a guide but with the following changes: (a) disregard the 75-percent limitation appearing on line 7, 11, or 13, and (b) enter on line 23 the excess of line 21 over line 22 (a). The amount entered on line 23 of Schedule EP-2 (B) should be entered on line 4 of this schedule. See general instructions for this schedule and instructions for Schedule EP-2 (B).

6. Taxpayer's industry classification and base period rate of return.—Enter on this line the industry classification to which is attributable the largest amount of the taxpayer's gross receipts for the taxable year. See Appendix A for list of industry classifications. For definitions of "gross receipts," see instruction 40,

Schedule EP-2. Also enter on line 6 the applicable base period rate of return for the taxpayer's industry classification.

8. Reduction for interest.—The amount to be entered on line 8 is the total interest paid or incurred by the taxpayer for the 12 months ending with the last day of the taxable year for which the return is filed. Such amount should include interest on all indebtedness, irrespective of whether it constitutes borrowed capital within the meaning of section 439 (b).

11. Total assets at end of last taxable year ending prior to July 1, 1950, or at end of taxpayer's third taxable year, whichever is later.—The total assets held by the taxpayer at the end of its last taxable year ending prior to July 1, 1950—or if the taxpayer's third taxable year ended on a later date, the total assets held by the taxpayer at the end of its third taxable year—should be entered on this line. For definition of "total assets," see general instruction 7, Schedule EP-5.

12. Taxpayer's industry classification and base period rate of return.—Enter on this line the industry classification to which is attributable the largest amount of the taxpayer's gross receipts for the taxpayer's third taxable year. See Appendix A for list of industry classifications. For definition of "gross receipts," see instruction 40, Schedule EP-2. Also enter on line 12 the base period rate of return for the industry classification applicable to the taxpayer for its third taxable year.

14. Reduction for interest.—The amount to be entered on line 14 is the total interest paid or incurred by the taxpayer for the 12 months ending with the day for which the taxpayer's total assets are computed for purposes of line 11. Such amount shall include interest on all indebtedness, irrespective of whether it constitutes borrowed capital within the meaning of section 439 (b).

SCHEDULE EP-5 (B).—ABNORMALITIES DURING BASE PERIOD (Section 442)

A taxpayer which commenced business on or before the first day of its base period may apply for the benefits of section 442 if it establishes that, for any taxable year within, or beginning or ending within, its base period—

(a) Normal production, output, or operation was interrupted or diminished because of the occurrence, either immediately prior to or during such taxable year, of events unusual and peculiar in its experience, or

(b) The business of the taxpayer was depressed because of temporary economic circumstances unusual in the case of such taxpayer. In general, if the excess profits net income of 12 or fewer of the 36 months selected in the base period is affected by an abnormality, a substitute excess profits net income computed on the basis of the industry rate of return may, under the conditions specified in section 442 (c), be used in lieu of the actual excess profits net income of such 12 or fewer months. If the excess profits net income of more than 12 of the 36 months is affected by an abnormality, an average base period net income computed on the basis of the industry base period rate of return may, under the conditions specified in section 442 (d), be substituted for the taxpayer's entire base period net income. Section 442 (h) provides, as an alternative to section 442 (c) or (d), that a substitute excess profits net income may be used for any 12 months of the 36 months selected in the base period, if such 12 months are preceded by an abnormality and if the excess profits net income of such 12 months is less than 35 percent of one half the aggregate excess profits net income for the remaining 24 months of the 36 selected. For rules governing an application, see general instruction 2, Schedule EP-5. For definition of "base period," see general instruction 8, Schedule EP-5.

For special rules governing the application of section 442 in the case of an acquiring corporation, see section 462 (d), and in the case of a component corporation, see section 461 (c).

For purposes of section 442, activities comprised within the meaning of production, output, or operation include the rendering of services if the taxpayer renders service rather than manufactures or markets tangible products. Normal production, output, or operation, means the level of production, output, or operation, customary for the taxpayer. The interruption or diminution must be a direct result of events unusual and peculiar in the experience of the taxpayer, such events occurring in or immediately prior to such taxable year.

Only those economic circumstances which were temporary in the sense that they had little perceptible long-range effect on the taxpayer's business, and which affected the taxpayer unusually, as distinguished from those economic events which were of a chronic or continuing character, are within the scope of section 442.

The base period capital addition, in the case of a taxpayer computing its average base period net income under section 442, is subject to the following rules:

(a) If more than 12 of the 36 months in the period subject to adjustment (more than 12 of the months entered on line 4, Schedule EP-5 (B)) fall within taxable years the excess profits net income of which was adversely affected by an abnormality, the base period capital addition is zero.

(b) If 12 or fewer of the 36 months in the period subject to adjustment (12 or fewer of the months entered on line 4, Schedule EP-5 (B)) fall within a taxable year or years the excess profits net income of which was adversely affected by an abnormality, and

(1) If a substitute excess profits net income (in excess of 110 percent of excess profits net income) is computed for any part of the taxpayer's first taxable year ending after June 30, 1950, or for any part of the immediately preceding taxable year, the base period capital addition is zero;

(2) If a substitute excess profits net income (in excess of 110 percent of excess profits net income) is computed for any part of the earlier of the taxpayer's two taxable years immediately preceding its first taxable year ending after June 30, 1950, the base period capital addition shall be the excess of the amount in column 1, line 11, Schedule EP-2 (A) over the amount in column 2, line 11, of that schedule. Twelve percent of such amount should be entered on line 50, Schedule EP-2.

(3) If neither (1) nor (2) applies, the base period capital addition is the amount determined on line 14, Schedule EP-2 (A).

(c) If the taxpayer computes an average base period net income by reference to section 442 (h), the rules stated in (b) (1), (2), and (3), above, without regard to the 110 percent qualification therein, shall be applicable in determining the base period capital addition.

PAGE 20

The net capital addition or reduction, computed under section 435 (g) in Schedule EP-2 (B), is applicable to a taxpayer computing its average base period net income under section 442, and the amount so determined on line 20 or 24 of that schedule should be entered on line 53 or 55, whichever is applicable, of Schedule EP-2.

1. Excess profits net income or deficit.—The amount to be entered on line 1 is the amount of excess profits net income, or deficit in excess profits net income, shown on line 28, Schedule EP-2, for each taxable year within, or beginning or ending within, the taxpayer's base period.

2. Monthly average.—The monthly average to be entered is the excess profits net income (or deficit in excess profits net income) for each taxable year for which an entry is made on line 1, divided by the number of months in such taxable year.

3. Number of months after December 31, 1945, and before January 1, 1950, in each taxable year.—Where the base period consists of the 48 months beginning January 1, 1946, and ending December 31, 1949, the number of months to be entered on line 3 is the number of months within such 48-month period falling within each taxable year for which an entry is made on line 1. In a case where the base period is the 48-month period ending January 31, February 28, or March 31, 1950, the number of months to be entered in line 3 is the number of months, within the applicable 48-month period, falling within each of the taxable years for which an entry is made on line 1. For definition of "base period," see general instruction 8, Schedule EP-5.

4. Enter from 3 the highest 36 consecutive months or the 36 months remaining after eliminating lowest 12 consecutive months.—The number of months to be entered on line 4 should total 36 and should consist of either (a) the 36 consecutive months entered on line 3 the retention of which will produce the highest aggregate excess profits net income (or the lowest aggregate deficit in excess profits net income), or (b) the 36 months remaining after eliminating from the months entered on line 3 the 12 consecutive months the elimination of which will produce the highest aggregate excess profits net income (or the lowest aggregate deficit in excess profits net income). For the purpose of determining the number of months in each taxable year to be entered on this line, deficits in excess profits net income should not be increased to zero.

5. Number of months on line 4 in a taxable year the excess profits net income of which was adversely affected by an abnormality.—The number of months to be entered on line 5 should be those months entered on line 4 which fall within a taxable year the excess profits net income of which was reduced (or the deficit in excess profits net income of which was increased) by an event or circumstance included in the grounds upon which the application for the benefits of section 442 is based. If the total number of months entered on line 5 is 12 or less, the taxpayer should complete lines 7 through 17. If the total number of months entered on line 5 is more than 12, the taxpayer should complete lines 22 through 29.

6. Eligibility to use section 442 (h).—A taxpayer may determine eligibility to use section 442 (h) by selecting a period of 12 months, as shown in (a) below, and by ascertaining whether the requirements set forth in (b) below are met.

(a) The 12 months for the purposes of section 442 (h) may be determined by selecting from the months appearing on line 4, either the 12 consecutive months the elimination of which produces the highest aggregate excess profits net income (or lowest aggregate deficit in excess profits net income) or the 12 months which remain after eliminating the 24 months with the highest aggregate excess profits net income or lowest aggregate deficit. For the purpose of making this selection only, the 36 months on line 4 shall be considered a period of 36 consecutive months.

(b) In order to qualify for the benefits of section 442 (h), it must be shown that the aggregate excess profits net income for the 12 months thus selected is less than 35 percent of one-half of the aggregate excess profits net income for the 24 months remaining after such selection. It must also be shown that normal production, output, or operation was interrupted or diminished because of the occurrence of events unusual or peculiar in the experience of the taxpayer, within 12 months preceding either—

- (i) the first day of the 12 month period selected, or
- (ii) if the 12 months selected are not consecutive, the first day of any period of 6 or more of such months which are consecutive.

If the taxpayer is eligible for application of section 442 (h), enter on line 6 the 12 months selected as shown above.

7. Total assets at end of each taxable year for which an entry is made on line 5 or 6.—The total assets held by the taxpayer at the end of the taxable year or years for which a number (other than zero) was entered on line 5 or 6, whichever is applicable, should be entered in the appropriate column on line 7, except that if an entry was made on line 5 or 6 for a number of months in a taxable year ending after June 30, 1950, the date for which the taxpayer's total assets should be ascertained with respect to such number of months is the last day of its last taxable year ending before July 1, 1950.

For definition of "total assets," see general instruction 7, Schedule EP-5.

8. Taxpayer's industry classification and base period yearly rate of return for each taxable year for which an entry is made on line 7.—Enter on this line the industry classification to which is attributable the largest amount of the taxpayer's gross receipts for the taxable year within which falls the last month for which a substitute excess profits net income is determined. See Appendix A for list of industry classifications. For definition of "gross receipts" see instruction 40, Schedule EP-2. Also enter on line 8 the applicable base period yearly rate of return for the taxpayer's industry classification. In the case of a taxable year beginning in 1945 and ending in 1946, the base period rate of return for 1946 shall be used. In the case of a taxable year beginning in 1949 and ending in 1950, the base period rate of return for 1949 shall be used. In the case of any other taxable year of the taxpayer, the base period rate of return for the year in which falls the greater number of days in such taxable year of the taxpayer shall be used.

10. Reduction for interest.—For each amount entered on line 9 there should be entered on line 10 an amount equal to the total interest paid or incurred by the taxpayer for the 12 months beginning with the first day of the taxable year within which fall the months entered on line 5 or 6, whichever is applicable. Such amount should include interest on all indebtedness, irrespective of whether it constitutes borrowed capital within the meaning of section 439 (b).

13. 110 percent of line 2.—The amount to be entered on line 13 is an amount equal to 110 percent of the amount of monthly average excess profits net income shown on line 2 (only for years for which an entry is made on line 5). In the event that the applicable amount on line 2 is a deficit in excess profits net income such deficit should be increased to zero.

14. Substitute excess profits net income.—For any taxable year with respect to which an entry has been made on line 5 and the amount shown on line 12 exceeds the amount shown on line 13, the substitute excess profits net income may be used in lieu of the actual excess profits net income. The substitute excess profits net income is derived in any such case by multiplying the amount shown on line 12 for such taxable year by the number of months entered for that year on line 5.

18 through 21. Alternative average base period net income under section 442 (h).—Lines 18 through 21 are for the use of a taxpayer computing an alternative average base period net income under section 442 (h). See instruction 6.

Enter on line 18 the substitute excess profits net income for the 12 months selected for adjustment and entered on line 6. This amount is the product of line 12 multiplied by line 6.

Enter on line 19 the product of line 2 (substituting zero for any deficit) multiplied by the excess of line 4 over line 6. This amount is the excess profits net income for the 24 months remaining after selection of the 12 months entered on line 6.

Enter on line 20 the aggregate of the amounts on lines 18 and 19 divided by three. The amount on line 20 shall not be in excess of 50 percent of the aggregate of the amounts entered on line 19.

22. Total assets at end of each taxable year ending before July 1, 1950.—The amount to be entered on line 22 is the total assets held by the taxpayer on the last day of each of its taxable years ending after the beginning of its base period and prior to the first day of its first taxable year ending after June 30, 1950. For definition of "total assets," see general instruction 7, Schedule EP-5.

23. Interest paid or accrued for each taxable year for which an entry is made on line 22.—The amount to be entered on line 23 is the total interest paid or incurred by the taxpayer for each of the taxable years for which an amount of total assets was entered on line 22. Such amount should include interest on all indebtedness, irrespective of whether such indebtedness constitutes borrowed capital within the meaning of section 439 (b).

24. Average of total assets.—Enter the aggregate of the amounts on line 22, divided by the number of such amounts.

25. Taxpayer's industry classification and base period rate of return.—Enter on this line the industry classification to which is attributable the largest amount of the taxpayer's gross receipts for its last taxable year beginning within its base period. See Appendix A for list of industry classifications. For definition of "gross receipts," see instruction 40, Schedule EP-2. Also enter on line 25 the applicable base period rate of return for the taxpayer's industry classification.

27. Interest adjustment.—The amount to be entered on line 27 is the average yearly amount of interest paid or incurred by the taxpayer for all taxable years for which the taxpayer's total assets

were determined on line 22. The average yearly amount of interest is computed by aggregating the amounts entered on line 23, dividing by the total number of months in the taxable years involved, and multiplying the quotient by 12.

29. 110 percent of average base period net income computed under section 435 (d).—Section 442 (d) shall have no applica-

tion unless the amount of the average base period net income determined under section 442 (d) is in excess of 110 percent of the taxpayer's average base period net income computed under the general average method. If line 28 exceeds line 29, the taxpayer's average base period net income is the amount on line 28.

SCHEDULE EP-5 (C)—CHANGE IN PRODUCTS OR SERVICES (Section 443)

A taxpayer which commenced business on or before the first day of its base period and which establishes with respect to any taxable year that—

(a) during so much of its three immediately preceding taxable years as falls within the 36-month period ending on the last day of its base period, there was a substantial change in the products or services furnished by the taxpayer, and

(b) more than 40 percent of its gross income or more than 33 percent of its net income for such taxable year is attributable to one or more of the new products or services, and

(c) its average monthly excess profits net income for such taxable year exceeds 125 percent of its average monthly excess profits net income for the taxable years ending within its base period and prior to the taxable year in which occurred the first change to which gross income or net income is attributed for the purpose of the requirements stated in (b), may, for the earliest taxable year with respect to which the foregoing requirements are satisfied (and for subsequent taxable years), apply for the benefits of section 443. For rules governing such an application, see general instruction 2, Schedule EP-5. For definition of "base period," see general instruction 8, Schedule EP-5. If a change in products or services is considered to have occurred on the last day of the base period by reason of a commitment described in section 443 (f) (2), include in statement submitted with respect to application of section 443 full details concerning facilities constructed for the production of the new product and a copy of the contract evidencing the commitment.

For special rules governing the application of section 443 in the case of an acquiring corporation, see section 462 (e), and in the case of a component corporation, see section 461 (c).

Requirements (a), (b), and (c), above, must all be met with respect to a single taxable year.

For purposes of requirement (a), the change in products or services must be substantial. It must take the form of a product or a service which is new to the taxpayer and not a mere improvement or change in style. The discontinuance of a product or service previously furnished by the taxpayer is not a change in products or services for purposes of section 443.

For purposes of requirement (b), if more than one substantial change in products or services occurred during the prescribed period, the gross income or net income attributable to new products or services may be aggregated in determining whether the amount attributable to new products or services meets the stated percentages of total gross income or total net income, as the case may be.

For purposes of requirement (c), the average monthly excess profits net income for any year shall be computed by making the adjustments provided in section 433 (b) as though section 433 (b) were applicable to all taxable years, and by dividing by the number of months in the year. The average monthly excess profits net income for any period of two or more taxable years is the aggregate of the excess profits net income (computed by making the adjustments provided in section 433 (b) as though section 433 (b) were applicable to all taxable years) for all taxable years within the period, less the amount of any deficits in excess profits net income (similarly computed) for all taxable years within the period, divided by the number of months in the taxable years in the period. The average monthly excess profits net income determined for any period shall in no case be less than zero.

The base period capital addition is not available to a taxpayer computing average base period net income under section 443; accordingly, no entry should be made on line 50, Schedule EP-2. The net capital addition or reduction as computed under section 435 (g), however, is applicable to such a taxpayer in accordance with the following modifications:

(1) If the taxable year in which the taxpayer first meets requirements (a), (b), and (c), above, is a year ending after June 30, 1950, no net capital addition or reduction will be applicable in computing the excess profits credit based on income for that taxable year. Accordingly, no entry is to be made on line 53 or 55 of Schedule EP-2.

(2) In determining the net capital addition or reduction under section 435 (g) for a taxable year subsequent to the year in which the taxpayer first met requirements (a), (b), and (c), above, the date used for determining the amount of equity capital, on line 1, borrowed capital on line 3, and inadmissible assets on line 15, of Schedule EP-2 (B) should be the first day of the taxable year immediately following such year in which the requirements were first met, or the first day of the taxpayer's first taxable year ending after June 30, 1950, whichever is later. The same day should be used in lieu of the day otherwise specified in instructions 12 and 13, Schedule EP-2 (B), in determining the amount to be entered on lines 12 and 13 of that schedule and in lieu of the day specified in the instructions for Schedule EP-2 (B) relating to an increase in the capital addition under section 435 (g) (9). Schedule EP-2 (B) should be altered accordingly and the amount so determined on lines 20 or 24 of that schedule should be entered on line 53 or 55, whichever is applicable, of Schedule EP-2.

1. Allocation of gross income and net income for the taxable year with respect to which taxpayer claims qualification under section 443 (a).—The taxable year with respect to which the taxpayer claims qualification should be designated on line 1 (a). This year must be the earliest year with respect to which the taxpayer meets the requirements of section 443 (a) with respect to gross income or net income attributable to a substantial change in products or services which occurred within one or more of its three immediately preceding taxable years and within the last 36 months of the base period. Such year must also reflect a 25 percent increase in average monthly excess profits net income over the average monthly excess profits net income of the taxable years ending within the base period but prior to the year in which occurred the first change in products or services upon which the taxpayer relies. The amount to be entered in column 1 of line 1 (b) is the total amount of gross income for the taxable year without adjustment under section 433 (a). The amount allocated to the new products or services should be similarly determined and the allocation should be made in conformity with good accounting practice. The amount to be entered in column 1 of line 1 (c) is the net income for the year determined under section 21. In column 2 of line 1 (c) there should be entered the amount of net income for the taxable year attributable to the new products or services, such allocation also being made in conformity with good accounting practice.

2 through 4. Increase in average monthly excess profits net income.—The amount of the taxpayer's excess profits net income for the taxable year with respect to which qualification under

section 443 (a) is claimed should be entered on line 2 and the monthly average thereof computed and entered in column 3 of that line. The monthly average excess profits net income for the taxable years ending within the base period and prior to the taxable year or years in which occurred the first change in products or services upon which the taxpayer relies, should be entered on line 3 and the monthly average thereof computed and entered in column 3 of that line.

5. Total assets at end of taxable year designated on line 1 (a) or at end of last taxable year ending prior to July 1, 1950, whichever is later.—For definition of "total assets," see general instruction 7, Schedule EP-5.

6. Taxpayer's industry classification and base period rate of return.—Enter on this line the industry classification to which is attributable the largest amount of the taxpayer's gross receipts for the taxable year which includes the day for which the amount of the taxpayer's total assets were determined on line 5. See Appendix A for list of industry classifications. For definition of "gross receipts," see instruction 40; Schedule EP-2. Also enter on line 6 the base period rate of return for the taxpayer's industry classification.

8. Reduction for interest.—The amount to be entered on line 8 is the total interest paid or incurred by the taxpayer for the 12 months ending with the day for which the taxpayer's total assets were determined for purposes of line 5. Such amounts should include interest on all indebtedness, irrespective of whether it constitutes borrowed capital within the meaning of section 439 (b).

PAGE 22

SCHEDULE EP-5 (D)—INCREASE IN CAPACITY FOR PRODUCTION OR OPERATION (Section 444)

A taxpayer which commenced business on or before the first day of its base period and which establishes that during the 36-month period ending on the last day of its base period there was an increase in its capacity for production or operation, as defined in section 444 (b), may apply for the benefits of section 444. For rules governing an application, see general instruction 2, Schedule EP-5. For definition of "base period," see general instruction 8, Schedule EP-5.

For special rules governing the application of section 444 in the case of an acquiring corporation, see section 462 (f), and in the case of a component corporation, see section 461 (c).

For the purposes of section 444, an increase in capacity for production or operation is deemed to have occurred if the taxpayer establishes that it made an addition (or additions) to its facilities or replaced all (or a part of) its existing facilities, and that—

(a) As a result of such additions or replacements, its capacity for production or operation on the last day of its base period was 200 percent or more of its capacity for production or operation on the last day of the twelfth month of its base period, or

(b) (1) As a result of such additions or replacements, its capacity for production or operation on the last day of its base period was 150 percent or more of its capacity for production or operation on the last day of the twelfth month of its base period, and (2) the adjusted basis for determining gain upon sale or exchange of its total facilities on the last day of its base period was 150 percent or more of the adjusted basis for determining gain upon sale or exchange of its total facilities on the last day of the twelfth month of its base period, or

(c) The basis (unadjusted) for determining gain upon sale or exchange of its total facilities on the last day of its base period was 200 percent or more of the basis (unadjusted) for determining gain upon sale or exchange of its total facilities on the last day of the twelfth month of its base period.

The term "facilities" means real property and depreciable tangible property held by the taxpayer in good faith for the purposes of the business.

For the purposes of (a) and (b), above, the term "capacity for production or operation" means the capacity to produce or to operate rather than the level of production or operation actually achieved.

For the purposes of (b) and (c), above, the adjusted basis or the unadjusted basis of all "facilities" is to be included, both at the beginning and at the end of the 36-month period, irrespective of whether the facility is one directly involved in any determination of capacity for production or operation.

If an increase in capacity is considered to have occurred on the last day of the base period by reason of a commitment described in section 444 (f) (2), include in the statement submitted with respect to the application of section 444 full details with respect to the facilities completed after the last day of the base period and during the first excess profits tax year, and circumstances evidencing the commitment.

The base period capital addition determined under section 435 (f) is not available to a taxpayer computing its average base period net income under section 444. Accordingly, no entry should be made on line 50, Schedule EP-2. The net capital addition or reduction computed on Schedule EP-2 (B), however, is applicable to such a taxpayer and the amount so determined on line 20 or 24 of that schedule should be entered on line 53 or 55, whichever is applicable, of Schedule EP-2.

1. Capacity for production or operation.—Enter in columns 1 and 2 of line 1 the total capacity for production or operation as of the last day of the twelfth month in the base period and as of the last day of the base period. Use the same unit of measurement (tons, gallons, yards, etc.) in computing capacity for each date.

2 and 3. Basis of total facilities.—For definition of the term "facilities," see general instructions for this schedule.

4. Total assets at end of last taxable year ending prior to July 1, 1950.—The amount to be entered on line 4 is the total amount of the assets held by the taxpayer at the close of its last taxable year ending prior to July 1, 1950. For definition of "total assets," see general instruction 7, Schedule EP-5.

5. Taxpayer's industry classification and base period rate of

return.—Enter on this line the industry classification to which is attributable the largest amount of the taxpayer's gross receipts for its last taxable year ending before July 1, 1950. See Appendix A for list of industry classifications. For definition of "gross receipts," see instruction 40, Schedule EP-2. Also enter on line 5 the base period rate of return for the taxpayer's industry classification.

7. Reduction for interest.—The amount to be entered on line 7 is the total interest paid or incurred by the taxpayer for the twelve months ending with the last day of the taxpayer's last taxable year ending before July 1, 1950. Such amount should include interest on all indebtedness, irrespective of whether it constitutes borrowed capital within the meaning of section 439 (b).

SCHEDULE EP-5 (E)—DEPRESSED INDUSTRY SUBGROUPS (Section 446)

A taxpayer which commenced business on or before the first day of its base period and which is a member of a depressed industry subgroup may apply for the benefits of section 446. For rules governing an application, see general instruction 2, Schedule EP-5. For definition of "base period," see general instruction 8, Schedule EP-5.

For special rules governing the application of section 446 in the case of an acquiring corporation, see section 462 (h), and in the case of a component corporation, see section 461 (c). For purposes of section 446, a taxpayer is a member of a depressed industry subgroup if more than 50 percent of the aggregate of its gross receipts for the taxable years beginning with or within its base period is attributable to such subgroup.

The base period capital addition determined under section 435 (f) is not available to a taxpayer computing its average base period net income under section 446 and no entry should be made on line 50, Schedule EP-2. The net capital addition or reduction computed on Schedule EP-2 (B), however, is applicable to such a taxpayer and the amount so determined on line 20 or 24 of that schedule should be entered on line 53 or 55, whichever is applicable, of Schedule EP-2.

The depressed industry subgroups and the final adjusted rates of return are—

Aircraft and parts—Standard Industrial Classification groups 3721, 3722, 3723, and 3729.—(1) Manufacturing or assembling complete aircraft such as airplanes, gliders, dirigibles, and balloons; (2) manufacturing aircraft engines and engine parts such as engine mount parts, air scoops, turbo superchargers, lubricating systems, cooling systems, exhaust systems, nonelectric starters, and aircraft engine pumps; (3) manufacturing aircraft propellers and propeller parts; (4) manufacturing aircraft parts such as air frame assemblies, wing assemblies, flaps and dive brakes, elevators, fins, rudders, other empennage assemblies, and alighting assemblies; and (5) manufacturing auxiliary equipment, such as de-icing equipment, bomb racks, turrets and turret drives, parachutes, targets, link trainers, and other auxiliary equipment specifically adapted for aircraft. *This industry subgroup does not include manufacturing aeronautical instruments or manufacturing aeronautical electrical equipment.*

The adjusted rate of return for this industry subgroup is 11.3 percent.

Engines and turbines, except automotive, aircraft, and railway—Standard Industrial Classification groups 3511 and 3519.—Manufacturing steam engines (*except locomotives*), steam turbines, water wheels, and water turbines; and manufacturing Diesel or semi-Diesel engines, or other internal combustion engines, *except aircraft engines and automobile engines.*

The adjusted rate of return for this industry subgroup is 12.8 percent.

Metalworking machinery, including machine tools—Standard Industrial Classification groups 3541, 3542, and 3543.—(1) Manufacturing power-driven machine tools that shape metal by grinding or progressively cutting away chips (such as boring, broaching, drilling, gear-cutting and finishing, grinding, milling and planing machines; lathes, shapers, and slotters; honing and lapping, polishing and buffing, sawing and cutting-off, contour-sawing and filing, tapping, threading, and rifling machines, and replacement and repair parts for machine tools); (2) rebuilding of machine tools; (3) manufacturing machinery for shaping, pressing, forging, or bending metal where the shaping action of such machines is not dependent upon a cutting tool (such as

bending machines; can forming and soldering, and other sheet-metal working machinery; die-casting machines; forging machines, such as drop hammers (impression die); forging hammers (flat die), forging presses, bulldozers, and upsetters; portable power-driven metalworking tools, and flexible-shaft machines; presses (forming, stamping, and punch); riveting machines (not portable); rod and wire forming and fabricating machines; rolling mill machinery and equipment; shears; spring winding and forming machines; acetylene welding and cutting apparatus; wire-drawing machines; and replacement and repair parts); and (4) manufacturing attachments and accessories for machine tools and other metalworking machinery. *This industry subgroup does not include manufacturing hand tools (except power-driven) or manufacturing electric welding apparatus.*

The adjusted rate of return for this industry subgroup is 16.8 percent.

Ship and boat building and repairing—Standard Industrial Classification groups 3731 and 3732.—Building and repairing all types of ships, barges, canal boats, lighters, motorboats, sailboats, rowboats, lifeboats, and canoes. *This industry subgroup does not include fabricating structural assemblies or components for ships, or subcontractors engaged in ship painting, joinery, carpentry work, electrical wiring installations, etc.*

The adjusted rate of return for this industry subgroup is 10.4 percent.

Wines—Standard Industrial Classification group 2084.—Manufacturing both dry and sweet wines. *This industry subgroup does not include bottling purchased wines.*

The adjusted rate of return for this industry subgroup is 7.8 percent.

Photographic studios, including commercial photography—Standard Industrial Classification groups 7231 and 7232.—Portrait photography for the general public; and photography for advertising agencies, publishers, and other industrial users. *This industry subgroup does not include film developing or print processing for the trade or for the general public, or motion picture film processing.*

The adjusted rate of return for this industry subgroup is 8.6 percent.

Telegraph communication (wire and radio)—Standard Industrial Classification group 4821.—Furnishing telegraphic communication service by transmitting nonvocal record communications intended for receipt by designated persons.

The adjusted rate of return for this industry subgroup is 1.5 percent.

Transportation by air—Standard Industrial Classification groups 4512, 4513, 4521, 4582, and 4583.—Carriers; operation and maintenance of airports and flying fields; and furnishing coordinated handling services for air freight or passengers at airports.

The adjusted rate of return for this industry subgroup is 3.0 percent.

1. Total assets at end of each taxable year ending after the beginning of the base period and before July 1, 1950.—For definition of "total assets," see general instruction 7, Schedule EP-5.

2. Interest paid or accrued for each taxable year for which an entry is made on line 1.—The amount to be entered on line 2 for each taxable year is the total amount of interest paid or incurred by the taxpayer for such year. Such amount should include interest on all indebtedness, irrespective of whether such indebtedness constitutes borrowed capital within the meaning of section 439 (b).

3. Average of total assets.—Enter the aggregate of the amounts of line 1, divided by the number of such amounts.

4. Taxpayer's industry subgroup and adjusted rate of return.—Enter on this line the industry subgroup, to which is attributable more than 50 percent of the aggregate of the taxpayer's gross receipts for the taxable years beginning with or within the taxpayer's base period. For definition of "gross receipts," see instruction 40, Schedule EP-2. Also enter on line 4 the adjusted rate of return for the industry subgroup of which the taxpayer is a member.

6. Interest adjustment.—The amount to be entered on line 6 is the average yearly amount of interest paid or incurred by the taxpayer for all taxable years for which its total assets were determined on line 1. The average yearly amount of interest is computed by aggregating the amounts entered on line 2, dividing such aggregate by the total number of months in the taxable years involved, and multiplying the quotient by 12.

APPENDIX A
Final rates of return

14. Income base (item 4, page 1, minus the sum of items 7, 8, and 9, page 1).....	\$	\$
15. 3 3/4 percent of line 12.....	\$	\$
16. Excess (if any) of line 14 over line 15.....	\$	\$
17. One-fourth of line 16.....	\$	\$
18. Limit on deduction for investment expenses (line 13 plus line 17).....	\$	\$

Schedule C.—RESERVE INTEREST CREDIT (See instruction 19)

1. Net income computed without deduction for wholly tax-exempt interest (sum of items 5 and 11, page 1).....	\$
2. 50 percent of item 17 (e), page 1.....	\$
3. Adjusted net income for purpose of reserve interest credit (line 1 minus line 2).....	\$
4. Required interest—	
(a) Total of column 8, (line 5), Schedule A.....	\$
(b) 2 percent of reserve for deferred dividends.....	\$
(c) Interest paid.....	\$
(d) Sum of lines (a), (b), and (c).....	\$
5. Line 3 divided by line 4 (d). Enter percentage.....	%
6. Reserve interest credit—If percentage on line 5 is:	
105 or more, enter zero.....	\$
100 or less, enter 50 percent of item 16, page 1.....	\$
more than 100 but less than 105, enter *..... % of item 16, page 1.....	\$

*Multiply by 10 the difference between 105 percent and percentage on line 5 and enter percentage thus obtained.

Schedule D.—COMPUTATION TO DETERMINE NECESSITY FOR FILING EXCESS PROFITS TAX SCHEDULE

1. Net income (item 11, page 1).....	\$
2. Less: Partially tax-exempt interest from item 13, page 1.....	\$
3. Dividends received (total of item 2, page 1, less (a) adjustment for dividends received in kind, (b) dividends received from foreign personal holding companies, and (c) dividends received on stock which is not a capital asset).....	\$
4. Line 1 minus sum of lines 2 and 3.....	\$
If line 4 is \$25,000 or less, Schedule EP (Form 1120) need not be filed with this return. If line 4 is over \$25,000, Schedule EP (Form 1120) must be filed.	
1. Was a return filed under the same name for the preceding taxable year?.....	5. Did the company make a return of information on Forms 1096 and 1099 or Form W-2a for the calendar year 1953 (see General Instruction H)? Yes <input type="checkbox"/> No <input type="checkbox"/>
2. State amount of deferred dividend funds at end of taxable year, exclusive of any amount held for payments in following taxable year: \$.....	6. Did the company at any time during the taxable year own directly or indirectly any stock of a foreign corporation? (If answer is "yes," attach statement required by General Instruction J.)
3. Is this a consolidated return? (If so, procure from the district director of internal revenue for your district Form 851, Affiliations Schedule, which shall be filled in and filed as a part of this return.)	7. Did the company file with the district director of internal revenue a copy of the annual statement for the preceding year as required by General Instruction K? (Answer "yes" or "no.") If answer is "yes," state district director's office in which statement was filed.....
4. If this is not a consolidated return (a) did the company at any time during the taxable year own 50 percent or more of the voting stock of another corporation either domestic or foreign? (b) did any corporation, individual, partnership, trust, or association at any time during the taxable year own 50 percent or more of your voting stock? (If either answer is "yes," attach separate schedule showing: (1) Name and address; (2) percentage of stock owned; (3) date stock was acquired; and (4) the district director's office in which the income tax return of such corporation, individual, partnership, trust, or association for the last taxable year was filed.)	8. If a copy of the annual statement required by General Instruction K does not accompany this return, state reason why the statement is not attached.....
	9. If the company is a burial or funeral benefit insurance company, state whether it is engaged directly in the manufacture of funeral supplies or in the performance of funeral services.....

1953

INSTRUCTIONS FOR FORM 1120 L

U. S. LIFE INSURANCE COMPANY INCOME TAX RETURN

1953

(References are to the Internal Revenue Code, unless otherwise noted)

Taxpayers will find it helpful to read the General Instructions A to L before commencing to fill in their returns

GENERAL INSTRUCTIONS

A. Companies required to file a return.—Every domestic life insurance company and every foreign life insurance company carrying on an insurance business within the United States (if with respect to its United States business it would qualify as a life insurance company), which is engaged in the business of issuing life insurance and annuity contracts (either separately or combined with health and accident insurance) or noncancellable contracts of health and accident insurance and of which the life insurance reserves, plus unearned premiums and unpaid losses on noncancellable life, health, or accident policies not included in life insurance reserves, comprise more than 50 percent of its total reserves, shall file a return on this form. (See section 201.)

Receivers, trustees in dissolution, trustees in bankruptcy, and assignees, operating the property or business of corporations, must make returns of income for such corporations. If a receiver has full custody of and control over the business or property of a corporation, he shall be deemed to be operating such business or property, whether he is engaged in carrying on the business for which the corporation was organized or only in marshaling, selling, and disposing of its assets for purposes of liquidation.

B. Period covered.—The return shall be for the calendar year ended December 31, 1953, and the net income computed on the calendar year basis in accordance with the State laws regulating insurance companies.

C. Basis of return.—A return on this form shall be rendered on a cash receipts and disbursements basis or the accrual basis whichever conforms with the annual statement made to the State Insurance Department.

D. Time and place for filing.—The return must be sent to the district director of internal revenue for the district in which the company's principal place of business or principal office or agency is located, so as to reach the district director's office on or before March 15, 1954.

E. Declaration.—The return must be signed by the president, vice president, or other principal officer, and by the treasurer, assistant treasurer, or chief accounting officer.

Where the return is actually prepared by some person or persons other than officers or employees of the company, such person or persons must also sign the declaration at the foot of page 1.

F. Payment of tax.—The tax should be paid by sending with the return a check or money order drawn to the order of "District Director of Internal Revenue." Do not send cash by mail, nor pay it in person except at the district director's office.

The tax must be paid in full when the return is filed, or in four installments, as follows: The first installment equal to 45 percent of the tax shall be paid on or before March 15, 1954; the second installment equal to 45 percent of the tax on or before June 15, 1954; the third installment equal to 5 percent of the tax on or before September 15, 1954; and the fourth installment equal to 5 percent of the tax on or before December 15, 1954.

If any installment is not paid on or before the date fixed for its payment the whole amount of the tax unpaid shall be paid upon notice and demand by the district director.

G. Penalties.—For failure to make and file a return on time.—Five percent to 25 percent of the amount of the tax, unless such failure is due to reasonable cause, and, in addition, where failure is willful, a fine of not more than \$10,000, or imprisonment for not more than 1 year, or both, together with the costs of prosecution.

For willfully attempting to evade or defeat payment of the tax.—Not more than \$10,000, or imprisonment for not more than 5 years, or both, together with the costs of prosecution.

For deficiency due to negligence or fraud.—Five percent of the amount of the deficiency if due to negligence or intentional disregard of

rules and regulations without intent to defraud, or 50 percent of the amount of the deficiency if due to fraud.

H. Information at source.—Every insurance company shall make a return on Forms 1096 and 1099 with respect to amounts paid, credited, or distributed during the calendar year 1953 as (a) salaries or other compensation for personal services, totaling \$600 or more in the case of a citizen or resident, or (b) interest, rent, premiums, annuities, or other fixed or determinable income totaling \$600 or more to a fiduciary, a domestic or resident partnership, or a citizen or resident. A report on Form 1099 is not required with respect to wage payments included on Form W-2, provided copies of withholding statements on Form W-2a are furnished. If a portion of such wage payments was reported on a Withholding Statement (Form W-2), only the remainder must be reported on Form 1099. The return on Forms 1096 and 1099 shall also include dividend payments amounting to \$10 or more during the calendar year to each shareholder who is an individual (citizen or resident of the United States), a resident fiduciary, or a resident partnership any member of which is a citizen or resident.

I. Information by corporations.—1. *Contemplated dissolution or liquidation.*—Every corporation shall, within 30 days after the adoption by the corporation of a resolution or plan for the dissolution of the corporation or for the liquidation of the whole or any part of its capital stock, render a correct return on Form 966, setting forth the terms of such resolution or plan. (See section 148 (d).)

2. *Distributions in liquidation.*—Every corporation shall, when required by the Commissioner, render a correct return of its distributions in liquidation, stating the name and address of each shareholder, the number and class of shares owned by him, and the amount paid to him or, if the distribution is in property other than money, the fair market value (as of the date the distribution is made) of the property distributed to him. (See section 148 (e).)

J. Stock ownership in foreign corporations.—If the company owned any stock of a foreign corporation (including less than 5 percent of the stock of a foreign personal holding company), it should attach to its return a statement setting forth the name and address of each such company and the total number of shares of each class of outstanding stock owned by it during the taxable year. This statement should be furnished in addition to the schedule required by Specific Instruction 2. If the company owned stock at any time during the taxable year in a foreign personal holding company, as defined in section 331, it must include in its return as a dividend the amount required to be included in its gross income by section 337. If the company owned 5 percent or more in value of the outstanding stock of such foreign personal holding company, it should set forth in an attached statement in complete detail the information required by section 337 (d).

K. Annual statement.—A copy of the annual statement for life insurance companies adopted by the National Convention of Insurance Commissioners for the year 1953, as filed with the Insurance Department of the State, Territory, or District of Columbia, which shows the reserves used in computing the net income reported on the return, together with copies of Schedule A (real estate) and Schedule D (bonds and stocks), must accompany the return. Similar copies for the preceding year must also be furnished, if not filed for such year. In the case of a foreign life insurance company carrying on a life insurance business within the United States, the copies submitted shall be those relating to the United States business of the company.

L. List of attached schedules.—Attach a list of the schedules accompanying the return, giving for each a brief title and the schedule number. Place name and address of company on each schedule.

SPECIFIC INSTRUCTIONS

The following instructions are numbered to correspond with item numbers on the first page of the return

1. **Interest.**—Enter interest received from all sources during the taxable year. Interest on bonds is considered income when due and payable. The gross amount of interest reported as gross income shall be decreased by the amortization of premium and increased by the accrual of discount attributable to the taxable year on bonds, notes, debentures, or other evidences of indebtedness, determined (1) in accordance with the method regularly employed, if reasonable, or (2) in accordance with regulations prescribed by the Commissioner with the approval of the Secretary. (Attach statement showing method and computation.)

2. **Dividends.**—Enter as item 2 (a) the amount received as dividends from a domestic corporation which is subject to taxation under Chapter 1, except dividends on certain preferred stock of a public utility, dividends received from a corporation entitled to the benefits of section 251 and from a corporation organized under the China Trade Act, 1922. Enter as item 2 (b) dividends received on certain preferred stock of a public utility which is subject to taxation under Chapter 1. Enter as item 2 (c) dividends from foreign corporations. Enter as item 2 (d) dividends from all other corporations, including dividends on share accounts in Federal savings and loan associations issued on or after March 28, 1942. Enter in item 1 (c) dividends on share accounts in Federal savings and loan associations issued prior to March 28, 1942. Submit schedule, itemizing all dividends received during the year, stating the names and addresses of the corporations declaring the dividends and amounts received from each.

3. **Rents.**—Enter rents received from tenants.

5. **Interest wholly exempt from tax.**—Enter the amount of interest which is wholly exempt from taxation under the provisions of section 22 (b) (4).

6. **Investment expenses.**—Enter expenses paid which are properly chargeable to investment expenses, the total amount of which, if there be any allocation of general expenses to investment expenses, should not exceed one-fourth of 1 percent of the mean of the invested assets reported on line 12, Schedule B, plus, in cases where the net income computed without any deduction for (1) investment expenses and (2) tax-free interest, exceeds $3\frac{3}{4}$ percent of the book value of such mean of the invested assets, one-fourth of such excess. Submit a schedule showing the nature and amount of the items included herein, the minor items being grouped in one amount. (See section 201 (c) (7) (B).)

7. **Taxes.**—Enter taxes paid exclusively upon real estate owned by the company and taxes assessed against individual shareholders and paid by the company without reimbursement as provided in section 201 (c) (7) (C). Do not include taxes assessed against local benefits of a kind tending to increase the value of the property assessed, as for paving, sewers, etc. (For limitation on deduction, see Instruction 10 (b).)

8. **Real estate expenses.**—Enter all ordinary and necessary building expenses, such as fire insurance, heat, light, labor, etc., and the cost of incidental repairs which neither materially add to the value of the property

nor appreciably prolong its life, but keep it in an ordinarily efficient operating condition. Do not include any amount paid out for new buildings or for permanent improvements or betterments made to increase the value of any property or any amount expended on foreclosed property before such property is held forth for rental purposes. (For limitation on deduction, see Instruction 10 (b).)

9. Depreciation.—The amount deductible on account of depreciation is an amount reasonably measuring the portion of the investment in depreciable property which, by reason of exhaustion, wear and tear, or obsolescence, is properly chargeable against the operations of the year. In any event the deduction is limited to the depreciation on the property that is used, and to the extent used, for the purpose of producing the income specified in section 201 (c) (1). If the property was acquired by purchase on or after March 1, 1913, the amount of depreciation should be determined upon the basis of the original cost (not replacement cost) of the property, and the probable number of years remaining of its expected useful life. In case the property was purchased prior to March 1, 1913, the amount of depreciation will be determined in the same manner, except that it will be computed on its original cost, less depreciation sustained prior to March 1, 1913, or its fair market value as of that date, whichever is greater. If the property was acquired in any other manner than by purchase, see section 114. The capital sum to be recovered should be charged off ratably over the useful life of the property. Whatever plan or method of apportionment is adopted must be reasonable, must have due regard to operating conditions during the taxable year, and should be described in the return.

If a deduction is claimed on account of depreciation, a schedule should be filed with the return showing: (1) Kind of property; (2) date acquired; (3) cost or other basis; (4) depreciation allowed (or allowable) in prior years; (5) remaining cost or other basis to be recovered; (6) estimated life used in accumulating depreciation; (7) estimated remaining life from beginning of year; and (8) depreciation allowable for the taxable year. In case obsolescence is included, state separately amount claimed and basis upon which it is computed. Cost or value of land must not be included in the schedule, and where land and buildings were purchased for a lump sum the cost of the buildings subject to depreciation must be established.

The adjusted property accounts and the accumulated depreciation shown in the schedule should be reconciled with those accounts as reflected on the books of the taxpayer.

Stocks, bonds, and like securities are not subject to depreciation within the meaning of the law. (See sections 23(1), 114, and 201(c)(7)(D).)

For limitation on deduction, see Instruction 10 (b) below.

10. Total deductions.—(a) Enter the total of items 5 to 9, inclusive.

(b) *Limitation on deductions relating to real estate owned and occupied.*—The deduction included in items 7 to 9 on account of real estate owned and occupied in whole or in part by the company shall be limited to an amount which bears the same ratio to such deduction (computed without regard to subsection (d) of section 201) as the rental value of the space not so occupied bears to the rental value of the entire property. (Submit detailed schedule.)

(c) *Items not deductible.*—No deduction is allowable for the amount of any item or part thereof allocable to a class of exempt income, other than interest. Items directly attributable to such exempt income shall be allocated thereto, and items directly attributable to any class of taxable income shall be allocated to such taxable income. If an item is indirectly attributable to both taxable income and exempt income, a reasonable proportion thereof, determined in the light of all the facts and circumstances in each case, shall be allocated to each. Apportionments must in all cases be reasonable. A taxpayer receiving any exempt income, other than interest, or holding any property or engaging in any activity the income from which is exempt shall submit with its return as a part thereof an itemized statement, in detail, showing (1) the amount of each class of exempt income, and (2) the amount of items allocated to each such class (the amount allocated by apportionment being shown separately).

12 through 23. Computation of tax.—In general.—All life insurance companies (including foreign life insurance companies carrying on a life insurance business within the United States) are subject to the tax imposed by section 201 (a) (1), as amended. For taxable years beginning in 1953, section 201 (a) (1), as amended, provides for a tax equal to 3¾ percent of the first \$200,000 of 1953 adjusted normal tax net income and 6½ percent of the amount in excess of \$200,000. No consideration is to be given in the computation of the tax to any amount of the reserve and other policy liability credit provided in section 203 (b). The term "1953 adjusted normal tax net income" is defined as the normal tax net income plus eight times the amount of the adjustment for certain non-life insurance reserves provided in section 202 (c) and minus the reserve interest credit, if any, as defined in section 203A (b). The normal tax net income of a foreign life insurance company carrying on a life insurance business within the United States consists of that portion of its net income from the United States business (shown on the form approved for life insurance companies by the National Association of Insurance Commissioners) computed under the provisions of section 201.

15. Dividends received credit.—The dividends received credit is the sum of: (a) 85 percent of dividends received from certain domestic corporations subject to the income tax, other than dividends received on certain preferred stock of a public utility; (b) 62 percent of the amount received as dividends on certain preferred stock of a public utility which is subject to the income tax; and (c) 85 percent of dividends received from certain foreign corporations subject to the income tax. For the purpose of this credit, dividends received from a corporation organized under the China Trade Act, 1922, or from a corporation entitled to the benefits of section 251, should be entered in item 2 (d).

Section 26 (b), provides for a dividends received credit in the case of dividends received from a foreign corporation (other than a foreign personal holding company) which is subject to the income tax if, (1) for an uninterrupted period of not less than 36 months (or the entire period the foreign corporation was in existence if such period is less than 36 months) ending with the close of the foreign corporation's taxable year in which such dividends are paid, the foreign corporation has been engaged in trade or business within the United States, and (2) during such period, 50 percent or more of the gross income of the foreign corporation has been derived from sources within the United States.

In such a case the amount of the allowable credit is 85 percent of the amount received as dividends from (a) earnings and profits of the taxable year (computed as of the close of the taxable year without diminution by reason of any distribution made during the taxable year), without regard to the amount of the earnings and profits at the time the distribution was made or (b) that portion of earnings and profits accumulated after February 28, 1913, which represents earnings and profits accumulated after the beginning of the portion of the uninterrupted period ending at the beginning of the taxable year. However, the amount of the credit allowed under clause (a) is limited to an amount which bears the same ratio to 85 percent of the amount received as dividends from such earnings and profits as the gross income of the foreign corporation for the taxable year from sources within the United States bears to the gross income from all sources for the taxable year. Under clause (b) the amount of the credit is limited to an amount which bears the same ratio to 85 percent of the amount received as dividends from such accumulated earnings and profits as the gross income from sources in the United States for the portion of the uninterrupted period bears to the gross income from all sources for the portion of the uninterrupted period.

In no event is the total dividends received credit allowed by section 26 (b) to exceed 85 percent of the adjusted net income.

17. Adjustment for certain non-life insurance reserves.—For companies writing contracts other than life insurance or annuity contracts (either separately or combined with noncancellable health and accident insurance), add to the normal-tax net income ¾ percent of the unearned premiums and unpaid losses on such other contracts which are not included in life insurance reserves, but not less than ¾ percent of unpaid losses plus ¾ percent of 25 percent of the net premiums written during the taxable year on such other contracts. Section 203A (a) provides that there shall be added to normal-tax net income an amount equal to eight times the amount of the adjustment for certain reserves provided in section 202 (c).

19. Reserve interest credit.—Schedule C on page 2 should be used to compute the amount of the reserve interest credit. The reserve interest credit is allowed in instances in which the relationship between adjusted net income and required interest is such that the adjusted net income is less than 105 percent of the required interest. The term "adjusted net income" is defined as the net income computed without any deduction for tax-free interest minus 50 percent of the amount of the adjustment for certain non-life insurance reserves. The term "required interest" means the total of—

- (1) The sum of amounts obtained by multiplying (a) each rate of interest assumed in computing the life insurance reserves by (b) the means of the amounts of the adjusted reserves computed at that rate at the beginning and end of the taxable year,
- (2) Two percent of the reserve for deferred dividends, and
- (3) Interest paid.

If the adjusted net income is 105 percent or more of the required interest, the reserve interest credit is stated as zero. If the adjusted net income is 100 percent or less of the required interest, the reserve interest credit is determined as an amount equal to 50 percent of the normal-tax net income. If the adjusted net income is more than 100 percent but less than 105 percent of the required interest, the reserve interest credit is computed by multiplying the normal-tax net income by ten times the difference between 105 percent and the actual percentage established. The percentage established by comparing adjusted net income to the required interest should be carried to at least the nearest one-tenth of a percentage point with the result that the multiplication by ten of the difference between 105 percent and such percentage will be productive of a more accurately graduated figure than would be possible were no such fractional percentage to be allowed.

22. Credit for income taxes paid to a foreign country or United States possession.—If, in accordance with section 131 (a), a credit is claimed by a domestic corporation in item 22, on account of income, war-profits and excess-profits taxes paid or accrued to a foreign country or a possession of the United States, Form 1118 should be submitted with the return, together with the receipt for each such tax payment. In case credit is sought for taxes accrued but not paid, the form must have attached to it a certified copy of the return on which each such accrued tax was based, and the Commissioner may require a bond on Form 1119 as a condition precedent to the allowance of a credit for such accrued taxes. A foreign company is not entitled to claim this credit.

SCHEDULE A.—DATA FOR RESERVE AND OTHER POLICY LIABILITY CREDIT FOR THE SUCCEEDING TAXABLE YEAR

Data for succeeding taxable year.—The following data shall be furnished in Schedule A by every life insurance company for the computation of the figure, for the succeeding year, to be proclaimed by the Secretary to determine the reserve and other policy liability credit:

(1) *Reserves (lines 1 to 5, inclusive).*—List data pertaining to life insurance reserves. Describe fully the nature of the reserve, the method of computation, the interest rate used, and the amount of each such reserve at the beginning and end of the taxable year. Include mortality and morbidity reserves on noncancellable life, health, or accident contracts. Do not include pro rata unearned premiums or unpaid losses on cancellable accident and health contracts. For reserves computed on a modified basis, such as Illinois Standard, or Select and Ultimate, list 107 percent of the amount of such reserves. (For definition of life insurance reserves, see section 201 and the regulations thereunder.) (For reserves computed on a modified basis, see section 201 and the regulations thereunder.)

(2) *Reserve earnings rate.*—Reserve earnings rate means a rate computed by adding 2.1125 percent (65 percent of 3¾ percent) and 35 percent of the average rate of interest assumed in computing life insurance reserves. Enter as line 9.

(3) *Reserve for deferred dividends.*—Enter in line 11 an amount equal to 2 percent of the reserve held at the end of the taxable year for deferred dividends the payment of which is deferred for a period of not less than 5 years from the date of the policy contract. Do not include in such reserve dividends payable during the following taxable year.

(4) *Interest paid.*—Enter in line 12 the amount of interest paid during the taxable year on the company's indebtedness, except on indebtedness incurred or continued to purchase or carry obligations (other than obligations of the United States issued after September 24, 1917, and originally subscribed for by the taxpayer) the interest upon which is wholly exempt from taxation, and all amounts in the nature of interest, whether or not guaranteed, paid within the taxable year on insurance contracts (or contracts arising out of insurance contracts) which do not involve, at the time of payment, life, health, or accident contingencies. Interest paid on dividends held on deposit and surrendered during the taxable year should be included in this item. Do not include any interest paid on deferred dividends which were included under (3) above.

FACSIMILES OF TAX RETURNS FOR 1953

Schedule D.—Separate Schedule D (Form 1120) should be secured and used in reporting sales and exchanges of capital assets and filed with and as a part of this return.

1953

INSTRUCTIONS FOR FORM 1120 M

U. S. MUTUAL INSURANCE COMPANY INCOME TAX RETURN

1953

(References are to the Internal Revenue Code, unless otherwise noted)

Taxpayers will find it helpful to read the General Instructions A to L before commencing to fill in their returns

GENERAL INSTRUCTIONS

A. Companies Required To File a Return.—Every mutual insurance company other than a life or marine insurance company and other than a fire insurance company subject to the tax imposed by section 204 (except a foreign mutual insurance company other than a life or marine insurance company or a fire insurance company subject to the tax imposed by section 204—not carrying on an insurance business within the United States) with gross amount received from interest, dividends, rents, and premiums (including deposits and assessments), in excess of \$75,000 shall file a return on this form. (See section 101 (11).)

Receivers, trustees in dissolution, trustees in bankruptcy, and assignees, operating the property or business of corporations, must make returns of income for such corporations. If a receiver has full custody of and control over the business or property of a corporation, he shall be deemed to be operating such business or property, whether he is engaged in carrying on the business for which the corporation was organized or only in marshaling, selling, and disposing of its assets for purposes of liquidation.

B. Period Covered.—The return shall be for the calendar year ended December 31, 1953, and the net income computed on the calendar year basis in accordance with the State laws regulating insurance companies.

C. Basis of Return.—A return on this form shall be rendered on a cash receipts and disbursements basis or the accrual basis whichever conforms with the annual statement made to the State Insurance Department.

D. Time and Place for Filing.—The return must be sent to the district director of internal revenue for the district in which the company's principal place of business or principal office or agency is located, so as to reach the district director's office on or before March 15, 1954.

E. Declaration.—The return must be signed by the president, vice president, or other principal officer, and by the treasurer, assistant treasurer, or chief accounting officer.

Where the return is actually prepared by some person or persons other than officers or employees of the company, such person or persons must sign the declaration at the foot of page 1.

F. Payment of Tax.—The tax should be paid by sending with the return a check or money order drawn to the order of "District Director of Internal Revenue." Do not send cash by mail, nor pay it in person except at the district director's office.

The tax must be paid in full when the return is filed, or in four installments, as follows: The first installment equal to 45 percent of the tax shall be paid on or before March 15, 1954; the second installment equal to 45 percent of the tax on or before June 15, 1954; the third installment equal to 5 percent of the tax on or before September 15, 1954; and the fourth installment equal to 5 percent of the tax on or before December 15, 1954.

If any installment is not paid on or before the date fixed for its payment, the whole amount of the tax unpaid shall be paid upon notice and demand by the district director.

G. Penalties.—For failure to make and file a return on time.—Five percent to 25 percent of the amount of the tax, unless such failure is due to reasonable cause, and, in addition, where failure is willful, a fine of not more than \$10,000, or imprisonment for not more than 1 year, or both, together with the costs of prosecution.

For willfully attempting to evade or defeat payment of the tax.—A

fine of not more than \$10,000, or imprisonment for not more than 5 years, or both, together with the costs of prosecution.

For deficiency due to negligence or fraud.—Five percent of the amount of the deficiency if due to negligence or intentional disregard of rules and regulations without intent to defraud, or 50 percent of the amount of the deficiency if due to fraud.

H. Information at Source.—Every insurance company shall make a return on Forms 1096 and 1099 with respect to amounts paid, credited, or distributed during the calendar year (a) as salaries or other compensation for personal services, totaling \$600 or more in the case of a citizen or resident, or (b) as interest, rent, premiums, annuities, or other fixed or determinable income totaling \$600 or more to a fiduciary, a domestic or resident partnership, or a citizen or resident. A report on Form 1099 is not required with respect to wage payments, included on Form W-2, provided copies of withholding statements on Form W-2a are furnished. If a portion of such salary or wage payments was reported on a Withholding Statement (Form W-2), only the remainder must be reported on Form 1099.

I. Information by Corporations.—1. *Contemplated dissolution or liquidation.*—Every corporation shall, within 30 days after the adoption by the corporation of a resolution or plan for the dissolution of the corporation or for the liquidation of the whole or any part of its capital stock, render a correct return on Form 966, setting forth the terms of such resolution or plan. (See section 148 (d).)

2. *Distributions in liquidation.*—Every corporation shall, when required by the Commissioner, render a correct return of its distributions in liquidation, stating the name and address of each shareholder, the number and class of shares owned by him, and the amount paid to him or, if the distribution is in property other than money, the fair market value (as of the date the distribution is made) of the property distributed to him. (See section 148 (e).)

J. Stock Ownership in Foreign Corporations.—If the company owned any stock of a foreign corporation (including less than 5 percent of the stock of a foreign personal holding company), it should attach to its return a statement setting forth the name and address of each such company and the total number of shares of each class of outstanding stock owned by it during the taxable year. This statement should be furnished in addition to the schedule required by Specific Instruction 2. If the company owned stock at any time during the taxable year in a foreign personal holding company, as defined in section 331, it must include in its return as a dividend the amount required to be included in its gross income by section 337. If the company owned 5 percent or more in value of the outstanding stock of such foreign personal holding company, it should set forth in an attached statement in complete detail the information required by section 337 (d).

K. Annual Statement.—A copy of the annual statement for mutual insurance companies adopted by the National Convention of Insurance Commissioners for the year 1953, as filed with the Insurance Department of the State, Territory, or District of Columbia, together with copies of Schedule A (real estate) and Schedule D (bonds and stocks), must accompany the return. Similar copies for the preceding year must also be furnished, if not filed for such year.

L. List of Attached Schedules.—Attach a list of the schedules accompanying the return, giving for each a brief title and the schedule number. Place name and address of company on each schedule.

SPECIFIC INSTRUCTIONS

The following instructions are numbered to correspond with item numbers on page 1 of the return unless otherwise indicated

1. **Interest.**—Enter interest received or accrued from all sources during the taxable year. Interest on bonds is considered income when due and payable. The gross amount of interest reported as gross income shall be decreased by the amortization of premiums and increased by the accrual of discount attributable to the taxable year on bonds, notes, debentures or other evidences of indebtedness, determined (1) in accordance with the method regularly employed, if reasonable, or (2) in accordance with regulations prescribed by the Commissioner with the approval of the Secretary. (Attach statement showing method and computation.)

2. **Dividends.**—Enter as item 2 (a) the amount received or accrued as dividends from a domestic corporation which is subject to taxation under Chapter 1, except dividends on certain preferred stock of a public utility corporation, and dividends received from a corporation entitled to the benefits of section 251 and from a corporation organized under the China Trade Act, 1922. Enter as item 2 (b) dividends received on certain preferred stock of a public utility which is subject to tax under Chapter 1. Enter as item 2 (c) dividends from foreign corporations. Enter as item 2 (d) dividends from all other corporations including dividends on share accounts in Federal savings and loan associations issued on or after March 28, 1942. Enter in item 1 (g) dividends on share accounts in Federal savings and loan associations issued prior to March 28, 1942. Submit schedule, itemizing all dividends received during the year, stating the names and addresses of the corporations declaring the dividends and amounts received from each.

3. **Rents.**—Enter rents received or accrued from tenants.

4. **Gains and Losses From Sales or Exchanges of Capital Assets.**—Report sales or exchanges of capital assets in separate Schedule D (Form 1120) (but see Schedule E, page 4). Every sale or exchange of a capital asset, even though no gain or loss may be indicated, must be reported in detail.

Losses from sales or exchanges of capital assets (except losses from capital assets sold or exchanged in order to obtain funds to meet abnormal insurance losses and to provide for the payment of dividends and similar distributions to policyholders) shall be allowed to the extent of gains from such sales or exchanges, with respect to companies taxable under section 207 (a) (1) or (3). The net capital loss for such companies shall be the amount by which losses for such year from sales or exchanges of capital assets exceed the sum of the gains from such sales or exchanges and (1) the corporation surtax net income (computed without regard to gains or losses from sales or exchanges of capital assets) or (2) losses from the sale or exchange of capital assets sold or exchanged to obtain funds to meet abnormal insurance losses and to provide for the payment of dividends and similar distributions to policyholders, whichever is the lesser. However, the amount of a net capital loss sustained in any taxable year may be carried over to each of the five succeeding taxable years and treated in each such succeeding taxable year as a short-term capital loss to the extent not allowed as a deduction against any net capital gains of any taxable year intervening between the taxable year in which the net capital loss was sustained and the taxable year to which carried.

For further information relating to gains and losses from sales or exchanges of property, see instructions on back of separate Schedule D (Form 1120).

6. Interest Wholly Exempt From Tax.—Enter the amount of interest which is wholly exempt from taxation under the provisions of section 22 (b) (4).

See Specific Instruction 15 with respect to partially tax-exempt interest which is allowed as a credit against net income.

7. Investment Expenses.—Enter expenses paid or accrued which are properly chargeable to investment expenses, the total amount of which, if there be any allocation of general expenses to investment expenses, should not exceed one-fourth of 1 percent of the mean of the invested assets reported on line 12, Schedule A, plus, in cases where the net income computed without any deduction for (1) investment expenses and (2) tax-free interest exceeds $3\frac{3}{4}$ percent of the book value of such mean of the invested assets, one-fourth of such excess. Submit a schedule showing the nature and amount of the items included herein, the minor items being grouped in one amount. (See section 207 (b) (4) (B).)

8. Taxes.—Enter taxes paid or accrued exclusively upon real estate owned by the company and taxes assessed against individual shareholders and paid by the company without reimbursement as provided in section 207 (b) (4) (C). Do not include taxes assessed against local benefits of a kind tending to increase the value of the property assessed, as for paving, sewers, etc. For limitation on deduction, see Instruction 13 (b) below.

9. Real Estate Expenses.—Enter all ordinary and necessary building expenses, paid or accrued, such as fire insurance, heat, light, labor, etc., and the cost of incidental repairs which neither materially add to the value of the property nor appreciably prolong its life, but keep it in an ordinarily efficient operating condition. Do not include any amount paid out for new buildings or for permanent improvements or betterments made to increase the value of any property or any amount expended on foreclosed property before such property is held forth for rental purposes. For limitation on deduction, see Instruction 13 (b) below.

10. Depreciation.—The amount deductible on account of depreciation is an amount reasonably measuring the portion of the investment in depreciable property by reason of exhaustion, wear and tear, or obsolescence, which is properly chargeable against the operations of the year. In any event the deduction is limited to the depreciation on the property that is used, and to the extent used, for the purpose of producing the income specified in section 207 (b) (1). If the property was acquired by purchase on or after March 1, 1913, the amount of depreciation should be determined upon the basis of the original cost (not replacement cost) of the property, and the probable number of years remaining of its expected useful life. In case the property was purchased prior to March 1, 1913, the amount of depreciation will be determined in the same manner, except that it will be computed on its original cost, less depreciation sustained prior to March 1, 1913, or its fair market value as of that date, whichever is greater. If the property was acquired in any other manner than by purchase, see section 114. The capital sum to be recovered should be charged off ratably over the useful life of the property. Whatever plan or method of apportionment is adopted must be reasonable, must have due regard to operating conditions during the taxable year, and should be described in the return.

If a deduction is claimed on account of depreciation, a schedule should be filed with the return showing: (1) Kind of property; (2) date acquired; (3) cost or other basis; (4) depreciation allowed (or allowable) in prior years; (5) remaining cost or other basis to be recovered; (6) estimated life used in accumulating depreciation; (7) estimated remaining life from beginning of year; and (8) depreciation allowable for the taxable year. In case obsolescence is included, state separately amount claimed and basis upon which it is computed. Cost or value of land must not be included in the schedule, and where land and buildings were purchased for a lump sum the cost of the building subject to depreciation must be established.

The adjusted property accounts and the accumulated depreciation shown in the schedule should be reconciled with those accounts as reflected on the books of the taxpayer.

Stocks, bonds, and like securities are not subject to depreciation within the meaning of the law. (See sections 23 (1), 114, and 207 (b) (4) (D).)

For limitation on deduction, see Instruction 13 (b) below.

11. Interest.—Enter the amount of interest paid or accrued during the taxable year on the company's indebtedness, except on indebtedness incurred or continued to purchase or carry obligations (other than obligations of the United States issued after September 24, 1917, and originally subscribed for by the taxpayer) the interest upon which is wholly exempt from taxation.

12. Other Capital Losses.—Enter as item 12 losses from capital assets sold or exchanged to provide funds to meet abnormal insurance losses and to provide for the payment of dividends and similar distributions to policyholders. Capital assets shall be considered as sold or exchanged to provide for such funds or payments to the extent that the gross receipts from their sale or exchange are not greater than the excess, if any, for the taxable year of the sum of dividends and similar distributions paid to policyholders and losses and expenses paid, over the sum of interest, dividends, rents, and net premiums received. (See Schedule E.)

13. Total Deductions.—(a) Enter the total of items 6 to 12, inclusive.

(b) *Limitation on deductions relating to real estate owned and occupied.*—The deduction included in items 8 to 10 on account of real estate owned and occupied in whole or in part by the company shall be limited to an amount which bears the same ratio to such deduction (computed without regard to subsection (c) of section 207) as the rental value of the space not so occupied bears to the rental value of the entire property. (Submit detailed schedule.)

(c) *Items not deductible.*—No deduction is allowable for the amount of any item or part thereof allocable to a class of exempt income, other than interest. Items directly attributable to such exempt income shall be allocated thereto, and items directly attributable to any class of taxable income shall be allocated to such taxable income. If an item is indirectly attributable to both taxable income and exempt income, a reasonable proportion thereof, determined in the light of all the facts and circumstances in each case, shall be allocated to each. Apportionments must in all cases be reasonable. A taxpayer receiving any exempt income, other than interest, or holding any property or engaging in any activity the income from which is exempt shall submit with its return as a part thereof an itemized statement, in detail, showing (1) the amount of each class of exempt income, and (2) the amount of items allocated to each such class (the amount allocated by apportionment being shown separately).

15. Interest Partially Exempt From Tax.—Enter as item 15 the amount of interest included in gross income which is partially exempt from taxation and for which a credit is allowed under the provisions of section 26 (a).

17. Dividends Received Credit.—Enter as item 17, the sum of (a) 85 percent of dividends received from certain domestic corporations subject to the income tax (other than dividends received on certain preferred stock of a public utility); (b) 62 percent of the amount received as dividends on certain preferred stock of a public utility corporation which is subject to the income tax; and (c) 85 percent of dividends received from certain foreign corporations subject to the income tax. For the purpose of this credit, dividends received from a corporation organized under the China Trade Act, 1922, or from a corporation entitled to the benefits of section 251, should be entered in item 2 (d).

Section 26 (b) provides for a dividends received credit in the case of dividends received from a foreign corporation (other than a foreign personal holding company) which is subject to the income tax if, (1) for an uninterrupted period of not less than 36 months (or the entire period the foreign corporation was in existence if such period is less than 36 months) ending with the close of the foreign corporation's taxable year in which such dividends are paid, the foreign corporation has been engaged in trade or business within the United States, and (2) during such period 50 percent or more of the gross income of the foreign corporation has been derived from sources within the United States.

The amount of the allowable credit is 85 percent of the amount received as dividends from (a) earnings and profits of the taxable year (computed as of the close of the taxable year without diminution by reason of any distribution made during the taxable year), without regard to the amount of the earnings and profits at the time the distribution was made or (b) that portion of earnings and profits accumulated after February 28, 1913, which represents earnings and profits accumulated after the beginning of the portion of the uninterrupted period ending at the beginning of the taxable year. However, the amount of the credit allowed under clause (a) is limited to an amount which bears the same ratio to 85 percent of the amount received as dividends from such earnings and profits as the gross income of the foreign corporation for the taxable year from sources within the United States bears to the gross income from all sources for the taxable year. Under clause (b) the amount of the credit is limited to an amount which bears the same ratio to 85 percent as the amount received as dividends from such accumulated earnings and profits as the gross income from sources in the United States for the portion of the uninterrupted period bears to the gross income from all sources for the portion of the uninterrupted period.

In no event is the total credit allowed by section 26 (b) to exceed 85 percent of the adjusted net income.

Page 2-20. Net Premiums.—Enter as line 20 the amount of gross premiums (including deposits and assessments) written or received on insurance contracts during the taxable year, less return premiums and premiums paid or incurred for reinsurance. Amounts returned where the amount is not fixed in the insurance contract but depends upon the experience of the company or the discretion of the management are not to be included in return premiums but are to be treated as dividends to policyholders and included in line 22. (See section 207 (b) (2).)

Page 2-22. Dividends to Policyholders.—Enter as line 22 dividends and similar distributions paid or declared (depending upon the method of accounting regularly employed) to policyholders. (See section 207 (b) (3).)

Page 3-8. Credit for Income Taxes Paid to a Foreign Country or United States Possession.—If, in accordance with section 131 (a), a credit is claimed by a domestic corporation in line 8, on account of income, war profits, and excess profits taxes paid or accrued to a foreign country or a possession of the United States, Form 1118 should be submitted with the return, together with the receipt for each such tax payment. In case credit is sought for taxes accrued but not paid, the form must have attached to it a certified copy of the return on which each such accrued tax was based, and the Commissioner may require a bond on Form 1119 as a condition precedent to the allowance of a credit for such accrued taxes. A foreign company is not entitled to claim this credit.

FORM 1118—Revised Oct. 1952

FOOTNOTES

¹ If the income tax return is based on income "accrued," or the corporation elects under Section 131 (d) to claim credit for taxes accrued, write "accrued" in the space provided. (See Section 131 (d) and Instructions on page 4.)

² State this amount in the currency of the foreign country or possession of the United States (e. g., pounds, francs, marks).

³ Give rate of exchange used and attach a statement describing in reasonable detail why and how this particular rate was determined.

⁴ Where payments were of taxes accrued for only 1 year, give dates or beginning and ending of such year in first column. Where the payments were of taxes accrued for more than 1 year, give in separate columns the dates of each annual period during which any part of the tax payments accrued.

⁵ Enter in each column for the annual period named at the top, the amount of the tax payment which accrued with respect to income of such period.

⁶ Where there is more than one foreign country or possession of the United States to which taxes are paid by the domestic corporation, or more than one related foreign corporation, or more than one foreign country or possession of the United States to which taxes are paid on behalf of a related foreign corporation, additional schedules should be attached, and the amount of the income and the credit shown on each such schedule should be included in the summary.

⁷ The term "foreign corporation" as used in Schedule C includes a domestic corporation entitled to the benefits of Section 251 or 262. (See Section 131 (g) on page 4.)

⁸ If losses were sustained in any foreign country or possession of the United States, state the amount of such loss for each country or possession.

⁹ A schedule is required to be prepared for each foreign country or possession of the United States from which net income is received or in which a net loss is sustained whether or not tax is paid to such foreign country or possession.

¹⁰ If dividends received during the taxable year from a related foreign corporation must be considered under the statute to be paid out of the income of such corporation for a period of more than 3 years, a separate schedule containing the information required in Items 4 to 11, inclusive, of Schedule C, shall be submitted covering all years involved. The total of the amounts entered in Item 4 must agree with the amount shown in Item 1 of Schedule C.

¹¹ The amount to be shown as total profits under Item 5 of Schedule C should be the profits from all sources whatsoever (whether or not subjected to foreign tax), from which, after deduction of the foreign tax shown in Item 7, the dividends may be deemed to have been paid by the foreign corporation.

¹² The sum of amounts shown in Item 9, Schedule A, from various foreign countries or possessions is subject to the limitation of Section 131 (b) (2), as computed in the summary.

¹³ If the required ownership of at least 10 percent of the voting stock was attained or relinquished during the year by the domestic corporation claiming credit, state the date when such change took place.

¹⁴ Conversion to be made at same exchange rate as that used for dividends in Item 1 of Schedule C.

¹⁵ Each column relates to that part of total dividends paid from accumulated profits shown therein.

¹⁶ Include any dividends received from a foreign subsidiary of the related foreign corporation.

¹⁷ The portion of the taxes paid by the foreign subsidiary of the related foreign corporation, which is deemed to have been paid by the related foreign corporation, will be computed by the same method employed in computing the portion of the tax paid by the related foreign corporation, which is deemed to have been paid by the domestic corporation.

¹⁸ The sum of amounts shown in Schedule B, Item 7, from various foreign countries or possessions is subject to the limitation of Section 131 (j) (2), as computed in the summary.

¹⁹ For purposes of this form, a foreign corporation is considered a "related foreign corporation" if the domestic corporation owns at least 10 percent of the voting stock of a foreign corporation from which it receives dividends. Effective for dividends received in taxable years beginning after Dec. 31, 1950.

²⁰ For the purpose of Section 131 dividends received from a foreign corporation shall be treated as income from sources without the United States only to the extent such dividends exceed the amount which is one hundred eighty-fifths of the amount of the credit allowable under Section 26 (b) (3) in respect of such dividends. (See Section 119 (a) (2) (B).)

SCHEDULE C.—Taxes Paid or Accrued to a Foreign Country or a Possession of the United States by (1) a Related Foreign Corporation or (2) a Related Domestic Corporation Entitled to the Benefits of Section 251 or 262

Foreign corporation or corporation entitled to benefits of Sec. 251 or 262:

Name Incorporated under the laws of

Address (Street and number) (City or town) (Country)

Capital stock { Number of shares outstanding Preferred Common Total
 Number of shares owned by domestic corporation
 Which stock has full voting rights?

Date taxable year began, 19....., and ended, 19.....

Name of foreign country or possession of United States imposing tax Character of tax
 (Income, war-profits, or excess-profits)

Statutes imposing tax
 (To be named fully and clearly so as to be easily identified)

1. Amount received during the taxable year as dividends from such related foreign corporation ⁷ less 100/85ths of the amount of the credit allowable under Section 26 (b) ²⁰ which (converted at an exchange rate of ³) equals in dollars \$
 (Submit computation or reference to item and line numbers on corporation income tax return)

Date and amount of each dividend payment \$

2. Normal-tax net income of domestic corporation (same as Item I, Schedule A, page 1) \$

3. Total tax due United States on corporation income tax return (same as Item II, Schedule A, page 1) \$

4. Dividends segregated according to years when profits from which they were paid were accumulated ¹⁰

5. Total profits of related foreign corporation before tax was deducted therefrom ^{11 14 16}

6. Accumulated profits (total profits less tax thereon) out of which dividends were paid
 which, converted at an exchange rate of ¹⁴
 equals in dollars

7. Amount of taxes paid by the related foreign corporation or deemed to have been paid by it ¹⁷ under Section 131 (f) (based upon attached tax receipts ⁵) or taxes accrued, in foreign money upon Item 5
 which, converted at an exchange rate of ¹⁴
 equals in dollars

8. Ratio of accumulated profits to total profits (Item 6 divided by Item 5)

9. Tax paid on or with respect to accumulated profits (Item 7 multiplied by Item 8)

10. Ratio of amount of dividends received to accumulated profits (Item 4 divided by Item 6)

11. Amount of tax payments deemed to have been paid on profits distributed as dividends (Item 9 multiplied by Item 10)

12. Total of tax payments deemed to have been paid on profits distributed as dividends (total of Item 11) \$

(See Footnotes on Page 2)

DECLARATION

We, the undersigned, president (or vice president, or other principal officer) and treasurer (or assistant treasurer, or chief accounting officer) of the corporation for which this statement is made, each for himself declares under the penalties of perjury that this statement has been examined by him and is, to the best of his knowledge and belief, a true and complete statement of facts relating to the credit for tax as provided in Section 131 of the Internal Revenue Code.

Date, 19.....

(President or other principal officer)

(State title)

(Treasurer, assistant treasurer, or chief accounting officer) (State title)

EXTRACTS FROM SECTION 131 OF THE INTERNAL REVENUE CODE
TAXES OF FOREIGN COUNTRIES AND POSSESSIONS OF UNITED STATES

Page 4

SEC. 131. (a) Allowance of Credit.—If the taxpayer chooses to have the benefits of this section, the tax imposed by this chapter, except the tax imposed under section 102, and except the additional tax imposed for the taxable year under the provisions of section 127 (c) (3) * * * and except, with respect to the tax imposed under subchapter D, only to the extent provided in subsection (j), shall be credited with:

(1) **Citizens and domestic corporations.**—In the case of a citizen of the United States and of a domestic corporation, the amount of any income, war-profits, and excess-profits taxes paid or accrued during the taxable year to any foreign country or to any possession of the United States;

* * * * *

Such choice may be made or changed at any time prior to the expiration of the period prescribed for making a claim for credit or refund of the tax imposed by this chapter.

(b) **Limit on Credit.**—The amount of the credit taken under this section shall be subject to each of the following limitations:

(1) The amount of the credit in respect of the tax paid or accrued to any country shall not exceed, in the case of a taxpayer other than a corporation, the same proportion of the tax against which such credit is taken, which the taxpayer's net income from sources within such country bears to his entire net income for the same taxable year, or in the case of a corporation, the same proportion of the tax against which such credit is taken, which the taxpayer's normal-tax net income from sources within such country bears to its entire normal-tax net income for the same taxable year; and

(2) The total amount of the credit shall not exceed, in the case of a taxpayer other than a corporation, the same proportion of the tax against which such credit is taken, which the taxpayer's net income from sources without the United States bears to his entire net income for the same taxable year, or, in the case of a corporation, the same proportion of the tax against which such credit is taken, which the taxpayer's normal-tax net income from sources without the United States bears to its entire normal-tax net income for the same taxable year; and

(c) **Adjustments on Payment of Accrued Taxes.**—If accrued taxes when paid differ from the amounts claimed as credits by the taxpayer, or if any tax paid is refunded in whole or in part, the taxpayer shall notify the Commissioner, who shall redetermine the amount of the tax for the year or years affected, and the amount of tax due upon such redetermination, if any, shall be paid by the taxpayer upon notice and demand by the collector, or the amount of tax overpaid, if any, shall be credited or refunded to the taxpayer in accordance with the provisions of section 322. In the case of such a tax accrued but not paid, the Commissioner as a condition precedent to the allowance of this credit may require the taxpayer to give a bond with sureties satisfactory to and to be approved by the Commissioner in such sum as the Commissioner may require, conditioned upon the payment by the taxpayer of any amount of tax found due upon any such redetermination; and the bond herein prescribed shall contain such further conditions as the Commissioner may require. In such redetermination by the Commissioner of the amount of tax due from the taxpayer for the year or years affected by a refund, the amount of the taxes refunded for which credit has been allowed under this section shall be reduced by the amount of any tax described in subsection (a) imposed by the foreign country or possession of the United States with respect to such refund; but no credit under this section, and no deduction under section 23, shall be allowed for any taxable year with respect to such tax imposed on the refund. No interest shall be assessed or collected on any amount of tax due upon any redetermination by the Commissioner, resulting from a refund to the taxpayer, for any period prior to the receipt of such refund, except to the extent interest was paid by the foreign country or possession of the United States on such refund for such period.

(d) **Year in Which Credit Taken.**—The credits provided for in this section may, at the option of the taxpayer and irrespective of the method of accounting employed in keeping his books, be taken in the year in which the taxes of the foreign country or the possession of the United States accrued, subject, however, to the conditions prescribed in subsection (c) of this section. If the taxpayer elects to take such credits in the year in which the taxes of the foreign country or the possession of the United States accrued, the credits for all subsequent years shall be taken upon the same basis, and no portion of any such taxes shall be allowed as a deduction in the same or any succeeding year.

(e) **Proof of Credits.**—The credits provided in this section shall be allowed only if the taxpayer establishes to the satisfaction of the Com-

missioner (1) the total amount of income derived from sources without the United States, determined as provided in section 119, (2) the amount of income derived from each country, the tax paid or accrued to which is claimed as a credit under this section, such amount to be determined under rules and regulations prescribed by the Commissioner with the approval of the Secretary, and (3) all other information necessary for the verification and computation of such credits.

(f) **Taxes of Foreign Corporation.**—

(1) **Treatment of taxes paid by foreign corporation.**—For the purposes of this section, a domestic corporation which owns at least 10 per centum of the voting stock of a foreign corporation from which it receives dividends in any taxable year shall be deemed to have paid the same proportion of any income, war-profits, or excess-profits taxes paid or deemed to be paid by such foreign corporation to any foreign country or to any possession of the United States, upon or with respect to the accumulated profits of such foreign corporation from which such dividends were paid, which the amount of such dividends bears to the amount of such accumulated profits. The term "accumulated profits" when used in this subsection in reference to a foreign corporation, means the amount of its gains, profits, or income in excess of the income, war-profits, and excess-profits taxes imposed upon or with respect to such profits or income; and the Commissioner with the approval of the Secretary shall have full power to determine from the accumulated profits of what year or years such dividends were paid; treating dividends paid in the first sixty days of any year as having been paid from the accumulated profits of the preceding year or years (unless to his satisfaction shown otherwise), and in other respects treating dividends as having been paid from the most recently accumulated gains, profits, or earnings. In the case of a foreign corporation, the income, war-profits, and excess-profits taxes of which are determined on the basis of an accounting period of less than one year, the word "year" as used in this subsection shall be construed to mean such accounting period.

(2) **Foreign subsidiary of foreign corporation.**—If such foreign corporation owns 50 per centum or more of the voting stock of another foreign corporation from which it receives dividends in any taxable year it shall be deemed to have paid the same proportion of any income, war-profits, or excess-profits taxes paid by such other foreign corporation to any foreign country or to any possession of the United States, upon or with respect to the accumulated profits of the corporation from which such dividends were paid, which the amount of such dividends bears to the amount of such accumulated profits.

(g) **Corporations Treated as Foreign.**—For the purposes of this section the following corporations shall be treated as foreign corporations:

(1) A corporation entitled to the benefits of section 251, by reason of receiving a large percentage of its gross income from sources within a possession of the United States;

(2) A corporation organized under the China Trade Act, 1922, 42 Stat. 849 (U. S. C., Title 15, c. 4), and entitled to the credit provided for in section 262.

(h) **Credit for Taxes in Lieu of Income, Etc., Taxes.**—For the purposes of this section and section 23 (c) (1), the term "income, war-profits, and excess-profits taxes" shall include a tax paid in lieu of a tax upon income, war-profits, or excess-profits otherwise generally imposed by any foreign country or by any possession of the United States.

* * * * *

(j) **Tax Imposed by Subchapter D.**—This section shall be applicable for purposes of the tax imposed by subchapter D, but the tax paid or accrued to any country shall be deemed to be the amount of such tax reduced by the amount of the credit allowed under this section with respect to such tax against the tax imposed by this chapter without regard to subchapter D. The amount of the credit taken under this subsection shall be subject to each of the following conditions:

(1) The amount of the credit in respect of the tax paid or accrued to any country shall not exceed the same proportion of the tax against which such credit is taken, which the taxpayer's excess profits net income from sources within such country bears to its entire excess profits net income for the same taxable year; and

(2) The total amount of the credit shall not exceed the same proportion of the tax against which such credit is taken, which the taxpayer's excess profits net income from sources without the United States bears to its entire excess profits net income for the same taxable year.

INSTRUCTIONS

WHEN CREDIT FOR TAXES MAY BE TAKEN.—The credit for taxes provided by section 131 (a) may ordinarily be taken either in the return for the year in which the taxes accrued or in which the taxes were paid, dependent upon whether the accounts of the taxpayer are kept and its returns filed upon the accrual basis or upon the cash receipts and disbursements basis. Where a taxpayer keeps its books of account on the accrual basis, a credit for taxes paid to a foreign country must also be

taken on that basis and the time of payment of the taxes has in such case nothing to do with the time of credit. A taxpayer whose books of account are kept on the cash receipts and disbursements basis has the privilege of taking the credit for foreign taxes on an accrual basis, but if it elects to do so, the credit for foreign taxes with respect to all subsequent years must be taken upon the same basis.
